Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of the
Pension Plan for Employees of Fortune Plastics, Inc.

We were engaged to audit the financial statements and supplemental schedules of the Pension Plan for Employees of Fortune Plastics, Inc. as of December 31, 2009 and 2008, and for the years then ended, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Massachusetts Mutual Life Insurance Company (MassMutual), the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PENSION PLAN FOR
EMPLOYEES OF FORTUNE PLASTICS, INC.

NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Pension Plan for Employees of Fortune Plastics, Inc. (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which was established March 1, 1971, and frozen on August 1, 1999, is a noncontributory defined benefit plan covering employees of Fortune Plastics, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). No new entrants after August 1, 1999.

Retirement Benefits

The amount of monthly retirement benefit to be provided for each participant who retires on normal retirement date (age 65) shall equal the greater of (a) or (b).

(a) 0.65% of average monthly compensation up to a participant's 1993 covered compensation plus 1.30% of average monthly compensation in excess of 1993 covered compensation multiplied by the participant's years of participation (up to 35 years) less any benefits accrued under the Company's hourly pension plan from June 30, 1989 through June 29, 1990.

(b) The benefits accrued under this plan as of June 30, 1989, plus 0.65% of average monthly compensation up to a participant's 1994 covered compensation, plus 1.30% of average monthly compensation in excess of 1994 covered compensation multiplied by the participant's years of participation commencing June 30, 1989, (up to 35 years) less any benefits accrued under the Company's hourly pension plan from June 30, 1989 through June 29, 1990.

Benefit accruals were frozen as of August 1, 1999.

After five years of service, each employee is entitled to 100% of their accrued benefit. All participants are 100% vested. The benefit is payable at the normal retirement date. If employees terminate before rendering 5 years of service, they forfeit the right to receive their accumulated plan benefits. The Plan permits early retirement at age 55 and completing 10 years of service. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity, or a life annuity. Employees may elect to receive the value of their accumulated benefits as a lump-sum distribution, the purchase of or providing an annuity, or they may elect to receive monthly, quarterly, semiannual, or annual installments. If at the date of a participant's termination of employment the actuarial equivalent of the participant's entire non-forfeitable benefit is less than $1,000, a cash settlement in an amount equal to such actuarial equivalent will be paid to the participant.

Death and Disability Benefits

If a participant becomes totally and permanently disabled prior to retirement or separation from service, as defined by the Plan, that participant shall be entitled to a fully vested interest in his/her earned pension as of the anniversary date just prior to the date of his/her disability. If the death of a participant occurs before the normal retirement age and the employment requirements have been met, a pre-retirement survivor annuity benefit will be provided for the participant's spouse. The annuity shall equal the amount which would be payable as a survivor annuity under the joint and survivor annuity provisions of the Plan.

Plan Administration

Massachusetts Mutual Life Insurance Company (MassMutual) is the record keeper and custodian of the Plan. Fortune Plastics, Inc. is the Plan administrator.

2. *Significant Accounting Policies*

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

New Pronouncements

Effective December 31, 2009, the Company adopted the Subsequent Events Topic of the Financial Accounting Standards Board Codification. This topic provides guidance to establish general standards of accounting for and disclosure of events that occur after the statement of financial position date but before the financial statements are issued or are available to be issued. It requires the disclosure of the date through which an entity has evaluated subsequent events and whether that date is the date the financial statements were issued or the date the financial statements were available to be issued. The Plan evaluated subsequent events through DATE. There were no subsequent events that require adjustment or disclosure in the financial statements.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

As permitted by *Financial Accounting Standards Board (FASB) Accounting Standards Codification, Plan Accounting for Defined Benefit Pension Plans,* the guaranteed investment contract is stated at contract value. Contract value represents contributions made under the contract, plus earnings on the underlying investments, less withdrawals and administrative expenses charged by MassMutual. MassMutual maintains the contributions and related accumulated investment earnings in this account.

Investments in pooled separate accounts are stated at fair value based on active quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Accumulated Actuarial Present Value of Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under the circumstances of retirement, death, disability, and termination of employment are included to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an actuary from Pension & Benefits Associates, Inc. The amount is determined by applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The actuarial valuation for the Plan's years ended December 31, 2009 and 2008 have been performed by the Plan's actuary as of January 1, 2010 and 2009.

