NOTES TO FINANCIAL STATEMENTS

Seaman Corporation
Thrift Incentive Plan

1 Description of Plan

The following description of The Seaman Corporation Thrift Incentive Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all eligible employees of Seaman Corporation who meet the requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was amended and restated as of January 1, 2005, to adopt a Safe Harbor provision.

The Plan was amended as of March 1, 2008, to make the Lifetime Balanced Fund the Qualified Default Investment Alternative.

The Plan was amended and restated as of April 1, 2008, to allow employees to begin making Roth contributions into the Plan.

Eligibility:

All part-time and full-time employees who have ninety days of service are eligible to participate in the Plan.

Contributions:

Cash or Deferred Option [401(k)] - Participants may elect between 1% and 40% of their compensation to be contributed to the Plan by the Company. In addition, eligible participants may make catch-up contributions in accordance with Internal Revenue Service guidelines.

Employer Contributions - The Company makes contributions to each eligible participant's account by matching an amount equal to $1.00 for each $1.00 contributed by the participant up to 3% of participant compensation and $.50 for each $1.00 of contributions over 3% up to 5%.

Rollover contributions from other Plans are also accepted, providing certain specified conditions are met.

Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code as defined in the Plan agreement.

1 Description of Plan, Continued

Participants' Accounts:

401(k) Accounts - Each participant's account is credited with the participant's elective contributions, employer matching contributions, earnings and losses thereon.

Vesting:

Participants are fully vested with respect to their contributions and income allocated to their account. For Company contributions made after January 1, 2005, the participants are fully vested. For Company contributions prior to 2005, the vesting schedule is as follows:

Years of Service	%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures:

Forfeited non-vested account balances are used to reduce employer contributions. Amounts used to reduce employer contributions amounted to $122 and $1,027 as of December 31, 2009 and 2008, respectively.

Participants' Loans:

Loans are permitted under certain circumstances and are subject to limitations. Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loans are repaid over a period not to exceed 5 years with exceptions for the purchase of a primary residence.

The loans are secured by the balance in the participant's account and bear interest at rates established by Prudential Retirement Insurance and Annuity Company. Principal and interest are paid ratably through monthly payroll deductions.

Other Plan Provisions:

Normal retirement age is 65.

1 Description of Plan, Continued

Payment of Benefits:

Upon termination of service by termination from employment, reason of retirement, death or total and permanent disability, a participant receives a lump sum amount or annuity equal to the vested account balance.

Investment Options:

Upon enrollment in the Plan, a participant may direct any contributions to any of the investment options offered by the Plan.

2 Tax Status

On July 28, 2004, the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue code. The Plan has been amended, however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

3 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Valuation of Investments:

Investments are stated at fair value. Investments in pooled separate accounts are valued based on the redemption price of units owned by the Plan, which is based on the current market values of the underlying assets of pooled separate accounts. The unallocated insurance contract is at contract value. The participant loans receivable are valued at their outstanding balances, which approximate fair value.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

3 Summary of Significant Accounting Policies, Continued

Valuation of Investments, Continued:

The Guaranteed Income Fund, which is a fully benefit-responsive contract, is presented at contract value on the Statement of Net Assets Available for Benefits as the contract value approximates the fair value and the adjustment of the fully benefit-responsive investment contract from fair value to contract value is immaterial to the financial statements. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Substantially all administrative fees are paid by Seaman Corporation.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Risks and Uncertainties:

The Plan's investment include investments in pooled separate accounts holding investment contracts and guaranteed income contracts with varying degrees of risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for Plan benefits.

4 Subsequent Event

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining and the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through September 9, 2010, which is the date the financial statements were available to be issued.

5 Fair Value Measurements

As defined in current accounting literature, fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. In determining fair value, the Plan utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable firm inputs. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the examination of the inputs used in the valuation techniques, the Plan is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

* Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
* Level 2: Inputs to the valuation methodology include:
    * Quoted prices for similar assets or liabilities in active markets:
    * Quoted prices for identical or similar assets or liabilities in inactive markets:
    * Inputs other than quoted prices that are observable for the asset or liability;
    * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
* Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

5 Fair Value Measurements, Continued

Guaranteed Income Fund

The fair value of the guaranteed income fund is based on the underlying assets of the contract. The fair value is expressed in units. The guaranteed income fund is classified in the Level 3 category of the valuation hierarchy.

Pooled Separate Accounts

The fair value of the pooled separate accounts are based on the net fair value of the underlying assets. The underlying investments are valued at fair value based on commercial quotation services. The fair value is allocated among the contract holders based on a unit value. These fall into the Level 2 category of the valuation hierarchy.

Loans to Plan participants

Loans to Plan participants are valued at cost, which approximates fair value and are classified within Level 3 of the valuation hierarchy.

The following table presents the financial instruments carried at fair value, on a recurring basis, as of December 31, 2009, by valuation hierarchy (as described above).
