Report on the Financial Statements

We were engaged to audit the accompanying financial statements (modified cash basis) of Northgate Gonzalez Markets, Inc. 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2018 and 2017, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by American United Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2018 and 2017, and for the year ended December 31, 2018, that the information provided to the plan administrator by the custodian is complete and accurate.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule (modified cash basis) of assets (held at end of year) as of December 31, 2018, is required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule (modified cash basis), other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Plan Description

The following description of the Northgate Gonzalez Markets, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan was originally established on January 1, 1999, and is a 401(k) plan covering substantially all employees of Northgate Gonzalez Markets, Inc. (the "Company") who are working a minimum of twenty hours a week, have at least six months of service, and are age eighteen or older. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA").

The Plan is managed by the Plan Administrator appointed by the Board of Directors of the Company. The Company appointed its Vice President of Human Resources as the Plan Administrator. The Plan Administrator has the responsibility for the day to day administration of the Plan. American United Life Insurance Company, the trustee, holds the Plan's assets and distributes those assets in accordance with the Plan document and the instructions of its designees.

On September 30, 2017, CNG Ranch, LLC ("CNG") entered into an agreement to sell all of the assets associated with the CNG stores in Phoenix, Arizona to a third party, subject to certain closing provisions. The Participant Employer ceased its participation in the Plan effective November 20, 2018.

Contributions

Each year, participants may contribute a percentage of their eligible compensation, as defined in the Plan, up to the maximum allowable under the Internal Revenue Code ("IRC") of $18,500 in 2018 and 2017. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions not to exceed the amount allowable under current income tax regulations, which was $6,000 in 2018 and 2017.

The Plan automatically enrolls all new participants into the Plan at a 2% deferral rate. The automatic deferral amount will increase by 1% per year up to a maximum of 4% of the participant's compensation as of the beginning of each subsequent Plan year. The discretionary matching contribution was amended to 50% of the salary deferrals up to 4% of eligible compensation that the participant contributes to the Plan.

The Plan also provides a Roth 401(k) feature that allows for after-tax contributions through salary deductions, with the deferral amounts identical to the pre-tax contribution limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution, and the participant's portion of the Plan's earnings and expenses. The benefit, which a participant is entitled to receive, is the amount that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contribution portion of participants' accounts (including the actual earnings thereon) is based on years of continuous service. Participants are vested in 20% increments starting with the second year of service. A participant is 100% vested after six years of credited service. To earn a year of service, a participant must be credited with at least 1,000 hours of service during the 12-month period beginning on the first day of employment and any anniversary of the employment date.

Notes Receivable from Participants

Plan participants are eligible to obtain loans that are associated with the participant's account balance. The minimum amount of any loan is $500; the maximum amount of any loan is the lesser of (i) 50% of the participant's vested account balance or (ii) $50,000, reduced by the participant's highest outstanding loan balance during the prior 12-month period. Loan repayments are made ratably through participant payroll deductions over a period not to exceed five years, unless the loans are used to purchase a primary residence, in which case the loan will be required to be repaid within 30 years of the original date of the loan. As of December 31, 2018 and 2017, there were outstanding notes receivable from participants totaling $4,819,181 and $4,582,785, respectively. The loans bear interest rates that are based on other lenders' rates for similar loans, and currently have a rate of 4.25%, with various maturities through September 2038.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures

Forfeitures from non-vested participant accounts are used to reduce future administrative expenses and Company contributions. During the year ended December 31, 2018, forfeitures in the amount of $241,377 were used to reduce the Company's contributions. As of December 31, 2018 and 2017, the outstanding forfeiture amounts were $194,973 and $31,884, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements and supplemental schedule of the Plan are prepared using the modified cash basis method of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States ("U.S. GAAP"). The modified cash basis differs from U.S. GAAP in that the Plan recognizes interest and dividend income when received and administrative expenses when disbursed.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan provides for investments in a stable value fund and pooled separate accounts, with investments included in the Statements of Net Assets Available for Benefits at fair value. The Units of the pooled separate accounts are valued at quoted market prices, which represent the net asset values ("NAV") of units held by the Plan at year end. The Plan also invests in a stable value fund. The Plan's interest in the stable value fund is valued at the NAV practical expedient of the underlying investments reported by the issuer of the stable value fund at year-end. This practical expedient would not be used if it is determined to be probable that the Plan will sell the investment for an amount different than reported NAV. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants (an exit price) at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest and dividends are recorded when received. Net appreciation (depreciation) includes the Plan's realized and unrealized gains and losses on investments bought and sold, as well as investments held during the year.

