Independent Auditor's Report

To the Plan Administrator
Geosyntec Consultants, Inc. and Subsidiaries 401(k) Retirement Plan

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of Geosyntec Consultants, Inc. and Subsidiaries 401(k) Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, the related statement of changes in net assets available for benefits for the year ended December 31, 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2018 and 2017, and for the year ended December 31, 2018, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter
The supplemental schedules of assets (held at end of year) as of December 31, 2018 and of delinquent participant contributions for the year ended December 31, 2018, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purposes of additional analysis and are not a required part of the financial statements. The supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following description of the Geosyntec Consultants, Inc. and Subsidiaries 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan, established under the provisions of the Internal Revenue Code (IRC). The Plan covers all regular employees of Geosyntec Consultants, Inc. and Subsidiaries (Company, Employer or Plan Sponsor) who have completed one month of eligible service and are age 20½ or older. In addition, the Plan automatically enrolls all participants in the Plan on their first day of eligibility at a contribution rate of 5% which increases by 1% per year until the participant reaches a 9% contribution rate. Participants may chose a different contribution rate (including 0%) at any time. Participants have the ability to adjust their salary deferrals during quarterly enrollment periods; changes become effective on January 1, April 1, July 1 and October 1. Participants may discontinue their deferrals at any time. The Plan Administrator is responsible for oversight of the Plan. The Investment Committee of the Plan Sponsor determines the appropriateness of the Plan's investment offerings and monitors investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan was restated effective December 7, 2018, changing it from an individually designed plan to a Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal) Volume Submitter pre-approved plan. The restatement also incorporated 2018 amendments to include a Roth deferral option and In-plan Roth rollovers as well as amendments that were effective prior to January 1, 2018.

Contributions: Each year, participants may make elective deferral contributions of up to 80% of pretax annual compensation, as defined in the Plan document, subject to maximum dollar limitations established by the IRC, as well as voluntary nondeductible contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company matches 100% of participant contributions up to the first 1% of the participant's eligible compensation, 50% of the next 4% of eligible compensation, and 25% of the remaining contribution up to a total of 9% of eligible compensation. Employee contributions are recorded in the period during which the Company makes payroll deductions from the Plan participants' earnings.

The Company may also make discretionary profit sharing contributions. These contributions are allocated as of the last day of the Plan year to each eligible participant by multiplying the contribution by the ratio of the sum of each participant's annual compensation, up to the integration level, plus two times the amount of such compensation in excess of the integration level, to the total of such amount for all eligible participants. Participants become eligible for the discretionary contribution after completing one year of service in which they worked 1,000 hours as defined by the Plan. Discretionary Company profit sharing contributions were $2,095,000 for the year ended December 31, 2018, and were funded to the Plan in February 2019.

Investment options: Upon enrollment in the Plan, participants may direct their contributions plus actual earnings thereon to various mutual funds, a collective trust fund, and/or pooled separate accounts. Participants may change their investment options at any time.

Participant accounts: Each participant's account is credited with the participant's contributions and the Plan Sponsor's matching contribution and allocations of any discretionary contributions and Plan earnings/losses, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. Plan Description (Continued)

Vesting: Participants are fully vested in their contributions plus actual earnings thereon. Participants vest in Company matching and discretionary profit sharing contributions based upon the following schedule:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A participant is 100% vested upon termination of service due to death or disability, or upon reaching normal retirement age, as defined in the Plan document. Upon termination of employment, the non-vested portion of a participant's account is forfeited unless the participant dies, is disabled or reaches normal retirement age.

Payment of benefits: Participants' vested account balances are payable upon termination, retirement, disability, death or upon request after age 59½. A participant who has attained age 59½ may withdraw any part of his vested account resulting from elective deferral, matching, discretionary and rollover contributions. A participant may make only two such withdrawals in any 12-month period. Upon termination of service, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account if the vested interest is not more than $5,000.

Forfeitures: Amounts forfeited by participants are used to offset required Company matching contributions. Any unallocated forfeitures at the end of the Plan year are available to be used in accordance with the Plan's provisions. In 2018, Employer contributions were reduced by approximately $310,000 through use of forfeitures. As of December 31, 2018 and 2017, unallocated forfeited accounts amounted to $7,192 and $13,807, respectively, and were used during the following Plan year.

Notes from participants: Participants may borrow up to 50% of their vested account balance, to a maximum of $50,000. All notes have a definite repayment period which provides for payments to be made not less frequently than quarterly, and for the note to be amortized over a reasonable period of time, not to exceed five years. Participants may be granted two notes during any one-year period, however, only one note may be outstanding at a time. The notes are collateralized by the vested balances in the participant's account. Interest rates vary depending on the prime rate of interest at the date of the loan, and are fixed during the term of the note. All outstanding notes bear interest between 5.25% and 7.50% as of December 31, 2018, and mature through November 2023. Note repayments are made by payroll deductions, and as notes are repaid, the repayments are reinvested in the participants' investment accounts.

Note 2. Significant Accounting Policies

Basis of accounting: The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results may differ from those estimates.

Note 2. Significant Accounting Policies (Continued)

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the trustee and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is reported when earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Notes from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make the scheduled repayments and the Plan Administrator deems the participant to be in default, the participant's note receivable is reduced and a benefit payment is recorded based on the terms of the Plan. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Contributions: Contributions from Plan participants and the matching contribution from the Plan Sponsor are recorded in the year in which the participant contributions are withheld from amounts paid. Discretionary profit sharing contributions are recognized upon authorization and in the year the underlying compensation is recognized under the Plan. All participant and Employer contributions are participant-directed. Participant contributions in excess of amounts allowed by regulation are recorded as a liability with a corresponding reduction in contributions.

