NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF PLAN

The following description of The Corradino Group, Inc. Salary Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on May 1, 1996 covering all employees of The Corradino Group, Inc. (the "Sponsor" and "Plan Administrator") who are age 21 or older and provides immediate eligibility to participants in the Plan upon initiation of employment with the Sponsor. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year participants may contribute an amount of pretax annual compensation as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. New employees are automatically enrolled in the Plan at a contribution rate of 3% of compensation after 30 days of employment, unless the employee elects not to participate. Additional amounts may be contributed by the Sponsor at the option of the Sponsor's Board of Directors. Contributions are subject to certain limitations. During the years ended December 31, 2009 and 2008, the Sponsor matched 50% of participants' contributions up to an annual maximum of 8% of participants' compensation, not to exceed a match of $2,000.

Participant Accounts

Each participant's account is credited with the participant's and the Sponsor's contributions and allocations of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Sponsor's matching and discretionary contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. A participant vests 25% a year after the second year of service and is 100% vested after five years of credited service.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant or their beneficiaries receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Withdrawals of pre-tax contributions prior to termination are allowed after the attainment of age 59 ½, in the event of financial hardship, or in the event of a disability, subject to certain limitations as defined in the Plan document.

Forfeited Accounts

At December 31, 2009 and 2008 forfeited non-vested accounts totaled $36 and $15,561, respectively. These accounts will be used to reduce future employer contributions. Also, in 2009 and 2008, employer contributions were reduced by $10,906 and $31,644, respectively from forfeited non-vested accounts.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

NOTE 1. DESCRIPTION OF PLAN (CONTINUED)

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions in 1% increments in any of several investment options offered by the Plan. The Plan also allows for participant-directed accounts whereby the participant can buy and sell securities through a broker. Participants may change their investment options at their discretion.

Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest is paid ratably through monthly payroll deductions.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES

Accounting Standards Codification

In June 2009, the Financial Accounting Standards Board ("FASB") issued the FASB Accounting Standards Codification ("ASC") as the sole source of authoritative nongovernmental U.S. generally accepted accounting principles. The Plan adopted this new guidance which changed the way it references accounting standards in its disclosures. The adoption of the ASC did not impact the Plan's net assets available for benefits or changes in net assets available for benefits.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

The Plan invests in a collective investment trust fund that contains various underlying fully benefit-responsive investment contracts. An adjustment from fair value to contract value was not made in the accompanying statements of net assets available for benefits, as the Plan Administrator determined that the contract value of the collective investment trust fund approximated fair value at December 31, 2009 and 2008. Additional disclosures describing the investment contracts and underlying securities investments of the collective investment trust fund are presented in the audited financial statements of that collective investment fund.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

NOTE 2. SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Management's Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan is responsible for its administrative expenses unless paid by the Sponsor.

Fair Value of Investments

In September 2009, the FASB issued an amendment, "Investment in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)" which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value ("NAV") per share as a practical expedient when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods after December 15, 2009, with early adoption permitted. See Note 4 for the impact of this amendment.

Income Taxes

The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained it tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

Management has evaluated subsequent events for recognition or disclosure in the financial statements through September 14, 2010, which was the date at which the financials were available to be issued.

NOTE 3. INFORMATION CERTIFIED OR PROVIDED BY BRANCH BANKING AND TRUST

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included throughout the Plan's financial statements and the supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2009, that was prepared by or derived from information provided by the custodian, Branch Banking and Trust, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Branch Banking and Trust that information provided to the Plan Administrator by Branch Banking and Trust related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information in this note, which appears throughout the financial statements and the supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2009.

The following table presents the fair market value of the investments in the Plan that was certified by Branch Banking and Trust. Single investments representing more than 5% of the Plan's net assets as of December 31, 2009 and 2008 are separately identified.

NOTE 4. FAIR VALUE MEASUREMENTS

The FASB has issued a standard which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the FASB statement are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan had the ability to access.

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used to determine fair value at December 31, 2009 and 2008.

Money Market and Mutual Funds: Valued at the NAV of shares held by the Plan at year end.

Common Stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Collective Investment Trust: Valued based on the NAV of the units of participation in the fund. The collective investment trust fund is valued at fair value as determined by the Plan Administrator based on audited financial information provided by the fund of the fair value of the underlying assets.

Participant Loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009 and 2008:

Year Ended December 31,	**2009**	2008

Balance, End of Year	**$ 126,312**	$ 122,343

The table below sets forth the fair value of investments in certain entities that calculate NAV per share (or its equivalent):

Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Collective investment trust fund	$ 467,409	$ 0	Daily	None, annual

The collective investment trust fund invests in a stable value fund which includes investments in conventional, synthetic and separate account investment contracts, as well as other collective investment trust funds. Investments in this category can be redeemed daily after written notification for benefit payments. Other withdrawals are made within one year, after notification. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

Pending Adoption of FASB Amendment

In January 2010, FASB issued an amendment, "Fair Value measurements and Disclosures – Improving Disclosures about Fair Value measurements", which requires new disclosures and reasons for transfers of financial assets and liabilities between levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosure about inputs and valuation techniques are required for both level 2 and level 3 measurements. It further clarifies that the reconciliation of level 3 measurements, if any, should separately present purchases, sales, issuances, and settlements instead of netting these changes.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

With respect to the matter other than level 3 measurements, the amendment is effective for periods beginning on or after December 31, 2009 and has not yet been adopted. The guidance related to level 3 measurements is effective for periods beginning on or after December 15, 2010 and has not yet been adopted. Management is currently evaluating the impact of the guidance related to these matters on its disclosures.

NOTE 5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

NOTE 6. TAX STATUS

The Plan adopted a standardized form of a prototype plan sponsored by Branch Banking and Trust. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code, and therefore is exempt from taxation.

NOTE 7. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Branch Banking and Trust, the custodian, as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees were not paid by the Plan for the investment management services, but rather by the Sponsor separately from the Plan. The Plan paid $22,779 in Plan administrative fees during the year ended December 31, 2009.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that the changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
