Part I Asset and Liability Statement

1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

REPORT OF INDEPENDENT AUDITORS

To the Trustees of
Lawson Industries, Inc.
401(k) Plan and Trust

We were engaged to audit the accompanying financial statements of Lawson Industries, Inc. 401(k) Plan and Trust (the Plan) as of and for the years ended December 31, 2009 and 2008 and the supplemental schedule as of December 31, 2009 as listed in the accompanying table of contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan's administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by John Hancock Life Insurance Company (U.S.A.), the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan's administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan's administrator has obtained certification from the Trustee that the information, as of and for the years ended December 31, 2009 and 2008, provided to the Plan's administrator is complete and accurate.

As described in Note 1, these financial statements were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Because of the significance of the information that we did not audit, we are unable to express, and do not express, an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by John Hancock Life Insurance Company (U.S.A.), have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

LAWSON INDUSTRIES, INC. 401(K) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting - The financial statements are prepared on the modified cash basis of accounting. Except for assets and liabilities which arise from cash transactions and appreciation (depreciation) on investments, revenue is recognized when received rather than when earned and expenses are recognized when paid rather than when the obligation is incurred. Current year contributions withheld and paid by the Companies by December 31, including the Companies' matching contributions, are included in contributions.

Investment contracts (the guaranteed interest accounts) held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in a common trust fund. The Statement of Net Assets Available for Benefits presents the fair value of the investment in the guaranteed interest accounts as well as the adjustment of the investment from fair value to contract value relating to the investment contract. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

New Accounting Pronouncements - During 2009, the Financial Accounting Standards Board (FASB) established the FASB Accounting Standards Codification as the official source of authoritative generally accepted accounting principles (GAAP) for all non-governmental entities. The Codification, which changes the referencing of financial standards, supersedes current authoritative guidance and is effective for financial periods ending after September 15, 2009. Although the Plan's financial statements were prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than GAAP, the Plan is nonetheless required to provide any relevant disclosures for which GAAP would require disclosure, or convey the substance of any disclosures required by GAAP. The Codification is not intended to change or alter existing GAAP and it is not expected to result in a change in accounting practice for the Plan.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

New Accounting Pronouncements (continued)

In September 2009, the FASB issued Accounting Standards Update (ASU) No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which amends the *Fair Value Measurements and Disclosures* Topic of the FASB ASC to permit the use of net asset value per share, without further adjustment, to estimate the fair value of investments in investment companies that do not have readily determinable fair values. The net asset value per share must be calculated in a manner consistent with the measurement principles of the *Financial Services - Investment Companies* Topic of the FASB ASC and can be used by investors in investments such as common collective trusts, hedge funds, private equity funds, venture capital funds and real estate funds. If it is probable the investment will be sold for an amount other than net asset value, the investor would be required to estimate the fair value of the investment considering all of the rights and obligations of the investment and any other market available data. In addition, the accounting update requires certain enhanced disclosures for the investments within its scope. The accounting guidance in ASU No. 2009-12 is effective for periods ending after December 15, 2009. The adoption of this guidance did not have an impact on the Plan's financial statements.

Investments - The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price).

Purchases and sales of investments are reflected on a trade date basis. Dividend and interest income are recorded on the accrual basis.

Plan Administration - The Plan is maintained under a trust agreement and the Plan Administrator is the board of trustees. John Hancock Life Insurance Company (U.S.A.) manages the Plan's operations and administration and has custody of the Plan's assets. Benefits Outsource handles preparation of tax filings and tax compliance.

Employer Paid Expenses - The Plan sponsor provides and pays certain management, administrative and auditing services to the Plan without charge or reimbursement.

Estimates - The preparation of financial statements requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Subsequent Events - Subsequent events have been evaluated through September 28, 2010, which is the date the financial statements were available to be issued.

