TEAM AIR EXPRESS, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the Team Air Express Inc. 401(k) Plan (the Plan) provides only general information. The Plan is sponsored by Team Air Express, Inc. (the Company). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, established on November 1, 1990, as amended from time to time, covering all employees of the Company. Employees are eligible to participate on the first day of the Plan on the next semi-annual entry date (January or July) after completing twelve consecutive months of service and having attained the age of 21. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as well as all provisions of the federal income tax laws.

The Plan was amended effective May 1, 2009 to allow forfeitures to be applied to Plan expenses.

Contributions

Participants may make tax-deferred contributions to the Plan not to exceed the amount deductible for federal income tax purposes. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may contribute to the Plan by making a matching contribution equal to a uniform percentage of salary deferrals, which percentage will be determined each year at the option of the Company. The Company may also make an additional contribution equal to a percentage of participant compensation.

Participant Accounts

Each participant's account is credited with the participant's tax-deferred contributions, the allocable share of employer contributions, if any, and Plan earnings or losses on the assets of their self-directed investment funds. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their deferred salary contributions, rollover contributions from other plans and actual earnings thereon. Vesting in the Company's matching contributions and profit sharing contributions, if any, of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested upon retirement, permanent disability, death or reaching retirement age while employed by the Company. If a participant separates from the employment of the Company, a participant shall be vested based upon the following schedule:

Years of Vesting Service	Percentage Vested
Less than 1	0%
1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Investment Options

Upon enrollment in the Plan, a participant may direct the contributions made to the Plan, by or on behalf of the participant, to any one or more of the investment funds provided by the custodian of the Plan's assets. A participant may at any time change his or her investment direction with respect to future contributions or redirect the investment of his or her account balances.

Participant Loans

Participants who are active employees may borrow against their vested account balances a minimum of $1,000 up to a maximum amount equal to the lesser of 50% of their vested account balance or $50,000. The loans are secured by the balances in the participant's account, and bear interest at reasonable rates, which are commensurate with local prevailing rates as determined by the plan administrator. Only three loans may be outstanding at any one time. Principal and interest on participant loans are repaid through payroll deductions and generally repaid within five years.

Payment of Benefits

All distributions from the Plan will be made in one lump-sum payment in cash equal to the value of the participant's vested interest in his or her account balance. If a participant's vested benefit in the Plan exceeds $5,000, the participant must consent to the distribution before it may be made. If the participant's vested interest does not exceed $5,000, then the participant's benefit will be distributed in a lump-sum as soon as practicable following the event that led to the participant being entitled to a distribution.

Plan Expenses

During the year ended December 31, 2009, the Plan incurred $1,000 of asset sales charges directly with its custodian and $15,612 of administrative fees. These charges are reflected in the accompanying statement of changes in net assets available for plan benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in mutual funds are stated at fair value, which generally is the quoted market prices, representing the net assets of shares held by the Plan at December 31, 2009 and 2008. Participant loans are valued at their unpaid principal balance, which approximates their fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis with dividends being recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on its investments bought and sold as well as those held during the year.

Forfeited Accounts

Before May 1, 2009, forfeitures were used to reduce the employer's matching contribution to the Plan. During the year ended December 31, 2009 and 2008, forfeitures of $0 and $9,182, respectively, were used to reduce employer matching contributions. Effective May 1, 2009, forfeitures may also be used to pay Plan expenses. During the year ended December 31, 2009 forfeitures of $11,821 were used to pay for Plan expenses. At December 31, 2008, unallocated forfeitures available to pay for future employer matching approximated $17,400. At December 31, 2009, unallocated forfeitures available to pay for future Plan expenses or to pay future employer matching approximated $14,500.

Payment of Benefits

Benefits are recorded when paid.

Subsequent events

In preparing the financial statements, the Plan has reviewed, as determined necessary by the Plan's management, events that have occurred after December 31, 2009, up until the issuance of the financial statements, which occurred on September 17, 2010.

3. INVESTMENTS HELD BY THE PLAN

All contributions and rollovers made to the Plan, and earnings thereon, are held in various mutual funds through the custodian of the Plan's assets, Capital Bank & Trust Company. The custodian determines the fair market value of all assets of the Plan on the basis referred to in Note 2. Individual investments with market values greater than 5% of net assets available for plan benefits at December 31, 2009 and 2008 are as follows:

Investment	2009	2008
American Funds Fundamental Invest-A	$ 767,068	$ 575,133
American Funds Bond Fund of Amer-A	390,184	353,583
American Funds EuroPacific Growth-A	1,569,427	1,267,359
American Funds Growth Fnd of Amer-A	1,312,971	1,274,653
American Funds Investment Co Amer-A	845,072	656,378
American Funds Cap Wld Growth Inc-A	298,731	255,437
	5,183,453	4,382,543
Other investment funds individually not more than 5% of net assets available for plan benefits	402,903	473,827
	$ 5,586,356	$ 4,856,370

During the year ended December 31, 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by approximately $1,300,000.

4. FAIR VALUE MEASUREMENTS

Statement of Financial Accounting Standards Board Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for Plan assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

Assets at Fair Value as of December 31, 2009

	Level 1	Level 2	Level 3	Total

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the plan termination, participants will become 100 percent vested in their account balances.

6. REPORTABLE TRANSACTIONS

There were no reportable transactions, loans in default or uncollectible, non-exempt transactions with parties-in-interest or any other prohibited transactions which would require supplemental presentation under Department of Labor rules and regulations.

7. TAX STATUS

The Plan is a Prototype Non-standardized Profit Sharing Plan with Cash or Deferred Arrangement (CODA). The Internal Revenue Service has determined and informed the sponsor of the plan by a letter dated March 31, 2008, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC). However a determination letter from the Internal Revenue Service has not yet been requested by the Plan Sponsor/Company to determine if the Plan as amended was designed in accordance with applicable sections of the IRC. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and ERISA and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

8. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for plan benefits.
