INDEPENDENT AUDITORS' REPORT

Gulf Coast Primary Home Care I, Sponsor
Gulf Coast Primary Home Care I 401(K) Profit Sharing Plan & Trust
Angleton, Texas

We were engaged to audit the accompanying statements of net assets available for benefits of the Gulf Coast Primary Home Care, I 401(K) Profit Sharing Plan & Trust as of December 31, 2009, the related statement of changes in net assets available for benefits for the year then ended, and the supplemental schedules of assets held for investment purposes and transactions in excess of 5 percent of the current value of plan assets as of and for the year ended December 31, 2009. These financial statements and supplemental schedules are the responsibility of the Plan's Trustees. Our responsibility is to express an opinion on these financial statements and supplemental schedules based on our audit.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator has instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Mid Atlantic Trust Company (Mid Atlantic), the investment custodian of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedules. We have been informed by the Plan administrator that the investment custodian holds the Plan's investment assets and execute investment transactions. The Plan administrator has obtained certification from the investment custodian as of and for the year ended December 31, 2009, that the information provided to the Plan administrator by the investment custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the Plan's financial statements as of December 31, 2009. The form and content of the information included in the 2009 financial statements, other than that derived from the information certified by the investment custodian, have been audited by us, and in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee's Retirement Income Security Act of 1974.

Except as discussed in the above paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements, referred to above, of Gulf Coast Primary Home Care I 401(K) Profit Sharing Plan & Trust as of December 31, 2008, and the year then ended present fairly, in a material respects, the net assets available for benefits of Gulf Coast Primary Home Care I 401(K) Profit Sharing Plan & Trust as of December 31, 2008, and changes in net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit of the Plan's financial statements as of and for the year ended December 31, 2008, was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedule assets held for investment purposes and schedule of reportable transactions together referred to as "supplemental information," as of and for the year ended December 31, 2008, are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental information is the responsibility of the Plan's management. The supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended December 31, 2008, and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTE 1 - PLAN DESCRIPTION

The following description of the Gulf Coast Primary Home Care, I 401(K) Plan & Trust (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision.

General

The Plan is a defined contribution plan covering all employees of the Gulf Coast Primary Home Care I Inc., IPH Healthcare Services, Inc. and IPH Hospice Care Inc. (The Companies), who have completed one year of service and attained the age of 21. The Plan became effective January 1, 2005 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Companies contributes through the Safe Harbor Cash or Deferred Arrangement provision, on behalf of each participant, an amount elected by the participant in his or her salary modification agreement. Participants can elect to contribute a percentage of their compensation to the Plan, subject to limitations contained in Internal Revenue Code Section 415, which generally apply to highly compensated employees. The Plan also provides for discretionary employer contributions.

Participant Accounts

Each participant's account is credited with participant's contributions and an allocation of the Company's contribution and Plan earnings. Each participant's account is also charged with an allocation of administrative expenses. Allocations of Plan earnings are based upon the ratio of each participant's average account balance to the total of all participants' average account balances.

Participant Loans

Participants may borrow from their available account balance. The loans are secured by the balance in the participant's account and commensurate with prevailing rates upon issuance of loan. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Benefits are distributed upon termination, retirement or attainment of age of 59 ½. Normal retirement age under the Plan is sixty-five. Benefits are normally paid in a lump sum.

Vesting

Participants are immediately vested in their contributions plus actual earnings. Vesting in the Company's contributions is immediately set at 100 percent.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Plan have been prepared in conformity with generally accepted accounting principles in the United States as applied to employee retirement Plans and in accordance with the terms of the trust agreement. The Plan is designed to hold and invest Plan assets for retirement benefits of the Plan participants.

Basis of Accounting

The Plan's financial statements are prepared using the accrual basis of accounting. Employee contributions are recognized as revenues in the period in which salaries are earned. Employer discretionary contributions are recognized as revenues in the period in which determined. Benefits payable are recognized when due and payable in accordance with terms of the plan.

Valuation of Investments

Investments are stated at fair value based on quoted market prices (level one) in an active market. The fair value of investments in investment company funds is based upon quoted market values. Participant loans are valued at their outstanding balance, which approximates fair value. Gains and losses on the sale of investments are computed using the quoted market value at the time of the sale.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Administrative Expenses

Administrative expenses are paid by the Plan unless paid by the Companies.

