Note 1 – Description of Plan

The following description of the Imaging Healthcare Specialists, LLC 401(k) Salary Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established and sponsored by Imaging Healthcare Specialists, LLC (the "Company"). The Plan was established on January 1, 1992 to enable eligible employees to share in the Company's earnings and permit employees to make pre-tax contributions to the Plan; thereby, providing employees with an opportunity to accumulate funds for their retirement. The Plan Trustee has the authority and responsibility for the management and investment of plan assets. The Plan is administered by the Plan's Retirement Administrative Committee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility – An employee is eligible to participate in the Plan on the first day of the month, following the completion of 30 days from the date the employee first commenced his or her employment with the employer. A participant must be employed as of the last day of the Plan year in order to share in any employer paid discretionary profit sharing contributions, unless termination was due to death, disability, or retirement.

An employee is not eligible to participate in the Plan if the employee is a member of a collective bargaining agreement with the Company.

Contributions – Contributions to the Plan are as follows:

Employee Contributions – Each year, participants may contribute between 1 and 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans. Participant contributions for the year ended December 31, 2017 were $935,926.

Employer-Match, and Profit-Sharing Contributions – The Company makes safe harbor contributions equal to 3 percent of the participant's eligible compensation and 50 percent of contributions up to 5 percent of eligible compensation, regardless of the employee's hours of service or employment on the last day of the plan year. The safe harbor contribution for the year ended December 31, 2017 was $257,912. The Company may also elect to make discretionary profit sharing contributions to the Plan. There were no profit sharing contributions to the Plan.

Contributions are subject to regulatory limitations.

Note 1 – Description of Plan (continued)

Participant accounts – Each participant's account is credited with the participant's contribution, an allocation of the Company's contributions, the Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on the participant's compensation or account balance, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are 100 percent vested in their deferral contributions, company matching contributions, and rollover contributions. Discretionary employer profit sharing contributions, including earnings, vest at the following rates:

Years of Service	% Vested
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

A participant is 100 percent vested in their employer contributions upon events such as death, permanent disability, or reaching normal retirement age.

Notes receivable from participants – A participant may borrow from his/her 401(k) account. The loan is available only from the elective employee contributions. The amount of the loan may not exceed the lesser of $50,000 or one half of the participant's vested account balance. The loans are secured by the balance in the participant's account, are due through September 2026 and bear interest rates of 4.25 – 5.25 percent which is commensurate with similar loans from commercial lending institutions.

Payment of benefits – The Plan provides for benefits to be distributed in periodic installments, in a lump sum, or a combination thereof, or may be deferred to a later time. Participants are entitled to receive the full value of their vested benefits when they retire, die, or become permanently disabled. Participants who terminate employment for any other reason are entitled to the value of their vested interest.

Participants may withdraw any or all of their salary deferred account balances at any time during the Plan year provided certain hardship conditions, as defined in the Plan, have been met.

In the event of a mandatory distribution greater than $1,000, but no more than $5,000, in accordance with the payment provisions of the Plan, if the Participant does not elect to have such distributions paid directly to an eligible retirement plan specified by the Participant in a direct rollover or to receive the distribution directly under any form of payment allowed under the Plan, then the distribution will be paid in a direct rollover to an individual retirement plan designated by the plan administrator. Mandatory distributions of $1,000 or less will continue to be paid in cash as directed by the plan administrator, unless the Participant elects a direct rollover or elects to receive the distribution under another form permitted by the Plan.

Note 1 – Description of Plan (continued)

Administrative expenses – Direct fees and expenses related to the operation of the Plan may be paid with forfeitures. Expenses not covered by forfeitures are paid from plan assets.

Forfeited accounts – The Plan provides that forfeited amounts in participants' Company contribution accounts are used to reduce future contributions of the Company or pay administrative expenses at the discretion of the Retirement Administrative Committee. During 2017, there were $55,167 of forfeitures used to reduce employer contributions. As of December 31, 2017, there were $0 of unallocated forfeitures.

Investment options – All participants may segregate their funds or choose from the investment alternatives in the trust established by the Retirement Administrative Committee. There are no non-participant directed investments. All earnings and losses are credited directly to the participants' accounts.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The accompanying financial statements have been prepared using the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP).

Estimates – The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition – Investments are valued at fair value as certified by the Plan's trustee. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants – Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Payment of benefits – Benefits are recorded when paid.

Income taxes – The plan is tax exempt under the Internal Revenue Code Section 401(a) and consequently pays no income tax.

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 2 – Summary of Significant Accounting Policies (continued)

The Plan follows accounting standards for uncertainty in income taxes recognized in the Plan's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It also provides guidance on derecognition and measurement of a tax position taken or to be taken in a tax return. As of December 31, 2017 and 2016, the Plan has not accrued interest or penalties related to uncertain tax positions. The Plan files tax returns in the U.S. Federal jurisdiction. There are currently no audits in progress as of December 31, 2017.

Note 3 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the rights of all employees to account balances accrued to the date of the termination are fully vested and non-forfeitable.

Note 4 – Information Prepared and Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Matrix Trust Company (Matrix), the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016.
- Net appreciation in fair value of investments, dividends, and interest, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2017.

Note 5 – Fair Value Measurement

The Plan follows the methods of fair value measurement to value its financial assets and liabilities. Fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels has been established, which are described below:

Level 1 – Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2 – Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets; or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.

Level 3 – Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

Mutual Funds, Equities, and Cash – The shares are valued at quoted market prices in an exchange and active market, which represent the net asset values of shares held by the Plan at year end and are classified as Level 1 investments.

Stable Value Fund – A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued using the net asset value practical expedient (NAV practical expedient), an estimate of fair value. This NAV practical expedient would not be used if it is determined to be probable that the Plan will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 – Fair Value Measurement (continued)

The following table presents the Plan's investments on the statement of net assets available for benefits measured at fair value on a recurring basis by level within the valuation hierarchy as of December 31, 2017:

	Level 1	Level 2	Level 3	Total

The following table presents the Plan's investments on the statement of net assets available for benefits measured at fair value on a recurring basis by level within the valuation hierarchy as of December 31, 2016:

	$ 16,214,333	$ -	$ -	$ 16,214,333

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits.

Note 7 – Party-In-Interest Transactions

Plan investments are managed by the trustee, Matrix Trust Company (Matrix), which qualifies these transactions as party-in-interest transactions. Administrative fees incurred by the Plan to Matrix totaled $43,157 for the year ended December 31, 2017. The Company also pays certain administrative fees of the Plan, which are not reimbursed. In addition, the Company provides administrative services to the Plan at no cost to the Plan.

Note 8 – Subsequent Events

The Company has evaluated subsequent events through October 8, 2018, the date which the financial statements were available to be issued. There were no material subsequent events which affected the amounts or disclosures in the financial statements.