The significant actuarial assumptions used in the valuation for the year ended December 31, 2009 and 2008 were (a) life expectancy of participants (the 2010 and 2009 Annuitant & Non-Annuitant Tables for Males and Females Projection Scale AA) (b) effective interest rate 6.65% (based on three segmented rates based on corporate bond maturing in the first five years, maturing in the next 15 years, and maturing after 20 years which are 4.71%, 6.67%, and 6.77%, respectively. The rates were 5.59%, 6.34%, and 6.54% in 2008).

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan is terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

As of December 31, 2009, there were changes in actuarial assumptions of $428,076. These changes in assumptions were updated to reflect the changes in interest rates which were previously applied.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

3. Funding Policy

The Company's policy is to make annual cash contributions to the Plan in the amounts at least equal to the minimum contribution as determined by the Plan's actuary. The contributions of the Company are designed to fund the Plan's current service costs and any unfunded actuarial accrued liability arising from gains/losses, changes in plan provisions or changes in actuarial assumptions. The policies relate presently unfunded costs to the average future working lifetime of the Plan's participants. The result is a contribution per participant which, when multiplied by the number of participants and accumulated, will be sufficient to provide earned pension benefits as they become payable. The Plan met the minimum funding requirements of ERISA for the Plan years 2009 and 2008.

4. Information Certified by the Custodian

The investment information presented in the accompanying Statements of Net Assets Available for Benefits, Statements of Changes in Net Assets Available for Benefits, and Schedule of Assets Held at End of Year was taken or derived from information certified by the Plan trustee, MassMutual, as being complete and accurate and in accordance with Department of Labor Rules and Regulations for reporting and disclosure under ERISA.

5. *Plan Termination*

The Company reserves the right to amend or terminate the Plan at any time provided the amendments meet the applicable requirements of the Internal Revenue Code. In the event of a partial or total termination or a complete discontinuation of employer contributions, the accrued Plan benefit for each participant becomes fully vested. The Pension Benefit Guaranty Corporation (PBGC) has been established with the Department of Labor by ERISA to insure that participants and beneficiaries covered do not incur a loss of benefits arising from a termination of the Plan. In the event of termination, the PBGC would allocate accrued benefits in the following order:

a) Annuity benefits that former employees or their beneficiaries have been receiving benefits for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

b) Other vested benefits insured by the PBGC up to the applicable limitations.

c) All other vested benefits (that is, vested benefits not insured by the PBGC).

d) All nonvested benefits.

Benefits to be provided via contracts under which MassMutual (Note 8) is obligated to pay the benefits would be excluded for allocation purposes.

Certain benefits under the Plan are insured by the PBGC if the plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Participants do not have any recourse towards satisfaction of their benefits from other than Plan assets or the PBGC. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

7. *Fair Value Measurements*

The Fair Value Measurements and Disclosure Topic of the Financial Accounting Standards Board Codification establishes a framework for reporting fair value and expands disclosures about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority given to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy:

Basis of Fair Value Measurement

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liabilities have a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Fair Value Measurements, Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to valuation methods used at December 31, 2009.

Pooled separate accounts: Valued at fair value based on active quoted market prices.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008.

Description	Level 1	Level 2	Level 3	12/31/2009
Pooled separate accounts		$ 1,102,060		$ 1,102,060
Total		$ 1,102,060		$ 1,102,060

Description	Level 1	Level 2	Level 3	12/31/2008
Pooled separate accounts		$ 860,308		$ 860,308
Total		$ 860,308		$ 860,308

8. *Contract with Insurance Company*

The company has an investment contract with MassMutual. MassMutual maintains the contributions in an unallocated fund to which it adds interest at a net investment rate of 2.60%. When changed, the new rate applies only to funds deposited from the date of change. At the direction of the Plan's administrator, a single premium to buy an annuity for a retiring employee is withdrawn by MassMutual from the unallocated fund. Purchased annuities are contracts under which MassMutual is obligated to pay benefits to employees or their beneficiaries. The contract is included in the financial statements at contract value as reported to the Plan by MassMutual. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

9. Tax Status

The Plan obtained its latest determination letter on September 1, 2004, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

10. Related Party/Party-in-Interest Transactions

The Plan invests in accounts managed by MassMutual. MassMutual is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Certain employees and officers of the Company, who are also participants in the Plan, perform administrative services to the Plan at no cost to the Plan.

11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

12. Market Conditions

Changes in investment returns and fair values can have a significant effect on the Plan. U.S and world markets continue to experience significant volatility. Management is monitoring investment market conditions and the impact such volatility is having on the Plan's investment portfolio.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
