Report of Independent Auditors

To the Participants and Administrator of
Arrow Fastener Company, Inc. Employees' Pension Trust

We were engaged to audit the statements of net assets available for benefits and supplemental schedule of the Arrow Fastener Company, Inc. Employees' Pension Trust (the "Plan") at December 31, 2009 and 2008 and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of January 1, 2009 and the related statement of changes in accumulated plan benefits for the period from January 1, 2008 to January 1, 2009 as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note I which was certified by The Northern Trust Company the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As explained in Note A, the Plan is to be frozen effective January 1, 2010.

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 25

Change in Method as of January 1, 2009

Based upon an election by the plan sponsor, the asset valuation method changed from the market value of assets to the method described in IRS Notice 2009-22 which reflects changes made by the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA). Changes in the asset method for plan years beginning in 2009 to any permissible asset method are deemed to be automatically approved by the IRS.

The valuation software used to produce the actuarial information submitted on this schedule has been refined to reflect evolving understanding of PPA requirements, and such modifications may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore, the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Transition election: No

Assumed cost of living adjustments

None

Inclusion date

The January 1 or July 1 coincident with or next following the date on which the employee completes 1,000 Hours of Service in the one-year period starting from date of hire or any plan year after.

Administrative expenses

The amount included this year for administrative expenses is \$56,792.

Mortality

For all participants: The prescribed mortality assumption under IRC §430(h)(3)(A) using static tables with separate mortality rates for annuitants and non-annuitants.

Plan Name: Arrow Fastener Co. Inc., Employees' Pension Trust

EIN / PN: 22-1818358 / 001

Valuation Date: January 1, 2009

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Age	Percentage retiring during the year
55	2.5
56	2.5
57	2.5
58	2.5
59	2.5
60	2.5
61	2.5

63	12.0
64	12.0
65	60.0
66	30.0
67	30.0
68	100.0

The weighted average retirement age is 64.2, determined by weighting each potential retirement age by the number of current active employees expected to retire at such age, as determined by the above retirement rates.

Disability Rates (per 100 employees)

None.

Compensation Increases

For purposes of determining the additional funding target for maximum deductible contribution purposes, compensation is assumed to increase by 1% between January 1, 2009 and January 1, 2010. No further increases are assumed after that date.

Future Increases in Social Security

Not applicable.

Plan Name: Arrow Fastener Co. Inc., Employees' Pension Trust
EIN / PN: 22-1818358 / 001
Valuation Date: January 1, 2009

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Representative Termination Rates (per 100 employees) not Due to Disability, Retirement or Mortality

Attained Age	Percentage leaving during the year

25	5.29
30	5.07
35	4.70
40	3.50
45	1.80
50	0.41
55 & over	0.00

Form of Payment

Participants are assumed to elect the normal form of payment.

Marriage

80% of males and 70% of females are married. The male spouse is assumed 3 years older than the female spouse.

Employees

It was assumed there will be no new or rehired employees.

Plan Compensation

Compensation assumed paid in the year proceeding the valuation date is the total pay including bonus.

Plan Name: Arrow Fastener Co. Inc., Employees' Pension Trust
 EIN / PN: 22-1818358 / 001
 Valuation Date: January 1, 2009

Asset Method

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date. The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 6.38%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.00%, and the applicable limitation for the plan year, equal to 6.38%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 6.40%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.00%, and the applicable limitation for the plan year, equal to 6.40%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.4. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Participant Data

Participant data was supplied electronically by Masco Corporation as of the valuation date.

Tax Policy

The actuarial valuation performed for the plan year ending December 31, 2009 is used to determine the maximum deductible contribution for the tax year ending December 31, 2009.

Benefits not Included in Valuation

None.

PBGC Premium Funding Target

For purposes of determining the PBGC Premium Funding Target in Section 2.2.D, the Standard Premium Funding Target was determined using the assumptions described above.

Nature of Actuarial Calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations. Certain percentages determined in this report, such as the Funding Target Attainment Percentage, are rounded to the nearest .01% (e.g., 81.58%) to be consistent with the rounding specified for Schedule SB of the Form 5500.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favorable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request.

