ARCHITECTS ORANGE 401(k) RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2018 AND DECEMBER 31, 2017

(1) Description of the Plan

The following description of the Architects Orange 401(k) Retirement Savings Plan (the "Plan"), formerly known as Architects Orange 401(k) Profit Sharing Plan, provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General Information

The Plan is a defined contribution plan covering substantially all employees of Architects Orange (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Employees who have attained at least 18 years of age are eligible to participate in the Plan upon employment.

Administration

The Plan is administered by the Company. Guardian Insurance & Annuity Company, Inc. (the "Insurance Carrier") was appointed by the Board of Directors of the Company in 2015 to manage the Plan. Effective December 27, 2018, Voya Retirement Insurance and Annuity Company replaced Guardian Insurance & Annuity Company, Inc. The Board of Directors of the Company has established an administrative Committee (the "Committee") to oversee the activities of the Plan. Among other duties, it is the responsibility of the Administrator and the Committee to interpret the Plan, decide all questions of eligibility and determine the amount, manner and time of benefit payments.

Contributions

Participants may elect to contribute up to 100% of eligible pre-tax or post-tax compensation, not to exceed the limits specified in the Internal Revenue Code (IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make discretionary matching and/or profit sharing contributions as determined each year by the Company's management. For the year ended December 31, 2018, the Company made a discretionary profit sharing contribution of $14,100.

(1) Description of the Plan *(continued)*

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, if any, Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant's eligible compensation, participant contributions, investment elections and/or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants may also elect to roll over their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions.

If the participant's total vested account balance is $1,000 or less as of the distribution date and the participant does not consent to a distribution of their vested account balance, the vested benefit will be distributed in a lump-sum, even if they do not consent to a distribution.

If the participant's vested account balance exceeds $1,000, no distribution will be made from the Plan without their consent.

With the plan administrator's approval, participants may withdraw all or part of their aggregate contributions in the event of financial hardship.

(1) Description of the Plan *(continued)*

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contributions, plus actual earnings thereon, is based on years of service according to the following schedule.

Years of Service	Vested Percentage
Less Than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years or within a reasonable period of time that is longer than five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account. The interest rate will generally be the prime interest rate charged by banks as published in The Wall Street Journal as of the last day of the preceding month plus 1%. Principal and interest are repaid ratably through payroll deductions.

Forfeitures

The unvested portion of a terminated participant's account will be forfeited and used to reduce future Company contributions or to pay for Plan expenses. During the year ended December 31, 2018, $53 of forfeitures were used for Plan expenses. For the year ended December 31, 2017, there were no forfeitures.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

(2) Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Plan, unless paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Certain transactional fees are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included within the net appreciation in fair value of investments.

Benefit Payments

Benefits are recorded when paid.

(2) Summary of Significant Accounting Policies *(continued)*

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or December 31, 2017. Delinquent participant loans are reclassified as distributions based upon the terms of the plan agreement.

(3) Information Certified by the Plan's Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Guardian Insurance & Annuity Company, Inc. and Voya Institutional Trust Company, have certified to the completeness and accuracy of the following information, which is included in the financial statements and supplemental schedule of assets (held at the end of the year) as of December 31, 2018 and December 31, 2017, and for the years then ended.

	2018	2017
Registered investment companies	$ 11,246,745	$ 11,341,469
Funds held in insurance company general account	358,564	605,560
Notes receivable from participants	238,907	101,755
Net depreciation in fair value of investments	(852,214)	1,738,250
Interest income on notes receivable	10,363	5,732

(4) Income Tax Status of the Plan

The Company adopted a Volume Submitter Profit Sharing Plan, which received a favorable opinion letter from the Internal Revenue Service (IRS) on August 22, 2014, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has since been amended. The Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(4) Income Tax Status of the Plan *(continued)*

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Plan administrator believes the plan in no longer subject to income tax examinations for years prior to 2015.

(5) Fair Value Measurements

The Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the input to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this framework are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(5) Fair Value Measurements *(continued)*

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2018 or December 31, 2017.

Registered investment companies: These investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Funds held in insurance company general account: Valued at the book/contract value. See Footnote 6.

Common/collective trusts: Valued at the net asset value per share/unit reported at the close of business every day. Shares/units in common/collective trusts can be redeemed daily on demand. The net asset value is used as a practical expedient to estimate fair value.

The preceding method described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and December 31, 2017:

Description	Total	Level 1	Level 2	Level 3
December 31, 2018				
Registered investment companies	$11,246,745	$11,246,745	$ -	$ -
Funds in insurance co. general account	358,564	-	-	358,564
Total investment as fair value	$11,605,309	$11,246,745	$ -	$ 358,564

(5) Fair Value Measurements *(continued)*

Description	Total	Level 1	Level 2	Level 3
December 31, 2017				
Registered investment companies	$11,341,469	$11,341,469	$ -	$ -
Total Assets in the fair value hierarchy		$11,341,469	$ -	$ -
Common/collective trusts [(a)]	605.560			
Total investments at fair value	$11,947,029			

[(a)] In accordance with Subtopic 820-10, the common/collective trusts which are measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amount presented in this table is intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

In regards to classification of investment options offered by the Plan, there were no reclassifications between level 1, 2 or 3 during the year ended December 31, 2018 or December 31, 2017. The nature, risks and investment objectives of the investments above, including those for which fair value is estimated using the NAV as a practical expedient, can be found in the Plan's enrollment literature. These investments can be redeemed immediately and without a redemption notification period. As of December 31, 2018, and December 31, 2017, there were no unfunded commitments associated with any of these investments.

(6) Funds Held in Insurance Company General Account

In 2018, the Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Voya Retirement Insurance and Annuity Company (VOYA). VOYA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

(6) Funds Held in Insurance Company General Account *(continued)*

Because the guaranteed investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by VOYA, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2018, was $358,564. The crediting interest rate is based on a formula agreed upon with the issuer. The contract has two declared interest rates: a current rate, determined at least monthly, and a guaranteed minimum floor rate declared for a defined period – currently on the calendar year. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with VOYA. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures of spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include (a) an uncured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of a material obligation under the contract, or (d) a material misrepresentation. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants or the issuer are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

(7) Party-In-Interest Transactions

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are managed by Guardian Insurance & Annuity Company, Inc. and Voya Institutional Trust Company, the custodians and recordkeepers of the Plan. The Plan paid $10,884 in contract administration and transactional fees during 2018. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. The Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. These transactions qualify as party-in-interest transactions, for which a statutory exemption exists.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(9) Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2018 to Schedule H of Form 5500:

Net assets available for benefits per the financial statements	$ 11,901,196
Participants' contribution receivable	(56,980)
Net assets available for benefits per Schedule H of Form 5500	$ 11,844,216

The following is a reconciliation of contributions per the financial statement for the year ended December 31, 2018 to Schedule H of Form 5500:

Contributions per the financial statements	$ 1,413,582
Less: Participants' contribution receivable – current year	(56,980)
Total contributions to Plan – Schedule H of Form 5500	$ 1,356,602

(10) Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditor's report, which is the date the accompanying Financial Statements were available to be issued.
