SENTINEL TECHNOLOGIES
RETIREMENT PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following description of the Sentinel Technologies, Inc. (the Company) Retirement Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan, established January 1, 1989 as the Sentinel Computer Services, Inc. Retirement Plan and Trust, is a defined contribution plan in which employees of the Company may participate after meeting certain age and service requirements. The Plan is intended to qualify as a salary reduction plan under Section 401(k) of the Internal Revenue Code (the Code). Effective October 1, 1993, the Plan's name was changed to Sentinel Technologies Retirement Plan and Trust. Effective April 1, 2002, employees become eligible for participation in the Plan on the first entry date on which the employee has attained the age of 21 and is a covered employee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation.

Contributions – On the first day of each month, the Plan's participants have the option to enter into a written salary reduction agreement whereby any whole percentage up to 50% of the participant's earnings will be withheld and contributed to the "Basic Contribution Accounts" in the Plan. In the absence of an election made by a participant to the contrary, a participant shall be deemed to have elected 2% of his or her compensation. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers 17 mutual funds and 1 common/collective trust as investment options for the participants.

The Company changed the Plan to make the matching contribution discretionary. As of December 1, 2004, the Company may make a discretionary matching contribution in an amount up to 25% of the first $20,000 of each participant's basic contributions made during the plan year. In addition, the Company may elect to make profit-sharing contributions according to the Plan agreement. There were no Company-matching contributions or profit-sharing contributions for the years ended December 31, 2009 and 2008.

Participant's Account – Each participant's account is credited with the participant's contribution, and allocations of (a) the Company's matching or profit-sharing contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately 100% vested in their voluntary contributions to the Plan plus earnings thereon. Vesting in the Company's profit sharing and matching contributions of their accounts plus actual earnings thereon is based on continuous years of service. Participants remain unvested until six years of service have been completed at which time participants become 100% vested in the profit sharing and matching contribution portions of their account balances.

1. Description of the Plan (Cont.)

Loans to Participants – Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits – Upon termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's account balance or annual installments over a defined period.

Forfeitures – Forfeitures are used to reduce employer contributions. In 2009 and 2008, employer contributions were not reduced from forfeitures from nonvested accounts. At December 31, 2009, forfeitures amounted to $31,005.

2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Participant loans are valued at cost which approximates fair value.

Investment contracts held by a defined-contribution plan are reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. The statement of net assets available for benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the common/collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on the contract basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (Cont.)

Investment Valuation and Income Recognition (cont.) –

The Plan provides for investments that, in general, are exposed to various risks such as interest rates, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amount reported in the statements of net assets available for benefits.

Payments of Benefits – Benefits are recorded when paid.

Administrative Expenses – The Company pays all administrative and investment expenses of the Plan except for loan and fund fees.

3. Investments

The following investments held by the trustee represent more than 5% of total net assets available for benefits at December 31, 2009 and 2008:

4. Fair Value Measurements

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted market prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

The fair value of registered investment companies and publicly traded equities is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The fair value of participation units held by the Plan in the common/collective trust is based on their net asset values, as reported by Bank of America, N.A. and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The common/collective trust mainly invests in securities traded on nationally recognized securities exchanges and active dealer markets. Therefore, these investment funds are classified within Level 2 of the fair value hierarchy.

Participant loans are carried at amortized cost based upon the outstanding principal balance, which approximates fair value (Level 3 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (Cont.)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Registered investment companies	$ 13,499,821	$ 13,499,821	$ -	$ -
Common/collective trust	2,383,240	-	2,383,240	-
Loans to participants	483,013	-	-	483,013
Total	$ 16,366,074	$ 13,499,821	$ 2,383,240	$ 483,013

Total	$ 13,330,705	$ 10,834,191	$ 1,914,026	$ 582,488

Changes in fair value of participant loans measured on a recurring basis using significant unobservable inputs (Level 3) for the years ended December 31, 2009 and 2008 are as follows:

	2009	2008
Beginning balance	$ 582,488	$ 657,020

5. Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following information included in the financial statements and supplemental schedule was provided and certified by Bank of America, N.A. (formerly Merrill Lynch Trust Company, FSB), the Plan's trustee, as complete and accurate:

- Investments, at fair value, as reported on the statements of net assets available for benefits as of December 31, 2009 and 2008.
- Investment income (loss) and the related investment activity as reported on the statements of changes in net assets available for benefits for the years ended December 31, 2009 and 2008.
- Investments as reported on the supplemental schedule of assets (held at end of year) at December 31, 2009.

6. Related Party Transactions

Certain Plan investments are shares in registered investment companies and common/collective trust funds managed and held by Bank of America, N.A., or its affiliates Merrill Lynch or BlackRock. Bank of America, N.A. is the trustee as defined by the Plan and, therefore, transactions with these companies qualify as party-in-interest transactions.

7. Tax Status

The Internal Revenue Service (IRS) has issued a determination letter dated April 5, 2004, indicating that the Plan was qualified under Section 401(a) of the Internal Revenue Code (Code). Management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code, and the Trust established thereunder is thereby exempt from federal income taxes; accordingly, no provision for income taxes is included in the Plan's financial statements.

In April 2010, the Company filed an application for a determination letter from the IRS under the new IRS determination letter application procedures. The Company expects to receive a favorable determination.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of any termination of the Plan, or upon complete or partial discontinuance of contributions, participants shall become fully vested in their account balances.
