Note 1. Plan Description

Overview

The Reelcraft Industries, Inc. 401(k) Plan (the Plan) is a defined contribution 401(k) plan covering eligible employees of Reelcraft Industries, Inc. (the Employer and Plan Sponsor) who are at least 21 years of age and have attained six months of service, effective July 1, 2007. Prior to that date, eligible employees were at least 21 years of age and had attained one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The provisions of the Plan are included in the official Plan document which legally governs the operations of the Plan and is available for more detailed information.

Merger

On December 29, 2009, the Board of Directors of Lincoln Holdings Enterprises, Inc., a controlling party of Reelcraft Industries, Inc., approved the merger of this Plan into the Lincoln Industrial Corporation Retirement Savings Incentive Plan ("Savings Plan"), effective December 31, 2009. As a result, all investments in mutual funds and the common collective trust were transferred from the Plan into the Savings Plan on that date. A summary of the transferred net assets follows:

Investments, at fair value	\$ 2,674,280
Receivables:	
Employee contributions	<u>2,043</u>
Total transfer	<u>\$ 2,676,323</u>

Contributions

Participants can elect a salary reduction of an amount up to 100% of compensation, not to exceed the maximum amount permitted under the Internal Revenue Code. Salary reduction amounts are contributed to the Plan by the Employer on the participants' behalf.

The Employer may provide a matching contribution of the participant's elected salary reduction, subject to a 4% maximum of employee's compensation. The Employer provided a 50% matching contribution on eligible wages until February 6, 2009, at which time the match was suspended for the remainder of the year ended December 31, 2009.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Employer's contribution, and Plan earnings. Allocations of the Employer's contribution and Plan earnings are based on participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements (Continued)

Note 1. Plan Description (Continued)

Investment Options

Participants have the option of investing in various investment options which are held through Reliance Trust Company. All amounts in participant accounts are participant-directed.

Vesting

Participants are immediately vested in their elective (voluntary) contributions and income or loss thereon. Vesting in the Employer's matching contributions is based on years of service. A participant becomes fully vested after six years of credited service.

Forfeitures

Participants who terminate employment prior to becoming fully vested must forfeit a percentage of their Employer contributions. These forfeitures will be used to reduce future Employer contributions.

Benefit Payments

Benefit payments are payable as a single lump-sum payment. The full value of a participant's account is payable upon retirement, death or disability. For termination of service due to other reasons, a participant will receive a lump-sum amount or remain in the Plan as an inactive participant if the vested balance exceeds \$5,000.

Note 2. Significant Accounting Policies

Basis of Financial Statements

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Management has determined that the estimated fair value of the Plan's indirect investments in fully benefit-responsive contracts as of December 31, 2009 and 2008 approximates contract value, and any difference between fair value and contract value is immaterial.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements. All Plan assets were transferred to the Savings Plan before close of business on December 31, 2009.

Note 2. Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Subsequent Events

Management of the Plan has evaluated events and transactions for possible recognition or disclosure through July 23, 2010, the date the financial statements were available to be issued.

Note 3. Custodian

Reliance Trust Company, the custodian of the Plan, held the Plan's assets through December 2009 until the assets were transferred to the Savings Plan on December 31, 2009.

Note 4. Information Certified by the Plan's Custodian

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the custodian, Reliance Trust Company, and was not subjected to any auditing procedures performed by the independent public accountants.

- a. Total investments as shown in the accompanying statements of net assets available for benefits.
- b. Net investment earnings, as shown in the accompanying statement of changes in net assets available for benefits, including dividends and interest income and net realized and unrealized depreciation in fair value of investments.

Note 5. Significant Investments

The market value of investments that represent 5% or more of the Plan's net assets are summarized below:

As of December 31, 2009:

Franklin Templeton Strategic Income Fund	196,527
Invesco Retirement Trust Stable Value Fund	460,949

Note 6. Fair Value Measurements

The Plan utilizes the Fair Value Measurements framework, which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a hierarchy which prioritizes inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

REELCRAFT INDUSTRIES, INC. 401(K) PLAN

Notes to Financial Statements (Continued) December 31, 2009

Note 6. Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common collective trust: Valued at fair value, which approximates contract value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2008.

	Assets at Fair Value as of December 31, 2008			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 1,784,111	\$ -	\$ -	\$ 1,784,111
Common collective trusts	-	460,949	-	460,949
Total assets at fair value	<u>\$ 1,784,111</u>	<u>\$ 460,949</u>	<u>\$ -</u>	<u>\$ 2,245,060</u>

Note 7. Related Party Transactions

Certain administrative expenses of the Plan, including annual audits of the Plan's financial statements, are paid directly by the Plan Sponsor. In addition, certain administrative functions are performed by the employees of the Plan Sponsor at no cost to the Plan.

Note 8. Income Tax Status

The Plan is on an Sungard Corbal, LLC prototype document that has a favorable opinion letter dated March 31, 2008. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.
