INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
Island Medical Services Retirement Savings Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Island Medical Services Retirement Savings Plan, which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits for the year then ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by VOYA Retirement Insurance and Annuity Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2017 and 2016, that the information provided to the plan administrator by the trustee is complete and accurate.

To the Administrative Committee of
Island Medical Services Retirement Savings Plan

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of Assets Held for Investment Purposes as of December 31, 2017 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Emphasis of Matter

As discussed in Note 2 to the financial statements, in 2017, the Plan adopted new accounting guidance, ASU 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Assets Value per Share (or Its Equivalent). Our opinion is not modified with respect to this matter.

1. Description of Plan

The following description of the Island Medical Services Retirement Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan more commonly known as a 401(k) plan covering all employees of the Company and its wholly owned subsidiaries who have met certain requirements as to age and length of service as laid out in the Plan document. The Plan was established on January 1, 1993 and was amended on January 1, 2016. The Plan is subject to the provisions of the Employees Retirement Income Security Act of 1974 (ERISA). The Board of Trustees oversees governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

b. Eligibility

Employees are eligible to participate in the Plan once they have reached age 21 and completed a year of service which is defined as being equal to working 1,000 hours during a consecutive 12-month period immediately following the employee's date of hire. Automatically excluded employees are those covered under a collective bargaining agreement (i.e. union employees) and non-resident aliens who do not receive compensation from any U.S. sources.

c. Contributions

Each year participants may contribute up to 50% of the participant's annual compensation, not to exceed $18,500 for the year ended December 31, 2017. The annual base salary for purposes of the Plan is limited by the Internal Revenue Code ("IRC") to $270,000 for the year ended December 31, 2017. A participant may also rollover amounts representing distributions from other qualified contribution plans.

A participant aged 50 and older was permitted to make an additional catch-up deferral contribution up to $6,000 during the two years ended December 31, 2017.

The participating employer may match a discretionary contribution amount. If the participating employer elects to match, the amount will be an amount equal to 50% of the participant's deferred compensation up to 3% of his/her gross annual salary.

1. Description of Plan (continued)

d. Participant's Accounts

Each participant's account is credited with the participant's voluntary contribution, the Company's matching contributions, any employer discretionary profit-sharing contribution, and Plan earnings, which are allocated proportionately among all participants based on their investment in each fund. Investments are participant directed.

Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific transactions, as defined by the Plan.

e. Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service or at the Normal Retirement Date. Upon disability or death, participants become fully vested.

f. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. All loans must be repaid in five years unless used for the purchase of the participant's principal residence for which the repayment period is fifteen years. The participant's vested account balance serves as collateral for the loan, which bears interest at the prime rate plus 1%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through payroll deductions. Notes receivable carried interest rates ranging from 4.75% and 5.75% for the year ended December 31, 2017.

g. Payment of benefits

Any participant who terminates employment before retirement will be entitled to receive the balance in his/her salary deferral account on any distribution date, as soon as administratively possible, following the participant's separation from service with the employer.

1. Description of Plan (continued)

g. Payment of benefits (continued)

If the terminated participant's vested account is greater than $5,000 during the year ended December 31, 2017, the participant may leave any funds in the Plan until he/she elects to commence distribution as of any distribution date following the participant's termination from employment. If the terminated participant's vested account is equal to or less than $5,000 during the year ended December 31, 2017, the Plan may distribute that portion in a lump sum amount without the participant's consent.

If termination is due to retirement and the participant has attained the age of sixty-five and is 100% vested, the participant may elect to receive all or any portion of any non-forfeitable account balance. A participant who has not retired and has attained the age of fifty-nine and one half and is 100% vested may elect to receive all or any portion of any non-forfeitable account balance.

If termination is due to disability, the Plan will distribute, in a lump-sum amount, the vested balance to the participant on any distribution date, as soon as is administratively possible, following the participant's separation from service with the employer.

If termination is due to death of the participant, the Plan will distribute the balance of the participant's accounts to his/her beneficiaries on any distribution date, as soon as administratively possible, following the participant's separation from service with the employer.

h. Forfeited Accounts

Non–vested portions of a participant's account balance will be forfeited when the participant receives a distribution of the entire vested benefits. The forfeited amounts are transferred to a forfeiture account until they are used to reduce participating employers' matching contributions. During the two years ended December 31, 2017 and 2016, there were no forfeitures.

2. Summary of Significant Accounting Policies

a. Date of Management's Review of Subsequent Events

The company has evaluated events occurring **s**ubsequent to December 31, 2017 through October 4, 2018, the date on which the financial statements were available to be issued.

2. Summary of Significant Accounting Policies (continued)

b. Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles generally accepted in the United States of America ("GAAP"), requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures and changes therein of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

c. Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

d. Investment valuation and income recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

e. New Accounting Pronouncements

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, Fair Value Measurement, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. The Plan adopted this pronouncement during the year ended December 31, 2017.

