PARAMOUNT RESIDENTIAL MORTGAGE GROUP, INC. 401(k) PLAN

Notes to Financial Statements
December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Paramount Residential Mortgage Group, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for more detailed information of the Plan's provisions.

General - The Plan is a defined contribution plan. The Plan covers all employees of Paramount Residential Mortgage Group, Inc. (the Company) who are at least 18 years of age and have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established on January 1, 2003.

Contributions - Participant's contributions are made to the Plan by means of salary deferral by which the participant is entitled to defer the lesser of 100 percent of their compensation, or a fixed amount determined annually by the Internal Revenue Service. The Company has the option to make discretionary profit sharing contributions or discretionary matching contributions. There were no discretionary profit sharing or discretionary matching contributions made for the years ended December 31, 2009 and 2008. "Rollover" contributions from other qualified plans are accepted by the Plan.

Participant Accounts - Each participant's account is credited with the participant's contribution, the Companies' discretionary matching and discretionary profit sharing contributions, and an allocation of Plan earnings. Allocations of forfeitures are based on participant wages, as defined. Allocations of plan earnings are based on participant balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in their account.

Participant Loans - The Plan allows participants to borrow up to 50 percent of their vested account balances, but not less than $1,000, nor more than $50,000. The loan repayment period must be no more than five years with the interest rate determined based on prevailing rates at the date of the loan. Home loans can be repaid over a reasonable period of time that may be longer than five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Forfeitures - Forfeitures result from nonvested benefit payments remaining in the Plan for all terminated employees. Upon reaching the break-in-service requirement, as defined in the Plan agreement, forfeitures generated are used to reduce future Company discretionary matching or discretionary profit sharing contributions. There were no forfeitures available or used to reduce Company discretionary matching or discretionary profit sharing contributions as of and for the years ended December 31, 2009 and 2008.

(Note 1 continued on the following page)

PARAMOUNT RESIDENTIAL MORTGAGE GROUP, INC. 401(k) PLAN

Notes to Financial Statements (Continued) December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. The employer's discretionary matching contributions and discretionary profit sharing contributions vest according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0
2	20
3	40
4	60
5	80
6	100

Payment of Benefits - Upon reaching the retirement age of 64 or upon termination of service, a participant may elect to receive a lump-sum payment or installments paid over a certain number of years equal to the vested value of his or her account.

Administrative Expenses - Certain administrative expenses are paid from Plan earnings and are charged against each participant's account. Administrative expenses paid for by the plan amounted to $9,920 and $10,516 for the years ended December 31, 2009 and 2008, respectively.

Investments - Each participant directs the allocation of his or her contribution, employer discretionary matching contributions, and employer discretionary profit sharing contributions to one or more of 41 investment options. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis.

Risks and Uncertainties - The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

PARAMOUNT RESIDENTIAL MORTGAGE GROUP, INC. 401(k) PLAN

Notes to Financial Statements (Continued) December 31, 2009 and 2008

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The financial statements have been prepared in compliance with the Department of Labor Rules and Regulations for reporting the disclosure under ERISA.

Basis of Accounting - The financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

FASB Codification - The Financial Accounting Standards Board (FASB) sets generally accepted accounting principles (GAAP) that the Plan follows to ensure consistent reporting of financial condition and results of changes in net assets. In June 2009, the FASB established the FASB Accounting Standards Codification (Codification) as the sole source of authoritative GAAP.

The Codification does not change how the Plan accounts for its transactions or the nature of the related disclosures made. The change was made effective by the FASB for periods ending on or after September 15, 2009. The adoption of the Codification did not impact the Plan's financial position and results of changes in net assets. The Plan has updated these financial statements to reflect the guidance in the Codification.

Subsequent Events - The Plan evaluated subsequent events through September 29, 2010, the date these financial statements were issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTE 4 - FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Common stock held in the pooled separate accounts are valued at closing price reported on the active market on which the individual securities are traded. Mutual funds held in the pooled separate accounts are valued at the net asset value (NAV) of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

Unallocated contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, so that each participant receives 100% of his or her account balance as of the date of termination.

NOTE 6 - TAX STATUS

The Company is using a Prototype Plan provided by the Plan Administrator for which said Administrator received a favorable determination letter on September 18, 2001. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code (IRC).

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds managed by John Hancock Life Insurance Company or its wholly owned subsidiaries. John Hancock Life Insurance Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 8 - PROHIBITED TRANSACTIONS

In accordance with Department of Labor regulations, the Plan sponsor is required to remit employee contributions as soon as they can be reasonably segregated from the Plan sponsor's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the Plan sponsor. Untimely remittance may constitute a prohibited transaction as it is deemed to be a use of plan assets for the benefit of the sponsor or a prohibited extension of credit. During the year ended December 31, 2009, there were ten instances in which remittances were filed late totaling $64,191. The Company is in the process of rectifying the matter by paying lost earnings on the employee contributions that were remitted late.
