INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator Darigold, Inc. 401(k) Savings Plan

We were engaged to audit the financial statements and supplemental schedule of Darigold, Inc. 401(k) Savings Plan (the Plan) as of December 31, 2009 and 2008, and for the years then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2009 and 2008, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

DARIGOLD, INC. 401(k) SAVINGS PLAN NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

Note 1 - Description of Plan

The following description of the Darigold, Inc. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement, as amended, for more complete information regarding the Plan provisions.

General - The Darigold, Inc. 401(k) Savings Plan (the Plan) is a defined contribution plan established by Darigold, Inc. (the Company) under the provisions of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC. In addition, the Plan meets the 401(k) safe harbor provisions of the IRC.

Eligibility - All full-time employees are eligible to participate in the Plan on the first day of the month following 30 days of consecutive service.

Contributions - Employees may elect to defer up to 85% of their compensation, as defined by the Plan, subject to limitations under the IRC.

The Company matches contributions up to a maximum of 4% of employee compensation, as defined by the Plan, and contributes an additional 5% of compensation as employer non-matching contribution to all eligible participants.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover contributions).

Effective January 1, 2009, all eligible employees who did not have a salary reduction election in place had an automatic deferral contribution of 3% withheld from each employee's compensation as pre-tax 401(k) deferral contributions unless the employee timely elected not defer for the Plan year. Those employees who do not select an investment fund are automatically invested in a default investment option.

Investment Options - Participants direct the investment of current account balances and future contributions among investment funds offered under the Plan. The funds include primarily registered investment company funds and a collective trust fund offered through Fidelity Investments. Additionally, participants may elect to enroll in Brokerage Link, which enables investment in stocks, funds and other investment options. Participants may change their investment election and transfer amounts between funds on a daily basis.

Risk and Uncertainties - The Plan provides for various investment fund options which in turn invest in a combination of stocks, bonds, and other investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 1 - Description of Plan (Continued)

Vesting - Participants are fully vested in their contributions. Of the 5% of employer non-matching contribution made to a participant's account each payroll period, 3% will be 100% vested at all times. The remaining 2% and the entire employer matching contribution and earnings thereon will vest in accordance with the following schedule:

	Vested
Years of Service	<u>Percentage</u>
Less than 2	0%
2	20%
3	60%
4	80%
5	100%

For employees eligible prior to January 1, 2009, upon attainment of age 50 and one year of service, disability or death, participants or their beneficiaries become 100% vested. For employees eligible on or after January 1, 2009, upon attainment of age 55 and 5 years of service, disability or death, participants or their beneficiaries become 100% vested.

Forfeitures - Forfeitures are used to reduce future company matching and non-matching contributions. During 2009 and 2008, \$182,646 and \$80,066, respectively, of forfeitures were used to reduce employer contributions. Unallocated forfeitures as of December 31, 2009 and 2008 totaled \$129,671 and \$11,109, respectively.

Plan Administration - Darigold, Inc. has been designated as the administrator of the Plan. Fidelity Management Trust Company serves as the Plan trustee.

Participant Accounts - Each participant's account is credited with the participant's contribution and the Company's contribution and an allocation of Plan earnings and investment expenses. Participant accounts are valued on a daily basis based on quoted market prices as determined by the trustee. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Benefit Payments - The value of the participant's individual account is payable upon death, disability, or retirement as a lump-sum payment. Upon termination of service with vested benefits of \$1,000 or less, the participant or beneficiary will automatically receive the value of the vested interest in the account as a lump-sum distribution.

Participant Loans - A participant may borrow 50% of his or her vested account balance up to a maximum of \$50,000. Loans are secured by the balance of the participant's account. Principal and interest on the loans are repayable through monthly payroll deductions over periods ranging up to five years, with interest rates on outstanding loans ranging from 4.25% to 9.25% and the loans mature through December 2014.

Note 1 - Description of Plan (Continued)

Tax Status - The Plan obtained a determination letter dated April 3, 2001 from the Internal Revenue Service (IRS) stating that the Plan, as designed, is in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting.

