INDEPENDENT AUDITORS' REPORT

To the Dynegy Inc. Benefit Plans Committee for
the Dynegy Northeast Generation, Inc. Retirement Income Plan

We have audited the accompanying statements of net assets available for benefits of the Dynegy Northeast Generation, Inc. Retirement Income Plan (the "Plan") as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of January 1, 2009, and the related statement of changes in accumulated plan benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2009 and 2008, and changes therein for the years then ended and its financial status as of January 1, 2009, and changes therein for the year then ended in conformity with accounting principles generally accepted in the United States of America.

RETIREMENT INCOME PLAN**

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

1. DESCRIPTION OF THE PLAN

The following brief description of the Dynegy Northeast Generation, Inc. Retirement Income Plan (the “Plan”) provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan’s provisions.

General

The Plan is sponsored by Dynegy Inc., a Delaware corporation (“Dynegy”) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Dynegy Inc. Benefit Plans Committee serves as the “Plan Administrator” for the Plan. Assets of the Plan are held by the Northern Trust Company (the “Trustee”) in the Dynegy Inc. Master Retirement Trust (the “Master Trust”). The Plan is defined benefit pension plan.

The Plan was adopted effective January 31, 2001 in connection with the Asset Purchase and Sale Agreement dated August 7, 2000 between Central Hudson Gas and Electric Corporation and Dynegy Power Corporation. The Plan was created through the spin-off of assets and liabilities from the Retirement Income Plan of Central Hudson Gas and Electric Corporation (the “Prior Plan”).

Participation

The Plan covers substantially all employees of Dynegy Northeast Generation, Inc. (the “Company”) who have completed 12 consecutive months of employment. However, the following employees are not eligible to participate in the Plan: (1) an employee whose terms and conditions of employment are governed by a collective bargaining agreement unless such agreement provides for his or her coverage under the Plan, (2) a non-resident alien who has no United States source income, (3) a leased employee, (4) an individual who is deemed to be an employee pursuant to Treasury regulations issued under Section 414(o) of the Internal Revenue Code of 1986, as amended (the “Code”), (5) an employee who waives participation in the Plan through any means, and (6) an individual who is not treated as a common law employee by the employer even if a court or administrative agency determines that the individual is a common law employee. Further, effective April 3, 2008, union employees hired on or after April 3, 2008 by the Company and covered by the collective bargaining agreement by and between the Company and IBEW Local Union 320 are not eligible to participate in the Plan. Additionally, effective January 1, 2009, employees hired (or re-hired) on or after January 1, 2009 are not eligible to participate in the Plan. Also see Note 3.

RETIREMENT INCOME PLAN**

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

Benefits

If a participant retires on his normal retirement date (the first day of the month on or next following a participant turning age 65), the participant is entitled to begin receiving a normal retirement pension (based on the formula under the Plan). Participants may delay retirement beyond normal retirement age (age 65) and will continue to earn benefits until their actual retirement date; however, participants must begin receiving benefits no later than certain required dates (discussed further below). The Plan provides for a subsidized early retirement benefit for a participant who retires on or after the first day of the month following the month in which the participant has both reached age 55 and completed 10 years of vesting service; such a participant may start monthly benefit payments without reduction for early commencement. If a participant terminates employment before reaching normal retirement age and has five or more years of vesting service, the participant is entitled to annual pension benefits beginning at normal retirement age equal to a normal retirement pension as determined by the formula under the Plan. Vested participants who do not qualify for normal or early retirement benefits at the time of their termination of employment may elect to receive a reduced benefit commencing at age 55 if they do not wish to wait until reaching normal retirement age to receive benefits. If a participant terminates employment before completing five years of vesting service, the participant will forfeit the right to receive the portion of his or her accrued Plan benefit attributable to the Company's contributions. Subject to certain spousal consent requirements, participants may elect to receive their pension benefits in the form of a single life annuity or a joint and survivor annuity.

The Prior Plan established various cash balance accounts for certain eligible participants (the "Cash Balance Accounts"). These accounts were transferred from the Prior Plan to the Plan, and the accounts are periodically credited with interest based on the yield of 30-year Treasury bonds with constant maturities. Subject to certain spousal consent requirements, the balance in a participant's Cash Balance Account may be paid upon the termination of the participant's employment in the form of a single lump sum cash payment or in the form of an annuity. Participants should refer to the Plan documents for more detailed information about the Cash Balance Accounts.

