Note 1 – Description of Plan

The following description of the Best Roofing 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Best Roofing Services, LLC (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Administration

Effective July 24, 2017, the Plan switched from Lincoln National Life Insurance Company ("LNL) to John Hancock Retirement Life Insurance Company ("John Hancock") as the Plan's Custodian. The Plan's third party administrator ("TPA") is Abacus Retirement Solutions, LLC ("Abacus").

Eligibility

An employee is eligible to participate in the Plan upon attaining the age of 21 and completing (3) three months of service. The employee may enter the Plan on the first day of the month of each calendar quarter, coinciding with or next following the date they satisfy the eligibility requirements.

Contributions

Each year, participants may contribute a percentage of pretax annual compensation, as determined by the Internal Revenue Code. The Plan also permits the Company to contribute discretionary contributions, profit sharing contributions, or a matching contribution. From January 1, 2016 to June 30 2017, the Company matched up to 25% of the first 4% of an employee's deferral amount. From July 1, 2017 to December 31, 2017, the Company matched up to 50% of the first 4% of an employee's deferral amount. The Company made contributions of $77,081 and $30,185 for the years ended December 31, 2017 and 2016, respectively.

Rollovers

The Plan accepts eligible rollover distributions from qualified plans.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's discretionary matching contribution, and an allocation of investment earnings, and charged with deductions for administrative expenses and withdrawals. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 – Description of Plan, continued

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is as follows:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of Benefits

On termination of service due to death, disability or retirement, or other reasons, a participant may elect to receive either a lump-sum amount or installment payments equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts

Forfeitures resulting from termination of non-fully vested participants are applied toward the Company's contribution into the Plan. The total amount of forfeitures at December 31, 2017 and 2016 were $9,510 and $2,973, respectively.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum amount of $1,000 up to a maximum of 50% of their account balance or $50,000, whichever is less. Loan transactions are treated as a transfer from the investment fund to the notes receivable from participants' accounts. Participants may have up to two (2) loans outstanding at one time. Loan terms generally range from 1-5 years, except for the purchase of a principal residence. The loans are secured by the balance in the participants' accounts and bear interest at the Prime Rate as established by the Wall Street Journal, plus one percent (1%). Interest rates for all notes were calculated at 5.50% and 4.75% for December 31, 2017 and 2016, respectively. Principal and interest is paid ratably through payroll deductions.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of the Plan are allocated to the participants' accounts and are included in administrative expenses. Investment related expenses are included in net appreciation in value of investments.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting in conformity with generally accepted accounting principles in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Investment Valuation and Income Recognition

Investments held by a defined contribution plan are required to be reported at fair value, except for investments in fully benefit-responsive investment contracts ("FBRICs"). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. FBRICs are reported at contract value because contract value is the amount that participants would receive if they were to initiate permitted transactions under the terms of the Plan. Up to the date of transfer, the Plan invested in a FBRIC through a Lincoln National Life Guaranteed Return Account ("General Account"). See Note 5 for discussion of the guaranteed investment account with LNL.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as investments held during the year.

Payment of Benefits

Benefits are recorded when paid.

Date of Management's Review

Management has evaluated subsequent events through October 8, 2018, the date the financial statements were available to be issued.

Note 3 – Investments Certified by the Custodian

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, the Custodians of the Plan have certified to the completeness and accuracy of all investments reported in the accompanying statements of net assets available for plan benefits as of December 31, 2017 and 2016, the supplemental schedule at December 31, 2017, and the related investment activity reported in the statement of changes in net assets available for plan benefits for the year ended December 31, 2017.

Note 4 – Fair Value Measurements

The Financial Accounting Standards Board ("FASB") *Accounting Standards Codification ("ASC") 820, Fair Market Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted market prices in markets that are not active; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds held in Pooled Separate Accounts ("PSA"): PSAs valued at net asset value ("NAV"). The pooled separate account NAV is not a publicly quoted price in an active market, thus FASB allows the use of NAV as a practical expedient to estimate fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

Investment Category	2017 Fair Value	2016 Fair Value
Pooled separate accounts	$ 1,481,552	$ 662,496
Total investments at fair value	$ 1,481,552	$ 662,496

(a) In accordance with ASC Subtopic 820-10 as amended by the Accounting Standards Update ("ASU") No. 2015-07, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for plan benefits.

Note 5 – Guaranteed Investment Account with Insurance Company

The Plan had a FBRIC investment option with LNL. LNL maintained the contributions in a general account. The account was guaranteed against loss of principal, minus all withdrawals, including charges and adjustments. The guarantee was based on LNL's ability to meet its financial obligations from general assets. Because the Contract was a FBRIC, contract value was the relevant measurement attribute for that portion of the net assets available for plan benefits attributable to the Contract.

The Contract remained in-force until the date of transfer to John Hancock.

The effective guaranteed credited interest rate was set on a quarterly basis and was communicated to the Plan Sponsor before going into effect, and was guaranteed for at least one quarter.

When establishing interest crediting rates for the Contract, LNL considered many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account. These rates were established without the use of a specific formula. The LNL guaranteed minimum interest rate was 1%.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7 – Tax Status

The Plan is a 401(k) profit sharing plan, whose document is sponsored by Datair Employee Benefit Systems, Inc. ("Datair") and adopted by Abacus, and is designed in accordance with applicable sections of the IRC. Datair received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, stating that the Plan is qualified under section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. The Sponsor believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore believes that the Plan, as amended, is qualified and the related trust is tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2014.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

Note 9 – Related Party Transactions

Plan investments are managed by the Custodians as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services were $20,889 for the year ended December 31, 2017.

Certain participants of the Plan have outstanding loans (notes receivable from participants) with the Plan as of December 31, 2017 and 2016. These loans are considered party-in-interest transactions according to the DOL guidelines. Total notes receivable from participants as of December 31, 2017 and 2016 were $39,362 and $31,626, respectively.
