Note 1. Plan Description

The following description of the Wahl Clipper Corporation 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of Wahl Clipper Corporation (the Company). Effective January 1, 2018, employees who have reached age 18 and have completed 90 days of service are eligible for the Plan. The participants are eligible for employer profit sharing contributions after completion of one year of service with 1,000 or more hours of service during the year. Prior to January 1, 2018 the age requirement was age 21 with one completed year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Participants may contribute a percentage of their annual compensation, as defined by the Plan, not to exceed the maximum allowed by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Effective January 1, 2018, the Plan included an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation.

The Plan has elected a safe harbor employer contribution, under which the Company contributes 100% of the first 3% of base compensation and 50% of the next 2% of base compensation that a participant contributes to the Plan. The safe harbor contributions were $2,316,290 and $1,870,497 for the years ended December 31, 2018 and 2017, respectively. The Company may also make additional discretionary profit sharing contributions to the Plan as determined by the Board of Directors annually provided certain restrictions are met. Additional profit sharing contributions are invested in a portfolio of investments as directed by the Company. Profit sharing contributions were $2,700,000 and $2,600,000 for the years ended December 31, 2018 and 2017, respectively, and are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions, Company safe harbor contributions and allocations of (a) the Company's profit sharing contributions, (b) Plan earnings (losses) and (c) forfeitures of terminated participants' nonvested accounts, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which participants are entitled is the benefit that can be provided from the participants' vested accounts.

Vesting: Participants are immediately vested in their voluntary contributions, including rollover contributions, and Company safe harbor contributions plus actual earnings thereon. Vesting on the profit sharing account is based on years of continuous service. Participants vest at a rate of 20% per year after the second year of service. Participants become fully vested in profit sharing accounts after six years of credited service.

Notes receivable from participants: Participants may borrow from their fund accounts up to a maximum of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Interest rates on existing loans ranged from 3.25% to 8.00%. Principal and interest are paid ratably through payroll deductions.

Note 1. Plan Description (Continued)

Forfeitures: Plan forfeitures arise as a result of participants who terminate service with the Company before becoming 100% vested in the Company's contributions. These forfeitures may be reallocated to participants in the same manner as Company contributions in accordance with the Plan document. At December 31, 2018 and 2017, there were no unallocated forfeitures from nonvested accounts. Forfeitures in the amount of $38,980 and $46,278 were reallocated to participants in the same manner as Company profit sharing contributions for the years ended December 31, 2018 and 2017, respectively.

Payment of benefits: On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in annual installments if the account balance is greater than $1,000. If the participant's vested account balance does not exceed $1,000, it can be distributed only in a single lump-sum payment. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. In addition, hardship distributions out of the participant's voluntary contributions account are permitted if certain criteria are met. The Plan also allows for in-service distributions upon attaining age 59½.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Accounting estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein. Accordingly, actual results may differ from those estimates.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment valuation and income recognition: The Plan's investments are reported at fair value on the statements of net assets available for benefits. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Administrative fees: Administrative expenses are paid by the Plan, as provided in the Plan document, and by the Company. Administrative expenses were $364,467 and $338,459 for the years ended December 31, 2018 and 2017, respectively.

Note 2. Summary of Significant Accounting Policies (Continued)

Uncertain tax positions: Accounting principles general accepted in the United States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more-likely-than-not would be sustained upon examination. The Plan is subject to these routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. Federal, state or local authorities for years before 2015.

Payment of benefits: Benefit payments are recorded upon distribution.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 14, 2019, the date the financial statements were available to be issued.

Note 4. Investments and Fair Value Measurements

Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this guidance are described below:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quote prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Interest-bearing deposits in banks: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable duration considering the creditworthiness of the issuer.

Common collective trust fund: Composed primarily of benefit-responsive investment contracts valued at the net asset value (NAV) of shares held by the Plan in the collective trust account at year-end as determined by the third-party administrator based on the market value of its underlying investments. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV.

Mutual funds: Valued at the closing price reported in the active market in which the investment is traded.

Corporate debt instruments and government-sponsored bonds: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Investments and Fair Value Measurements (Continued)

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth additional disclosures of the Plan's investments whose fair values are estimated using NAV per share as the practical expedient as of December 31, 2018 and 2017:

The Plan Administrator has obtained certifications from the trustee/agent that information provided to the Plan Administrator related to the following assets is complete and accurate. Accordingly, as permitted by the 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information related to the following investments:

Note 6. Certificates of Deposit

Included in interest-bearing deposits are certificates of deposit of $6,035,999 and $4,221,120 at December 31, 2018 and 2017, respectively. Certificates of deposit consist of amounts on deposit at banks or savings and loan associations, with interest rates ranging from 1.30% to 3.20%, with maturities ranging from January 2019 through December 2021. These deposits include no amounts in excess of federally insured limits.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan document to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

Note 8. Related-Party Transactions

Plan investments are managed by Midland States Bank. Midland States Bank is the trustee as defined by the Plan, and therefore, transactions with these investments are considered party-in-interest transactions. Fees paid by the Plan for administrative services amounted to $200,134 and $192,105 for the years ended December 31, 2018 and 2017, respectively.

Note 9. Income Tax Status

The Plan adopted a standardized form of a prototype plan sponsored by Retirement Direct. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since the prototype plan received the opinion letter. However, the Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 10. Prohibited Transactions

During 2018, the Company inadvertently failed to deposit $11,366 of participant contributions and loan repayments within the required timeframe as stated by the DOL regulations. The DOL considers late deposits to be prohibited transactions. The Company will deposit lost earnings to correct the failure and will file Form 5330 and pay the applicable excise tax during the year ended December 31, 2019. The lost earnings and excise tax payment will be made from the Company’s assets and not from the assets of the Plan.