NOTE 3 – INFORMATION CERTIFIED BY INVESTMENT CUSTODIAN

Investment assets of the Plan are mainly held by Mid Atlantic Trust Company (Mid Atlantic) in pooled separate accounts. Those investments, included in these financial statements, have been certified by Mid Atlantic as to their completeness and accuracy, including the respective changes in net assets available for plan benefits. Certain reclassifications and adjustments representing accruals for receivables and payables have been made to the certified amounts to conform to generally accepted accounting principles in the United States. Amounts included in these financial statements, which have been certified are $451,686 at December 31, 2009. Amounts included in these financial statements have not been certified at December 31, 2008.

NOTE 4 - INVESTMENTS

At December 31, 2009, the Plan's investments are accounted for in pooled separate funds. The following table presents the estimated fair values of investments. Pooled investments of the Plan are participant-directed. The Plan currently sponsors 18 investment funds for participants. Participants are allowed to change their investment election at their discretion by phone or the internet. Investments that represent 5 percent or more of the Plan's net assets are separately identified.

The Plan's investments appreciated and depreciated in value by $42,309 and ($33,289) in 2009 and 2008, respectively. This included gains and losses on investments bought and sold, as well as held during the year.

NOTE 5 - PLAN TERMINATION

The Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination or complete discontinuance of contributions, participants will become 100 percent vested in their accounts.

NOTE 6 –TERMINATED EMPLOYEE

The Plan has a "cash out" provision whereby the Plan can distribute the vested account balance for terminated participants with account balances of $5,000 or less. The Plan had eight terminated participants with account balances of $7,193 at December 31, 2009. The Plan had one terminated participant with account balances of $888 at December 31, 2008.

NOTE 7 – TAX STATUS

The plan obtained its latest determination letter on November 26, 2001, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 – RECONCILIATION OF FORM 5500 TO FINANCIAL STATEMENTS

The following is a reconciliation net assets available for benefits and benefits payable per the financial statements to the Form 5500:

Benefit payments on Form 5500:	$ --	$ --
Plus: Accrual for benefits payable	7,193	888
Benefits payable on financial statements	$ 7,193	$ 888

NOTE 10 – PLAN AMENDMENTS

The Plan was amended on October 22, 2007 and effective January 1, 2008 to revise the plan's entry dates. The plan now requires entry into the plan on the January 1st and July 1st.

NOTE 11 – FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (FASB) issued FASB ASC 820-10-50-1 (prior authoritative literature: SFAS No. 157, "Fair Value Measurements"). FASB ASC 820-10-50-1 establishes a framework for measuring fair value and expands disclosures about fair value measurements. FASB ASC 820-10-50-1 clarifies the definition of exchange price as the price between market participants in an orderly transaction to sell an asset or liability in the market in which the reporting entity would transact for the asset or liability, that is, the principal or most advantageous market for the asset or liability. The changes to current practice resulting from the application of this statement relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements.

NOTE 11 – FAIR VALUE MEASUREMENTS (continued)

FASB ASC 820-10-50-1 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. The price in the principal (or most advantageous) market used to measure the fair value of the asset or liability shall not be adjusted for transaction costs. An orderly transaction is a transaction that assumes exposure to the market for a period prior to the measurement date to allow for marketing activities that are usual and customary for transactions involving such assets and liabilities; it is not a forced transaction. Market participants are buyers and sellers in the principal market that are (i) independent, (ii) knowledgeable, (iii) able to transact, and (iv) willing to transact.

FASB ASC 820-10-50-1 requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets and liabilities. The income approach uses valuation techniques to convert future amounts, such as cash flows or earnings, to a single present amount on a discounted basis. The cost approach is based on the amount that currently would be required to replace the service capacity of an asset (replacement costs). Valuation techniques should be consistently applied. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability.

Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the assets or liability developed based on the best information available in the circumstances. In that regard, FASB ASC 820-10-50-1 establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

NOTE 11 – FAIR VALUE MEASUREMENTS (continued)

The fair value hierarchy is a follows:

- Level 1 Inputs – Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability at the measurement date.

- Level 2 Inputs – Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liability (for example interest rates, volatilities, credit risks and default rates) or inputs that are derived principally from or corroborated by observable market date by correlation or other means.

