NOTE 1 - DESCRIPTION OF PLAN

The following description of the Gerald Auto Group Profit Sharing 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Copies of the Plan agreement are available from the plan administrator.

General: The Plan is a defined contribution 401(k) plan for the benefit of substantially all employees of Gerald Subaru, Inc., Gerald Hyundai, Inc., Gerald Nissan of Naperville, Inc., and Gerald Nissan of North Aurora, Inc. (the "Company") who have over one year of service as defined by the Plan and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may elect to contribute a percentage of their pretax annual compensation, as defined in the Plan, with a total amount not to exceed $16,500 in 2009 plus catch-up contributions of $5,500 for those participants age 50 or older. On behalf of each participant who is eligible to share in the matching contributions, a discretionary matching contribution shall be provided based on the participant's salary reduction contribution made during each pay period. The discretionary match for 2009 was 25% of employee deferral up to $1,000. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors and are invested in the participant-directed investments. The total 2009 Company discretionary contribution totaled $150,000 which was to include the matching contribution with the additional amount being the profit sharing contribution. Contributions are subject to certain limitations and to IRS limits.

Investment Options: Participating employees may select the investment funds in which contributions to their accounts are invested and may choose to allocate and reallocate amounts credited to their accounts among all or any combination of the investment funds. Earnings on the investment funds are allocated among the accounts of the participants that have elected to invest in each such fund.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Payment of Benefits: Participants may withdraw, in the form of a single lump-sum distribution, all or some of the vested account balance upon termination of employment, attainment of age 59 ½, death or disability. In the event of death or permanent disability, participants become fully vested.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contribution plus actual earnings thereon, if any, is based on years of service, as defined. A participant is fully vested after six years of credited service in this portion of their account.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Employer's matching and/or profit sharing contribution (b) Plan earnings and (c) forfeitures, and charged with any withdrawals. Income and realized and unrealized gains and losses on investments are allocated to the participant accounts on each valuation date based on the earnings of the directed investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures: At December 31, 2009, forfeited non-vested accounts totaled $4,860. These accounts will be reallocated to participants as defined by the Plan.

Plan Termination: Although it has not expressed any intent to do so, the employer has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants shall become fully vested.

Participant Loans: Prior to 2007, participants could borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that are comparable to those currently available from commercial institutions for similar loans. As of January 1, 2007, new loans are not allowed.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan provides for various investment options. The underlying investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Payment of Benefits: Benefits are recorded when paid.

Investment Valuation and Income Recognition: The Plan's investments, excluding participant loans, are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Collective trusts: The fair values of the Plan's interest in the stable value collective trust are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in unaudited financial statements provided by the fund manager (level 3 inputs). The fund invests in conventional and synthetic investment contracts issued by life insurance companies, banks, and other financial institutions, with the objective of providing a high level of return that is consistent with also providing stability of investment return, preservation of capital and liquidity to pay plan benefits of its retirement plan investors. The fund provides for daily redemptions by the Plan at reported net asset value per share, with no advance notification required.

Participant loans: Participant loans are reported at their outstanding balance, as the fair value of the loans is not practicable to estimate due to restrictions placed on the transferability of the loans.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2009 Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments (other than participant loans)			
Mutual Funds, categorized by nature of underlying investment			
Domestic Equity	$2,606,795	$ -	$ -
International equity funds	1,311,992	-	-
Bond funds	138,153	-	-
Real estate funds	245,983	-	-
Collective Trusts	$ -	$ -	$333,756

	Fair Value Measurements at December 31, 2008 Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments (other than participant loans)	$2,650,418	$ -	$454,539

The table on the next page presents a reconciliation of Plan investments measured at fair value on a recurring basis using significant unobservable inputs (level 3) for the year ended December 31, 2009, including the reporting classifications for the applicable gains and losses included in the statement of changes in net assets available for benefits:

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3) Stable Value Collective Trust
Beginning balance, January 1, 2009	$ 454,539
Total realized and unrealized gains or losses	
Included in change in net assets available for benefits:	
Interest income	17,557
Purchases, sales, issuances and settlements (net)	(138,340)
Ending balance, December 31, 2009	$ 333,756

Included in the Plan's 2009 statement of changes in net assets available for benefits are $17,557 of interest income and there is no unrealized depreciation pertaining to level 3 investments that are still held by the Plan as of December 31, 2009.

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in a fully benefit-responsive contract through its investment in a stable value collective investment trust. No adjustments from fair value to contract value are presented in the statements of net assets available for benefits, as the amounts of the adjustments have been determined to be immaterial.

Subsequent Events: Plan management has performed their analysis of subsequent events for recognition and disclosure through September 2, 2010, the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS - UNAUDITED INFORMATION

Charles Schwab Trust Company, custodian of the Plan, holds investment assets, executes transactions therein, and substantially all information pertaining to investments included in the financial statements has been certified by them. This certified investment information has not been audited by independent accountants.

The following presents the fair values of investments that represent 5 percent or more of the Plan's net assets available for benefits.

NOTE 4 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Certain Plan investments are loans issued to Plan participants. These investments qualify as party-in-interest investments.

NOTE 5 - TAX STATUS

The Plan sponsor has adopted a volume submitter 401(k) plan document sponsored by Corbel & Co. The volume submitter document has received an opinion letter from the Internal Revenue Service dated September 4, 2001, stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC). Although the Plan has not been issued an individual determination letter and the Plan has been amended from the original volume submitter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

(Continued)

NOTE 6 – PLAN AMENDMENT

Effective May 1, 2009, the Plan was amended to allow the employees of Gerald Hyundai, Inc. to participate in the Plan.

NOTE 7 – SUBSEQUENT EVENT

Effective January 1, 2010, the Plan has been amended and restated to comply with new tax laws. Effective July 1, 2010, unless an election is made otherwise, the Company will automatically withhold 3% of a newly eligible participant's compensation each payroll period.