Net Appreciation (Depreciation) in Fair Value of Investments

Realized and unrealized appreciation (depreciation) in the fair value of investments is based on the difference between the fair value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day investments are sold with respect to realized appreciation (depreciation), or on the last day of the year for unrealized appreciation (depreciation).

Realized and unrealized appreciation (depreciation) is recorded in the accompanying Statement of Changes in Net Assets Available for Benefits as net appreciation in fair value of investments.

Notes Receivable – Participant Loans

Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance, plus any accrued (but unpaid) interest and are classified as notes receivable from participants. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

In preparing financial statements in conformity with the modified cash basis, management is required to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from these estimates.

Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

The Plan's exposure to credit loss in the event of nonperformance of investments is limited to the carrying value of such instruments. The Plan's provisions as well as those of ERISA and the participants' investment preferences dictate the Plan's concentration of credit risk and market risk.

Payment of Benefits

Benefits are recorded when paid.

Corrective Distributions

Amount payable to participant for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. As of December 31, 2018 and 2017, corrective distributions payable were $35,589 and $58,381, respectively. During the year ended December 31, 2018, the Plan distributed $35,589. The Plan distributed the 2018 excess contributions to the applicable participants prior to March 15, 2019.

Administrative Expenses

All administrative expenses, unless paid by the Company at its discretion, are paid by the Plan. Fees associated with loan initiations and benefit payments are paid for by the Plan participants who request such transactions and are included in administrative expenses in the accompanying Statement of Changes in Net Assets Available for Benefits.

Recently Issued Accounting Standards

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*. ASU 2018-13 amends the disclosure requirements for recurring and nonrecurring fair value measurements by removing, modifying and adding certain disclosures. ASU 2018-13 removes the following disclosures: the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy; the policy for timing of transfers; the valuation process for Level 3 fair value measurements; and changes in the unrealized gains and losses for the period included in earnings for recurring Level 3 fair value measurements held at the end of the reporting period. The ASU modifies the following disclosure requirements: tranfer in and out of Level 3 and purchases and issues of Level 3 assets and liabilities; for investments in certain entities that calculate the net asset value, the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse if timing has been communicated or announced publicly; and clarifies that the measurement uncertainty disclosure is to communicate information about the uncertainty in measurement as of the reporting date. The additional disclosures required under ASU 2018-13 are applicable only for public entities. The ASU is effective for fiscal years beginning after December 15, 2019, with early adoption permitted. Certain amendments of the ASU may be applied prospectively while others should be applied retrospectively to all periods presented upon the effective date. It is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures, if applicable, until the effective date. Plan management is currently evaluating the impact of the adoption of the ASU on the financial statements.

In July 2018, the FASB issued ASU 2018-09, *Codification Improvements*, ("ASU 2018-09"), which includes amendments to Subtopics 962-325, *Plan Accounting Defined Contribution Pension Plans Investments Other*. The amendment removes the stable value common collective trust fund from the illustrative example to avoid the interpretation that such n investment would never have a readily determinable fair value and, therefore, would always use the net asset value per share practical expedient. Rather, a plan should evaluate whether a readily determinable fair value exists to determine whether those investments may qualify for the practical expedient to measure at net asset value in accordance with ASC 820. The amendment to Subtopic 962-325 is effective for fiscal years beginning after December 15, 2018 using a modified retrospective approach. Plan management is currently evaluating the impact of the adoption of the ASU on the financial statements.

