Molex Incorporated Employees' 401(k) Savings Plan

Notes to Financial Statements

December 31, 2009 and 2008, and Year Ended December 31, 2009

1. Description of the Plan

The following description of the Molex Incorporated Employees' 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan covering all regular employees (excluding leased employees, independent contractors, and seasonal and temporary employees) of Molex Incorporated (the Company) upon the first day of the calendar quarter coincident with, or next following, their dates of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees employed by the Company because of an acquisition shall not be eligible to participate in the Plan unless specific action to cover such employees is taken by the Company.

In 2006, the Company acquired Woodhead Industries, Inc. (Woodhead). Employees of Woodhead became eligible to participate in the Plan effective January 1, 2008.

In 2007, the Company acquired Polymicro Technologies, LLC (Polymicro). Employees of Polymicro became eligible to participate in the Plan effective January 1, 2009.

Contributions

Participant contributions to the Plan are made with pretax dollars. Participants may contribute through payroll whole percentages of their compensation for the plan year up to a maximum of 25% of total compensation, as defined, subject to Internal Revenue Code (the IRC) limitations. Participants may also contribute amounts representing distributions from other qualified plans. For each plan year, an employer matching contribution is made each payroll period at a percentage determined in the sole discretion of the Board of Directors. For the years ended December 31, 2009 and 2008, the Company made a matching contribution equal to 25% of the first 4% of employee deferrals. The Plan also allows participants age 50 or older the ability to contribute catch-up contributions as permitted by the Internal Revenue Service (the IRS).

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Payment of Benefits

Participants are eligible for a lump-sum distribution of their accounts upon termination of employment or the later of when the participant retires or reaches age 69, unless the participant has become disabled or can demonstrate financial hardship to the Administration Committee. Participants must begin receiving distributions in the year after they attain age 69 or, for nonowners, termination of service if later. Participants age 59 1/2 are eligible to take a withdrawal of their accounts prior to termination of employment.

Vesting

Participants are immediately vested in their contributions and company contributions plus actual earnings thereon and, therefore, have a nonforfeitable interest in their accounts.

Participant Loans

Upon approval of request, a participant may receive a loan from the Plan. Participants may take loans up to 50% of their account balance, but not less than \$1,000 and up to a maximum of \$50,000. Loans are repaid over a period not to exceed five years, or up to ten years for the purchase of a personal residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator.

Participant Accounts

Each participant has an account, which consists of participant and matching contributions and allocations of earnings thereon, less any investment losses or withdrawals and allocation of plan expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Investments

Participants direct the investment of their accounts into various investment options offered by the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Administrative Expenses

Investment management and administrative record-keeping expenses of the Plan are paid by the Plan unless the Company elects to pay the expenses.

Investment Valuations and Income Recognition

Investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

2. Summary of Significant Accounting Policies

New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*. FSP 157-4 amended FASB Statement No. 157 (codified as Accounting Standards Codification (ASC) 820, *Fair Value Measurements*) to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2009, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 165, *Subsequent Events*, which was codified into ASC 855, *Subsequent Events*, to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

In September 2009, the FASB issued Accounting Standards Update (ASU) 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the NAV is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009, and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Refer to Note 4 for these disclosures. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

Molex Incorporated Employees' 401(k) Savings Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

In January 2010, the FASB issued ASU 2010-06, *Improving Disclosures About Fair Value Measurements*. ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan's financial statements.

Subsequent Events

Management evaluated subsequent events for the Plan through October 1, 2010, the date the financial statements were available to be issued.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2009 and 2008, and net appreciation in fair value of investments, interest, dividends, and investment expenses for the year ended December 31, 2009, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee.

Molex Incorporated Employees' 401(k) Savings Plan

Notes to Financial Statements (continued)

3. Investments (continued)

Investments that represent 5% or more of the Plan's net assets at December 31, 2009 and 2008, are as follows:

	<u>2009</u>	<u>2008</u>
Principal Life Insurance Company pooled separate accounts:		
Bond and Mortgage Separate Account	\$ 10,373,142	\$ 8,478,296
Large Cap S&P 500 Index Separate Account	22,816,262	18,391,442
LifeTime 2020 Separate Account	8,261,033	6,219,968
Money Market Separate Account	–	27,178,767
Vanguard Prime Money Market Fund	23,261,242	–

Neuberger Berman Genesis Trust Fund	18,827,081	15,091,847
American Funds EuroPacific Growth Fund	13,906,156	8,983,953

During the year ended December 31, 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held, during the year) appreciated in value as follows:

Pooled separate accounts	\$ 10,759,276
Mutual funds	11,356,267
	<u>\$ 22,115,543</u>

4. Fair Value Measurements

The Plan adopted Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, effective January 1, 2008. ASC 820 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). ASC 820 includes a fair

Molex Incorporated Employees' 401(k) Savings Plan

4. Fair Value Measurements (continued)

value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in markets that are not active.
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals).
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Molex Incorporated Employees' 401(k) Savings Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Value at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Participant loans: Valued at the amortized cost, which approximates fair value.

Pooled separate accounts: Valued at NAV provided by the issuer on the last business day of the plan year.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Mutual funds:				
Fixed income	\$ 17,079,053	\$ —	\$ —	\$ 17,079,053
U.S. equities	32,065,024	—	—	32,065,024
Money market fund	23,261,242	—	—	23,261,242
International equities	13,906,156	—	—	13,906,156
Pooled separate accounts:				
Balanced (a)	—	33,189,404	—	33,189,404
Lifecycle (b)	—	20,974,012	—	20,974,012
Participant loans	—	—	3,304,629	3,304,629

(a) This category includes pooled separate accounts with a diverse portfolio of stock, bond, inflation-protected securities, and money market funds designed to deliver stability. These funds seek to provide growth of capital and current income consistent with their current target allocation. There are no redemption restrictions on these investments.

(b) This category includes investments in highly diversified funds designed to remain appropriate for investors in terms of risk throughout a variety of life circumstances. These pooled separate accounts share the common goal of first growing and then later preserving principal and contain a mix of U.S. common stocks, U.S. issued bonds, and cash. There are no redemption restrictions on these investments.

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2008:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 46,800,270	\$ —	\$ —	\$ 46,800,270

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009:

	Participant Loans
Balance, beginning of year	\$ 3,592,353
Purchases, sales, issuances, and settlements (net)	(287,724)
Balance, end of year	<u>\$ 3,304,629</u>

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions set forth in ERISA.

6. Income Tax Status

The Plan has received a determination letter from the IRS dated April 1, 2008, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Molex Incorporated Employees' 401(k) Savings Plan

Notes to Financial Statements (continued)

7. Related-Party Transactions

Certain plan investments are units of pooled separate accounts managed by Principal Trust Company. Principal Trust Company is the trustee as defined by the Plan, and these transactions qualify as party-in-interest transactions. Fees paid to Principal Trust Company by the Plan in 2009 were \$41,235, which related primarily to the administration of participant loans.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
