USNMFCU 401(k) Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN

The USNMFCU 401(k) Plan (the Plan) was established for the benefit of the employees of U.S. New Mexico Federal Credit Union. U.S. New Mexico Federal Credit Union acts as the plan sponsor and administrator. Participants should refer to the Plan document for a more complete description of the Plan.

General

The Plan is a defined contribution plan covering all employees of U.S. New Mexico Federal Credit Union (USNMFCU) who have completed three months of service as defined in the Plan and have attained age eighteen. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Employees may elect not to participate in the salary deferral program. The Plan entry dates are the first of the month following the date on which the eligibility requirements are satisfied.

Contributions

Participants are allowed to contribute up to 25% of compensation up to the allowable limit.

USNMFCU may make a discretionary contribution to the Plan each year. No discretionary contributions were made by USNMFCU in 2009 or 2008.

Administration

Administration costs incurred by the Plan are generally paid by U.S. New Mexico Federal Credit Union.

Participant accounts

Each participant's account is credited with the participant's contribution, an allocation of USNMFCU's discretionary contribution, if any, and the participant's share of net earnings or losses of the respective investment funds of the Plan. Allocations are based on participant compensation and participant contributions, as defined. Employees can direct that their accounts be invested in a combination of several funds. Employees vest in employer discretionary contributions over five years of service.

Participant loans

Participants are allowed to obtain loans from the Plan for one-half of their vested interest in the Plan up to \$50,000, reduced by the highest outstanding loan amount during the preceding twelve-month period. The loans are repaid over a term not to exceed five years (thirty years for qualified home loans). The interest rate approximates market at the time of the loan.

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN – (Continued)

Benefits

Upon termination of service, a participant may elect to receive a lump sum distribution, direct rollover or installments over a certain period.

Forfeitures

Forfeitures of terminated participant's nonvested accounts reduce employer contributions. There were no forfeitures in 2009 or 2008.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of presentation

The Plan's financial statements are prepared using the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investments

Investments are stated at fair market value. The fair market value of cash, receivables, and the money market funds are the face amount of such accounts. All other investments are valued at quoted market prices, except for participant loans which are valued at their outstanding balance.

Plan tax status

In 2002, the IRS issued a letter approving the prototype of this Plan for its conformity with the Internal Revenue Code.

Subsequent events

The Plan has evaluated all events occurring subsequent to December 31, 2009 and through July 6, 2010, which is the date that the financial statements were issued, and does not believe that any events occurring during this period require either recognition or disclosure in the accompanying financial statements.

NOTE 4 - FAIR VALUE MEASUREMENT

United States generally accepted accounting principles, as they relate to fair value measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy Fair Value Measurement are described as follows:

USNMFCU 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 4 - FAIR VALUE MEASUREMENT - (Continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Investment Entity has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Mutual funds: Valued at the net asset value (NAV) of the shares held by the plan at the end of the year.

Participant loans: Valued at amortized costs which approximates fair value.

USNMFCU 401(k) Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

NOTE 4 - FAIR VALUE MEASUREMENT (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Plan's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2009:

<u>Assets at Fair Value</u>				
<u>Description</u>	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
