401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2009 AND 2008

NOTE 1: DESCRIPTION OF PLAN

The following description of the Sunrise Credit Services, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all employees of the Company who have completed one-thousand hours of service within the first year of employment and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute up to 75% of pretax annual compensation as defined in the Plan, up to the annual Internal Revenue Service limitation. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company will make a matching contribution equal to 10% on the first 6% that a participant contributes to the Plan. The matching Company contribution is invested as directed by the participant. Additional profit sharing amounts may be contributed at the option of the Company. Any non-elective contributions made by the Company will be allocated to all eligible participants. Participants direct the investment of their contributions, as well as any employer contributions, into various investment options offered by the Plan. Contributions are subject to certain limitations. If the plan does not meet discrimination tests, a portion of highly compensated employees' contributions may be returned to them as corrective distributions.

Participant Accounts. The value of each participant's account can change depending on several factors, which include: (a) contributions that are made to the account, (b) increases or decreases in the market value of investments, (c) cost of investment management expenses, transactional costs and service charges, and (d) loans and loan repayments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after 3 years of credited service.

NOTE 1: DESCRIPTION OF PLAN (Continued)

Participant Loans. Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The interest rate is the prime rate as published in *The Wall Street Journal* on the 14th of each month plus two percentage points and is effective for any loan processed as of the 16th day of the month. Principal and interest are paid through payroll deductions. If at times participants do not meet certain criteria, their loan balances become deemed distributions.

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or have the payment paid as a "direct rollover" to an individual retirement plan. If the participant's account balance exceeds $5,000, they may also choose to receive monthly installments or defer receiving payments until age 70½. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts. At both December 31, 2009 and 2008, the balance in the forfeited non-vested accounts totaled $0.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements have been prepared using the modified cash basis of accounting and guidelines for filing with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, employer contributions and investment income are recognized when received. The Plan also records benefits paid to its participants and all other expenses when paid.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2009 AND 2008

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risk and uncertainties
The Plan's investments are concentrated in funds that invest in marketable securities. Such securities are subject to various risks that determine the value of the funds. Due to the level of risk associated with certain securities and the level of uncertainty related to changes in the value of the securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

Administrative costs
The Plan permits the payment of plan expenses from Plan assets or by the Plan Sponsor. The investment management fees are deducted from the fair value of the investments based on agreement with the Plan's custodian.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value as measured by quoted prices in an active market. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Participant loans are valued at the outstanding loan balances, which approximates fair value.

NOTE 3: INVESTMENTS

The Plan's assets are being held by JPMorgan Chase Bank, as custodian.

A summary of investments at fair value as determined by quoted market prices held at December 31, 2009 and 2008 are as follows:

	2009	2008
Mutual Funds	$ 2,422,532	$ 1,848,368

NOTE 4: PLAN TERMINATION

NOTE 5: TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated September 29, 1999, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 6: FAIR VALUE MEASUREMENTS

The FASB Accounting Standards Codification Topic, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Accounting Standards Codification are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or

NOTE 6: FAIR VALUE MEASUREMENTS (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Short Term Investments, Equities and U.S. Government Obligations: Valued at the closing price reported in the active market in which the individual securities are traded.

Corporate Bonds: Certain corporate bonds are valued at the closing price reported in the active market in which the bond is traded. Other corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual Funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Guaranteed Investment Contract: Valued at estimated fair value by multiplying the investor's units of participation by the unit value of the investment account on that date.

Participant Loans: Valued at amortization cost, which approximates fair value.

Certificates of Deposit: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
