Independent Auditors' Report

To the Plan Sponsor of the
Telvent Miner & Miner, Inc. 401(k) Plan:

We were engaged to audit the financial statements and supplemental schedule of the Telvent Miner & Miner, Inc. 401(k) Plan (the "Plan") as of December 31, 2009 and 2008, and for the year ended December 31, 2009, as listed in the accompanying Table of Contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Telvent Miner & Miner, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2009 and 2008

Note 1 – Description of the Plan

The following description of the Telvent Miner & Miner, Inc. (the "Company" or "Employer") 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

a. **General** The Plan is a defined contribution plan that was established by the Company on June 1, 1995. The Plan is generally available to all employees of the Company (excluding employees covered by a collective bargaining agreement, reclassified employees, and leased employees, as defined) who have completed 6 months of service and are age 18 or older. Employees may enter the Plan on the first of the month after meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

b. **Plan Amendment** On November 12, 2009, the Plan document was amended and restated.

c. **Contributions** The following types of contributions are allowable under the Plan:

- Salary Deferral Contributions – Participants may contribute a percentage of their pretax earnings, as defined in the Plan document, subject to limitations. A participant's total tax-deferred contribution cannot exceed \$16,500 (\$22,000 if 50 or older) in calendar year 2009.
- Discretionary Matching Employer Contributions – The Company may contribute matching amounts on a quarterly basis to eligible participants who have completed 250 hours of service within a Plan year quarter. Salary deferral contributions were matched 75% up to a maximum of 6% of the participant's compensation for the Plan year ended December 31, 2009.
- Discretionary Nonelective Employer Contributions – The Company may make an additional nonelective contribution to those eligible participants who have completed 1,000 hours of service and are employed on the last day of the Plan year. This contribution is allocated to each eligible participant's account in the ratio which each participant's compensation bears to the compensation of all eligible participants. For the year ended December 31, 2009, the Company did not make an additional nonelective contribution.
- Rollover Contributions – Amounts distributed to participants from other qualified employee benefit plans may be rolled into the Plan.

All contributions are allocated to the Plan's investment funds at the direction of the participants.

The total annual additions to a participant's account may not exceed the lesser of \$49,000 or 100% of the participant's compensation in calendar year 2009.

d. **Participant Accounts** Each participant's account is credited with the participant's contributions (salary deferrals and rollovers, if any) and an allocation of (a) the Company's contribution (discretionary matching and discretionary nonelective), if any, (b) fund earnings or losses, and (c) administrative expenses, if any. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Telvent Miner & Miner, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2009 and 2008

Note 1 – Description of the Plan (continued)

e. **Vesting** Participants are always fully vested in their salary deferral contributions, rollover contributions, and any earnings thereon. Vesting in Employer discretionary matching and nonelective contributions occur according to the following schedule:

<u>Years of Vesting Service</u>	<u>Vested Percentage</u>
0	0%
1	0%
2	20%
3	40%
4	60%
5	100%

Furthermore, participants become 100% vested in their Employer discretionary matching and nonelective contribution accounts upon the following events:

- Participant's death;
- Participant becomes disabled as defined under the Plan;
- Participant's normal retirement date; or
- Termination or partial termination of the Plan.

f. **Forfeitures** When certain terminations of participation in the Plan occur, the non-vested portion represents a forfeiture. Forfeitures are first used to reduce Plan expenses, then are used to reduce any discretionary Employer contributions. For the year ended December 31, 2009, forfeitures of \$10,211 were used to reduce Plan expenses. As of December 31, 2009 and 2008, unutilized forfeitures were \$3,195 and \$10,245, respectively.

g. **Investment Options** Participants may direct their investments into various mutual funds, common collective trusts, or any investment offered through the Wells Fargo Self-Directed Brokerage Account Option ("WF Brokerage Account").

h. **Loans to Participants** Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of (i) \$50,000 or (ii) 50% of their vested account balance. Loan terms range from 1 month up to a maximum of 5 years. A longer loan term is available if the loan is being used to acquire a principal residence as determined by the Plan administrator. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates at the date the loan is granted as determined by the Plan administrator. Principal and interest payments are paid ratably through payroll deductions.

