The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after three years of credited service.

1. Description of Plan (continued)

Loans to Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates, as determined by the Plan administrator. Principal and interest are paid through payroll deductions.

Payment of Benefits

On termination of service, a participant may elect to receive a lump-sum distribution or installment payments equal to the value of the participant's vested interest in his or her account. Any balance under $1,000 is automatically paid out as soon as administratively possible. Hardship withdrawals are also available subject to certain limitations.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited nonvested accounts totaled $28,509 and $5,790, respectively. These accounts will be used to pay expenses of the Plan or to reduce future employer contributions. During 2009, $28,855 of forfeitures was used to pay expenses of the Plan.

Expenses of the Plan

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document.

2. Summary of Significant Accounting Policies

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Estimates (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required, the statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

Shares of registered investment companies (mutual funds) are reported at fair value based on the quoted market price of the fund which represents the net asset value of the shares held by the fund at year-end. Shares held in common collective trusts are reported at fair value based on the unit prices quoted by the fund, representing the fair value of the underlying investments. Investments in insurance company pooled separate accounts are reported at the value reported to the Plan by the insurance company, which represents approximate fair value. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncements

Codification of Accounting Standards

In June 2009, the Financial Accounting Standards Board ("FASB") issued the Accounting Standards Codification ("ASC"), which establishes the ASC as the single source of authoritative accounting principles recognized by FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. The subsequent issuances of new standards will be in the form of Accounting Standards Updates that will be included in the codification. This guidance is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Plan updated its historical GAAP references to comply with the codification for its year ended December 31, 2009. The adoption of this guidance did not have a material effect on the Plan's net assets and changes therein, since the codification is not intended to change GAAP.

Accounting for Uncertainty in Income Taxes

FASB clarified the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in *Income Taxes – Overall* of the ASC. The new provisions for accounting for the uncertainty in income taxes prescribe a recognition threshold and measurement attributes for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. They also provide guidance on derecognition of tax benefits, classification on the balance sheet, interest and penalties, accounting in interim periods, disclosure, and transition.

The new provisions of the accounting for the uncertainty in income taxes provided for a deferral of the effective date of implementation for certain nonpublic enterprises to annual financial statements for fiscal years beginning after December 15, 2008. The Plan elected this deferral and, accordingly, has adopted the new provisions as of January 1, 2009. The adoption of the new provisions for accounting for the uncertainty in income taxes did not have a material impact on the Plan's net assets and changes therein.

Recent Accounting Pronouncements (continued)

Fair Value Measurements and Disclosures

Fair Value Measurements and Disclosures of the ASC defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. *Fair Value Measurements and Disclosures* applies to all other ASC topics that require or permit fair value measurements and does not require any new fair value measurements. The provisions of *Fair Value Measurements and Disclosures* for financial assets and liabilities were effective beginning January 1, 2008. The provisions of *Fair Value Measurements and Disclosures* for nonfinancial assets and nonfinancial liabilities were effective and adopted as of January 1, 2009.

Subsequent Events

In May 2009, FASB issued an accounting standard to establish general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. Specifically, this guidance provides (i) the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements; (ii) the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements; and (iii) the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. This guidance is effective for interim or annual financial periods ending after June 15, 2009, and is to be applied prospectively. The Plan adopted this guidance for its year ended December 31, 2009. The adoption of this guidance did not have a material effect on the Plan's net assets or changes therein.

The Plan has evaluated subsequent events that occurred after December 31, 2009 through the issuance of this report on September 23, 2010. Any material subsequent events that occurred during this time have been properly recognized or disclosed in the financial statements.

3. Information Certified By Wilmington Trust Company ("Wilmington")

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Wilmington, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

The following table presents the fair value of participant-directed investments in this Plan that was certified by Wilmington. Single investments that represent 5% or more of the Plan's net assets as of December 31, 2009 and 2008 are separately identified.

	December 31, 2009	2008
KeyBank National Association EB Magic Fund	**$ 2,764,063**	$ 1,914,537
Fidelity Contrafund	**2,461,581**	1,677,091
Artio International Equity A	**2,204,423**	1,482,251
Wilmington Trust Company Harbor Bond Fund	**2,085,594**	1,572,991
Allianz Dividend Value Fund	**1,898,466**	1,284,067
Am Cap World Growth and Income Fund	**1,574,931**	986,734
Loomis Sayles Bond Administrative Fund	**1,406,110**	909,503

Wilmington also certified the completeness and accuracy of the interest of $76,633, dividends of $609,691, and the net appreciation in fair value of investments of $3,428,876 for the year ended December 31, 2009.

During 2009, the Plan's investments appreciated in fair value by $3,428,876 as follows:

Common collective trusts	**$ 68,545**
Pooled separate accounts	**231,256**
Mutual funds	**3,129,075**
	$ 3,428,876

4. Fair Value Measurements

The requirements of *Fair Value Measurements and Disclosures* of the ASC apply to all financial instruments (as of December 31, 2009 and 2008) and all nonfinancial assets and nonfinancial liabilities (as of December 31, 2009) that are being measured and reported on a fair value basis. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. *Fair Value Measurements and Disclosures* also establishes a fair value hierarchy that prioritizes the inputs used in valuation methodologies into the following three levels:

- Level 1 Inputs – Unadjusted quoted prices in active markets for identical assets or liabilities.

- Level 2 Inputs – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, or other inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.

- Level 3 Inputs – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or other valuation techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

The Plan's investments, measured at fair value by the three levels described above, at December 31, 2009 and 2008 are as follows:

	Total Fair Market Measurement at December 31, 2009	Level 1	Level 2	Level 3
Assets:				
Mutual funds	$ 18,154,391	$ 18,154,391	$ -	$ -

5. Guaranteed Investment Account

The Plan offers as an investment option a benefit-responsive investment contract with Wilmington. Wilmington maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Wilmington, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields were 2.87% and 3.93% for 2009 and 2008, respectively. The crediting interest rates were 2.78% and 3.71% for 2009 and 2008, respectively. Crediting interest rates are reviewed periodically for resetting.

6. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Wilmington. Wilmington is the custodian as defined by the Plan; therefore, these investments qualify as party-in-interest transactions.

7. Plan Termination

Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

8. Tax Status

The Plan adopted a nonstandardized form of a prototype plan sponsored by a third party. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:
