Note 1 - Description of Plan:

The following description of Fragrance Resources, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan that covers all eligible employees and was established by Fragrance Resources, Inc. (the "Company"). The Plan is subject to and complies with the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code (the "Code").

All full-time employees of the Company over the age of 21 are eligible to participate in the Plan as of the first payroll period following the first day of the calendar quarter after they are hired.

Contributions:

Each year, participants may elect to make tax deferred contributions subject to an annual limit of the lesser of 75% of eligible compensation, as defined in the Plan, or Internal Revenue Service limitations ($16,500 for 2009). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to $5,500 in 2009. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company contributes to the Plan an amount equal to 50% of the participants' contributions, up to a maximum of 6% of each employee's eligible compensation. In addition, the Company may make a discretionary profit sharing contribution on behalf of each participant who is employed at the end of the Plan year. For the years ended December 31, 2009 and 2008, the Company did not make a discretionary profit sharing contribution.

Participant accounts:

Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's contributions, if any, and (b) Plan earnings and losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of Plan (concluded):

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. A participant's vested interest in the Company's match and discretionary profit sharing contributions shall be determined in accordance with the following vesting schedule:

Participant loans:

Participants may borrow from their vested account balances at a minimum of $1,000 and up to a maximum of 50% of their vested account balance or $50,000, whichever is less. The loans are secured by the participant's vested account balance and must bear a reasonable interest rate. Loans must be repaid in equal installments consisting of principal and interest over a period not to exceed five years, unless the loan is used to purchase a primary residence, in which case the term is thirty years. Participants may only have one loan outstanding at any given time. At December 31, 2009, participant loans bear interest at a range from 4.25% to 9.25%.

Payment of benefits:

The normal retirement date is the date on which a participant attains age 65. Upon death, retirement, disability or termination of service, a participant may elect to receive their benefits as a lump-sum cash payment, installment payments or partial withdrawals. If no election is made for balances less than $5,000, the Plan administrator may distribute the amount as a lump-sum cash payment within a reasonable time after termination. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan.

Forfeitures:

Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. At December 31, 2009 and 2008, the Plan had forfeitures of approximately $9,000 and $6,500, respectively.

Note 2 - Summary of significant accounting policies:

Basis of presentation:

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Basis of accounting:

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes in net assets available for benefits and, when applicable, disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on an accrual basis.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of its investments which consists of both realized and unrealized gains and losses.

Payment of benefits:

Benefits are recorded when paid.

Note 2 - Summary of significant accounting policies (concluded):

Administrative expenses:

The Company pays substantially all administrative expenses associated with the administration of the Plan. Loan origination fees, shown as administrative expenses on the statement of changes in net assets available for benefits, are deducted from participant account balances.

Subsequent events:

The Plan has evaluated subsequent events through September 27, 2010, which is the date the financial statements were available to be issued.

Note 3 - Fair value measurements:

The Plan values its financial assets and liabilities based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, a fair value hierarchy that prioritizes observable and unobservable inputs is used to measure fair value into three broad levels, which are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

In determining fair value, the Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible as well as considers counterparty credit risk in its assessment of fair value.

Financial assets carried at fair value at December 31, 2009 and 2008 are classified in the tables below in one of the three categories described above:

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Participant loans: Participant loans are valued at amortized cost, which approximates fair value.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

Note 3 - Fair value measurements (concluded):

Money market funds: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009:

	Participant Loans	Guaranteed Investment Contract	Total
Balance, beginning of year	$191,437	$1,047,582	$1,239,019
Realized gains		45,864	45,864
Unrealized loss relating to instruments still held at the reporting date		(76,400)	(76,400)
Purchases, sales, issuances and settlements (net)	510	1,193,216	1,193,726
Balance, end of year	$191,947	$2,210,262	$2,402,209

Note 4 - Investments:

At December 31, 2009 and 2008, the following investments were greater than 5% of net assets available for benefits:

	2009	2008
ING Fixed Income Account	**$2,237,433**	$ 998,353
ING Aeltus Money Market Fund	**635,796**	1,777,106
ING GMNA Income Fund	**509,502**	*
ING T. Rowe Price Growth Equity Portfolio	**1,186,605**	907,515
American Funds New Perspective Fund	**561,546**	386,428
Templeton Global Bond Fund	*	699,013

* Investment did not represent greater than 5% of net assets available for benefits at December 31, 2009 and 2008.

Note 5 - Investment contract with insurance company:

The Plan entered into a benefit-responsive investment contract with ING Life Insurance Company and Annuity Company ("ING"). ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by ING. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2009	2008
Average yields:		
Based on actual earnings	**3.00%**	3.00%
Based on interest rate credited to participants	**3.00%**	3.00%

Note 6 - Party-in-interest transactions:

Certain Plan investments are money market funds, guaranteed interest accounts and shares of mutual funds managed by ING, the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 7 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 8 - Tax status:

The Plan is based on a prototype plan document. The Internal Revenue Service has determined and informed the prototype sponsor by a letter dated November 7, 2001, that the original plan instrument is designed in accordance with applicable sections of the Code. A determination letter has not been obtained for the Plan, as amended. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been made.

Note 9 - Certification by the trustee:

The following account balances and transactions were obtained from statements certified by ING:

Statements of net assets available for benefits:
Investments

Statement of changes in net assets available for benefits:
Investment income

Schedule of assets (held at end of year)

Note 10- Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