3. Information Prepared and Certified by the Custodian of the Plan

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Accordingly, American United Life Insurance Company, the Trustee, who holds the assets and execute transactions of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule (modified cash basis) are complete and accurate:

a. Fair value of investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2018 and 2017, except for notes receivable from participants;

b. Investment activity, including interest and dividends and net depreciation in fair value of investments, as shown in the Statement of Changes in Net Assets Available for Benefits for the Year Ended December 31, 2018;

c. Investment information disclosed in Note 4; and

d. Supplemental Schedule of Assets (Held at End of Year) as of December 31, 2018, except for notes receivable from participants.

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule (modified cash basis), as instructed by the Plan Administrator.

4. Fair Value Measurements

Accounting guidance has established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level Input	Input Definition
Level 1	Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
Level 2	Quoted prices in markets that are not considered to be active for financial instruments for which all the significant inputs are observable, either directly, or indirectly.
Level 3	Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

An asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. Management of the Plan reviews the levels assigned to its fair value measurements on an annual basis and recognizes transfers between levels as of the beginning of the Plan year in which the transfer occurs.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017:

	Investment Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total

Total investments at fair value	$ 50,874,028	$ -	$ -	$ 57,309,468

**Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.*

The pooled-separate accounts invest primarily in long-term bonds, domestic and international stocks, or single mutual funds. Units of the pooled separate accounts are valued using the NAV provided by the administrator of the account. Each pooled separate account provides for redemptions by the Plan at reported net asset values per unit, with no advance notice requirement. These funds are classified within Level 1 of the valuation hierarchy, as they deemed to have a readily determinable fair value and are actively traded.

The stable value fund held by the Plan consists of the American United Life ("AUL") Fixed Account ("Fixed Account"), which is an interest-earning investment option, backed by AUL's general account assets and is considered to be a stable value fund with underlying investments in investment contracts that carry a "benefit responsiveness" feature. This feature guarantees that participant initiated withdrawals from the fund will be covered at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value.

The fair value of participant units held in the stable value fund are based on NAV after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts.

The average yield and crediting interest rate of the stable value fund were approximately 1.84% and 1.35% for the years ended December 31, 2018 and 2017, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.0% for both the years ended December 31, 2018 and 2017.

At December 31, 2018 and 2017, the Plan had no unfunded commitments related to these investments. The redemption of these investments is subject to the preference of individual Plan participants and contains no restrictions on the timing of redemption; however, participant redemption may be subject to certain redemption fees.

5. Related Party and Party-in-Interest Transactions

Plan investments include the stable value fund and pooled separate accounts managed by the Custodian. The Custodian acts as the recordkeeper as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions. Administrative expenses represent fees paid by the plan participants for certain recordkeeping transactions, and qualify as party-in-interest transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. Tax Status

The Plan obtained its latest favorable determination letter on August 9, 2018, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan Sponsor believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan continues to be tax-exempt. Therefore, no provision for incomes taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2018 and 2017 (modified cash basis), to the Form 5500:

	2018	2017
Net assets available for benefits per the financial statements	**$61,032,113**	$ 61,998,200
Add: Corrective distributions payable	**35,589**	58,381
Net assets available for benefits per Form 5500	**$61,067,702**	$ 62,056,581

The following is a reconciliation of net decrease in net assets available for benefits per the financial statements (modified cash basis) to the Form 5500:

	2018
Net decrease in net assets available for benefits per the financial statements	$ (966,087)
Net change in accrual of corrective distributions payable	(22,792)
Net decrease in net assets available for benefits per Form 5500	$ (988,879)

9. Subsequent Events

The Company has evaluated events subsequent events through October 15, 2019, the date these financial statements were available to be issued. Based upon evaluation, it was determined that no subsequent events occurred that would require recognition or additional disclosure in the financial statements.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements (modified cash basis) of Northgate Gonzalez Markets, Inc. 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2018 and 2017, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by American United Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2018 and 2017, and for the year ended December 31, 2018, that the information provided to the plan administrator by the custodian is complete and accurate.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule (modified cash basis) of assets (held at end of year) as of December 31, 2018, is required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule (modified cash basis), other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Plan Description

The following description of the Northgate Gonzalez Markets, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan was originally established on January 1, 1999, and is a 401(k) plan covering substantially all employees of Northgate Gonzalez Markets, Inc. (the "Company") who are working a minimum of twenty hours a week, have at least six months of service, and are age eighteen or older. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA").