i. **Payment of Benefits** Benefits to participants or beneficiaries generally are payable as a lump sum or installments equal to the value of their vested account balance upon retirement, disability, death or termination of the participant. Additionally, participants may request in-service withdrawals upon attainment of age 59½ or during financial hardships, as defined in the Plan document, if certain criteria are met.

j. **Administrative Expenses** Certain administrative expenses incurred in connection with the Plan are paid by the Plan. For the year ended December 31, 2009, the Plan paid \$20,477 in administrative fees. All other costs incurred in connection with the Plan are paid by the Company.

Note 2 – Summary of Significant Accounting Policies

a. **Basis of Accounting and Use of Estimates** The financial statements of the Plan are prepared using the accrual method of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the net asset value of the fund as reported by the investment advisor. The Statements of Net Assets Available for Benefits present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

b. **Investment Valuation and Income Recognition** The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. Net realized and unrealized gains and losses are shown in the accompanying financial statements as net appreciation in fair value of investments and are determined as the difference between fair value at the beginning of the year (or date purchased during the year) and selling price or year end fair value.

c. **Benefit Payments** Benefits are recorded when paid.

d. **Subsequent Events** Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through September 15, 2010, which is the date the financial statements were available to be issued.

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,980,360 as follows:

Common stocks	\$ 1,579
Mutual funds	1,761,491
Common collective trusts	217,290
	<u>\$ 1,980,360</u>

Note 4 – Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Notes to Financial Statements

December 31, 2009 and 2008

Note 4 – Fair Value Measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2009 and 2008. The following is a description of the valuation methodologies used for assets measured at fair value:

- Common collective trusts, money market funds held in the WF Brokerage Account, and mutual funds are valued at the net asset value ("NAV") of shares held by the Plan at year end;
- Common stocks held in the WF Brokerage Account are valued at the closing price reported on the active market on which the individual securities are traded; and
- Participant loans are valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

Notes to Financial Statements

December 31, 2009 and 2008

Note 5 – Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008, and Note 3;
- Investment amounts within the fair value tables, as shown in Note 4;
- Adjustment from fair value to contract value for interest in collective trust relating to fully benefit-responsive investment contracts as shown in the Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008;
- Investment income, as shown in the Statement of Changes in Net Assets Available for Benefits for the Year ended December 31, 2009, and Note 3; and
- The investment information in the Schedule of Assets (Held at End of Year) as of December 31, 2009, as shown in the supplemental schedule.

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination or partial termination, affected participants will become 100% vested in their accounts.

Note 7 – Income Taxes

The Company has adopted a Wells Fargo Bank, N.A. Defined Contribution Prototype Plan Document ("prototype plan"). The prototype plan received a favorable opinion letter from the Internal Revenue Service ("IRS") on March 31, 2008 which stated that the prototype plan is qualified under the applicable sections of the Internal Revenue Code ("IRC"). Although the prototype plan and the Plan have been amended since receiving the IRS determination letter, the Plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified under Section 401(a) of the IRC and the related Trust is tax exempt as of December 31, 2009 and 2008. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Notes to Financial Statements

December 31, 2009 and 2008

Note 8 – Party-In-Interest Transactions

Certain Plan investments are shares/units of mutual funds, common collective trusts, and money market funds managed by Wells Fargo Bank, N.A. As Wells Fargo Bank, N.A. is the trustee of the Plan, these transactions qualify as party-in-interest transactions. Additionally, the Plan maintains investments in participant loans. Fees paid for services rendered by parties-in-interest were based on customary and reasonable rates for such services.

As of December 31, 2009 and 2008, a certain Plan participant had an investment in Telvent common stock through the WF Brokerage Account. The fair value of the Telvent common stock held by the participant at December 31, 2009 and 2008 was \$1,949 and \$731, respectively.

Note 9 – Risks and Uncertainties

The Plan provides for various investment options in mutual funds, common collective trusts, and any publicly traded security offered through the WF Brokerage Account. Investment securities, in general, are exposed to various risks, such as significant world events, interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts presented in the statements of net assets available for benefits.