2. Summary of Significant Accounting Policies (continued)

f. Payment of benefits

Benefit payments to participants are recorded when paid.

g. E*xpenses*

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. Fair Value Measurements

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Fair Value Measurements
The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded. The fair values of common stocks are based on the closing price reported on the active market where the individual securities are traded.

Level 2 Fair Value Measurements
Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

3. Fair Value Measurements (continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2017			
	Level 1	**Level 2**	**Level 3**	**Total**
Pooled Separate Account - Mutual Funds[1]	**$ -**	**$ -**	**$ -**	**$ 7,852,383**
Total assets at fair value	**$ -**	**$ -**	**$ -**	**$ 7,852,383**

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Pooled Separate Account - Mutual Funds[1]	$ -	$ -	$ -	$ 6,878,503
Total assets at fair value	$ -	$ -	$ -	$ 6,878,503

[1]Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of financial position.

3. Fair Value Measurements (continued)

The mutual funds are held in separate investment accounts, which are valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, which include a mix of U.S. and international equities, fixed income investments, and cash. There are no restrictions on redemptions and no unfunded commitments.

- The U.S. equities investments include a mix of predominately U.S. commons stocks, bonds, and cash.
- The international equities investment includes a mix of predominately foreign common stocks and cash.
- The fixed income investment includes a mix of domestic and foreign securities, including corporate obligations, government securities, mortgage-backed and other asset-backed securities, preferred stocks, and cash.

4. Pooled Separate Accounts

The Plan entered into a group variable funding agreement with VOYA Life Insurance Company ("VOYA"). Assets for the investment option sub-accounts are valued using the valuation of sub-account assets.

Pooled Separate Account with underlying mutual fund investments are measured at fair value based on the net asset value (“NAV”) used as the practical expedient.

5. Guaranteed Investment Contract

The Plan entered into a traditional investment contract with VOYA Retirement Insurance and Annuity Company ("VOYA"), called the VOYA Fixed Account, effective April 12, 2015. VOYA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals or distributions and administrative expenses. The contract is included in the financial statements at contract value. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

5. Guaranteed Investment Contract (continued)

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 2.30% in 2017. The crediting rate is reviewed on an annual basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

The following is a schedule reflecting the contract value of traditional investment contracts held by the Plan as of December 31, 2017 and 2016, respectively.

	2017	2016
Traditional investment contract	**$ 3,872,196**	$ 3,434,668

6. Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by MassMutual Life Insurance Company, the trustee of the Plan, at December 31, 2017 and 2016. The information has not been audited by the independent auditors.

	2017	2016
Investments:		
Pooled separate accounts -		
Mutual Funds	**$ 7,852,383**	$ 6,878,503
Guaranteed investment contract	**3,872,196**	3,434,668
Total certified assets	**$ 11,724,579**	$ 10,313,171
Net appreciation in fair value of investments	**$ 1,122,586**	
Interest on guaranteed investment contract	**$ 79,689**	

7. Party-in-Interest Transactions

Certain investment funds were managed by VOYA during 2017. VOYA is the asset custodian and record-keeper of the Plan (except for participant loans) for both years, and therefore these investments and investment transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $5,389 for the year ended December 31, 2017.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

9. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the Determination Letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than now would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Summary of Investment Expenses and Indirect Compensation

The chart below summarizes the investment expenses for the funds available under your Voya Financial, Inc. (Voya) program and the revenue received by Voya from the funds in support of the recordkeeping and administrative services we provide in connection with your plan. Voya uses this revenue to maintain the investment, administrative and technological platforms and other supporting services used by your plan. Part of this revenue may also be used to compensate one or more of your plan's other service providers. Among those additional service providers are the plan's adviser and third party administrator (TPA). For informational purposes, we are providing the amounts that may be paid to certain other providers in the summary below. Amounts shown are expressed as a percentage of program assets based on formulas in effect as of the date above, and are subject to change.

Note: The amounts shown below are not added to each other. Rather, the revenue Voya receives is paid directly or indirectly from the total investment expenses. The compensation paid by Voya is a Voya expense and is not separately charged to the plan.

Summary	
Average Annual Investment Expense of Managed Investment Options (1)	1.47%
Average Annual Managed Investment Option Revenue (2)	1.04%
Average Annual Total Investment Option Revenue (3)	0.81%
Annual compensation paid by Voya to adviser*	
- of assets	0.35%
Annual compensation that may be payable by Voya to Third Party Administrator*	
- TPA Basis Point Option	0.30%
- Partnership Program	0.05%

[1] **Average Annual Investment Expense of Managed Investment Options**: This is the weighted average of the Total Investment Expenses for the plan investment options, based on assets at the reporting date, excluding any funds for which the expenses are N/A and any self directed brokerage accounts.