FASB Codification - On July 1, 2009, the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) became the single authoritative source for nongovernmental U.S. generally accepted accounting principles (GAAP). The ASC supersedes all previous authoritative GAAP applicable to the Plan and is effective for interim and annual periods ended after September 15, 2009.

Investment Valuation - Investments are stated at fair value as certified by the Plan's trustee, Fidelity Management Trust Company.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to the fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by authoritative guidance, the statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Income Recognition - Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade date basis.

Note 2 - Summary of Significant Accounting Policies (Continued)

Net Appreciation (Depreciation) in Fair Value of Investments - Net appreciation (depreciation) in fair value of investments represents the change in fair value of investments from one period to the next including realized gains and losses.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - The Company pays administrative expenses of the Plan. Loan fees are charged to participants.

Use of Estimates - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the amounts reported in the financial statements, accompanying notes and supplemental information. Actual results could differ from those estimates.

Subsequent Events - Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are issued. The Plan has evaluated subsequent events through October 1, 2010, which is the date the financial statements were available to be issued.

Note 3 - Investments

Investment Contracts - The Fidelity Managed Income Portfolio Fund (the Fund) is designed to provide preservation of capital and returns that are consistent regardless of stock and bond market volatility. The Fund seeks to earn a high level of income consistent with those objectives. The Fund holds guaranteed investment contracts that typically have a fixed maturity. Each contract contains a provision that the issuer will, if required, repay principal at the stated contract value for the purpose of paying benefit payments (fully benefit-responsive).

In accordance with authoritative guidance, the Fund is presented at fair value on the statements of net assets available for benefits. The adjustment from fair value to contract value is based on the contract value as reported by Fidelity Management Trust Company (which represents contributions made under the contracts, plus earnings, less withdrawals and administrative expenses).

Note 4 - Fair Value Measurements

In accordance with authoritative guidance, the Plan classifies its investments based upon an established fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurement

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly;

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Shares of registered investment company funds are valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within level 1 of the valuation hierarchy.

The Plan has investments in the Fidelity Managed Income Portfolio Fund, which is a collective investment trust fund that invests mainly in short-term bonds and other fixed-income securities. The fund seeks to preserve principal while earning interest income. Each contract contains a provision that the issuer will, if required, repay the principal at the stated contract value for the purpose of paying benefit payments.

Units held in collective trusts are valued using the NAV of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a collective investment fund is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. Accordingly, the unit value for a collective investment fund is classified within level 2 of the valuation hierarchy.

Note 4 - Fair Value Measurements (Continued)

Participant loans are not actively traded and significant other observable inputs are not available. Participant loans are stated at amortized cost which approximates fair value and are classified within level 3 of the valuation hierarchy. Loans are secured by each respective participant's account balance.

Common and preferred stocks are valued at the closing price reported on the major market on which the individual securities are traded. Common and preferred stock are generally classified within level 1 of the valuation hierarchy.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

The following table discloses by level the fair value hierarchy as it pertains to Plan investments:

Note 5 - Information Certified by the Trustee

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules of Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act (ERISA), the scope of the audit did not extend to information certified to be complete and accurate by the trustee of the Plan's assets, Fidelity Management Trust Company.

Information certified by the trustee is summarized below at December 31, 2009 and 2008:

- Investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2009 and 2008.
- Net appreciation (depreciation) in fair and contract values of investments, dividends, and interest reflected on the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2009 and 2008.
- Investments reflected on the supplemental schedule of assets (held at end of year).

Note 6 - Party-in-Interest Transactions

Certain Plan investments are shares of registered investment company and collective trust funds managed by Fidelity Investments. Fidelity Management Trust Company is the trustee of the Plan and an affiliate of Fidelity Investments and, therefore, transactions with these entities qualify as exempt party-in-interest transactions.

Note 7 - Plan Termination

Although it has expressed no intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of a complete or partial termination of the Plan, or upon complete discontinuance of contributions, the entire interest of each of the affected participants will become fully vested.

