INDEPENDENT AUDITORS' REPORT

To the Plan Administrative Committee of the
Calmax Technology, Inc. 401(k) Profit Sharing Plan
Santa Clara, California

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Calmax Technology, Inc. 401(k) Profit Sharing Plan, which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrators instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. The plan administrator has obtained certification from the trustee as of and for the years ended December 31, 2019 and 2018, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule (Schedule of Assets Held for Investment Purposes at End of Year) for the year ended December 31, 2019 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note A – Description of the Plan

The following description of the Calmax Technology, Inc. 401(k) Profit Sharing Plan ("the Plan") provides only general information. Interested persons should refer to the Plan agreement or the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 1998. The Plan is a participant-directed defined contribution plan established by Calmax Technology, Inc. ("the Company") under the provision of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company. All employees of the Company who have completed 30 days of service, as defined, and are at least 21 years of age are eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan has been amended since inception to comply with tax law changes and make other changes to the Plan's design.

Plan Administration

The Company has delegated certain responsibilities for the operation and administration of the Plan to Principal Life Insurance Company, as the Plan custodian. In addition, certain administrative and recordkeeping services were provided by Principal Life Insurance Company. The Company's President serves as Plan trustee.

Participation

Employees, other than excluded employees, are eligible to participate after they are 21 years of age and have 30 days of service, as defined. If an eligible employee has not completed an Elective Deferral Agreement as of the date they are eligible to participate in the plan, the Company will automatically enroll the employee in the Plan.

Employee Deferrals and Company Matching Contributions

Employees are automatically enrolled in the Plan after they become an eligible participant at a 6% deferral rate with an automatic increase of 1% each subsequent year up to a 10% maximum automatic deferral rate. Eligible participants may elect to contribute up to 100%, but not to exceed statutory limits, of their compensation to the plan through payroll deductions. The Plan permits participants to make certain tax-free transfers (rollovers) of lump sum distributions received from other tax-qualified plans subject to code regulations. Eligible employee contributions are fully vested when contributed.

The Company may make discretionary matching and profit sharing contributions as determined by the Board of Directors on a year-to-year basis. The Company made no discretionary profit sharing contributions for the plan years ending December 2019 and 2018. The Company made matching contributions totaling $368,072 and $338,417 for the years ending December 31, 2019 and 2018, respectively. The employer match represents 100% of eligible participants' contributions, up to a maximum of 3% of eligible compensation. The Plan defines eligible compensation as all compensation paid to employees except for expense repayments or other allowances, fringe benefits, moving expenses, deferred compensation and welfare benefits. A participant's nonforfeitable percentage of his matching contributions account equals the percentage in the following vesting schedule:

Note A – Description of the Plan (Continued)

Years of Service With the Employer	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participants direct the allocation of their contributions entirely or in percentages to any of the funds. Employee salary deferrals and the Company matching contribution are deposited directly into the appropriate fund by the Company in accordance with the participants' directives and the terms of the Plan.

The employee deferral and Company matching contributions to the Plan are intended to qualify under Section 401 and related provisions of the Internal Revenue Code.

Participant Accounts

Each participant's account is credited with the participant's contributions, Company contributions, Plan earnings or losses, and rollovers from other qualified plans. Plan earnings and losses are allocated based upon each participant's account balance. Certain fees are charged to the fund investments and are offset against Plan investment income and loss as presented on the statement of changes in net assets available for benefits. Participants should refer to the prospectuses of these funds for details on the various types and amounts of investment fees charged to the Plan and their individual accounts.

Payment of Benefits

Upon a participant's termination of employment, death, or disability, the participant (or the participant's beneficiary in the event of death) may elect to receive a lump sum distribution equal to the value of his or her account, equal installment payments over a specified period of time, monthly income payments for life, or direct trustee to trustee rollovers. If the participant's account balance is less than $5,000, a lump sum distribution will be made without regard to the consent of the participant or the participant's spouse. All distributions elected by terminated participants during the Plan year have been paid by the Plan at December 31, 2019.

Hardship Withdrawals

Participants may withdraw their vested contributions in the event of hardship as defined in the plan agreement.

Notes Receivable from Participants

Participants may borrow against their vested balances for any reason. The loan provisions are structured to allow access to vested balances without incurring distribution penalties. The loan amount, length of loan repayment terms and interest rates are limited by statutory restrictions incorporated in the Internal Revenue Code and related regulations.

Note A – Description of the Plan (Continued)

Notes Receivable from Participants (continued)

The Plan allows participants to borrow not less than $1,000 and up to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the participant's vested balance. Such loans bear interest at the available market financing rates and must be repaid to the Plan within a five-year period, unless the loan is used for the purchase of a principal residence in which case the maximum repayment period will not be longer than the repayment period currently in effect for a commercial home loan. The specific terms and conditions of such loans are established by the Plan administrator. Outstanding loans at December 31, 2019, carry interest rates of 5.25%–10.25%.