- Level 3 Inputs – Significant unobservable inputs that reflect an entity's own assumptions that market participants would use in pricing the assets or liabilities

Fair values of assets and liabilities measured on a recurring basis at December 31, 2009 and 2008 are as follows:

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Prices In Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2009

INDEPENDENT AUDITORS' REPORT

Gulf Coast Primary Home Care I, Sponsor
Gulf Coast Primary Home Care I 401(K) Profit Sharing Plan & Trust
Angleton, Texas

We were engaged to audit the accompanying statements of net assets available for benefits of the Gulf Coast Primary Home Care, I 401(K) Profit Sharing Plan & Trust as of December 31, 2009, the related statement of changes in net assets available for benefits for the year then ended, and the supplemental schedules of assets held for investment purposes and transactions in excess of 5 percent of the current value of plan assets as of and for the year ended December 31, 2009. These financial statements and supplemental schedules are the responsibility of the Plan's Trustees. Our responsibility is to express an opinion on these financial statements and supplemental schedules based on our audit.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator has instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Mid Atlantic Trust Company (Mid Atlantic), the investment custodian of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedules. We have been informed by the Plan administrator that the investment custodian holds the Plan's investment assets and execute investment transactions. The Plan administrator has obtained certification from the investment custodian as of and for the year ended December 31, 2009, that the information provided to the Plan administrator by the investment custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the Plan's financial statements as of December 31, 2009. The form and content of the information included in the 2009 financial statements, other than that derived from the information certified by the investment custodian, have been audited by us, and in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee's Retirement Income Security Act of 1974.

Except as discussed in the above paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements, referred to above, of Gulf Coast Primary Home Care I 401(K) Profit Sharing Plan & Trust as of December 31, 2008, and the year then ended present fairly, in a material respects, the net assets available for benefits of Gulf Coast Primary Home Care I 401(K) Profit Sharing Plan & Trust as of December 31, 2008, and changes in net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit of the Plan's financial statements as of and for the year ended December 31, 2008, was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedule assets held for investment purposes and schedule of reportable transactions together referred to as "supplemental information," as of and for the year ended December 31, 2008, are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental information is the responsibility of the Plan's management. The supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended December 31, 2008, and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTE 1 - PLAN DESCRIPTION

The following description of the Gulf Coast Primary Home Care, I 401(K) Plan & Trust (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision.

General

The Plan is a defined contribution plan covering all employees of the Gulf Coast Primary Home Care I Inc., IPH Healthcare Services, Inc. and IPH Hospice Care Inc. (The Companies), who have completed one year of service and attained the age of 21. The Plan became effective January 1, 2005 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Companies contributes through the Safe Harbor Cash or Deferred Arrangement provision, on behalf of each participant, an amount elected by the participant in his or her salary modification agreement. Participants can elect to contribute a percentage of their compensation to the Plan, subject to limitations contained in Internal Revenue Code Section 415, which generally apply to highly compensated employees. The Plan also provides for discretionary employer contributions.

Participant Accounts

Each participant's account is credited with participant's contributions and an allocation of the Company's contribution and Plan earnings. Each participant's account is also charged with an allocation of administrative expenses. Allocations of Plan earnings are based upon the ratio of each participant's average account balance to the total of all participants' average account balances.

Participant Loans

Participants may borrow from their available account balance. The loans are secured by the balance in the participant's account and commensurate with prevailing rates upon issuance of loan. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Benefits are distributed upon termination, retirement or attainment of age of 59 ½. Normal retirement age under the Plan is sixty-five. Benefits are normally paid in a lump sum.

Vesting

Participants are immediately vested in their contributions plus actual earnings. Vesting in the Company's contributions is immediately set at 100 percent.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Plan have been prepared in conformity with generally accepted accounting principles in the United States as applied to employee retirement Plans and in accordance with the terms of the trust agreement. The Plan is designed to hold and invest Plan assets for retirement benefits of the Plan participants.

Basis of Accounting

The Plan's financial statements are prepared using the accrual basis of accounting. Employee contributions are recognized as revenues in the period in which salaries are earned. Employer discretionary contributions are recognized as revenues in the period in which determined. Benefits payable are recognized when due and payable in accordance with terms of the plan.

Valuation of Investments

Investments are stated at fair value based on quoted market prices (level one) in an active market. The fair value of investments in investment company funds is based upon quoted market values. Participant loans are valued at their outstanding balance, which approximates fair value. Gains and losses on the sale of investments are computed using the quoted market value at the time of the sale.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Administrative Expenses

Administrative expenses are paid by the Plan unless paid by the Companies.