[2] **Average Annual Managed Investment Option Revenue**: This is the weighted average revenue to Voya, based on assets at the reporting date, from the funds included in the Total Investment Expenses. (Paid to Voya from Total Investment Expenses)

[3] **Average Annual Total Investment Option Revenue:** This is the weighted average revenue to Voya from all plan investment options, based on assets at the reporting date, including any assets in the Voya Fixed or Guaranteed Accumulation Account.

* The annual compensation paid by Voya to your adviser and TPA reflects the compensation payable after the first year of the program and does not include compensation paid on transferred assets or any "first year" compensation. See your new business paperwork for information on first year compensation. Certain minimum criteria may apply before such payments are made and receipt of

compensation by your TPA may vary by plan. In addition, Renewal Contributions are contributions made after the first year of the contract. Increase Contributions are contributions that exceed the highest contributions in any prior year. Voya may also make payments to other plan service providers from the total revenue received by Voya.

Investment Expenses and Indirect Compensation

The chart below shows the components of the investment expenses for the non-fixed interest funds available under your plan as well as the revenue paid to Voya Financial, Inc. (Voya) from the funds in support of the recordkeeping and administrative services we provide in connection with your plan. The revenue received by Voya from the fund is paid by the fund itself or a related party (e.g. the fund's investment manager) and is not an additional expense above the fund fees. Voya uses this revenue to maintain the investment, administrative and technological platforms and other supporting services used by your plan. Part of this revenue may also be used to compensate your advisor. Amounts shown below are based on charges in effect as of the date above and are subject to change.

Please refer to the Appendix for a description of the services provided in connection with the following fees paid by the Funds to Voya:

Other Indirect Compensation

Float

Voya and its affiliated companies ("Voya") earn income in the form of bank service credits on contributions awaiting investment and on payments awaiting distribution from the bank accounts that Voya maintains (or "float"). The bank service credits are applied against the bank service fees that apply to the bank accounts that Voya maintains and may not be redeemed for cash. Specifically, the bank accounts have been established to receive and hold for a reasonable time:

- contributions or other amounts to be invested in your retirement plan, or
- amounts redeemed to pay a distribution or disbursement from your plan.

Your Voya service provider will receive income in the form of bank service credits (as described below) and offset such credits against bank service fees that are charged to Voya for the use of such bank accounts and for services provided by the banks for processing receipts or disbursements.

Float Generated by Contributions:

Your Voya service provider uses a bank account to receive and hold contributions or other Plan deposit amounts to be invested. Contributions or other deposit amounts are held until Authorized Instructions are received in good order. Income in the form of bank service credits are earned on the bank account during any waiting period for Authorized Instructions. For Authorized Instructions received in good order by the close of the New York Stock Exchange (normally 4:00 p.m. Eastern Time), contributions or other deposit amounts will be invested on that business day. For Authorized Instructions received in good order after the close of the New York Stock Exchange, contributions or other deposit amounts will be processed on the next business day.

Float Generated by Distributions:

Your Voya service provider and/or one or more of its corporate affiliates receives income in the form of bank service credits in connection with distributions or disbursements that Voya pays on the plan's behalf. The service credits accrue during the period beginning when an amount is redeemed from the Plan's investment to fund a distribution or disbursement check and ending when the check is presented for payment.

Additionally, from time to time, the corporate affiliate of your Voya service provider may receive money market like rates of return on other deposit or short term investment products in which distributions may be held until such time as the check is presented for payment.

Transaction Processing Errors

Voya processes your Plan's investment instructions on an "omnibus" or aggregated basis. If Voya's correction of a Voya processing error results in a loss to your Plan or its Participants, Voya will absorb the loss. If any gain results in connection with the correction of a Voya processing error, Voya will net any such gain against other losses absorbed by Voya and retain any resulting net gain as a component of its compensation for transaction processing services, including its agreement to make Plan and Participant accounts whole for losses resulting from Voya processing errors. For more information on our error correction policy, please refer to Voya Retirement Insurance and Annuity Company's Policy for Correction of Processing Errors ("VRIAC Policy"). The VRIAC policy is posted in the Sponsor Disclosure section of the Sponsor Web.

Revenue Sharing

In addition, to the extent former or current Affiliates of Voya perform services for the Plan, such Affiliate may share any revenue received with Voya or may credit Voya for such revenue against amounts due from Voya to such Affiliate. Such revenue sharing may include, but it is not limited to, revenue sharing in connection with investment management, brokerage or trustee/custodial services.

Conference Support

Some fund families provide financial support to Voya companies in connection with training and education events attended by Voya employees and representatives. This financial support may include expenses associated with meals. For calendar year 2017 such amount was approximately $0.36 per plan. This estimate was determined by dividing the total amount received from all fund families by the number of plans for which Voya provides investment services.