Payment of benefits: Benefits are recorded when paid.

Expenses: The Company pays certain administrative fees associated with the Plan and are excluded from these financial statements. Fees relating to Plan investments will generally be allocated among the accounts of all participants in the Plan proportionately based on the value of account balances or number of participants in the Plan. Expenses specifically incurred by, or attributable to, a participant may be allocated directly to a specific participant's account. Administrative functions are performed by certain employees of the Company. No such employees receive compensation from the Plan. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Adoption of accounting pronouncement: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement*. The amendments in this ASU modify the disclosure requirements on fair value measurements in Topic 820, *Fair Value Measurement*, based on the concepts in the FASB Concepts Statement, including the consideration of costs and benefits.

The following disclosure requirements were removed from Topic 820:

1. The amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy.

2. The policy for timing of transfers between levels.

3. The valuation processes for Level 3 fair value measurements.

4. For nonpublic entities, the changes in unrealized gains and losses for the period included in earnings for recurring Level 3 fair value measurements held at the end of the reporting period.

Note 2. Significant Accounting Policies (Continued)

The following disclosure requirements were modified in Topic 820:

1. In lieu of a roll forward for Level 3 fair value measurements, a nonpublic entity is required to disclose transfers into and out of Level 3 of the fair value hierarchy and purchases and issues of Level 3 assets and liabilities.

2. For investments in certain entities that calculate net asset value, an entity is required to disclose the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse only if the investee has communicated the timing to the entity or announced the timing publicly.

3. The amendments clarify that the measurement uncertainty disclosure is to communicate information about the uncertainty in measurement as of the reporting date.

The amendments in this Update are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The entity is permitted to early adopt any removed or modified disclosures upon issuance of this Update and delay adoption of the additional disclosures until their effective date. The Plan adopted this Update for the removal, modification, or addition of certain fair value measurement disclosures presented in the financial statements.

Subsequent events: The Plan has evaluated subsequent events (events occurring after December 31, 2018) through September 4, 2019, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Principal Trust Company (Trustee)

The following is a summary of the Plan's asset information as of December 31, 2018 and 2017, and for the year ended December 31, 2018, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal), the trustee of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and supplemental schedules related to the following assets:

	2018	2017
Investments at fair value:		
Registered investment companies (mutual funds)	$ 51,106,233	$ 52,303,087
Pooled separate accounts	123,415,195	129,817,454
Common collective trust stable value fund	15,139,710	14,235,355
	$ 189,661,138	$ 196,355,896
Notes from participants	$ 1,547,522	$ 1,340,354

Principal also certified to the completeness and accuracy of $13,832,567 of net depreciation in fair value of investments and $852,734 of interest and dividends related to the aforementioned Plan assets for the year ended December 31, 2018.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the best level of input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

***Pooled separate accounts*:** Valued at the NAV of shares in each account held by the Plan at year end. The NAV is not a publicly-quoted price in an active market. The NAV, as provided by the record keeper, is used as a practical expedient to estimating fair value.

Common collective trust stable value fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the NAV of units of the collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	Assets at Fair Value as of December 31, 2018			
Description	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 51,106,233	$ -	$ -	$ 51,106,233
Investments measured at NAV (a)				138,554,905
Investments at fair value				$ 189,661,138

	Assets at Fair Value as of December 31, 2017			
Description	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 52,303,087	$ -	$ -	$ 52,303,087
Investments measured at NAV (a)				144,052,809
Investments at fair value				$ 196,355,896

(a) In accordance with the Fair Value Measurements topic, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is estimated using NAV per share (or its equivalent) as a practical expedient as of December 31, 2018 and 2017:

	Fair Value December 31		Unfunded	Redemption	Redemption
Investment	2018	2017	Commitment	Frequency	Notice Period
Pooled separate accounts:					
Large cap funds	$ 24,541,839	$ 25,587,393	None	Immediate	None
Mid cap funds	22,304,934	24,661,839	None	Immediate	None
International funds	18,007,842	21,654,561	None	Immediate	None
Balanced funds	18,425,138	16,949,412	None	Immediate	None
Small cap funds	10,860,820	11,412,482	None	Immediate	None
Bond funds	7,308,223	8,026,817	None	Immediate	None
Equity funds	7,625,674	8,591,597	None	Immediate	None

stable value fund	15,139,710	14,235,355	None	Immediate	None
Total	$ 138,554,905	$ 144,052,809			

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

Note 4. Fair Value Measurements (Continued)

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6. Tax Status

Effective December 7, 2018, the Plan adopted a volume submitter plan sponsored by Principal. The volume submitter plan provider has received an advisory letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter advisory letter has been relied upon by the Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any significant uncertain tax positions that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Related Party and Parties-in-Interest Transactions

Principal is the trustee of the Plan; therefore, transactions with the trustee qualify as parties-in-interest transactions. Fees paid by the Plan to the trustee totaled $49,528 for the year ended December 31, 2018. The Plan Sponsor also paid certain administrative expenses of the Plan.

Note 8. Prohibited Transactions

During 2018, the Plan Sponsor failed to deposit $773 of participant deferrals within the required timeframe as stated by the Department of Labor (DOL). The DOL considers late deposits to be prohibited transactions. The Plan Sponsor will file the Form 5330 and pay any applicable excise taxes from the Plan Sponsor's assets and not from assets of the Plan.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31	
	2018	2017
Net assets available for benefits per the financial statements:	$ 193,303,660	$ 197,696,250