NOTE 3 – INFORMATION CERTIFIED BY INVESTMENT CUSTODIAN

Investment assets of the Plan are mainly held by Mid Atlantic Trust Company (Mid Atlantic) in pooled separate accounts. Those investments, included in these financial statements, have been certified by Mid Atlantic as to their completeness and accuracy, including the respective changes in net assets available for plan benefits. Certain reclassifications and adjustments representing accruals for receivables and payables have been made to the certified amounts to conform to generally accepted accounting principles in the United States. Amounts included in these financial statements, which have been certified are $451,686 at December 31, 2009. Amounts included in these financial statements have not been certified at December 31, 2008.

NOTE 4 - INVESTMENTS

At December 31, 2009, the Plan's investments are accounted for in pooled separate funds. The following table presents the estimated fair values of investments. Pooled investments of the Plan are participant-directed. The Plan currently sponsors 18 investment funds for participants. Participants are allowed to change their investment election at their discretion by phone or the internet. Investments that represent 5 percent or more of the Plan's net assets are separately identified.

The Plan's investments appreciated and depreciated in value by $42,309 and ($33,289) in 2009 and 2008, respectively. This included gains and losses on investments bought and sold, as well as held during the year.

NOTE 5 - PLAN TERMINATION

The Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination or complete discontinuance of contributions, participants will become 100 percent vested in their accounts.

NOTE 6 –TERMINATED EMPLOYEE

The Plan has a "cash out" provision whereby the Plan can distribute the vested account balance for terminated participants with account balances of $5,000 or less. The Plan had eight terminated participants with account balances of $7,193 at December 31, 2009. The Plan had one terminated participant with account balances of $888 at December 31, 2008.

NOTE 7 – TAX STATUS

The plan obtained its latest determination letter on November 26, 2001, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 – RECONCILIATION OF FORM 5500 TO FINANCIAL STATEMENTS

Benefit payments on Form 5500:	$ --	$ --
Plus: Accrual for benefits payable	7,193	888
Benefits payable on financial statements	$ 7,193	$ 888

NOTE 10 – PLAN AMENDMENTS

The Plan was amended on October 22, 2007 and effective January 1, 2008 to revise the plan's entry dates. The plan now requires entry into the plan on the January 1st and July 1st.

NOTE 11 – FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (FASB) issued FASB ASC 820-10-50-1 (prior authoritative literature: SFAS No. 157, "Fair Value Measurements"). FASB ASC 820-10-50-1 establishes a framework for measuring fair value and expands disclosures about fair value measurements. FASB ASC 820-10-50-1 clarifies the definition of exchange price as the price between market participants in an orderly transaction to sell an asset or liability in the market in which the reporting entity would transact for the asset or liability, that is, the principal or most advantageous market for the asset or liability. The changes to current practice resulting from the application of this statement relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements.

NOTE 11 – FAIR VALUE MEASUREMENTS (continued)

FASB ASC 820-10-50-1 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. The price in the principal (or most advantageous) market used to measure the fair value of the asset or liability shall not be adjusted for transaction costs. An orderly transaction is a transaction that assumes exposure to the market for a period prior to the measurement date to allow for marketing activities that are usual and customary for transactions involving such assets and liabilities; it is not a forced transaction. Market participants are buyers and sellers in the principal market that are (i) independent, (ii) knowledgeable, (iii) able to transact, and (iv) willing to transact.

FASB ASC 820-10-50-1 requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets and liabilities. The income approach uses valuation techniques to convert future amounts, such as cash flows or earnings, to a single present amount on a discounted basis. The cost approach is based on the amount that currently would be required to replace the service capacity of an asset (replacement costs). Valuation techniques should be consistently applied. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability.

Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the assets or liability developed based on the best information available in the circumstances. In that regard, FASB ASC 820-10-50-1 establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

NOTE 11 – FAIR VALUE MEASUREMENTS (continued)

The fair value hierarchy is a follows:

- Level 1 Inputs – Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability at the measurement date.

- Level 2 Inputs – Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liability (for example interest rates, volatilities, credit risks and default rates) or inputs that are derived principally from or corroborated by observable market date by correlation or other means.

- Level 3 Inputs – Significant unobservable inputs that reflect an entity's own assumptions that market participants would use in pricing the assets or liabilities

Fair values of assets and liabilities measured on a recurring basis at December 31, 2009 and 2008 are as follows:

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Prices In Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