Appendix: Definitions for Indirect Fees

- **Fund No:** The fund number assigned by Voya
- **Fund Name:** The name of the Fund

Please note that some of the funds available under your plan may include Voya proprietary funds. Proprietary funds are funds which are owned by Voya companies. The mutual funds listed for your plan which start with Voya's name are Voya proprietary funds.

FUND EXPENSES

- **Management Fees**: Fees paid to the Fund for investment advisory activities related to the selection and management of fund investments. These fees may include fees paid to the trustee of a collective investment trust.
- **12b-1 Fees**: Fees paid to the Fund for distribution services provided on behalf of a fund. If the fund imposes 12b-1 fees, such payments are made out of fund assets.
- **Other Expenses**: Fees paid to the Fund for other expenses associated with maintenance of a fund, such as: accounting, audit, recordkeeping, prospectus delivery, proxy support, periodic fund reports printing and/or mailing, etc.
- **Gross Fund Expense:** The sum of the management fees, 12b-1 fees and other expenses paid by the Fund.
- **Waivers and Adjustments**: An adjustment to a portion of the mutual fund fees as stated in the fund's most current prospectus. For certain funds, the investment adviser or other service provider to the fund may waive a portion of its fees or reimburse certain fund expenses, which will reduce the expense ratio of the fund for the period of the waiver or adjustment. These waivers and adjustments may not necessarily continue in the future. Please refer to the footnotes at the end of this report for further information regarding any Waivers and Adjustments shown.
- **Net Fund Expense**: The Gross Fund Expense reduced by any waiver or adjustment in effect.
- **Prospectus Date**: The date of the fund prospectus from which the fund fees have been provided.

VOYA CONTRACT CHARGES

- **Daily Asset Charge**: A Voya contract charge assessed against the variable funds for marketing and sales expenses as well as the costs of various services (e.g., call centers, websites, daily valuation systems, regulatory information, transaction processing, communication, education and enrollment support) in support of your program. This fee paid to Voya may be comprised of a base contract charge as well as additional charges for optional services selected by the plan.

- **Total Net Fund Expense**: The Net Fund Expense plus the Daily Asset Charge.
- **Total Revenue to Voya:** The sum of the Total Daily Asset Charge plus amounts received by Voya from the Fund or fund custodian for Sub TA Expense Reimbursement, 12b-1 Fees and other services.

REVENUE TO VOYA

- **Total Daily Asset Charge**: The Daily Asset charge.
- **Sub Transfer Agent (Sub TA) Expense Reimbursement**: The amount paid to Voya Retirement Insurance and Annuity Company ("VRIAC") or its affiliates by the Fund Family or Fund Transfer Agent for plan and participant level recordkeeping services.
- **12b-1 Fees:** The amount paid to VRIAC or its affiliates by the fund family from the fund's 12b-1 fees for distribution services.
- **Service Fee:** The amount paid to VRIAC or its affiliates by the Fund Family or Fund Transfer Agent for other services provided in connection with the investment option. If your plan uses the Voya Fixed Account or Voya Guaranteed Accumulation Account (GAA), the amount shown in the "Service Fee" column represents our reasonable and good faith estimate of the cost of the recordkeeping and other administrative services being offset through a reduction in the rates of interest that would otherwise be credited. In developing our estimate, we applied guidance issued by the Department of Labor in connection with Form 5500 Schedule C reporting. Under that guidance, if the rate of return on a fixed rate investment contract is net of the expense of recordkeeping and similar administrative services, then the amount so "netted" should be reported as a fee charged against the Plan's investment in order to avoid the inference that the Plan services were being provided free of charge. Estimates of those amounts are permitted so long as the estimate is reasonable, and the methodology and assumptions used to prepare the estimate are disclosed.

  The rate credited to your Plan's Fixed Account and/or GAA ("fixed accounts") balance is a "net" rate that reflects the costs of the recordkeeping and other administrative services we provide. We have estimated the amount of that rate reduction and reported it in the "Service Fee" column of our indirect compensation report in order to inform your understanding of the costs of our recordkeeping and administrative services. Set forth below is a description of the method we used in developing our estimate:

  First, we determined the ratio of (1) our estimated internal costs for providing plan recordkeeping, trusteeship and similar services to all of our Plan customers as of the prior calendar year end, to (2) our average total assets during the same calendar year. We applied that ratio to your Plan's fixed account(s) to arrive at an estimate of the dollar amount of reportable compensation attributable to netting the costs of providing such services against the Fixed Account/GAA rate.

- **Total Revenue to Voya:** The sum of the Total Daily Asset Charge plus amounts received by Voya from the Fund or fund custodian for Sub TA Expense Reimbursement, 12b-1 Fees and other services.