If a participant dies after his or her benefit commencement date, no death benefit is paid under the Plan except to the extent, if any, provided under the annuity form of benefit the participant was receiving at the time of his or her death. However, under certain circumstances, the beneficiary of such a participant may be entitled to a benefit if the participant made after-tax employee contributions to the Prior Plan. If a vested participant dies prior to his or her benefit commencement date, a survivor benefit will be paid to the participant's spouse. If a participant is unmarried or unvested and dies prior to his or her benefit commencement date, no pre-retirement death benefit will be payable with respect to the Participant's non-cash balance plan benefit. However, the surviving spouse or designated beneficiary of a participant who dies prior to his or her benefit commencement date will be

**DYNEGY NORTHEAST GENERATION, INC.
RETIREMENT INCOME PLAN**

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

entitled to a death benefit if a cash balance account is maintained under the Plan for the participant or if the participant made after-tax employee contributions to the Prior Plan.

A participant who retires prior to age 60 due to disability is eligible to receive a disability benefit under the Plan commencing at age 60. The amount of the benefit will be determined as if the participant's employment had continued during the period he or she receives payments from the Company's long term disability plan and as if his or her compensation as of October 1 preceding his disability had remained constant. A participant who has attained age 55 with at least 10 years of vesting service may elect to receive an early retirement benefit under the Plan in lieu of the disability benefit.

Vesting

Participants become fully vested in the Plan benefit after completing five years of vesting service. Additionally, if participants are not already vested, they will become fully vested in their accrued benefit upon turning age 65 while employed by the Company (or certain affiliates of the Company).

Participants are 100% vested in their Cash Balance Accounts.

Contributions

Employee contributions were permitted under the terms of the Prior Plan, and the benefits attributable to those contributions were transferred from the Prior Plan to the Plan. Currently, employee contributions are not required or permitted under the Plan.

The Company is required to make contributions in the amounts determined by the Plan Administrator to be necessary to provide benefits under the Plan, based on the minimum funding requirements as calculated by the Plan's actuary. Except in very limited circumstances, Company contributions are irrevocable and are utilized only for the benefit of participants and beneficiaries.

Distributions

Distributions, as provided for in the Plan documents, are made to terminated Plan participants or their beneficiaries. Distributions must begin by April 1st of the calendar year following the later of the calendar year in which the participant reaches age 70½ or the calendar year in which the participant retires. All distributions are made in the form of cash (in a single lump-sum payment or in an annuity form).

**DYNEGY NORTHEAST GENERATION, INC.
RETIREMENT INCOME PLAN**

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

Termination of the Plan

Although it has not expressed any intent to do so, the Company has reserved the right to terminate the Plan. Whether all participants receive their entire Plan benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations. The receipt of full Plan benefits may also depend on the financial condition of the Company and its affiliates, the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) at that time and the priority of those benefits. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by Section 4044 of ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Annuity benefits that former participants or their beneficiaries have been receiving for at least a three-year period ending on the Plan's termination date, or that participants eligible to retire before the beginning of that three-year period would have been receiving as of the beginning of that three-year period if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during that three-year period. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five-year period ending on the Plan's termination date.
- c. Other vested benefits insured by the PBGC up to the applicable limitations (discussed below).
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Generally, vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's

net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying Plan financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and the changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits as of the valuation date. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments held in the Master Trust are stated at fair value as determined by the Trustee based on the latest quoted market values of the underlying securities. Securities for which no quoted market value is available are valued at fair value as determined in good faith by or under the direction of the Trustee. The Trustee determines the Plan's interest in the market value of the Master Trust's net assets in accordance with a computational method agreed upon between the Plan Administrator and the Trustee.

Investment income from the Plan's investment in the Master Trust consists of the Plan's proportionate share of the Master Trust's interest and dividend income and investment income/loss from net appreciation (depreciation) in the fair value of investments. The Trustee records dividend income as of the ex-dividend date and accrues interest income as earned. Realized gains and losses on security sales are computed on an average cost basis. Purchases and sales of securities are recorded on a trade-date-basis.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and current employees.