Schedule SB, Line 24 and 25 – Change in actuarial assumptions, Change in method

The mortality was changed as prescribed and according to the relevant sponsor elections.

The discount rate was changed from the three-segment rate of the September prior to the valuation date to the full yield curve as of the October prior to the valuation date. This change is being made as elected by the plan sponsor and is deemed to be automatically approved by the IRS pursuant to guidance in the IRS March 31, 2009 Newsletter.

The SFAS 35 mortality changed from the RP-2000 Combined Mortality tables for Males and Females to the 2008 prescribed mortality assumption under IRC §430(h)(3)(A) using static tables with separate rates for annuitants and non annuitants.

The compensation increase assumption changed from 4.00% per annum to 1.00%.

Plan Name: Arrow Fastener Co. Inc., Employees' Pension Trust
EIN / PN: 22-1818358 / 001
Valuation Date: January 1, 2009

Based upon an election by the plan sponsor, the asset valuation method changed from the market value of assets to the method described in IRS Notice 2009-22 which reflects changes made by the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA). Changes in the asset method for plan years beginning in 2009 to any permissible asset method are deemed to be automatically approved by the IRS.

The PBGC Premium Funding Target discount rate was changed from the non-averaged three segment rate for the December prior to the valuation date to use the Funding Target assumptions.

NOTES TO FINANCIAL STATEMENTS

A. Description of Plan:

The following description of the Arrow Fastener Company, Inc. ("Company") Employees' Pension Trust ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. *General.* The Plan is a defined benefit pension plan covering all part and full time nonunion employees having attained the age of 21 and one year of credited service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

2. *Pension Benefits.* Employees are entitled to annual pension benefits upon attaining normal retirement age (65) with five years of participation. This benefit is equal to the participant's years of credited service multiplied by the benefit level at termination. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity, lifetime annuity or period certain annuity. If employees terminate before becoming fully vested (vesting begins after two years of credited service in 20% increments for every year thereon), they forfeit their right to receive their nonvested accumulated plan benefits.

3. *Death and Disability Benefits.* If a vested participant dies before retirement, a pre-retirement survivor annuity is to be paid to the employee's beneficiary. This survivor annuity is payable on the earliest date on which the participant could have elected to receive retirement benefits if the participant had survived. Pre-retirement death benefits are subject to the incidental reserve as described in the Plan. Prior to the 2005 Plan year, the Plan purchased policies on the life of each participant to insure the death benefit provided with a face amount equal to 75 times the participant's normal monthly retirement benefit. Effective October 1, 2004, no additional life insurance shall be purchased for any participant in the Plan. Active employees who become totally and permanently disabled become fully vested for disability benefits that are equal to their normal retirement benefit accumulated as of the date they become disabled.

4. *Funding Policy.* The contributions of the Plan Sponsor are designed to fund an amount which falls between the minimum contribution requirements and the maximum deductible allowance, as determined annually under the provisions of the Internal Revenue Code. The yield on investments of the Plan serves to reduce future contributions that would otherwise be required to provide for the defined level of benefits under the Plan. The Company's and Plan Sponsor's contributions for 2009 and 2008 met or exceeded the minimum funding requirements of ERISA. No participant in the Plan is required to make a contribution under the Plan.

Effective January 1, 2010, future benefits accruals under the Plan will be frozen. As a result, there will be no increases in benefits under the Plan and no new participants will be added to the Plan from and after January 1, 2010.

A. Description of Plan, concluded:

During 2009, all investments in life insurance contracts were terminated. The cash surrender value of the contracts was deposited into the Plan.

Effective January 1, 2008, "Normal Retirement Date" shall mean the October 1 preceding the participant's Normal Retirement Age.

B. Summary of Significant Accounting Policies:

The following is a summary of significant accounting policies (in accordance with accounting principles generally accepted in the United States of America) followed in the preparation of these financial statements.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of additions and deductions during the reporting period. Actual results could differ from these estimates and assumptions.