The Plan is managed by the Plan Administrator appointed by the Board of Directors of the Company. The Company appointed its Vice President of Human Resources as the Plan Administrator. The Plan Administrator has the responsibility for the day to day administration of the Plan. American United Life Insurance Company, the trustee, holds the Plan's assets and distributes those assets in accordance with the Plan document and the instructions of its designees.

On September 30, 2017, CNG Ranch, LLC ("CNG") entered into an agreement to sell all of the assets associated with the CNG stores in Phoenix, Arizona to a third party, subject to certain closing provisions. The Participant Employer ceased its participation in the Plan effective November 20, 2018.

Contributions

Each year, participants may contribute a percentage of their eligible compensation, as defined in the Plan, up to the maximum allowable under the Internal Revenue Code ("IRC") of $18,500 in 2018 and 2017. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions not to exceed the amount allowable under current income tax regulations, which was $6,000 in 2018 and 2017.

The Plan automatically enrolls all new participants into the Plan at a 2% deferral rate. The automatic deferral amount will increase by 1% per year up to a maximum of 4% of the participant's compensation as of the beginning of each subsequent Plan year. The discretionary matching contribution was amended to 50% of the salary deferrals up to 4% of eligible compensation that the participant contributes to the Plan.

The Plan also provides a Roth 401(k) feature that allows for after-tax contributions through salary deductions, with the deferral amounts identical to the pre-tax contribution limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution, and the participant's portion of the Plan's earnings and expenses. The benefit, which a participant is entitled to receive, is the amount that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contribution portion of participants' accounts (including the actual earnings thereon) is based on years of continuous service. Participants are vested in 20% increments starting with the second year of service. A participant is 100% vested after six years of credited service. To earn a year of service, a participant must be credited with at least 1,000 hours of service during the 12-month period beginning on the first day of employment and any anniversary of the employment date.

Notes Receivable from Participants

Plan participants are eligible to obtain loans that are associated with the participant's account balance. The minimum amount of any loan is $500; the maximum amount of any loan is the lesser of (i) 50% of the participant's vested account balance or (ii) $50,000, reduced by the participant's highest outstanding loan balance during the prior 12-month period. Loan repayments are made ratably through participant payroll deductions over a period not to exceed five years, unless the loans are used to purchase a primary residence, in which case the loan will be required to be repaid within 30 years of the original date of the loan. As of December 31, 2018 and 2017, there were outstanding notes receivable from participants totaling $4,819,181 and $4,582,785, respectively. The loans bear interest rates that are based on other lenders' rates for similar loans, and currently have a rate of 4.25%, with various maturities through September 2038.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures

Forfeitures from non-vested participant accounts are used to reduce future administrative expenses and Company contributions. During the year ended December 31, 2018, forfeitures in the amount of $241,377 were used to reduce the Company's contributions. As of December 31, 2018 and 2017, the outstanding forfeiture amounts were $194,973 and $31,884, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements and supplemental schedule of the Plan are prepared using the modified cash basis method of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States ("U.S. GAAP"). The modified cash basis differs from U.S. GAAP in that the Plan recognizes interest and dividend income when received and administrative expenses when disbursed.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan provides for investments in a stable value fund and pooled separate accounts, with investments included in the Statements of Net Assets Available for Benefits at fair value. The Units of the pooled separate accounts are valued at quoted market prices, which represent the net asset values ("NAV") of units held by the Plan at year end. The Plan also invests in a stable value fund. The Plan's interest in the stable value fund is valued at the NAV practical expedient of the underlying investments reported by the issuer of the stable value fund at year-end. This practical expedient would not be used if it is determined to be probable that the Plan will sell the investment for an amount different than reported NAV. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants (an exit price) at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest and dividends are recorded when received. Net appreciation (depreciation) includes the Plan's realized and unrealized gains and losses on investments bought and sold, as well as investments held during the year.

