To the Board of Directors
Diversified Distribution Systems, Inc. Retirement Plan

We were engaged to audit the accompanying statements of net assets available for benefits as of December 31, 2009 and 2008 and the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and supplementary schedule of assets (held at end of year) of the Diversified Distribution Systems, Inc. Retirement Plan as of December 31, 2009. These financial statements and supplementary schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information included in the financial statements and supplementary information which was certified by Wells Fargo, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplementary information. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2009 and 2008 that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee or custodian, has been audited by us in accordance with generally accepted auditing standards and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

DIVERSIFIED DISTRIBUTION SYSTEMS, INC. RETIREMENT PLAN
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 DESCRIPTION OF PLAN

The following description of the Diversified Distribution Systems, Inc. ("Company") Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Plan inception

The inception date of the plan was May 31, 1981.

General

The Plan is a defined contribution plan covering all employees who have completed three months of service and are age eighteen (18) or older. An employee is eligible for discretionary non-elective contributions only if the employee has also worked 1,000 hours during the year and is employed on the last day of the plan year, unless the employee died, became disabled, or reached normal retirement age during the plan year. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100 percent of eligible earnings, as defined in the Plan, limited to the provisions of Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Company contributions to the Plan equal 100% of the aggregate salary reduction contribution up to 2%. At the discretion of the Board of Directors, additional non-elective profit sharing contributions can be made.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and may be charged with an allocation of investment expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution of their accounts plus actual earnings thereon is based on years of service. Participants are fully vested after completion of four years of service, or if they have reached normal retirement age of 65, die, or become disabled.

Investment options

A participant may direct employee contributions in one percent increments in any one or more of the Plan Sponsor's pre-determined investment options. Participants may change their investment options daily.

Participant loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balances. Loans are made on a pro rata basis from all investment funds in which an account is invested. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, disability or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or, as applicable, in Plan specified annual installments. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Plan expenses

Record keeping fees, legal fees, Trustee's fees and other reasonable costs of administering the Plan may be paid by the Company or they may be paid out of Plan assets.

Forfeited accounts

Forfeited balances of terminated participants' nonvested accounts are used to reduce future employer contributions. In 2009 employer contributions were reduced by $4,488 from forfeited nonvested accounts. At December 31, 2009, forfeitures have been fully utilized.

Subsequent events

Subsequent events were evaluated through July 7, 2010, which is the date the financial statements were available to be issued.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are to be reported at fair value. However, contract value is the relevant measurement attribute for that position of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investments

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurment date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis, and dividend income is recorded on the ex-dividend date. Net appreciation or depreciation in the market value of investments consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Benefits

Benefits are recorded when paid.

Use of estimates in the preparation of financial statements

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3 LIMITATION ON SCOPE OF EXAMINATION

The Plan Sponsor has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the Plan Administrator instructed its independent auditors not to perform, and they did not perform, any auditing procedures with respect to information certified by the Trustee.

Wells Fargo Bank, N.A., the Trustee of the Plan, has certified that the investment assets, transactions, and income and the schedules of investments and related transactions are complete and accurate pursuant to 29 C.F.R. 2520.103-5(c).

NOTE 4 FAIR VALUE MEASUREMENT

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1 Inputs consist of unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted market prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs are unobservable to the fair value measurement.

Description of the valuation methodologies used for assets measured at fair value is summarized below. There have been no changes in the methodologies used at December 31, 2009, and 2008.

Common / collective trust: Valued at the unit value, which approximates fair value, as reported by the trustee of the common / collective trust fund at year end.

Mutual funds: Valued at the net asset value of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's assets reported at fair value by the levels of fair value hierarchy are as follows:

		Fair Value Measurements at Reporting Date Using:		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