Forfeitures

At December 31, 2019 and 2018, forfeited non-vested accounts totaled $29,967 and $24,626, respectively. These accounts will be used to reduce employer contributions and pay administrative expenses of the Plan. During the year ended December 31, 2019 employer contributions were reduced by $27,975 from forfeited non-vested accounts.

Note B – Summary of Significant Accounting Policies

Basis of Accounting and Accounting Period

The accounting records of the Plan are maintained on the accrual basis. The Plan has adopted a calendar year.

Investment Valuation and Income Recognition

The Plan's registered investment companies (mutual funds) and pooled separate account investments are stated at fair value. The shares of mutual funds are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end. Pooled separate accounts are valued at fair value using the market valuation approach. Insurance company general accounts are reported at fair value, see Note D.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains on investments bought or sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note B – Summary of Significant Accounting Policies (Continued)

Fair Value Measurements

The Plan performs fair value measurements in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*. Refer to Note E for the fair value measurement disclosures associated with the Plan's investments.

Recent Accounting Pronouncements

In August 2018, the FASB issued ASU 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement. This ASU removes, modifies and adds certain disclosure requirements of ASC Topic 820. The ASU is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Management is currently evaluating the new standard.

Note C – Information Certified by the Plan's Custodian

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the custodian, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule of assets held for investment purposes.

Investments held and certified by the custodian as of December 31, 2019 and 2018:

	2019	2018
Investments in mutual funds	$ 41,951	$ 82,286
Interest in pooled separate accounts	11,231,902	8,239,975
Interest in guaranteed interest insurance account*	36,795	32,452
Notes receivable from participants**	473,859	454,302

* The value certified is the contract value.

** Participants with deemed distributions/defaulted loans that are still employed with the Company have received a 1099-R Form. However, the custodian includes the value of defaulted loans in the certified balances until the participant terminates employment. During the year ended 2019, a participant started making payments on previously defaulted loans. Accrued interest of $27,326 on the previously defaulted loans has been added to the loan balance and reflected on the Statement of Changes in Net Assets Available for Benefits.

Investment income certified by the custodian for the year ended December 31, 2019:

Net appreciation in fair market value	$ 1,833,191
Dividend income	2,871
Interest income (cash basis)	33,893
Total investment income	$ 1,869,955

Note D – Investment Contract with Insurance Company

In 2005, the Plan entered into an investment contract with Principal Life Insurance Company. Principal Life Insurance Company maintains the contributions in a Guaranteed Interest Account. The Guaranteed Interest Account represents a guarantee of principal and interest by Principal Life Insurance Company to the plan sponsors participating in the group annuity contract. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Interest is credited to the investment daily and compounded annually on the last day of each year. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment.

Investment contracts held by a defined contribution plan are required to be reported at fair value. The statement of net assets available for benefits presents the Guaranteed Interest Account on a fair value basis.

On the day after the last day of its guarantee period (the period for which the investment exists), each guaranteed interest investment of a participant which has not been paid or transferred in full before the end of its guarantee period will be transferred to a current guaranteed interest investment for that guarantee period, if available. If that guarantee period is no longer available, then, unless otherwise directed by notification, the balance is transferred to a current guaranteed interest investment with the shortest guarantee period then available under the contract. In lieu of the transfer described above, Principal Life Insurance Company will pay or transfer all or a part of the investment in accordance with any notification received before the end of such guarantee period. If all or a portion of a guaranteed interest investment is surrendered early and the guaranteed interest rate in effect for contracts of that class for the date of surrender is greater than the composite guaranteed rate determined by the contract for the investment, the amount available will be reduced by a surrender charge equal to a calculation determined by the contract.

Note E – Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Certification (ASC) 820, Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note E – Fair Value Measurements (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end. It is not probable that the mutual funds will be sold at amounts that differ materially from the NAV of shares held.

Guaranteed interest insurance contract: Valued at fair value by discounting the related cash flow based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (See Note D).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

Note F – Income Tax Status

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Internal Revenue code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2016.

Note G – Related-Party Transactions and Party-in-Interest Transactions

Certain Plan investments in mutual funds are managed by Principal Life Insurance Company, the custodian and third party administrator of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan, and are specifically exempt from the prohibition of party-in-interest transactions under ERISA. Fees incurred by the plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment.

Substantially all of the legal, accounting and administrative expenses of the Plan are paid by the Company.

Note H – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts, and participant accounts will be distributed in accordance with the Plan document and ERISA.

Note I – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note J – Subsequent Events

The Plan has evaluated subsequent events through September 15, 2020, which is the date the financial statements were available to be issued.