Net Appreciation (Depreciation) in Fair Value of Investments

Realized and unrealized appreciation (depreciation) in the fair value of investments is based on the difference between the fair value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day investments are sold with respect to realized appreciation (depreciation), or on the last day of the year for unrealized appreciation (depreciation).

Realized and unrealized appreciation (depreciation) is recorded in the accompanying Statement of Changes in Net Assets Available for Benefits as net appreciation in fair value of investments.

Notes Receivable – Participant Loans

Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance, plus any accrued (but unpaid) interest and are classified as notes receivable from participants. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

In preparing financial statements in conformity with the modified cash basis, management is required to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from these estimates.

Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

The Plan's exposure to credit loss in the event of nonperformance of investments is limited to the carrying value of such instruments. The Plan's provisions as well as those of ERISA and the participants' investment preferences dictate the Plan's concentration of credit risk and market risk.

Payment of Benefits

Benefits are recorded when paid.

Corrective Distributions

Amount payable to participant for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. As of December 31, 2018 and 2017, corrective distributions payable were $35,589 and $58,381, respectively. During the year ended December 31, 2018, the Plan distributed $35,589. The Plan distributed the 2018 excess contributions to the applicable participants prior to March 15, 2019.

Administrative Expenses

All administrative expenses, unless paid by the Company at its discretion, are paid by the Plan. Fees associated with loan initiations and benefit payments are paid for by the Plan participants who request such transactions and are included in administrative expenses in the accompanying Statement of Changes in Net Assets Available for Benefits.

Recently Issued Accounting Standards

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*. ASU 2018-13 amends the disclosure requirements for recurring and nonrecurring fair value measurements by removing, modifying and adding certain disclosures. ASU 2018-13 removes the following disclosures: the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy; the policy for timing of transfers; the valuation process for Level 3 fair value measurements; and changes in the unrealized gains and losses for the period included in earnings for recurring Level 3 fair value measurements held at the end of the reporting period. The ASU modifies the following disclosure requirements: tranfer in and out of Level 3 and purchases and issues of Level 3 assets and liabilities; for investments in certain entities that calculate the net asset value, the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse if timing has been communicated or announced publicly; and clarifies that the measurement uncertainty disclosure is to communicate information about the uncertainty in measurement as of the reporting date. The additional disclosures required under ASU 2018-13 are applicable only for public entities. The ASU is effective for fiscal years beginning after December 15, 2019, with early adoption permitted. Certain amendments of the ASU may be applied prospectively while others should be applied retrospectively to all periods presented upon the effective date. It is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures, if applicable, until the effective date. Plan management is currently evaluating the impact of the adoption of the ASU on the financial statements.

In July 2018, the FASB issued ASU 2018-09, *Codification Improvements*, ("ASU 2018-09"), which includes amendments to Subtopics 962-325, *Plan Accounting Defined Contribution Pension Plans Investments Other*. The amendment removes the stable value common collective trust fund from the illustrative example to avoid the interpretation that such n investment would never have a readily determinable fair value and, therefore, would always use the net asset value per share practical expedient. Rather, a plan should evaluate whether a readily determinable fair value exists to determine whether those investments may qualify for the practical expedient to measure at net asset value in accordance with ASC 820. The amendment to Subtopic 962-325 is effective for fiscal years beginning after December 15, 2018 using a modified retrospective approach. Plan management is currently evaluating the impact of the adoption of the ASU on the financial statements.

