The actuarial cost method is a particular technique used by the actuary for establishing the amount and incidence of annual actuarial costs. The actuarial cost method determines the portion of the ultimate cost of a pension plan that should be allocated to each year (known as the normal cost). The cost method is thus a budgeting tool that helps to ensure that the pension plan will be adequately and systematically funded.

The annual cost for a pension plan is determined using the unit credit cost method. The ultimate cost for a pension plan will be determined not by the cost method but by the benefits and expenses which become payable and the earnings which are obtained on the investments of the Plan. In addition, the choice of actuarial assumptions will affect the current level of contributions and pattern of future contributions.

Under the unit credit cost method, the target normal cost for each participant is equal to the present value of the projected benefit (salary increases may be included) one year from the valuation date minus the present value of accrued benefits as of the valuation date. The target normal cost for the Plan is the total of the individually computed target normal costs for all participants including the costs for any death or disability benefits under the Plan.

The target liability at any point in time for an active participant is the present value of the participant's accrued benefit. For persons receiving benefits or entitled to a deferred vested retirement income, the target liability is equal to the present value of their future benefit payments. The total target liability for the Plan is the total of the individually computed target liability amounts for all participants.

Certain assumptions are made in the calculation of the target liability, such as: interest rates, mortality, turnover, etc. which are assumed to hold for many years into the future. Since actual experience may differ somewhat from the assumptions, the costs determined by the valuation must be regarded as estimates of the true costs of the Plan.

The actuarial value of assets equals the fair market value of assets.

1. Definitions

Accrued benefit

The accrued benefit for each participant is determined using the same formula which is used to compute such participant's normal retirement benefit, taking into account the participant's years of benefit accrual service through the date of determination.

Notwithstanding the above, effective August 31, 1994, the accrued benefit for each participant is determined using the same formula which is used to compute such participant's normal retirement benefit, taking into account the participant's years of benefit accrual service to August 31, 1994 with no future benefit accrual.

Actuarial equivalent

Actuarial equivalent means a form of benefit differing in time, period and/or manner of payment from another form of benefit but having the same value when computed based upon the following interest and mortality assumptions:

Interest: 7% per annum, compounded annually

Mortality: 1983 Group Annuity Mortality Table

Effective date

The effective date of the plan is September 1, 1967.

Eligible employee classification

An eligible employee classification is a classification of employees, the members of which are eligible to participate in the Plan. The Plan covers all employee classifications except leased employees.

Entry date

Entry date means the first day of the month that coincides with or next follows the date that the eligibility requirements are met.

Fiscal year

Fiscal year means the taxable year of the employer. The fiscal year of the employer is the 12-month period beginning May 1 and ending April 30. The period beginning January 1, 1992, and ending August 31, 1992; and beginning September 1, 1992, and ending April 30, 1993, were short fiscal years.

Limitation year

The limitation year is the 12-month period beginning January 1 and ending December 31.

Normal retirement age

A participant's normal retirement age is age 65.

Normal retirement date

A participant's normal retirement date is the first day of the month that next follows the date on which the participant attains normal retirement age.

One year break-in-service

A one-year break-in-service occurs in any plan year during which the Employee completes 500 or fewer hours of service.

Plan sponsor

The F. Dohmen Co. is both the plan sponsor and the plan administrator.

Plan year

The plan year is the 12-month period beginning January 1 and ending December 31.

Prior to December 31, 1987, the plan year was the 12-month period beginning September 1 and ending August 31. The period beginning September 1, 1987 and ending December 31, 1987 was a short plan year.

Vested accrued benefit

A participant's vested accrued benefit as of a given date is equal to the product of his accrued benefit multiplied by his vested percentage as of that same date.

Vesting schedule

A participant's vested percentage will be 100% upon the completion of five years of vesting service. Prior to the completion of five years of vesting service, a participant's vested percentage is zero.

Notwithstanding the foregoing, in any plan year in which the Plan is determined to be a top-heavy plan, the following vesting schedule will apply in lieu of the vesting schedule provided for above:

Years of Vesting Service Vested Percentage

Less than 3 Years	0%
3 Years or more	100%

If in any subsequent plan year the Plan ceases to be a top-heavy plan, the above vesting schedule will continue to apply unless the plan sponsor elects, in writing, to revert to the original vesting schedule.

Year of service

For eligibility purposes

Years of service for purposes of eligibility to participate in the Plan are referred to as years of eligibility service and are determined using the hours of service method.