**DYNEGY NORTHEAST GENERATION, INC.
RETIREMENT INCOME PLAN**

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of January 1, 2009 and their changes from the prior year are as follows:

- Actuarial cost method: The projected unit credit cost method.
- Investment rate of return: 8.25% expected rate of return on assets, unchanged from the prior year.
- Mortality: 2000 Retired Pensioners Combined Healthy Table projected 15 years using scale AA changed from the 2000 Retired Pensioners Combined Healthy Table.

In addition to the above assumptions the following plan changes are considered in the actuarial valuation, effective January 1, 2008:

- Section 415 Defined Benefit Limit changed from \$180,000 to \$185,000.
- The 401(a)(17) pay limit changed from \$225,000 to \$230,000.

Retirement

As of January 1, 2009, active employees are assumed to retire at each age in accordance with the following rates:

<u>Age</u>	<u>Probability of Retirement per year</u>
55-58	1%
59	5%
60	30%
61	10%
62	40%
63	30%
64	30%
65	70%
66-69	50%
65	100%

DYNEGY NORTHEAST GENERATION, INC.
RETIREMENT INCOME PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Contributions

Contributions to the Plan from the Company are recorded in the period that the Plan's actuary determines they relate to except that a contribution receivable is recorded to the extent that amounts due are pursuant to formal commitments as well as legal or contractual requirements in existence at the end of the Plan year.

Payment of Benefits

Benefit payments to participants/beneficiaries are recorded upon distribution.

Expenses of the Plan

Certain expenses incurred in the administration of the Plan and the Master Trust are paid by the Master Trust and allocated to the participating plans. These expenses include, for example, fees and expenses of the Trustee, fund managers and consultants. Any other expenses incurred in the operation of the Plan are paid by the employers participating in the Plan.

Adoption of New Accounting Pronouncements

In May 2009, an accounting standard was issued by Financial Accounting Standards Board ("FASB"), establishing the accounting of and disclosure standards for events that occur after the balance sheet date but before financial statements are issued or available to be used. An amendment was issued in February 2010 which clarified which entities are required to evaluate subsequent events and the scope of the disclosure requirements related to subsequent events.

In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after December 31, 2009, and through October 04, 2010, the date the financial statements were available to be issued, for inclusion in the financial statements and footnotes

In April 2009, the FASB issued guidance for determining fair value when the volume and level of activity for the asset or liability have significantly decreased and guidance on identifying circumstances that indicate a transaction is not orderly. The provisions of this guidance are effective for periods after June 15, 2009. The adoption of this guidance did not materially impact the Plan's financial statements.

**DYNEGY NORTHEAST GENERATION, INC.
RETIREMENT INCOME PLAN**

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

The FASB Accounting Standards Update (“ASU”) *“Fair Value Measurements and Disclosures: Investments in Certain Entities That Calculate Net Asset Value (“NAV”) per Share (or Its Equivalent)”* was issued in September 2009. This ASU provides guidance on using the NAV per share provided by investees to estimate the fair value of an alternative investment. This ASU is effective for periods ending after December 15, 2009. The adoption of the provisions of this update did not impact the Plan’s financial statements.

In January 2010, the FASB issued a new pronouncement to improve disclosures about fair value measurements. Certain provisions of this pronouncement are effective for reporting periods beginning after December 15, 2009, while other provisions are effective for periods beginning after December 15, 2010.

3. PLAN AMENDMENTS

Effective January 1, 2008, the Plan was amended to bring it into compliance with certain changes required by the Pension Protection Act of 2006 and in certain other respects. The amendment, among other things, altered the “Applicable Interest Rate” definition; added the “Qualified Optional Survivor Annuity” (i.e., an annuity for the life of a participant, with a survivor annuity for the life of the participant’s spouse that is equal to 75% of the annuity that is payable during the joint lives of the participant and his/her spouse) as an optional form of benefit to the Plan; altered the definition of “Board” to mean the Board of Directors of Dynegy Inc. and the “Committee” to mean the Dynegy Inc. Benefit Plans Committee; altered the provisions regarding amendment and termination authority; and altered certain fiduciary provisions.

For purposes of the rollover rules, the Plan was amended effective January 1, 2008, to provide that Roth IRAs, as described in Section 408A(b) of the Internal Revenue Code, are eligible retirement plans into which distributions from the Plan that are otherwise eligible for rollover may be rolled into.

The Plan was amended for Plan Years on and after January 1, 2008 to comply with changes made by the Pension Protection Act of 2006 to certain pension plan funding requirements. Such changes include, for example, requiring new interest rate and mortality requirements for certain purposes and adding new limitations in the event a plan is underfunded.

