OWEN-ADAMS, LP. DBA OVERHEAD DOOR
COMPANY OF DALLAS RESIDENTIAL 401K PLAN

NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF PLAN

The following description of the Owen-Adams, LP. dba Overhead Door Company of Dallas Residential 401(k) Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

1. General. The Plan is a defined contribution plan covering all employees of the Company who have one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Security Act (ERISA).
2. Contributions. Each year, participants may contribute an elected pretax percentage of annual compensation up to the lawful limit for the year; that limit for 2018 was $18,500, 2017 was $18,000. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also rollover amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the plan. The Company may make at their discretion a matching contribution equal to a percentage of the 401k elective deferral contributions; that percentage for 2018 and 2017 was 50% of the first 4% of employee elective deferral. The Company may make an additional annual discretionary contribution to be divided among participants eligible for a share on December 31. For the year ended December 31, 2018 and 2017, there were no discretionary contributions made by the Company.
3. Participant Accounts. Each participant's account is credited with the participant's contribution and the Company percentage matching contribution and allocations of (a) the Company's discretionary contribution, (b) Plan earnings and (c) Plan forfeitures. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. Vesting. Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is vested after credited service in yearly increments at 2, 3, 4, 5 and 6 years at 20%, 40%, 60%, 80% and 100%, respectively.
5. Notes receivable, participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest rates commensurate with similar loans from commercial lending institutions. Principal and interest is paid ratably through monthly payroll deductions. In accordance with ASU 2010-25 notes receivable, participants are measured at their unpaid principal balances plus any accrued but unpaid interest.

DESCRIPTION OF PLAN (continued)

6. Payment of Benefits. On termination of service due to death, disability, or retirement, a participant with a vested balance of $5,000 or more may choose from several annuity options or a single-sum payment. A vested balance of $5,000 or less, will be paid in a single-sum. The plan will automatically roll the vested balance to an IRA in a direct rollover if: a) the vested balance is $1,000 or more or b) the participant has not reached age 65 or c) the participant has not elected single sum payment or rollover to another retirement plan in a direct rollover.
7. Forfeited Accounts. Forfeited non-vested accounts were $0 for the year ended December 31, 2018 and 2017.
8. Plan Amendments. There were no plan amendments for the year ended December 31, 2018 or 2017.

B. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. If available, quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held at year end. Participant loans are valued at fair value.

Interest income is recorded on the accrual basis.

Payment of Benefits.

Benefits are recorded when paid.

Operating Expenses.
All expenses of maintaining the plan are paid by the Company.

SUMMARY OF ACCOUNTING POLICIES (continued)

Subsequent Events

The plan has evaluated subsequent events through October 10, 2019, the date the financial statements were available to be issued.

C. TRUSTEE'S CERTIFICATION LIMITED SCOPE

Pursuant to 29 CFR 2520.103.5(c) Principal Life Insurance Company has certified as complete and correct the following investment:

Guaranteed interest accounts
Pooled Separate accounts

D. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Statement No. 157 as codified in ASC 820, Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are defined as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

D. FAIR VALUE MEASUREMENTS (continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no significant transfers in and out of levels 1 and 2.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 or 2017.

Securities in pooled separate accounts: Valued at the price reported on the open market on which the individual securities are traded. While the underlying assets values are quoted prices, the net asset value (NAV) of a separate account is not publicly quoted.

Mutual Funds in pooled separate accounts: Valued at net asset value (NAV) of shares held by the plan at year end. The fair value of the mutual fund is a publicly quoted price, the NAV of a separate account is not publicly quoted.

Guaranteed Interest: Valued at fair value as the amount plan participants or plan sponsors would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity.

Participant loans: Valued at reported unpaid balances which approximate fair value. There is no existing external exit market for these loans as all transactions are restricted to participants and the plan sponsor. These loans can not be assumed or sold to outside parties. There is no credit risk involved with these loans as any participant defaults are then deemed taxable distributions to the participant.

F. TAX STATUS

The Plan, as originally drafted, is a Prototype Non-Standardized Profit Sharing Plan. The Internal Revenue Service has determined and informed the Sponsor of the prototype plan by a letter dated March 31, 2008, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code. However, a determination letter from the Internal Revenue Service has not yet been requested by the Plan Sponsor/Company to determine if the Plan as amended was designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and ERISA and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

G. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported
