Report of Independent Auditors

To the Administrator of Nylic Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Nylic Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits and of accumulated benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits and of changes in accumulated benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Bank of New York Mellon, and New York Life Insurance Company, the custodian and the insurance company, respectively, of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian and the insurance company hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the custodian and the insurance company as of December 31, 2019 and 2018 and for the years then ended, that the information provided to the plan administrator by the custodian and the insurance company is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter

The supplemental schedules of Schedule of Assets (held at end of year) as of December 31, 2019 and Schedule of Reportable Transactions for the year ended December 31, 2019 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian and the insurance company, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Nylic Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document and summary plan description for a more complete description of the Plan's provisions.

A. General

The Plan is a non-contributory defined benefit pension plan covering substantially all eligible agents under contract with New York Life Insurance Company (the "Company") or its domestic life insurance subsidiaries on or after the effective date of the Plan, January 1, 1982. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and the Internal Revenue Code of 1986, as amended ("Code").

B. Pension Benefits

Plan participants are entitled to monthly pension benefits beginning at normal retirement date, which is the later of the last day of the month in which age 65 is attained or the completion of 5 years of vesting service. The benefit generally is the sum of the agent's frozen accrued benefit, if applicable, and his/her Earnings-Related Benefit Accruals ("ERBAs"). The frozen accrued benefit is the amount accrued as of December 31, 1990 for service, if any, on or prior to that date under the production-related benefit formula. For periods of service after December 31, 1990, the agent's ERBAs are calculated by multiplying the sum of his/her pensionable earnings credited after 1990 by 2.75%. The Plan also provides benefits to certain eligible participants whose retirement benefit under the Plan is less than their Senior Nylic income (i.e., compensation under certain agents' contracts for agents who have completed 20 Nylic years) so that their total retirement benefit under the Plan, subject to applicable Code limits, is equal to their Senior Nylic income.

The Plan permits early retirement if the agent has completed at least 20 years of vesting service. Annuity benefits paid prior to normal retirement age are reduced for early payment. In addition, the Plan provides for a deferred vested benefit for participants who do not qualify for a normal or early retirement benefit, but have completed at least 5 years of vesting service (but no more than 20 years), at termination. Agents may elect to receive their pension benefits as a straight life annuity, a 75% joint and survivor annuity (the automatic form of payment for married participants), or a 50% joint and survivor annuity.

C. Death and Disability Benefits

The Plan provides for a 75% pre-retirement survivor annuity payable to a participant's surviving spouse in the event of the death of an active agent who has completed at least five years of vesting service. A survivor annuity is payable to the surviving spouse of a participant who dies while receiving benefits in the form of a joint and survivor annuity.

Participants with 10 years of vesting service who become totally and permanently disabled may retire at any time and are eligible to receive a disability retirement benefit after the disability has existed continuously for 30 days.

D. 401(h) Account

On January 1, 1990, the Plan established an account under Section 401(h) of the Code to prefund postretirement health care benefits for agents. In accordance with Section 401(h), the Plan's investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retired agents and their beneficiaries.

The related obligations for health benefits under the Section 401(h) account are not included in this Plan's obligations in the Statements of Accumulated Benefits, but are reported as obligations in the financial statements of the Group Plan for New York Life Retired Agents and Employees. These assets are held in an IPG Contract issued by the Company. Employer contributions or qualified transfers to the 401(h) account are determined annually at the discretion of the Plan sponsor.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	As of December 31, 2019	2018
	(in thousands)	
Net assets available for benefits per the financial statements	$ 3,201,515	$ 3,050,714

	Year Ended December 31, 2018 (in thousands)		
	Amounts per Financial Statements	401(h) Account	Amounts per Form 5500
Interest income	$ 59,613	$ 1,183	$ 60,796
Investment and administrative expenses	$ 7,458	$ 3	$ 7,461

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Method of Accounting

The Plan's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP").

B. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions, including estimates that affect the actuarial present value of accumulated benefits at the date of the financial statements. Actual results could differ from those estimates. The method for developing the actuarial present value of accumulated benefits for agents is described in Note 2F - Actuarial Present Value of Accumulated Benefits.