3. Information Prepared and Certified by the Custodian of the Plan

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Accordingly, American United Life Insurance Company, the Trustee, who holds the assets and execute transactions of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule (modified cash basis) are complete and accurate:

a. Fair value of investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2018 and 2017, except for notes receivable from participants;

b. Investment activity, including interest and dividends and net depreciation in fair value of investments, as shown in the Statement of Changes in Net Assets Available for Benefits for the Year Ended December 31, 2018;

c. Investment information disclosed in Note 4; and

d. Supplemental Schedule of Assets (Held at End of Year) as of December 31, 2018, except for notes receivable from participants.

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule (modified cash basis), as instructed by the Plan Administrator.

4. Fair Value Measurements

Accounting guidance has established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level Input	Input Definition
Level 1	Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
Level 2	Quoted prices in markets that are not considered to be active for financial instruments for which all the significant inputs are observable, either directly, or indirectly.
Level 3	Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

An asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. Management of the Plan reviews the levels assigned to its fair value measurements on an annual basis and recognizes transfers between levels as of the beginning of the Plan year in which the transfer occurs.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017:

	Investment Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	**$ 49,850,037**	**$ -**	**$ -**	**$ 49,850,037**

Total investments at fair value	**$ 49,850,037**	**$ -**	**$ -**	**$ 56,247,337**

	Investment Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ 50,874,030	$ -	$ -	$ 50,874,030
Stable value fund*	-	-	-	6,435,438
Total investments at fair value	$ 50,874,028	$ -	$ -	$ 57,309,468

**Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.*

The pooled-separate accounts invest primarily in long-term bonds, domestic and international stocks, or single mutual funds. Units of the pooled separate accounts are valued using the NAV provided by the administrator of the account. Each pooled separate account provides for redemptions by the Plan at reported net asset values per unit, with no advance notice requirement. These funds are classified within Level 1 of the valuation hierarchy, as they deemed to have a readily determinable fair value and are actively traded.

The stable value fund held by the Plan consists of the American United Life ("AUL") Fixed Account ("Fixed Account"), which is an interest-earning investment option, backed by AUL's general account assets and is considered to be a stable value fund with underlying investments in investment contracts that carry a "benefit responsiveness" feature. This feature guarantees that participant initiated withdrawals from the fund will be covered at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value.

The fair value of participant units held in the stable value fund are based on NAV after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts.

The average yield and crediting interest rate of the stable value fund were approximately 1.84% and 1.35% for the years ended December 31, 2018 and 2017, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.0% for both the years ended December 31, 2018 and 2017.

At December 31, 2018 and 2017, the Plan had no unfunded commitments related to these investments. The redemption of these investments is subject to the preference of individual Plan participants and contains no restrictions on the timing of redemption; however, participant redemption may be subject to certain redemption fees.

5. Related Party and Party-in-Interest Transactions

Plan investments include the stable value fund and pooled separate accounts managed by the Custodian. The Custodian acts as the recordkeeper as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions. Administrative expenses represent fees paid by the plan participants for certain recordkeeping transactions, and qualify as party-in-interest transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. Tax Status

The Plan obtained its latest favorable determination letter on August 9, 2018, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan Sponsor believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan continues to be tax-exempt. Therefore, no provision for incomes taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2018 and 2017 (modified cash basis), to the Form 5500:

	2018	2017
Net assets available for benefits per the financial statements	**$61,032,113**	$ 61,998,200
Add: Corrective distributions payable	**35,589**	58,381
Net assets available for benefits per Form 5500	**$61,067,702**	$ 62,056,581

The following is a reconciliation of net decrease in net assets available for benefits per the financial statements (modified cash basis) to the Form 5500:

	2018
Net decrease in net assets available for benefits per the financial statements	$ (966,087)
Net change in accrual of corrective distributions payable	(22,792)
Net decrease in net assets available for benefits per Form 5500	$ (988,879)

9. Subsequent Events

The Company has evaluated events subsequent events through October 15, 2019, the date these financial statements were available to be issued. Based upon evaluation, it was determined that no subsequent events occurred that would require recognition or additional disclosure in the financial statements.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