Effective April 3, 2008, the Plan was amended to preclude employees hired on or after April 3, 2008 by the Company and covered by that certain Memorandum of Agreement between the Company and Local Union 320 of the International Brotherhood of Electrical Workers, dated March 26, 2008, as ratified on April 3, 2008, from participating in the Plan.

**DYNEGY NORTHEAST GENERATION, INC.
RETIREMENT INCOME PLAN**

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

Effective January 1, 2009, the Plan was amended and restated. The Plan restatement incorporated all prior amendments and also materially amended the Plan to freeze participation for all employees hired (or re-hired) on or after January 1, 2009.

4. INCOME TAXES

A determination letter dated July 3, 2002 was received from the Internal Revenue Service stating that the plan constitutes a qualified plan under the Internal Revenue Code of 1986, as amended (the "Code"). Accordingly, the Plan is exempt from federal income taxes under Section 501(a) of the Code. The Plan has been restated and amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

5. FUNDING POLICY

The Company's funding policy is to contribute an amount at least equal to the minimum funding requirement and no more than the maximum tax deductible contribution in accordance with ERISA and the Code. Such amount is determined by a consulting actuary and is certified in an Actuarial Valuation Report. For the Plan years ended December 31, 2009 and 2008, employer contributions of \$4,324,000 and \$3,400,000 were made, respectively, which exceeded the minimum funding requirements of ERISA. The funding transaction occurred subsequent to year-end and, therefore, is recorded as a contribution receivable in the amount of \$2,524,000 and \$3,400,000 on the Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008, respectively.

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board Accounting Standards Codification ("ASC") Topic 820 ("FASB ASC 820") establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Equity Securities: Comprised of common/collective trusts and a 103-12 investment entity; valued at the underlying unit values reported using audited financial statements of the collective trust and changes in such amounts through the Master Trust's year end.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

Fixed Income Securities: Comprised of 1) a mutual fund valued at the net asset value ("NAV") of units held by the Master Trust at year end and 2) a trust valued as described in Equity Securities above.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2009 and 2008:

10. SUBSEQUENT EVENTS

On August 13, 2010, Dynegy entered into a definitive merger agreement pursuant to which it will be acquired by Denali Parent Inc. (the "Transaction"). At this time, Dynegy is not aware that the Transaction will have any direct impacts on the Plan (though, note that Dynegy retains the right to amend the Plan at any time to the extent permitted by the Plan and by law).

Future Increases in Social Security

The Social Security Wage Base is assumed to increase 3.500% per year. The cost-of-living inflation adjustment is assumed to be 3.00% per year.

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC Section 415. Plan compensation is limited to the maximum presently allowed under IRC Section 401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Form of Payment

Cash Balance Benefit:

100% of active participants are assumed to take the account balance as a lump sum at termination.

Current terminated vested participants are assumed to take the account balance as a lump sum based on the following schedule:

Years from Termination	Percentage taking Lump Sum
1	40
2	30
3	20
4	10

Final Average Pay Benefit:

Participants are assumed to elect the normal form (i.e. lifetime annuity for unmarried participants and 50% joint and contingent annuity for married participants).

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of eligible participants are assumed to be married and male spouses are assumed to be 3 years older than female spouses.

Employees

It was assumed that there will be no new or rehired employees.

Plan Compensation

Plan compensation is the annual base rate of pay in effect as of the valuation date plus project bonuses and awards paid during the prior 12 months.

Asset Method

The asset method is the averaging method under IRS Section 430(g)(3)(B) as amended by WRERA. Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date.

The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 6.38%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.25%, and the applicable limitation for the plan year, equal to 6.38%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 6.09%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.25%, and the applicable limitation for the plan year, equal to 6.09%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.4. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Participant Data

Employee data and data on persons with deferred benefits or receiving benefits were supplied by Hewitt Associates LLC as of the census date.

Tax Policy

The actuarial valuation performed for the plan year ending December 31, 2008 is used to determine the maximum deductible contribution for the tax year ending December 31, 2008.

Benefits not Included in Valuation

We believe that we have reflected all significant Plan provisions in this valuation.

Nature of Actuarial Calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favorable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request.

