1. DESCRIPTION OF PLAN

The following description of the LiDestri Foods, Inc. Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was established effective October 1, 1983. All employees of LiDestri Foods, Inc. and its wholly-owned subsidiaries as well as an entity related through common ownership (collectively, the Company) are eligible to make elective deferral contributions to the Plan on the day they become an employee. After completing three months of service and attaining age eighteen, employees are eligible to receive discretionary contributions and matching contributions from the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Administration

The Company is the Plan sponsor and Plan administrator. All assets of the Plan are held and managed by Principal Life Insurance Company, Principal Trust Company and Principal Global Investors Trust Company, the custodians of the Plan. An executive is the trustee of the Plan.

Contributions

Each year, participants may contribute a percentage of pretax annual compensation, as defined in the Plan, up to the maximum amount allowable in accordance with applicable sections of the Internal Revenue Code (Elective Deferrals). Participants may also rollover contributions from other qualified retirement plans. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Company shall make matching contributions in an amount of 100% of participant's Elective Deferrals that are not over 2% of compensation and 25% of Elective Deferrals that are over 2% of compensation but not over 6% of compensation. The Company may make discretionary contributions to the Plan.

Participant Investment Options

Participants direct the investment of all contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is allocated with the participant's contributions, Company matching contribution, the Company's discretionary contributions, Plan earnings, forfeitures, and administrative expenses. Company discretionary contributions are allocated to participants based on the participant's eligible compensation for the year in relation to the eligible compensation for the year of all participants. Plan earnings, forfeitures and administrative expenses are allocated based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN (Continued)

Vesting
Participants are immediately 100% vested in their contributions plus actual earnings thereon. Company matching and discretionary contributions plus earnings thereon become 20% vested upon completion of one year of service and continue to vest at the rate of 20% for each successive year of service until 100% vested after five years of service. Participants are considered to have completed one year of service for vesting purposes upon completion of 1,000 hours of service at any time during the plan year.

Forfeitures
Forfeitures of non-vested account balances are used to offset Plan expenses or reduce employer contributions. There were $128,386 and $97,095 forfeitures of non-vested account balances during 2019 and 2018, respectively. There were approximately $97,000 and $79,000 amounts used to reduce employer contributions or to offset Plan expenses during 2019 and 2018, respectively. At June 30, 2019 and 2018, respectively, there was $128,386 and $97,095 of forfeited account balances available to offset future expenses or employer contributions.

Notes Receivable from Participants
Participants may borrow from their vested account balance a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the remaining vested account balance and bear interest at rates available for similar loans from commercial lending institutions. Principal and interest are paid ratably through weekly payroll deductions.

Payment of Benefits
Upon retirement, death, hardship or termination of employment, a participant may elect to receive benefits either in a single sum or in the form of an annuity.

Hardship Withdrawals
Hardship withdrawals from the Plan are permitted from a participant's vested account balance. All hardship withdrawals are subject to the Company's approval and must comply with the rules relating to hardships, which are uniformly applicable to all participants.

Plan Termination
Although the Company has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, each participant's account will become fully vested.

Administrative Expenses
The Plan sponsor pays certain of the expenses associated with the administration of the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments and Income Recognition
The Plan's investments in mutual funds and pooled separate accounts are reported at fair value as reported by the custodian. The Plan's interests in the common collective trusts are stated at fair value using the net asset value (NAV) per share practical expedient and are valued based on information reported by the investment advisors using the audited financial statements of the common collective trusts at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Fair Value Measurements - Definition and Hierarchy
The Plan uses various valuation techniques in determining fair value. Financial Accounting Standards Board *Accounting Standards Codification 820* (ASC 820) establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available. The hierarchy is broken down into three levels based on the reliability of inputs as follows:

- Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

- Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, directly or indirectly.

- Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy is determined based on the least reliable input that is significant to the fair value measurement.

A description of where the Plan's investments fall within the hierarchy is presented in Note 4.

Risks and Uncertainties
Investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with investment securities and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in values in the near term would materially affect participants' account balances and the amount reported in the accompanying financial statements.

