Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Yosemite Foods, Inc. 401(k) Profit Sharing Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Great-West Life and Annuity Company (Great-West), the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2019 and 2018, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matters – Supplemental Schedules

The supplemental schedule of Form 5500, Schedule H Line 4i – Schedule of Assets (Held at End of Year) as of or for the year ended December 31, 2019 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) DESCRIPTION OF PLAN

The following description of the Yosemite Foods, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act ("ERISA") of 1974, as amended. The Plan is a special type of retirement plan commonly referred to as a 401(K) plan which refers to the specific section of the Internal Revenue Code that allows employees to make pre-tax contributions to a retirement plan. Under the Plan, participants may choose to have a specific percentage or dollar amount withheld from the participant's salary and have such amount deposited directly into a 401(k) account on their behalf. This pre-tax contribution is referred to as "Salary Deferral".

The Plan covers all employees (not excluded by class) with 1,000 hours or more of service with Yosemite Foods, Inc. (the Company) who have one year of service and are age 21 or older. Employees covered by a collective bargaining unit under which pension benefits were a subject of good faith bargaining are excluded by class as well as non-resident aliens are excluded by class. The Plan was originally effective January 1, 1994 and was most recently restated in January 2018, to comply with current law.

During the fall of 2019, the owners of Yosemite Meat Company closed the company and a newly formed entity, Yosemite Foods, Inc. took over all its operations. Yosemite Foods, Inc. also took over the responsibility of being the Plan's sponsor via a plan amendment. The change in owners did not change the structure or administration of the 401(k) Profit Sharing Plan, other than a change to the Plan's name.

(b) Contributions

Eligible participants may contribute the amount they elect as pretax annual compensation however, annual contributions to each participant's account are limited based upon IRS guidelines and there are no automatic deferral provisions, as specified in the plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefits or defined contributions plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants. To be eligible to receive employer matching contributions, a participant must have worked at least 1,000 hours in the Plan year and be 21 or older and be an employee on the last day of the Plan year. The Company may contribute a discretionary match of up to 1.5 percent of the first 6 percent of the base compensation that a participant contributes to the Plan. The Company may also make additional profit sharing discretionary contributions determined by the Board of Directors. Total contributions are only subject to certain IRS imposed limitations.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of *(a)* the company's contribution, *(b)* Plan earnings, and charged with an allocation of administrative expenses (if not paid by Plan or by the Company) or investment-related fees incurred as a result of participant's investment decisions. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the employer contributions of their accounts is based on years of continued service. A participant is 100 percent vested after six years of credited service. An employee must complete at least 1,000 hours of service during a vesting computation period to receive credit for a year of service. Upon death or disability of an employee, their account will be 100% vested. The vesting schedule is as follows:

Years of Service	Vesting Percentage
0 - 1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

(e) Payments of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lumpsum amount, or in annual installments over a period elected by the participant. Early retirement is not allowed. The Plan shall permit in-service distributions to participant's elective deferrals for hardship and for participants who have attained age 59½. Normal retirement age is 65 and all participant accounts are available for in-service distributions upon attainment of age 65. Accelerated distribution is allowed if participant is disabled. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lumpsum distribution or in installments. Any vested accounts $5,000 or less will be paid out in a single sum, or rolled over into another retirement account. If the account is greater than $75 and the participant is younger than 65 and has not elected to have their vested amount paid out to them in a single sum or rolled over, the distribution will be directly rolled over to an IRA.

(f) Forfeitures

Forfeitures are participants' allocated interest in Plan assets which are not vested because employment is terminated before the vesting period is completed. At December 31, 2019 and 2018, forfeited non-vested accounts totaled $7,778 and $3,603, respectively. These accounts will be used to reduce future employer contributions. Until such time as the forfeitures are applied, they are held as unallocated assets of the Plan.

(2) SUMMARY OF ACCOUNTING POLICIES

(a) Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

(d) Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan had no excess contributions at December 31, 2019 or 2018.

(e) Payments of Benefits

Benefits are recorded when paid.

(f) Expenses

Certain expenses of maintaining the Plan are paid by the either the Company or Great-West. Investment related expenses are included in net appreciation of fair value of investments.

(3) FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques unused to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Investment Contract With Insurance Company

In 2007, the Plan entered into an investment contract with Great-West. Great-West maintains the contributions in individual participant accounts and agrees to pay the annuity benefits on behalf of participants who become eligible for coverage under the Group Fixed and Variable Deferred Annuity Contract ("Group Annuity Contract'). The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. There are two types of investments with the group annuity contract, a variable annuity and fixed annuity product.

Variable Annuity Contract - Mutual Funds:

The variable annuity investments is a separate investment account maintained and held apart for the general account and any other investment account. Mutual funds are a type of Investment Company that pools money from many investors and invests the money in stocks, bonds, money market instruments, other securities, or even cash. There are many varieties of mutual funds, including index funds, bond funds, and money market funds. Each may have a different investment objective and strategy and a different investment portfolio. Different mutual funds may also be subject to different risks, volatility, and fees and expenses.

The variable annuity account value on any date during the accumulation period will be the sum of the values of the participant's interest in the variable accounts and the separate account. The value of the participant's interest in a variable account is determined by multiplying the number of accumulative units held for the participants for that variable account by the accumulative units value for the that variable account. The accumulative unit value of a variable account on any valuation date is equal to a) the accumulation unit value of the variable account as of the immediately preceding valuation date; multiplied by b) the net investment factor for the valuation period ending on the valuation date on which the accumulation unit value is being determined. The accumulation unit value may increase, decrease, or remain unchanged as a result of the value of the net investment factor.

The net investment factor for a variable account is a calculated value that measures the investment performance of the account from one valuation period to the next. The net investment factor for any valuation period equals:

a. the net asset value per share of the investment portfolio share in which the account invests determined at the end of the current valuation period; plus
b. the per share amount of any dividend (including a deduction for any investment advisory fee) or capital gains distribution made by that investment portfolio on shares held in the account is the account if the "ex-dividend" date occurs during the current valuation period; and plus or minus
c. a per share charge or credit for any taxes reserve for, which is determined by the company, Great-West retirement services, to have resulted from the operations of that account, divided by
d. the portfolio net asset value for the immediately preceding valuation period, minus
e. a daily charge for the mortality and expense risk and asset-based administrative charges.

The net investment factor may be greater or less than one.

Fixed Annuity Contract - Key Guaranteed Portfolio Fund:

These fixed income investments are backed by the general account of Great-West and are not fully benefit-responsive. The fixed annuity contract is valued at fair value by the insurance company as follows: Interest earned on the Key Guaranteed Portfolio Fund value is compounded daily to the effective annual interest rate. The interest rate to be credited to the Group Contract-holder will be determined by the Great-West prior to the last day of the previous calendar quarter. The effective annual interest rate will never be less than zero percent. The fixed account value is calculated as follows: a) all contributions made by or on behalf of the participant that are allocated to a fixed account option; plus b) all interest credited to the fixed account on an annual effective basis pursuant to the guaranteed interest rate applicable to the fixed account selected; less c) any amounts transferred or distributed from the fixed account; less d) any applicable charges described in the group annuity contract schedule of terms and fees.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	Fair Value	Level 2
December 31, 2019		
Fixed Annuity Contract - Key Guaranteed Portfolio Fund	$ 60,255	$ 60,255
Variable Annuity Contract - Mutual Funds	1,966,357	1,966,357
Total assets in the fair value hierarchy	$ 2,026,612	$ 2,026,612
Total Participant-Directed Investments at Fair Value	$ 2,026,612	
December 31, 2018		
Fixed Annuity Contract - Key Guaranteed Portfolio Fund	$ 54,599	$ 54,599
Variable Annuity Contract - Mutual Funds	1,653,120	1,653,120
Total assets in the fair value hierarchy	$ 1,707,719	$ 1,707,719
Total Participant-Directed Investments at Fair Value	$ 1,707,719	

The plan did not have any Level 1 or 3 measurements as of December 31, 2019 and 2018. During 2019, there were no transfers in or out of Levels 1, 2 or 3.

(4) INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The Plan's administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule. Great-West has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

	2019	2018
Investment Contract with Insurance Company:		
Variable Annuity - Mutual Funds	$ 1,966,357	$ 1,653,120
Fixed Annuity - Key Guaranteed Portfolio Fund	60,255	54,599
Total Investment, at Fair Value	$ 2,026,612	$ 1,707,719
Total Interest	$ 675	
Net Appreciation (Depreciation) in Fair Value of Investments	$ 350,448	

(5) RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Great-West Life and Annuity Company (Great West) is the custodian as defined by the Plan and provides enrollment, recordkeeping, and investment allocation services. Wells Fargo Advisors, LLC and Stifel Nicholaus and Co., Inc. provided investment advisory services. Pension Management Consultant, Inc. is the third-party administrator. These companies are parties-in-interest to the Plan under ERISA. A party-in-interest is broadly defined under ERISA to include a fiduciary, any employer, and any person providing services to the Plan, and any officer, director or 10% or more shareholder of any such employer.

Fees incurred by the plan for the services above are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan also made direct payments for fund expenses and fees to the custodian and contracted administrators of $2,919 which was not covered by revenue sharing for the year ended December 31, 2019.

(6) PLAN TERMINATION

Although it has not expressed any intent to do so, the company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants are 100 percent vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the company may determine.

(7) TAX STATUS

The Company utilizes a volume submitter plan approved by the Internal Revenue Service. It is the opinion of management that the Plan and the Plan's operations as of December 31, 2019 and 2018 and the years then ended are in compliance with applicable sections of the Internal Revenue Code. Although, the Plan has been amended since receiving Internal Revenue Service approval, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified and that the related trust is tax-exempt.

Accounting principles generally accepted in the United State of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(8) RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The net assets available for benefits per the financial statements at December 31, 2019 and 2018 agree to Form 5500. The net increase in net assets available for benefits per the financial statements for the year ended December 31, 2019 agrees to the net income report on Form 5500.

(9) RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(10) SUBSEQUENT EVENTS

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Company recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are available to be issued.

The Plan's management has evaluated subsequent events through September 21, 2020, which is the date through which the financial statements were available to be issued, and no events were identified impacting the accompanying financial statements and disclosures, except for the following:

On March 11, 2020, the World Health Organization declared the outbreak of a coronavirus (COVID-19) a pandemic. The COVID-19 outbreak in the United States has forced non-essential business to close their doors to the public. The sponsor of the plan is a meat processing plant and considered essential which has allowed them to continue their operations. At the current time, the sponsor's operations have not been impacted although management is carefully monitoring the situation. The COVID-19 pandemic has also led to volatility in financial markets and has affected, and may continue to affect, the market price of Plan assets. We are unable to quantify the potential effects of this pandemic on the Plan's future financial statements.