Note 8 - Reconciliation to Form 5500

The Form 5500 as of December 31, 2009 and 2008 presents the collective trust fund at fair value. Due to this presentation, the following is a reconciliation of net appreciation (depreciation) of assets between the financial statements and the Form 5500 for the years ended December 31:

 2009		2008
 _		_
\$ 9,347,241	\$	(15,696,538)
(212,597)		278,472
\$ 9,134,644	\$	(15,418,066)
\$	\$ 9,347,241 (212,597)	\$ 9,347,241 \$ (212,597)

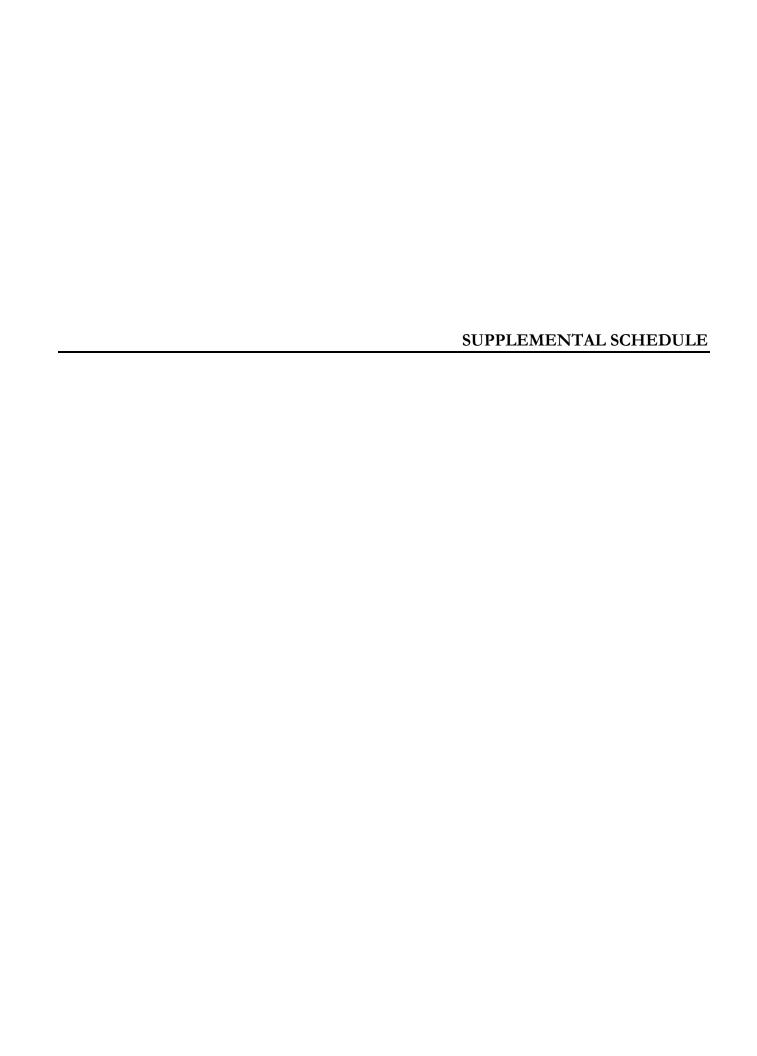

The Form 5500 presents other amounts differently than the presentation in the accompanying financial statements. These differences relate to classification only and have no effect upon net assets available for benefits.

Note 9 - Sale of Subsidiary

In March 2007, the Company sold the assets of its Olympic Foods, Inc. (Olympic) subsidiary. Effective on the date of sale, employees of Olympic were no longer eligible for participation in the Plan. Plan assets of \$5,915,622 for Olympic participant account balances became 100% vested and were available for distribution from the Plan in April 2007. Of this amount, \$754,438 and \$829,810 was distributed during the years ended December 31, 2009 and 2008, respectively. These amounts are included in benefits and withdrawals paid to participants on the statements of changes in net assets available for benefits.

Note 10 - Acquisitions

Effective August 2, 2010, Country Classic Dairies Inc. (CCD) and Country Classic LLC (the LLC) merged into the Company. As of the effective date of the merger, former employees of CCD and the LLC, both active and fully-vested terminated participants, became eligible to participate in the Plan subject to certain eligibility and regulatory requirements.