NOTE 2. DESCRIPTION OF THE PLAN

The Lawson Industries, Inc. 401(k) Plan and Trust, established January 1, 2002, has been adopted by two related companies collectively referred to herein as the "Companies": Lawson Industries, Inc. and Sunco Plastics, Inc. The Plan was established to provide employees of the Companies with the opportunity to save for retirement on a tax-deferred basis. The Plan is financed by contributions from the participants and voluntary contributions by the Companies, and by net earnings of the investments of the Plan. The Plan is a defined contribution plan covering all nonunion employees who have at least 1 year of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Participants may elect to voluntarily defer up to 18 percent of their pretax annual base compensation. The percentage of their total compensation deferral may not exceed the limitations prescribed by law. Rollovers from another employer's qualified retirement plan are accepted. The Companies, at their discretion, may match the participant's elective deferral contributions not to exceed 5.0% of the participant's compensation. Additional profit sharing contributions are made at the option of the Companies.

Each participant's account is credited with the participant's contribution and any employer matching contribution. Plan earnings or losses are allocated on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Contributions to the Plan are invested as directed by the participant in various insurance contract pooled separate accounts, guaranteed interest accounts and a money market fund. Participants must evaluate their own investment goals and objectives and choose the investments best suited to achieve their goals and objectives.

Poor investment performance by the investment accounts selected by the participants may cause their vested balances to be lower than the amounts contributed to the Plan on their behalf.

Participants are immediately vested in their voluntary compensation deferrals plus actual earnings thereon. Participants become 20 percent vested in the Companies' contributions plus actual earnings thereon after 2 years of service with an additional 20 percent for each year thereafter, achieving 100 percent vesting after 6 years of service. Participants' accounts become fully vested upon retirement, permanent disability or death. Forfeited nonvested accounts are used to reduce administrative expenses of the Plan first and any excess will reduce future employer contributions.

The Plan provides for loans to the participants. The maximum loan is the lower of $50,000 or 50 percent of a participant's vested account balance. There is a minimum loan amount of $500. Five years is the maximum length of the loan, unless it qualifies as a home loan, which may be for a reasonable period of time in excess of 5 years. The balance of the loans outstanding at December 31, 2009 and 2008 were $42,690 and $103,203 with interest rates ranging approximately from 5.00 percent to 6.00 percent.

Participants should refer to the summary plan description for more information.

In February 2009, the Plan was amended to suspend both employer and employee contributions. Such suspension shall remain in effect indefinitely or until lifted by the Plan sponsor.

NOTE 3. PRIORITIES UPON TERMINATION

Although it has not expressed any intent to do so, the Companies as the Plan sponsor have the right to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 4. TAX STATUS

The Internal Revenue Service has issued a determination letter indicating that the Plan (a prototype plan), as designed, is a qualified plan under Internal Revenue Code Section 401(a). Management believes that the Plan, as designed, is being operated in accordance with applicable regulations and, therefore, is exempt from federal income taxes under Section 501(a) of the Internal Revenue Code.

The Plan files Form 5500, *Annual Return/Report of Employee Benefit Plan*, which is subject to examination by the Internal Revenue Service until the applicable statue of limitation expires.

NOTE 5. INVESTMENTS

The following summary presents the aggregate fair value for each of the Plan's investment categories. Individual investments that represent 5% or more of the Plan's net assets available for benefits are separately identified.

	2009	2008
Insurance contract pooled separate accounts:		
Lifestyle Conservative Fund	$ 68,495	$ 64,550
Lifestyle Balanced Fund	432,637	373,326
Lifestyle Growth Fund	96,249	98,490
JPM Mid Cap Value Fund	129,717	63,993
Others	210,085	155,668
Guaranteed interest accounts:		
3 Year Compound	48,859 *	101,329
Other	12,481	2,227
Money market fund:		
Manulife Money Market Fund	91,467	97,107
Participant loans	42,690	103,203
Total	$ 1,132,680	$ 1,059,893

* not a 5% holding

NOTE 5. INVESTMENTS (CONTINUED)

Net appreciation of $214,055 and net depreciation $412,424 as of December 31, 2009 and 2008, respectively is due to insurance contract pooled separate accounts activity.