**Attachment to Schedule SB, Part V, Summary of Plan Provisions
Retirement Plan for Office Time Clock Employees of Northwestern Drug
EIN/PN: 39-0246060/003**

A year of eligibility service is credited for each computation period during which an employee is credited with at least 1,000 hours of service. The computation period is the 12 consecutive month period beginning with the employee's employment commencement date and anniversaries thereof.

All of an employee's years of eligibility service are taken into account in determining his eligibility to participate.

For benefit purposes

Years of service for purposes of computing a participant's normal retirement benefit are referred to as years of benefit accrual service and are determined using the elapsed time method.

All of a participant's years of benefit accrual service are taken into account in determining his monthly benefit except:

- Service credited prior to September 1, 1967;
- Service for which the employee was not entitled to receive compensation; and
- Service while the employee was not in an eligible employee classification.

For vesting purposes

Years of service for purposes of computing a participant's vested percentage are referred to as years of vesting service and are determined using the elapsed time method.

All of a participant's years of vesting service are taken into account in determining his vested percentage.

2. Participation

An employee will become a participant in the Plan on the first day of the month that coincides with or next follows the attainment of age 21 and the completion of one year of eligibility service.

3. Normal retirement

Each participant who becomes eligible for a normal retirement benefit under the plan will be entitled to receive a monthly retirement pension benefit beginning at the participant's normal retirement date and payable in the normal benefit form.

Normal retirement benefit

Attachment to Schedule SB, Part V, Summary of Plan Provisions
Retirement Plan for Office Time Clock Employees of Northwestern Drug
EIN/PN: 39-0246060/003

A participant's normal retirement benefit is a monthly pension benefit commencing on his normal retirement date payable in the normal benefit form in an amount equal to:

\$32.50 per month, multiplied by his years of benefit accrual
service not to exceed 20 years.

Normal benefit form

Lifetime Pension - Monthly pension benefit payable for the lifetime of the Participant with payments terminating upon the death of the Participant.

4. Early retirement

Early retirement date

A participant's early retirement date is the first day of the month so elected by the participant that coincides with or next follows the date upon which the participant satisfies the following requirements:

- (1) Attainment of age 55; and
- (2) Completion of 20 years of vesting service.

Early retirement benefit

A participant's early retirement benefit is equal to his accrued benefit determined as of his early retirement date, reduced by 5% for each year that his early retirement date precedes his normal retirement date.

5. Late retirement

An active participant who continues his employment with the employer beyond his normal retirement date may begin to receive his late retirement benefit to which he is entitled as of his late retirement date.

Late retirement date

A participant's late retirement date is the first day of the month coincident with or next following the date he retires and requests the commencement of his late retirement benefit after he has continued in the employ of the employer beyond his normal retirement date.

Late retirement benefit

A participant's late retirement benefit is equal to an amount that is based on the normal retirement benefit formula using his years of benefit accrual service through his late retirement date.

6. Optional benefit forms

Optional benefit forms are available and equal to the actuarial equivalent of the normal benefit form and may be in an amount more than or less than that provided by the normal benefit form depending on the option selected. Such distribution may be in one or more of the following forms:

Attachment to Schedule SB, Part V, Summary of Plan Provisions
Retirement Plan for Office Time Clock Employees of Northwestern Drug
EIN/PN: 39-0246060/003

- Lifetime Pension, 10 Years Certain - monthly pension benefit payable for the lifetime of the participant with payments guaranteed for a minimum of 10 years.
- Joint & 50% Contingent Survivor Pension - monthly pension benefit payable during the joint lifetime of the participant and the participant's spouse; reduces to 50% of the original amount upon the death of the participant.
- Joint & 75% Contingent Survivor Pension - monthly pension benefit payable during the joint lifetime of the participant and the participant's spouse; reduces to 75% of the original amount upon the death of the participant.
- Joint & Survivor Pension - monthly pension benefit payable for as long as either the participant or the participant's spouse is alive.

7. Pre-retirement death benefit

In the event of the death of a participant prior to the date that he begins to receive a monthly pension benefit under the Plan, the participant's surviving spouse, if any, will be entitled to receive a monthly pension benefit equal to 50% of the monthly pension benefit which would have been payable had the participant retired on the day before his death and elected a joint and 50% contingent survivor pension. A joint and 50% contingent pension provides a monthly pension benefit payable for the lifetime of the participant and, upon the participant's death, if the participant's spouse survives the participant, a monthly pension benefit will continue for the remaining lifetime of the surviving spouse equal to 50% of the monthly pension benefit which was payable during the joint lifetime of the participant and the participant's surviving spouse.

8. Termination benefit

In the event of the termination of a participant's employment for any reason other than death, disability or retirement, the participant will become entitled to receive a monthly pension benefit commencing on his normal retirement date equal to his vested accrued benefit.