C. Valuation of Investments and Income Recognition

The Plan's IPG Contract with the Company is valued at contract value. Contract value represents contributions made under the contract, plus interest earned, less funds used to pay benefits to participants and their beneficiaries and expenses.

The investments in the SA Contract and the third party real estate investment funds ("Real Estate Funds") are reported at fair value using net asset value ("NAV") of the units held at the valuation date as a practical expedient, without further adjustments. The guidance allows investors to use a practical expedient for measuring the fair value of investments in certain entities that calculate a NAV per share, such as investments in SA Contract and Real Estate Funds. The guidance allows companies to determine the fair value of such investments using NAV as a practical expedient, without further adjustments, if (1) the fair value of the investment is not readily determinable and (2) the investee entity issues financial statements in accordance with measurement principles for investment companies. The Plan's investment in the SA Contract meets the requirements of the NAV as practical expedient because the fair value of the investment is not readily determinable as the NAV is not publicly published and it is deemed that if the SA Contract issued standalone financial statements they would be prepared on the basis of investment company practices. Additionally, the Plan owns units in each of the Real Estate Funds and the NAV represents the fair value of each unit held by the Plan. The NAV for each fund is not publicly published and therefore the fair value is not readily determinable. As a result, the Plan's investment in the Real Estate Funds meets the requirements of the NAV as a practical expedient.

Purchases and sales of investments are recorded on a trade-date basis.

Net increases or decreases in the market value of invested assets include realized gains or losses on investments sold and unrealized gains or losses on investments held during the year. Interest income is recorded on the accrual basis.

D. Benefits

Benefit payments to participants are recorded upon distribution.

E. Actuarial Present Value of Accumulated Benefits

Accumulated benefits represent the future periodic payments that are attributable to the service rendered by agents. Under the Plan’s provisions, accumulated benefits include benefits expected to be paid to (a) retired or terminated agents or their beneficiaries, (b) beneficiaries of agents who have died, and (c) active agents or their beneficiaries. The accumulated benefits under the Plan are based on the agent's sales production and associated persistency during their period of credited service through December 31, 1990. For credited service after December 31, 1990, benefits are based on pensionable earnings. The accumulated benefits for active agents do not anticipate future increases in pensionable earnings.

For certain eligible participants, if their benefit under the Plan is less than their Senior Nylic income, their total retirement benefit under the Plan, subject to applicable Code limits, is equal to their Senior Nylic income.

The actuarial present value of accumulated benefits is determined by Aon PLC, the Plan's actuary. The actuarial present value of accumulated benefits is the amount that results from applying actuarial assumptions to adjust the accumulated benefits to reflect the time value of money and the probability of payment. The significant actuarial assumptions used in the valuation as of December 31, 2019 were (a) benefits weighted RP-2006 table with a 100% white collar adjustment projected to 2014 with mortality improvement scale MP-2016 and projected generationally beyond 2014 with mortality improvement scale MP-2019 for healthy participants. Disabled participants use a benefits weighted RP-2006 disabled mortality table, projected to 2014 with mortality improvement scale MP-2016, and projected generationally beyond 2014 with mortality improvement scale MP-2019; (b) retirement rates (rates vary by Nylic service for pre-1991 agents and age for post-1990 agents); (c) disability rates (10% of the 1987 Commissioners Group Disability Table with a waiting period of 6 months); (d) turnover rates (rates vary by service until age 65), and (e) the valuation interest rate.

The significant actuarial assumptions used in the valuation as of December 31, 2019 changed from those used in the prior valuation as of December 31, 2018 as described below.

The valuation interest rate used to determine the actuarial present value of accumulated benefits was changed from 4.47% as of December 31, 2018 to 3.38% as of December 31, 2019. As part of the life expectancy assumption, the mortality improvement scale changed prospectively from Scale MP-2018 to Scale MP-2019 as of December 31, 2019 for the period 2014 forward. These changes resulted in an increase of approximately $383,811 thousand in the present value of accumulated benefits.

F. Administration

The Company, as Plan Administrator, is responsible for administration of the Plan. The Plan pays certain expenses of service providers unrelated to the Company and certain expenses incurred by the Company with respect to the Plan. Annual administration expenses incurred under the IPG Contract are based on a percentage of assets maintained in the fixed account under the contract. Annual fee expenses incurred under the SA Contract include fees for the administration and management of each separate account. The Real Estate Funds provide for the payment of quarterly management and incentive fees for the management of the funds.

Separate account unit values are reduced by the management and administrative fees attributable to such separate account, except that the management and administrative fees for the private equity and hedge fund separate accounts are direct payments to the manager and therefore don't reduce the unit values. The NAVs of the Plan's investment in the Real Estate Funds are reduced by the funds' management and incentive fees. The Company pays all remaining administrative expenses of the Plan.

See Note 3- Plan Investments for further details on the fees charged to the Plan under the IPG Contract and the SA Contract.

G. Recent Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board ("FASB") issued ASU 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement,* which amends ASC 820 to add, remove, and modify fair value disclosure requirements. The provisions of ASU 2018-13 are effective for fiscal years beginning after December 15, 2019, with early adoptions of the standard permitted or only the provisions that eliminate or modify disclosure requirements. This standard has been early adopted for 2019 and the impact on the Plan was not material to the financial statements.

NOTE 3 - PLAN INVESTMENTS

The Plan currently invests in two group annuity contracts issued to the Trustees of the Nylic Retirement Plan Trust ("contractholder") by the Company: one contract is the IPG Contract relating to the Company's general account, and the other is the SA Contract relating to pooled separate accounts.

All of the Plan's investments are held in the Nylic Retirement Plan Trust. The Company is the issuer of the IPG and SA Contracts, and MacKay Shields LLC ("MacKay") and GoldPoint Partners LLC ("GoldPoint") (indirect wholly-owned subsidiaries of the Company) and PA Capital LLC ("PA Capital"; previously Private Advisors LLC) (an indirect majority owned subsidiary of the Company) are the investment managers of one or more of the pooled separate accounts.

Certain Plan assets are directly invested in the following Real Estate Funds: Morgan Stanley Prime Property Fund, LLC, Invesco Core Real Estate - U.S.A., L.P., and JPMCB Strategic Property Fund. The Plan was previously invested in certain registered mutual funds, but the Plan sold its remaining investments in these funds in 2018.

IPG Contract

The IPG Contract is a general account contract, under which a fixed dollar account ("FDA") maintains a crediting rate that reflects the investment experience of the segment of the Company's general account to which the IPG Contract and contracts in its class are assigned, in accordance with New York Life's Investment Year Method ("IYM"). The basic principle of the IYM is that the assets purchased by the segment in a calendar year with available net cash flow are accounted for as a separate investment fund. The IPG Contract is not to be assigned to a third party.

The FDA is credited with contributions, interest income, amounts transferred in from other group annuity contract(s) and dividends, if any, and charged with expenses, amounts transferred to other group annuity contract(s), pension benefits, non-pension benefits, amounts withdrawn on discontinuance, and investment selection charges ("ISC's").

As of the last day of each calendar year, the Company, as insurer, credits interest income to the FDA by applying a net annual rate of interest (equal to the rate of net investment income earned during the calendar year for the IPG Contract, determined in accordance with the Company's IYM) to the average balance in the FDA. The interest rate earned by the FDA in 2019 and 2018 was 4.29% and 4.04%, respectively.

Whenever a payment is to be made from the FDA pursuant to the IPG Contract's transfer, non-pension benefit or the discontinuance provisions, the Company, as insurer, determines the ISC('s), if any, which is

to be withdrawn from the FDA. An ISC will apply when the new investment earnings rate exceeds the contract earnings rate. In 2019 and 2018, there were no ISCs.

In the event the contractholder elects to discontinue the IPG Contract, the Company, as insurer, will determine the amount required to purchase annuities for pensioners and terminated plan participants as of the date of discontinuance on the actuarial basis provided for in the IPG Contract, and will withdraw that amount from the FDA. If the amount required exceeds the FDA, then an additional contribution from the Company, as Plan sponsor, in the form of a transfer from the SA Contract will be due. If the required amount is less than the FDA, the remaining balance may either be paid out in a single sum, subject to an ISC or an investment selection credit, or in installment payments over five years without an ISC.

SA Contract

The SA Contract is a multiple separate account contract that provides for the investment of funds in a series of non-guaranteed pooled separate accounts. The only other contract participating in these separate accounts is a contract issued to the Trustees of the New York Life Insurance Company Pension Plan Trust. Under the SA Contract, the separate account assets are legally insulated from the general account and the contractholder bears all investment risk and has no guarantees as to principal and interest. There are also limited guarantees with respect to mortality and expense.

Contractual accounts are maintained under the SA Contract, each of which reflects the investment experience of the Company's corresponding separate accounts. The dollar value of any contractual account as of any day will be equal to the number of units in such account at the end of the day multiplied by the unit value for that day. The dollar amount of a credit or withdrawal from any contractual account as of any day is converted into a number of units by dividing the dollar amount by the unit value for the day.

Credits to or charges against each separate account are made in connection with each contract participating in that separate account. The investment experience of each separate account is recorded by the Company by means of an accounting system involving units and unit values. Units are the measure used to determine the amount in each of the contractual accounts that participate in the corresponding separate account.

The contractholder may, for any reason, terminate the SA Contract as of any business day, in which case that day will be the termination date. The dollar value of the balance in each of the contractual accounts as of the termination date (or the valuation date next following the termination date where the assets are not valued on a daily basis) will be transferred to the contractholder or to another funding medium designated by the contractholder in a single sum.

NOTE 4 - FEDERAL INCOME TAXES

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated February 1, 2016, that the Plan and related trust are designed in accordance with applicable sections of the Code. Although the Plan has been amended since the previous amendment to which the most recent determination letter is applicable, the Company believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Accordingly, no provision for income taxes is made in the accompanying financial statements.

GAAP accounting requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. There are currently no audits for any tax periods in progress.

NOTE 5 - FUNDING POLICY

The Plan is funded solely by Company contributions. The Company's funding policy is to make annual contributions that are no less than the minimum amount needed to comply with the requirements of ERISA and the Code, as amended by the Pension Protection Act of 2006 ("minimum funding requirements"), and no greater than the maximum amount deductible for federal income tax purposes. The Company did not make a voluntary contribution to the Plan for the 2019 plan year or for the 2018 plan year. No contributions were required for either plan year to comply with the minimum funding requirements

NOTE 6 - PLAN TERMINATION

In the event of the termination of the Plan, the Plan provides that the rights of affected participants to the benefits accrued to the date of termination would be non-forfeitable, but there would be no recourse for these non-forfeitable benefits other than from the Plan's assets or the Pension Benefit Guaranty Corporation ("PBGC"). Except to the extent that a participant's benefits were already annuitized under the Plan's IPG Contract, the Plan funds would be allocated on the basis of actuarial valuation in the following order of priority prescribed by ERISA:

1. To retired participants who were receiving benefits 3 years before the Plan termination date; participants who would have received a benefit 3 years before the Plan termination date if they had retired before that 3-year period; and spouses or beneficiaries of deceased participants who were receiving benefits 3 years prior to the Plan termination date or who would have been receiving benefits if the deceased participant had retired before such date.

2. To all other benefits guaranteed by the PBGC that are not included in paragraph 1 above (for retired participants, spouses or beneficiaries of deceased participants receiving a benefit, participants eligible to retire on the Plan termination date, and participants or former participants not eligible to retire who are entitled to receive a deferred vested retirement benefit).

3. To all other non-forfeitable benefits promised by the Plan but not guaranteed by the PBGC (generally, other vested benefits). Plan funds are first allocated based on Plan provisions in effect 60 months before the Plan termination date, and then according to subsequent plan amendments in order from oldest to newest.

4. To all other remaining benefits.

If sufficient Plan funds are not available under any paragraph, participants receive a pro-rata share of the funds allocated. If there are more funds than necessary to satisfy all Plan liabilities, the excess will be paid to the Company. The Plan Administrator may require that any benefits be withdrawn in cash, as an immediate or deferred annuity, or through other periodic payments as determined by the Plan Administrator.

Vested benefits under this Plan are insured by the PBGC, a U.S. government agency, if the Plan terminates other than when a participant's benefits have been already annuitized under the Plan's IPG Contract. Generally, subject to certain exceptions, the PBGC guarantees most vested normal retirement

age benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under covered plans, and the amount of benefit protection is subject to certain limitations.

Except as noted above, the PBGC guarantees vested benefits at the level in effect on the date of Plan termination. However, if benefits have been increased within the five years before Plan termination, the whole amount of the Plan's vested benefits or the benefit increase may not be guaranteed to the full extent as would have been paid under the Plan. In addition, there is a ceiling on the amount of monthly benefit that the PBGC guarantees, which is adjusted periodically.

The Company has the right to terminate the Plan and discontinue its contributions at any time, subject to the provisions set forth in ERISA.

NOTE 7 - RISKS AND UNCERTAINTIES

The plan is exposed to an array of risks, including but not limited to, regulatory, financial, investments, operational and cyber security.

Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Actuarial present values of accumulated benefits are reported based on certain actuarial assumptions, which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions could occur in the near term and could be material to the financial statements.

NOTE 8 - CERTIFIED INFORMATION

The Company, as the issuer of the IPG Contract and the SA Contract, and The Bank of New York Mellon, as the custodian of the assets invested in the Real Estate Funds and Cash, have certified that the following information stated below and included in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits is complete and accurate in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 9 - PARTY-IN-INTEREST TRANSACTIONS

The Plan currently invests in two group annuity contracts issued by the Company: the IPG Contract, which was valued at $1,785,354 thousand and $1,748,943 thousand as of December 31, 2019 and 2018, respectively, and the SA Contract (relating to pooled separate accounts), which was valued at $1,241,995 thousand and $1,136,481 thousand as of December 31, 2019 and 2018, respectively. The IPG Contract provides for the payment of an annual administration charge to the Company, based on a percentage of assets maintained in the fixed account under the contract. Under the SA Contract, the separate accounts are, in whole or in part, managed by the Company and/or one of MacKay (an indirect wholly owned subsidiary of the Company), GoldPoint (an indirect wholly owned subsidiary of the Company) or PA Capital (an indirect majority-owned subsidiary of the Company), that receives fee for such services. The SA Contract provides for the payment of annual fees for the management and administration of each separate account. Separate account unit values are reduced by the fees attributable to such separate account, except that the fees for the private equity and hedge fund separate Accounts are paid separately. The Company, MacKay, GoldPoint and PA Capital are parties-in-interest as defined by ERISA.

NOTE 10 - FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's assets and liabilities recorded at fair value, except certain assets for which the NAV per share is used as a practical expedient, are measured and classified in accordance with a fair value hierarchy consisting of three levels based on the observability of the inputs used in measuring the fair value. The level is determined based on the lowest level input that is significant to the fair value measurement.

The levels of the fair value hierarchy are based on the inputs to the valuation as follows:

Level 1 — Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market. Active markets are defined as a market in which many transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 — Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets; quoted prices in markets that are not active for identical or similar assets or liabilities, or other model driven inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Valuations are generally obtained from third-

party pricing services for identical or comparable assets or liabilities or through the use of valuation methodologies using observable market inputs.

Level 3 — Instruments whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management's own assumptions in pricing the asset or liability. Pricing may also be based upon broker quotes that do not represent an offer to transact. Prices are determined using valuation methodologies such as option pricing models, discounted cash flow models and other similar techniques. Non-binding broker quotes, which are utilized when pricing service information is not available, are reviewed for reasonableness based on the Company's understanding of the market, and are generally considered Level 3. To the extent the internally developed valuations use significant unobservable inputs, they are classified as Level 3.

Determination of Fair Value

The remaining assets in the Plan, other than its investment in the IPG Contract, which is measured at contract value, are the Plan's investment in the SA Contract and Real Estate Funds, which are measured using NAV as a practical expedient, and are not required to be leveled.

The following table presents the Plan assets measured at fair value using NAV as a practical expedient on a recurring basis as of December 31, 2019 and 2018 (in thousands):

	2019	2018
	(in thousands)	
Investment in SA Contract	$ 1,241,995	$ 1,136,481

NOTE 11 - SUBSEQUENT EVENTS

The Company has evaluated subsequent events for recognition and disclosure through September 30, 2020, the date these financial statements were available for issuance.

In March 2020, the World Health Organization declared the novel strain of coronavirus, COVID-19, a global pandemic. This pandemic has resulted in short-term volatility in global financial markets, including changes to interest rate, market and credit risks. The duration of these economic uncertainties,

and any future potential financial impact on the Plan's assets, cannot be reasonably determined at this time.

On December 20, 2019, the Setting Every Community Up for Retire Enhancement Act (“SECURE Act”) was signed into law and became effective on January 1, 2020. Among other provisions, the SECURE Act increases the age triggering required minimum distribution payments from 70 ½ to 72. The Company is in the process of assessing the SECURE Act and its impact on the Plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V—Statement of Actuarial Assumptions/Methods

Interest Rates for Minimum Funding Purposes	Based on segment rates with a four-month lookback (as of September 2018), each adjusted as needed to fall within the 25-year average interest rate corridor under HATFA.
1st Segment Rate	3.74%.
2nd Segment Rate	5.35%.
3rd Segment Rate	6.11%.
Pensionable Earnings Increase Rates	Rates vary by contract year as follows:

Service	Rate	Service	Rate
<3	15.00%	11–25	4.00%
4	10.00%	26–35	2.00%
5	8.00%	36+	0.00%
6–10	7.00%		

Retirement Age for Active Participants	
Pre-1991 Agents	See Table 1.
Post-1990 Agents	See Table 2.
Qualified Plan Commencement Age for Vested Terminees	30% are assumed to commence at age 55, 70% are assumed to commence at age 65.
Mortality Rates	
Healthy	RP-2006 Combined Healthy Generational mortality table for annuitants and non-annuitants per Section 1.430(h)(3)-1(a)(4).
Disabled	Revenue Ruling 96-7 mortality table for disability after December 31, 1994.
Withdrawal Rates	Rates vary by service until age 65. Rates apply to Agents under age 65 with less than 20 years of service. Agents age 65 and later with less than five years of service are assumed to terminate at the same rate as a retirement eligible agent of the same age. See Table 3.
Disability Rates	See Table 4.

For ERISA Requirements

Decrement Timing	Middle-of-year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%).
Annuity Option	75% of married male agents and 50% of married female agents are assumed to choose a 75% Joint and Survivor Annuity. 100% of single agents choose a Single Life Annuity.
Surviving Spouse Benefit	It is assumed that 80% of males and 60% of females have an eligible spouse, and that males are 3 years older than their spouses.
Valuation Compensation	Determined by applying the Pensionable Earnings Increase Rates to a three-year average of Pensionable Earnings.
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of $225,000 and the IRC section 401(a)(17) compensation limit of $280,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2017 Plan Year	7.25%, limited to 6.48%.
2018 Plan Year	6.50%, limited to 6.29%.
2019 Plan Year	6.50%, limited to 6.11%.
Trust Expenses Included in Target Normal Cost	$2,970,000; Expenses are assumed to be equal to the average of the prior two years' actual administrative expenses paid from the trust (without PBGC premiums), plus the expected PBGC premiums paid for the current year, rounded to the nearest $10,000.
Actuarial Method	Standard unit credit cost method.
Valuation Date	January 1, 2019.

Assumptions Specific to the Valuation of the BOBW Formula Benefits

Current Year for Target Life

Nylic Count Insurance for the current Nylic Year is estimated by taking the average of an Agent's production in each of the second, third, and fourth Nylic Years prior to the current Nylic Year and then projecting forward to the current year using the production increase rates.

Production Increase Rates

Lines of Business Other Than Target Life: Rates vary by Nylic Year. See Table 5.

Target Life: Rates vary by Nylic Year. See Table 6.

Persistency of Nylic Count Insurance

Based on the average persistency of each Agent's production in the last 10 Nylic Years relative to the Linton A Policy Lapse rates. The Linton A Policy Lapse Rate for Policy Year 1 is ignored as Nylic Count Insurance by definition does not lapse during the first policy year.

