To the Plan Administrator
Rockwood Manufacturing Company, Inc.
401(k) Profit Sharing Plan
Rockwood, Pennsylvania

We were engaged to audit the financial statements of Rockwood Manufacturing Company, Inc. 401(k) Profit Sharing Plan as of December 31, 2009 and 2008, and for the year ended December 31, 2009, and the supplemental schedule as of December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information identified in Note 6, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ROCKWOOD MANUFACTURING COMPANY, INC.
401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

NOTE 1 - PLAN DESCRIPTION

The following description of Rockwood Manufacturing Company, Inc. 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Rockwood Manufacturing Company, Inc. (Company). Employees become eligible to participate in the Plan upon completion of one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to twenty percent (20%) of pretax annual compensation, as defined in the Plan, not to exceed certain IRS limits.

The Company may make a discretionary match which can be adjusted on an annual basis. For the year ended December 31, 2009, the Company's matching contribution was based on 50 percent of the participant's elective deferral, not to exceed three percent of the participant's pretax annual compensation. In addition, the Company contributes a discretionary contribution equal to 3 percent of each eligible participant's annual compensation, subject to certain IRS limitations. The Company's discretionary contribution amounted to \$193,500 for the year ended December 31, 2009.

Participants who have attained age 50 by the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants may direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts as well as an investment contract with an insurance company as investment options.

Participant Accounts

Each participant's account is credited with (a) the participant's contribution and related employer matching contribution, (b) an allocation of the Company's discretionary contribution, (c) investment earnings and administrative fees, and (d) an allocation of forfeitures of terminated participant's nonvested amounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are always fully vested in their voluntary contributions, rollover contributions, and any earnings thereon. Vesting in the remainder of their account is earned in accordance with the following six year graded schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans are secured by the vested balance in the participant's account and are charged interest at a rate comparable to rates charged by area banks for similar loans. Loans must be repaid within five years. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service, a participant may elect to receive either a lump sum distribution or an annuity. Participants with account balances of less than \$5,000 upon termination will automatically receive a lump sum distribution. Upon reaching age 59 1/2, participants may elect to receive in-service withdrawals. The Plan also maintains a provision for hardship withdrawals.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited nonvested accounts totaled \$12,695 and \$1,656, respectively. The forfeited amounts are used to reduce administrative fees or reduce employer contribution paid by the plan sponsor.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a description of the valuation methodologies used for assets measured at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Administrative expenses are paid by the Company and the Plan.

Subsequent Event Evaluation

The Plan has evaluated subsequent events through September 21, 2010, the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

The following table presents the fair value of Plan's investments. Investments that represent 5% or more of the Plan's net assets are separately identified. All investments are participant directed.

Pooled Separate Accounts	\$ 1,008,348
Guaranteed Interest Accounts	<u>(9,453)</u>
	<u>\$ 998,894</u>

NOTE 4 - FAIR VALUE MEASUREMENTS

The Plan performs fair value measurements in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, which defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance. ASC 820 also establishes a fair value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy establishes three levels of inputs that may be used to measure fair value:

- Level 1 – inputs are unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 - inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or
- Level 3 - unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Pooled separate accounts: The Plan's investments in pooled separate accounts are valued based on the net asset value (NAV) of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a pooled separate account is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. Accordingly, the NAV is generally classified within level 2 of the valuation hierarchy. However, the fair values of certain pooled separate accounts operating under withdrawal restrictions are classified within level 3 of the valuation hierarchy as participants may not be able to take distributions equal to the NAV of the fund.

Investment Contract with Insurance Company: The investment contract with the insurance company is part of Principal Life Insurance Company's Group Annuity Contract. The contract is not benefit-responsive and is stated at fair value. The fair value of the investment contract represents the contract value of the investment net of surrender or early withdrawal charges.

Participant loans: Valued at their outstanding balances, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a non benefit-responsive guaranteed interest account with Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The guaranteed interest account is non benefit-responsive and is therefore stated at fair value in the accompanying statements of net assets available for benefits. The guaranteed account promises contract value for a benefit event, such as termination, death, disability, or retirement. However, there is a market value adjustment or surrender charge when funds are withdrawn prior to maturity or for a non-benefit event, such as a withdrawal from the account for a change in investment option. The investment contract has various maturity dates ranging from December 31, 2009 through December 31, 2015 and provides for interest rates ranging from 1.05% to 4.50%.

NOTE 6 - RELIANCE ON INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Under that section, no auditing procedures are required to be performed with respect to information certified by the custodian of the Plan, Principal Life Insurance Company, other than comparing such information to that contained in the financial statements and supplemental schedule. Accordingly, the amounts included in the financial statements and Note 3 and Note 4 as of December 31, 2009 and 2008, and for the year ended December 31, 2009 and the supplemental schedule as of December 31, 2009 have been prepared from statements certified as complete and accurate by the custodian in accordance with DOL regulation 29 CFR 2520-103-8.

NOTE 7 - TAX STATUS

The Plan adopted a non-standardized form of a prototype plan sponsored by Principal Life Insurance Company. The prototype plan has received an opinion letter from the Internal Revenue Service dated March 31, 2008, as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The prototype plan has been amended since receiving the determination letter. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities held by the Plan, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

The Plan invests in the Principal Life Insurance Company U.S. Property Separate Account. In September, 2008, Principal Life Insurance Company established a contractual limitation (queue) that delays payment on certain withdrawal requests. The US Property Separate Account invests in various forms of real estate. The queue does allow those wanting to leave the Separate Account to receive their withdrawal amounts over time in a manner that does not compromise the strategic objectives of the separate account or the other investors. It also protects those who remain in this separate account from being harmed by a lack of cash to operate and preserve the real estate assets, or by sales at inappropriate prices. As the fund liquidates and generates cash, distributions are made on a pro-rata basis to all investors subject to the limitation regardless of when the distribution requests were submitted.

NOTE 9 - RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Principal Life Insurance Company, the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

NOTE 10 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTE 11 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
