NOTE A - DESCRIPTION OF PLAN

The following description of Elliott Electric Supply, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. For a more complete description of the Plan's provisions, refer to the Plan agreement.

1. General. The Plan is a defined contribution plan, covering all full-time employees of the Company who have completed six months of service and have reached age twenty and one-half (amended to read twenty or older beginning in 2015). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

2. Contributions and Forfeitures. Each year, the Company may contribute to the Profit Sharing portion of the Plan an amount determined by management.

   Additionally, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company makes a discretionary matching contribution of 50% of the first 6% that a participant contributes to the Plan. The Company shall set such percentage prior to the end of the plan year. Contributions are subject to certain limitations.

   Contributions and forfeitures are allocated based on compensation.

   The amount of unallocated forfeitures at December 31, 2018 and 2017 was $616 and $909, respectively. In 2014 the Plan was amended, and forfeitures that have not been used to pay administrative expenses or used to reduce employer contributions are to be allocated to participants as of the last day of the Plan year in which such forfeitures are determined.

   The following table provides details of the forfeiture balance for the years ended December 31, 2018 and 2017:

Balance December 31, 2016	$	306
Investment earnings		1 285
Forfeitures		26 690
Used to reduce employer contributions		(27 372)
Allocated to participants		-
Balance December 31, 2017		909
Investment earnings		(1 326)
Forfeitures		44 640
Used to reduce employer contributions		(43 590)
Used to pay administrative expenses		(17)
Balance December 31, 2018	$	616

3. Participant Accounts. Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on compensation and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

A&R | AXLEY&RODE LLP CERTIFIED PUBLIC ACCOUNTANTS

NOTE A - DESCRIPTION OF PLAN - CONTINUED

4. Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the company contributions portion of their accounts plus earnings thereon is based on years of credited service. A participant is 100 percent vested after six years of credited service.

5. Payment of Benefits. On termination of service due to death, disability or retirement, a participant may receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

6. Investment Options. Participants direct the investment of both their contributions and the employer contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, various pooled separate accounts and a stable value fund as investment options for participants. Participants may change their investment options daily.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in all material respects.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/ (depreciation) includes the plan's gains and losses on investment bought and sold as well as held during the year.

Excess Contributions Payable

Excess Contributions Payable to participants for the year ended December 31, 2018 and 2017 amounted to $345,984 and $422,049, respectively. These contributions are in excess of amounts allowed by the IRS and are recorded as a payable, with a corresponding reduction to 2018 and 2017 contributions. The Plan distributed the 2018 and 2017 excess contributions prior to March 15, 2019 and 2018, respectively.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements.

Risk and Uncertainties

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE B - SUMMARY OF ACCOUNTING POLICIES - CONTINUED

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through July 12, 2019, the date that the financial statements were available to be issued, and there have been no material events that would require recognition in these financial statements or disclosure in the notes to these financial statements.

NOTE C - FAIR VALUE MEASUREMENTS (UNAUDITED)

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurements authoritative literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1, Level 2, and Level 3. The Plan uses appropriate valuation techniques based on the available inputs to measure fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date. Investments whose values are based on quoted market prices in active markets, and whose values are therefore classified as Level 1 prices, include active listed equities and mutual funds.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for valuing the asset or liability, either directly or indirectly (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.). As of December 31, 2018 and 2017, the Plan had no Level 2 investments.

Level 3 are inputs that are unobservable inputs for the asset or liability. Investments whose values are classified as Level 3 prices have significant unobservable inputs, as they may trade infrequently or not at all. When observable prices are not available for these securities, the funds use one or more valuation techniques for which sufficient and reliable data is available. As of December 31, 2018 and 2017, the Plan had no Level 3 investments.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

1. Pooled Separate Accounts - Accounts are valued at a calculated unit value that is based on the observable net asset value of the underlying mutual funds.

2. Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held (registered investment company) by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE C - FAIR VALUE MEASUREMENTS (UNAUDITED) - CONTINUED

3. Stable Value Collective Investment Trust Fund - A stable value fund that is composed primarily of fully benefit-responsive investment contracts that are valued at the net asset value which is based on contract value. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 1 day notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits at December 31, 2018 and 2017.

		FAIR VALUE MEASUREMENTS AT REPORTING DATE USING		
	TOTAL	LEVEL 1	LEVEL 2	LEVEL 3
December 31, 2018:

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

There were no transfers between Level 1 and Level 2 for the period presented.

The following table for December 31, 2018 sets forth a summary of the Plan's investments with a reported NAV:

NOTE D - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE E - TAX STATUS

The Internal Revenue Service has issued an opinion and informed Principal Life Insurance Co. by letter dated March 31, 2014, that this Prototype Plan is acceptable under section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. The Plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that, more likely than not, would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities however, there are currently no audits for any tax periods in progress.

NOTE F - ADMINISTRATION OF PLAN ASSETS

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee (or the Company) receives compensation from the Plan. The Company also pays a portion of the Plan's administrative expenses.