Risks and Uncertainties

The Plan's invested assets consist of a short-term cash investment fund and insurance contracts. Investment securities are exposed to various risks, including interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

B. Summary of Significant Accounting Policies, concluded:

Investment Valuation and Income Recognition

Investments are presented at fair value as determined by the Plan trustee, The Northern Trust Company, at December 31, 2009 and 2008. Money market funds are stated at net asset value. Cash surrender value of life insurance contracts represents the investment value of premiums paid if the contracts were surrendered prior to death and approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Realized gains and losses on investments are based on average cost.

The Plan presents in the statements of changes in net assets the net depreciation in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) of the investments.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Other

Certain administrative expenses incurred by the Plan are paid by the Plan. Other Plan expenses are paid by the sponsor.

Subsequent Event

The Company has evaluated subsequent events through September 30, 2010, the date the Arrow Fastener Company financial statements were issued.

C. Investments:

The following investments represent five percent or more of the Plan's net assets at December 31, 2009 and 2008.

D. Fair Value Measurements:

On January 1, 2008, the Plan adopted accounting guidance regarding fair value for its financial assets and liabilities. Accounting guidance defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Accounting guidance defines fair value as "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." Accounting guidance further defines a fair value hierarchy, as follows: Level 1 inputs as quoted prices in active markets for identical assets or liabilities; Level 2 inputs as observable inputs other than Level 1 prices, such as quoted market prices for similar assets or liabilities or other inputs that are observable or can be corroborated by market data; and Level 3 inputs as unobservable inputs that are supported by little or no market activity and that are financial instruments whose value is determined using pricing models or instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Money market funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Cash surrender value of insurance contracts: Valued at the investment value of premiums paid if the contracts were surrendered prior to death, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

D. Fair Value Measurements, concluded:

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008.

Assets at Fair Value as of December 31, 2009				
	Level 1	Level 2	Level 3	Total
Money market funds	\$ 5,467,730	\$ --	\$ --	\$ 5,467,730

Total assets at Fair value	<u>\$ 5,519,663</u>	<u>\$ --</u>	<u>\$ 302,074</u>	<u>\$ 5,821,737</u>

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009 and 2008.

Cash Surrender Value of Insurance Contracts		
Year Ended December 31,		
	2009	2008
Balance, beginning of year	\$ 302,074	\$ 260,027
Purchases, sales, issuances and settlements (net)	<u>302,074</u>	<u>42,047</u>
Balance, end of year	<u>\$ --</u>	<u>\$ 302,074</u>

E. Plan Termination:

Although there is no present intent to terminate the Plan, if the Plan were to terminate at some future time, the net assets of the Plan will be allocated to provide benefits for participants as prescribed by ERISA and its related regulations. To the extent unfunded vested benefits exist, such benefits will be paid by the Pension Benefit Guaranty Corporation, up to applicable limitations. Plan termination priorities are available from the Pension Benefit Guaranty Corporation.

**ARROW FASTENER COMPANY, INC.
EMPLOYEES' PENSION TRUST**

NOTES TO FINANCIAL STATEMENTS, Continued

F. Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' credited years of service. The accumulated benefits for active employees are based on their accumulated credited years of service ending on the date as of which the benefit information is presented. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by an actuary from Watson Wyatt, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of January 1, 2009 were (a) life expectancy of participants (the prescribed mortality assumption using static tables with separate rates for annuitants and non-annuitants was used), (b) retirement age assumptions (the average retirement age was 64.2), (c) investment return (the valuation included an assumed rate of return of 8.0 percent) and (d) withdrawal assumptions. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

G. Income Tax Status:

The Internal Revenue Service determined and informed the Company by letter dated June 22, 2004 that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code ("Code"). The Plan has since been amended; however, the Plan Trustee believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

H. Related Parties:

Plan investments are investments managed by The Northern Trust Company as the Plan Trustee. Therefore, the purchases and sales qualify as party-in-interest transactions.
