Contributions

Participants may elect to contribute up to 100% of their compensation up to a maximum dollar amount as established by the Internal Revenue Service ("IRS"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Total deferrals in any taxable year may not exceed the dollar limit set by the IRS. Contributions are subject to certain limitations.

As of July 25, 2017, the Employer started matching 50% of the first 4% of the employee's contribution not to exceed 2% of the employee's salary. Employer matches during 2017 were available only to the employees that merged into the Plan in July 2017. The Employer was advised by the Plan Administrator that the Employer matches are in compliance with the Department of Labor ("DOL") standards. Beginning January 1, 2018, the Plan documents were amended to allow all employees within the Plan to receive Employer matching contributions. Beginning in November 2018, the Employer matching contributions consisted of stock issuances of the Employer at the closing price of the previous day after the matching contribution takes place. The participants have the option to keep the stock issuances as their Employer match or transfer the value of the stock issuances to another investment option.

An employee may rollover into this Plan regardless of whether such employee has met the age and service requirements. An eligible employee who has not yet met any eligibility requirements of the Plan will be deemed a participant only with respects to amounts in their rollover contribution account. In general, any eligible rollover distribution will be accepted by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and the participant's allocation of the Employer's contributions and is reduced for withdrawals and benefit distributions. Participant accounts are further credited or charged with their pro rata share of earnings or losses of the total investments in each investment account and their share of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon which also includes any rollover contributions. Vesting in the Employer's matching contribution plus earnings thereon is based on years of continuous service as follows:

Years of Service	Vested Percentage
1	25%
2	50%
3	75%
4	100%

1. DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Severance of Employment

If a participant ceases to be employed with the Employer for reasons other than death or disability, and the total of the participant's account is less than $1,000, the vested balance in the account will be distributed directly to the employee in cash. If the vested balance is greater than $1,000 but less than $5,000, the vested balance in the account will be distributed from the Plan. In all cases, the non-vested portion of a participant's account will be forfeited.

If a participant dies after commencing his or her benefits prior to receiving the full value of his or her vested account balance, the remaining benefit will continue to be paid to the participant's beneficiary(ies) in accordance with the form of payment that has already commenced.

Other Withdrawals

A participant may withdraw all or part of the value of his or her after-tax Roth or rollover contributions account at any time. Additionally, a participant may make a hardship withdrawal from the participant's vested accounts, except for the after-tax Roth account, in the event of severe financial need (as defined by IRS Regulations) for certain medical, tuition, funeral, home purchase, foreclosure, or casualty repair expenditures.

Forfeited Accounts

Forfeited accounts will first be used to pay any administrative expenses, then to reduce Employer matching contributions in accordance with the Plan document. Forfeitures totaled $2,949 and $0 for the years ended December 31, 2018 and 2017, respectively.

Notes Receivable from Participants

Participants may borrow from their participant accounts at a minimum of $1,000 not to exceed a maximum of $50,000, or 50% of the participant's vested account balance, whichever is less, reduced by the highest outstanding note balance during the prior twelve month period. The notes are secured by the participant's vested account balances and, except for funds used to acquire a principal residence, must have a repayment period of no greater than five years. The interest rates for notes outstanding as of December 31, 2018 and 2017 ranged from 4.25% to 8.00%. Interest rates are commensurate with local prevailing rates at the time of borrowing as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions made on a semi-monthly basis. No more than two notes are allowed at any time and repayment of the entire balance is permitted at any time.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions into any of several investment options. Participants may change their investment options at their discretion.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of the financial statements in conformity U.S. GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fully Benefit-Responsive Investment Contracts

The Plan entered into traditional fully benefit-responsive guaranteed investment contracts with Voya Insurance and Annuity Company and Cuna Mutual (collectively the "Custodians" of the Plan), totaling $263,974 and $319,643 at December 31, 2018 and 2017, respectively. The Custodians maintain the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1 percent. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria; therefore, it is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts, because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the Custodians, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer.

Employer Securities

The Employer securities are Employer stock, which are publicly traded on the Toronto exchange. As of November 2018, every participant in the Plan has the option of selecting this as an investment option. Furthermore, every participant is matched with Employer securities. There are no restrictions in terms of each participants ability to liquidate their Employer securities once received, although the vesting schedule will remain in force for those match proceeds received. Since traditional 401(k) plans cannot hold individual stocks as an investment option, the Employer securities are converted into a structure that will allow the Employer securities to be an investment option and facilitate the match.

Administrative Expenses

Certain administrative fees are charged as an allocation to participant accounts based on participant earnings or account balances, as defined. The Employer incurs other administrative expenses that are not charged to the Plan.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See NOTE 5 for discussion of fair value measurements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Tax Status

The IRS has determined and informed the Plan by a favorable determination letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is subject to income tax examinations since inception on June 1, 2015.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Subsequent events were evaluated through October 14, 2019, which is the date that the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIANS

The Plan has elected, as permitted by Section 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, to have certain financial information certified by the Custodians as of and for the years ended December 31, 2018 and 2017.

The information in the following line items, included in the Plan's financial statements, was prepared by the Plan's Custodians and furnished to the Plan. The Plan has obtained certifications that such information is complete and accurate.

3. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIANS (CONTINUED)

	Year ended December 31, 2018	Year ended December 31, 2017
Investment (loss) income:		
Net (depreciation) appreciation of investments	$ (393,175)	$ 543,226

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

4. INVESTMENTS

During the years ended December 31, 2018 and 2017, the Plan's investments (including gains, losses, and interest on investments bought and sold, as well as held during the year) (depreciated) appreciated in value by $(393,175) and $543,226, respectively.

5. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB guidance are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability;
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Registered investment companies: Valued at the quoted market prices in active markets.

Employer securities: Valued at the closing price on the Toronto stock exchange of the previous day after the conversion of the securities as an investment option.

5. FAIR VALUE MEASUREMENTS (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value, measured on a recurring basis, as of December 31, 2018 and 2017:

		Fair Value Measurements at Reporting Date Using:		
Description	**Fair Value 12/31/2018**	**Quoted Prices In Active Markets for Identical Assets (Level 1)**	**Significant Other Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**
Registered investment companies	$ 5,901,467	$ 5,901,467	$ -	$ -
Employer securities	33,666	-	-	33,666
Total assets, at fair value	**$ 5,935,133**	**$ 5,901,467**	**$ -**	**$ 33,666**

		Fair Value Measurements at Reporting Date Using:		
Description	**Fair Value 12/31/2017**	**Quoted Prices In Active Markets for Identical Assets (Level 1)**	**Significant Other Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**
Registered investment companies	$ 5,544,359	$ 5,544,359	$ -	$ -
Total assets, at fair value	**$ 5,544,359**	**$ 5,544,359**	**$ -**	**$ -**

6. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of registered investment companies and insurance company fixed interest accounts that are managed by the Custodians, and, therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants are also considered party-in-interest transactions.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer may terminate the Plan at any time subject to the provisions of ERISA. In the event the Plan is terminated, participants would become 100% vested in all amounts credited to their accounts.