Payment of Benefits
Benefits are recorded when paid.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based on the terms of the Plan document. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of June 30, 2019 and 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

3. CERTIFIED INVESTMENT INFORMATION

The following information was certified as complete and accurate by Principal Life Insurance Company, Principal Trust Company and Principal Global Investors Trust Company, the custodians, and is included in the accompanying financial statements and supplemental schedule at June 30:

	2019	2018
Investments, at fair value	$ 56,231,604	$ 53,957,520
Investment income	$ 3,342,844	$ 4,977,468
Schedule of Assets (Held at End of Year)	Schedule I (except "notes receivable from participants")	

4. FAIR VALUE MEASUREMENT

The following is a description of the valuation methodologies used for assets measured at fair value:

The pooled separate accounts are valued based on the fair value of the underlying investments.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The collective investment trust is valued based on the market value of its underlying investments. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. There are no restrictions on redemptions, which may occur daily, and there are no unfunded commitments. The Plan's collective investment trust's primary investment objective is to seek income while preserving principal and provide daily liquidity at contract value for participant withdrawals and transfers.

The investments in the guaranteed interest account are valued at fair value as defined in the investment contract (book value less an early withdrawal charge).

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENT (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2019:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ 43,898,300	$ -	$ -	$ 43,898,300
Mutual funds	5,185,862	-	-	5,185,862
Guaranteed interest account	-	-	38,206	38,206
Total assets in the fair value hierarchy	49,084,162	-	38,206	49,122,368
Investments measured at NAV				7,109,236
Totals	$ 49,084,162	$ -	$ 38,206	$ 56,231,604

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2018:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 41,331,698	$ -	$ 41,331,698
Mutual funds	5,595,534	-	-	5,595,534
Guaranteed interest account	-	-	106,190	106,190
Total assets in the fair value hierarchy	5,595,534	41,331,698	106,190	47,033,422
Investments measured at NAV				6,924,098
Totals	$ 5,595,534	$ 41,331,698	$ 106,190	$ 53,957,520

During 2019, the Plan reclassified the pooled separate accounts previously held in Level 2 to Level 1 due to a change in management's assessment and clarification of the inputs being more consistent with the Level 1 inputs rather than Level 2. There was, however no change in the actual inputs utilized to value the pooled separate accounts. The Plan's policy is to recognize reclassifications as of the end of the year in which the change arose.

Other than the change noted above, for years ended June 30, 2019 and 2018, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

5. PARTY-IN-INTEREST TRANSACTIONS

Principal Life Insurance Company, Principal Trust Company and Principal Global Investors Trust Company are the Plan custodians of the Plan's assets. As such, transactions between Principal Life Insurance Company, Principal Trust Company and Principal Global Investors Trust Company and the Plan qualify as party-in-interest transactions. Additionally, Plan assets consist of notes receivable from participants, which qualify as party-in-interest transactions.

6. TAX STATUS

The Plan is designed from a volume submitter plan offered by Principal Life Insurance Company. The Internal Revenue Service has determined, by letter dated August 8, 2014, that the written form of the underlying volume submitter plan document is acceptable under Section 401 of the IRC for use by employers for the benefit of their employees. The Plan has been amended since receiving that determination letter. The Plan has not yet applied for its own determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following tables provide a reconciliation of the net assets available for benefits and changes in net assets available for benefits per the financial statements to Form 5500 as of and for the years ended June 30:

	2019	2018

Net assets available for benefits per Form 5500	$ 57,927,995	$ 55,313,301

The following is a reconciliation of changes in net assets available for benefits per the financial statements to the Form 5500 for the year ended June 30:

	2019	2018
Net increase in net assets per the financial statements	$ 2,440,609	$ 5,221,783
Adjustment for stable value common collective trust reporting	207,679	(144,827)
Adjustment for deemed loans	(33,594)	-
Net increase in net assets per the Form 5500	$ 2,614,694	$ 5,076,956

7. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 (Continued)

While total net assets available for benefits and the total change in net assets available for benefits reconcile between the financial statements and Form 5500 for 2019 and 2018, as illustrated above, certain classifications differ between the financial statements and Form 5500.

8. SUBSEQUENT EVENTS

Subsequent events have been evaluated through January 6, 2020, which is the date the financial statements were available to be issued.