To the Plan Sponsor of the
Telvent Miner & Miner, Inc. 401(k) Plan:

We were engaged to audit the financial statements and supplemental schedule of the Telvent Miner & Miner, Inc. 401(k) Plan (the "Plan") as of December 31, 2009 and 2008, and for the year ended December 31, 2009, as listed in the accompanying Table of Contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Telvent Miner & Miner, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2009 and 2008

Note 1 – Description of the Plan

The following description of the Telvent Miner & Miner, Inc. (the “Company” or “Employer”) 401(k) Plan (the “Plan”) provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan’s provisions.

a. **General** The Plan is a defined contribution plan that was established by the Company on June 1, 1995. The Plan is generally available to all employees of the Company (excluding employees covered by a collective bargaining agreement, reclassified employees, and leased employees, as defined) who have completed 6 months of service and are age 18 or older. Employees may enter the Plan on the first of the month after meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

b. **Plan Amendment** On November 12, 2009, the Plan document was amended and restated.

c. **Contributions** The following types of contributions are allowable under the Plan:

- Salary Deferral Contributions – Participants may contribute a percentage of their pretax earnings, as defined in the Plan document, subject to limitations. A participant’s total tax-deferred contribution cannot exceed \$16,500 (\$22,000 if 50 or older) in calendar year 2009.
- Discretionary Matching Employer Contributions – The Company may contribute matching amounts on a quarterly basis to eligible participants who have completed 250 hours of service within a Plan year quarter. Salary deferral contributions were matched 75% up to a maximum of 6% of the participant’s compensation for the Plan year ended December 31, 2009.
- Discretionary Nonelective Employer Contributions – The Company may make an additional nonelective contribution to those eligible participants who have completed 1,000 hours of service and are employed on the last day of the Plan year. This contribution is allocated to each eligible participant’s account in the ratio which each participant’s compensation bears to the compensation of all eligible participants. For the year ended December 31, 2009, the Company did not make an additional nonelective contribution.
- Rollover Contributions – Amounts distributed to participants from other qualified employee benefit plans may be rolled into the Plan.

All contributions are allocated to the Plan’s investment funds at the direction of the participants.

The total annual additions to a participant’s account may not exceed the lesser of \$49,000 or 100% of the participant’s compensation in calendar year 2009.

d. **Participant Accounts** Each participant’s account is credited with the participant’s contributions (salary deferrals and rollovers, if any) and an allocation of (a) the Company’s contribution (discretionary matching and discretionary nonelective), if any, (b) fund earnings or losses, and (c) administrative expenses, if any. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account balance.

Telvent Miner & Miner, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2009 and 2008

Note 1 – Description of the Plan (continued)

e. **Vesting** Participants are always fully vested in their salary deferral contributions, rollover contributions, and any earnings thereon. Vesting in Employer discretionary matching and nonelective contributions occur according to the following schedule:

<u>Years of Vesting Service</u>	<u>Vested Percentage</u>
0	0%
1	0%
2	20%
3	40%
4	60%
5	100%

Furthermore, participants become 100% vested in their Employer discretionary matching and nonelective contribution accounts upon the following events:

- Participant's death;
- Participant becomes disabled as defined under the Plan;
- Participant's normal retirement date; or
- Termination or partial termination of the Plan.

f. **Forfeitures** When certain terminations of participation in the Plan occur, the non-vested portion represents a forfeiture. Forfeitures are first used to reduce Plan expenses, then are used to reduce any discretionary Employer contributions. For the year ended December 31, 2009, forfeitures of \$10,211 were used to reduce Plan expenses. As of December 31, 2009 and 2008, unutilized forfeitures were \$3,195 and \$10,245, respectively.

g. **Investment Options** Participants may direct their investments into various mutual funds, common collective trusts, or any investment offered through the Wells Fargo Self-Directed Brokerage Account Option ("WF Brokerage Account").