The Plan invests in various insurance contract pooled separate accounts and guaranteed interest accounts. These investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 6. FAIR VALUE MEASUREMENTS

The Plan prepares its financial statements on the modified cash basis of accounting. Because one of the modifications to the cash basis that the Plan has made is to carry its investments at fair value, the *Fair Value Measurements and Disclosures* Topic of the FASB Accounting Standards Codification, which establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, has been implemented by the Plan. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurement

Level 1	Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities
Level 2	Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly
Level 3	Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In April 2009, FASB updated its guidance on fair value measurements and disclosures to clarify that for equity and debt securities, *major category* should be defined as major security type, based on the nature and risks of the security. In determining whether disclosure for a particular security type is necessary and whether it is necessary to further separate a particular security type into greater detail, all of the following should be considered: the activity or business sector, vintage, geographic concentration, credit quality, or economic characteristic. Because the requirements of this updated guidance need not be applied retrospectively, the 2008 security types have not been separated into greater detail.

NOTE 6. FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth, by level within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2009 and 2008. As required, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. At December 31, 2009 and 2008 the Plan held no assets at fair value classified within Level 3.

	Fair Value Measurements at Reporting Date Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Total	$ 1,059,893	$ -	$ 1,059,893	$ -

NOTE 6. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 Measurements

Insurance contract pooled separate accounts represent investments with an investment manager. The respective fair values of these investments are determined by reference to the accounts' underlying assets, which are principally marketable equity and fixed income securities. Units held in the insurance contract pooled separate accounts and guaranteed interest accounts are valued at the unit value as reported by the investment manager as of December 31, 2009 and 2008. Investments in insurance contract pooled separate accounts consist primarily of Lifestyle holdings. Redemptions are available on a daily basis without notice.

Money market funds and participant loans are valued at cost which approximates their fair value.

NOTE 7. INFORMATION CERTIFIED BY JOHN HANCOCK LIFE INSURANCE COMPANY (U.S.A.) (UNAUDITED)

The following is a summary of the unaudited information regarding the Plan included in the Plan's financial statements that was prepared or derived from information provided by John Hancock Life Insurance Company (U.S.A.). The Plan has obtained certification from John Hancock Life Insurance Company (U.S.A.) that such information is complete and accurate for the years ended December 31, 2009 and 2008.

	2009	2008
Statement of Net Assets Available for Benefits:		
Insurance contract pooled separate accounts	$ 937,183	$ 756,027
Guaranteed interest accounts at contract value	$ 61,340	$ 103,556
Guaranteed interest accounts at fair value	$ 62,663	$ 103,570
Money market fund	$ 91,467	$ 97,107
Participant loans	$ 42,690	$ 103,203
Statement of Changes in Net Assets Available for Benefits:		
Net appreciation (depreciation) in fair value of investments	$ 214,055	$ (412,424)

NOTE 8. GUARANTEED INTEREST ACCOUNTS

The Plan has entered into a benefit-responsive investment contract with John Hancock Life Insurance Company (U.S.A.) who maintains the contributions in a separate account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the statement of net assets available for benefits at fair value as determined using the market approach. The adjustment from fair value to contract value for the investment contract is based on the contract value as reported to the Plan by John Hancock Life Insurance Company (U.S.A.). Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The Plan may ordinarily direct the withdrawal or transfer of all or a portion of its investment at contract value.

The contract value of the guaranteed interest accounts at December 31, 2009 and 2008 was $60,017 and $103,542 respectively. The crediting interest rate at December 31, 2009 and 2008 is 3.40% and 3.35% respectively. The average composite yield rate at December 31, 2009 and 2008 is 4.90% and 3.63% respectively.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with John Hancock Life Insurance Company (U.S.A.). The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

NOTE 9. NET ASSETS AVAILABLE FOR BENEFITS

The reported net assets available for benefits at December 31, 2009 of $1,146,496 include $1,131,357 in participant account balances. The remaining $15,139 represents the unallocated portion of net assets available for benefits.

The reported net assets available for benefits at December 31, 2008 of $1,070,186 include $1,059,879 in participant account balances. The remaining $10,307 represents the unallocated portion of net assets available for benefits.

NOTE 10. PROHIBITED TRANSACTIONS

The Companies withhold participants' contributions at the time each weekly payroll is prepared. Government regulations require that such employee contributions become plan assets as soon as they become reasonably segregated and must be remitted at that time (the earliest date rule). During the years ended December 31, 2009 and 2008, an instance was noted during each year where the contributions to the Plan were made late and did not meet the timeliness requirement of Labor Regulation 2520.3-102 and, therefore, constitutes a prohibited transaction with a party-in-interest.