Changes in Assumptions and Methods Since Last Actuarial Valuation

Other than the prescribed changes in mortality, the following changes in assumptions were made as part of the valuation:

- Based upon an election by the plan sponsor, the asset valuation method changed from the market value of assets to the method described in IRS Notice 2009-22 which reflects changes made by the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA). Changes in the asset method for plan years beginning in 2009 to any permissible asset method are deemed to be automatically approved by the IRS.
- The amount included this year for plan-related expenses is \$135,000. WRERA includes a technical corrections provision requiring target normal cost to include the amount of plan-related expenses expected to be paid from plan assets during the year.
- Based upon an election by the plan sponsor, the interest rate was changed from the 3-segment rate without transition for the month of September (representing a 24-month average of monthly yields through August) to the full yield curve for the month of November (representing the average of spot rates for the month of October).
- The interest crediting rate applied to cash balance accounts was changed from 100 basis points below the second segment rate (4.82%) to a five year average of historical 30-Year Treasury Rates (4.61%). For the 2009 plan year, the actual interest crediting rate of 4.00% was used.
- The average salary increase assumption is 3.0% for the first 2 years, and 4.5% per year thereafter to reflect lower expected salary increases during 2009 and 2010. Last year this assumption was 4.5% for all years.

Optional Forms of Retirement Income in Lieu of Normal Form

The plan provides for optional monthly payment forms. Actuarial equivalence for this purpose is based on 7.50% interest rate and the 1983 Group Annuity Mortality Table assuming the participant is male and the contingent annuitant is female. To determine single sum values, the applicable interest rate and applicable mortality table as determined in accordance with Code Section 417(e)(3) with the applicable phase-in percentages to the new PPA interest rate basis are used. The applicable interest rate for a given plan year is based on the month of August (the lookback month) that precedes the Plan Year (the stability period) in which the distribution is made.

The normal form of payment is a single life annuity for unmarried participants and 50% joint and survivor annuity for married participants. Lump-sum distributions in excess of \$5,000 are not allowed for the non-cash balance formula. Other optional forms of payment for married participants are as follows:

1. A Qualified Joint and Survivor benefit payable as long as the participant is alive with either 50% or 75% of such amount being payable during the lifetime of the participant's spouse upon the death of the participant
2. A Qualified Joint and Survivor benefit payable as long as the participant is alive with either 30%, 40%, 75% or 100% of such amount being payable during the lifetime of the participant's spouse upon the death of the participant. If the designated joint annuitant predeceases the participant while the participant is receiving retirement payments, then, the participant's monthly benefit will increase to the amount he would have been receiving under the plan if he had originally elected the Single Life Annuity.

Death Benefits for Participants in Active Service

Beneficiaries of unmarried participants will receive a lump sum benefit in an amount equal to 100% of the participant's vested account balance as of the date of death. Surviving spouses will receive in the form of a Single Life Annuity the amount that is actuarially equivalent to the participant's Cash Balance Account. The surviving spouse may also elect to receive the Cash Balance Account as a lump sum.

Optional Forms of Retirement Income in Lieu of Normal Form

The plan provides for optional monthly payment forms. Actuarial equivalence for this purpose is based on 7.50% interest rate and the 1983 Group Annuity Mortality Table assuming the participant is male and the contingent annuitant is female. Actual equivalence for purpose of converting the Cash Balance account to a Single Life Annuity is based on the applicable interest rate and applicable mortality table as determined in accordance with Code Section 417(e)(3) with the applicable phase-in percentages to the new PPA interest rate basis. The applicable interest rate for a given plan year is based on the month of August (the lookback month) that precedes the Plan Year (the stability period) in which the distribution is made.

The Normal Form of payment for married participants is a Qualified Joint & Survivor Annuity and a Single Life Annuity for single participants. In lieu of the Normal Form of payment, a participant may elect the following forms of payment:

1. Single Life Annuity.
2. A Qualified Joint and Survivor benefit payable as long as the participant is alive with either 50% or 75% of such amount being payable during the lifetime of the participant's spouse upon the death of the participant
3. A Qualified Joint and Survivor benefit payable as long as the participant is alive with either 30%, 40%, 75% or 100% of such amount being payable during the lifetime of the participant's spouse upon the death of the participant. If the designated joint annuitant predeceases the participant while the participant is receiving retirement payments, then, the participant's monthly benefit will increase to the amount he would have been receiving under the plan if he had originally elected the Single Life Annuity.
4. Lump Sum payment.