h. **Loans to Participants** Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of (i) \$50,000 or (ii) 50% of their vested account balance. Loan terms range from 1 month up to a maximum of 5 years. A longer loan term is available if the loan is being used to acquire a principal residence as determined by the Plan administrator. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates at the date the loan is granted as determined by the Plan administrator. Principal and interest payments are paid ratably through payroll deductions.

i. **Payment of Benefits** Benefits to participants or beneficiaries generally are payable as a lump sum or installments equal to the value of their vested account balance upon retirement, disability, death or termination of the participant. Additionally, participants may request in-service withdrawals upon attainment of age 59½ or during financial hardships, as defined in the Plan document, if certain criteria are met.

j. **Administrative Expenses** Certain administrative expenses incurred in connection with the Plan are paid by the Plan. For the year ended December 31, 2009, the Plan paid \$20,477 in administrative fees. All other costs incurred in connection with the Plan are paid by the Company.

Note 2 – Summary of Significant Accounting Policies

a. **Basis of Accounting and Use of Estimates** The financial statements of the Plan are prepared using the accrual method of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the net asset value of the fund as reported by the investment advisor. The Statements of Net Assets Available for Benefits present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

b. **Investment Valuation and Income Recognition** The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. Net realized and unrealized gains and losses are shown in the accompanying financial statements as net appreciation in fair value of investments and are determined as the difference between fair value at the beginning of the year (or date purchased during the year) and selling price or year end fair value.

c. **Benefit Payments** Benefits are recorded when paid.

d. **Subsequent Events** Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through September 15, 2010, which is the date the financial statements were available to be issued.

Note 4 – Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Notes to Financial Statements

December 31, 2009 and 2008

Note 4 – Fair Value Measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2009 and 2008. The following is a description of the valuation methodologies used for assets measured at fair value:

- Common collective trusts, money market funds held in the WF Brokerage Account, and mutual funds are valued at the net asset value ("NAV") of shares held by the Plan at year end;
- Common stocks held in the WF Brokerage Account are valued at the closing price reported on the active market on which the individual securities are traded; and
- Participant loans are valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

Note 5 – Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008, and Note 3;
- Investment amounts within the fair value tables, as shown in Note 4;
- Adjustment from fair value to contract value for interest in collective trust relating to fully benefit-responsive investment contracts as shown in the Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008;
- Investment income, as shown in the Statement of Changes in Net Assets Available for Benefits for the Year ended December 31, 2009, and Note 3; and
- The investment information in the Schedule of Assets (Held at End of Year) as of December 31, 2009, as shown in the supplemental schedule.

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination or partial termination, affected participants will become 100% vested in their accounts.

Note 7 – Income Taxes

The Company has adopted a Wells Fargo Bank, N.A. Defined Contribution Prototype Plan Document ("prototype plan"). The prototype plan received a favorable opinion letter from the Internal Revenue Service ("IRS") on March 31, 2008 which stated that the prototype plan is qualified under the applicable sections of the Internal Revenue Code ("IRC"). Although the prototype plan and the Plan have been amended since receiving the IRS determination letter, the Plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified under Section 401(a) of the IRC and the related Trust is tax exempt as of December 31, 2009 and 2008. Therefore, no provision for income taxes has been included in the Plan's financial statements.

December 31, 2009 and 2008

Note 8 – Party-In-Interest Transactions

Certain Plan investments are shares/units of mutual funds, common collective trusts, and money market funds managed by Wells Fargo Bank, N.A. As Wells Fargo Bank, N.A. is the trustee of the Plan, these transactions qualify as party-in-interest transactions. Additionally, the Plan maintains investments in participant loans. Fees paid for services rendered by parties-in-interest were based on customary and reasonable rates for such services.

As of December 31, 2009 and 2008, a certain Plan participant had an investment in Telvent common stock through the WF Brokerage Account. The fair value of the Telvent common stock held by the participant at December 31, 2009 and 2008 was \$1,949 and \$731, respectively.

Note 9 – Risks and Uncertainties

The Plan provides for various investment options in mutual funds, common collective trusts, and any publicly traded security offered through the WF Brokerage Account. Investment securities, in general, are exposed to various risks, such as significant world events, interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts presented in the statements of net assets available for benefits.