The Linton A Policy Lapse rates are as follows:

Policy Year	Policy Lapse Year Rate	Policy Year	Policy Lapse Year Rate
1	N/A	6	4.4%
2	6.5%	7	4.1%
3	5.6%	8	3.8%
4	5.0%	9	3.7%
5	4.7%	10	3.6%

Persistency of Target Life Nylic Count Insurance

Based on the average persistency of each Agent's production in the last 10 Nylic Years relative to the Baseline Target Life Persistency Rates. The Baseline Target Life Persistency Rate for the Nylic Year of Sale is ignored as Target Life by definition does not lapse during the first year.

The Baseline Target Life Persistency Rates are as follows:

Nylic Year Since Sale	Baseline Universal Life Persistency Rates
0	N/A
1	45.0%
2	40.0%
3	35.5%
4	31.5%
5	28.0%
6	25.0%
7	22.5%
8	20.5%
9	19.0%

Benefits Valued	Liabilities for benefits under the Disability Income, Periodic Premium Annuity and Group Plus product lines were deemed immaterial by New York Life Insurance Company and were ignored for purposes of this valuation. All benefits were valued as if calculated under a QN6 contract.

Schedule SB Attachment (Form 5500)—2019 Plan Year
The Nylic Retirement Plan
EIN: 13-5582869 PN: 005

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	January 1, 1982. Amended and restated effective December 10, 2014.
Eligible Agent	An Agent with respect to whom a contract or agreement is in effect that the Company determines makes an Agent eligible for benefits under the Plan.
Eligibility for Participation	An Eligible Agent becomes a Participant on the effective date of his Agent Contract. The following are not eligible to participate: ▪ Agents who elected not to be Participants when the Plan was introduced in 1982; ▪ Agents who are not Eligible Agents; ▪ Canadian residents; ▪ Common law Employees other than Training Allowance Subsidy Agents; and ▪ Nonresident aliens with no U.S. source income.
Eligibility for Best of Both Worlds' ("BOBW") Formula	Any Participating Agent who was operating under a Nylic Contract or receiving Nylic Income on December 31, 1990 who is a resident of the United States and who began his Nylic Contract at least five years prior to his Normal Retirement Date.

The Following Provisions Apply to Participants Who Are Not Eligible for the BOBW Formula

Normal Retirement

Eligibility	The earlier of age 65 with five years of Vesting Service or age 65 and five years as a Participant.
Benefit	Accrued Benefit.

Early Retirement

Eligibility	Twenty years of Vesting Service.
Benefit	Accrued Benefit as of early retirement date reduced for early retirement. The reduction is 6% for each of the first five years prior to Normal Retirement Date; 4% for each of the next five years; 2% for each of the next five years; and 1% for each year thereafter.

Late Retirement

Eligibility	Retirement after Normal Retirement Date.
Benefit	Accrued Benefit based on Pensionable Earnings as of the actual date of retirement.

Disability Retirement

Eligibility	Ten years of Vesting Service and totally and permanently disabled such that the participant is thereby prevented from engaging in any occupation or business for remuneration or profit for which the participant may be reasonably fitted by education, training or experience.
Benefit	Same as Early Retirement Benefit payable as a 75% Joint & Survivor Annuity for married participants and as a Life Annuity for unmarried participants.

Vested Termination Benefit

Eligibility	Five years of Vesting Service.
Benefit	Accrued Benefit payable at Normal Retirement Age or payable when the Participant would have had 20 years of Vesting Service had he continued as an active Participant. The Accrued Benefit is reduced for commencement before Normal Retirement Age the same as for the Early Retirement Benefit.

Preretirement Surviving Spouse Benefit

Eligibility	All Vested Participants married at least six months.
Benefit	Benefit as if Participant terminated on his date of death, survived to the benefit commencement date elected by the surviving spouse, commenced a 75% Joint & Survivor Annuity, and then died. The spouse can commence her benefit on the earlier of the date the participant would have attained 20 Years of Vesting Service (immediately if the Participant had 20 Years of Vesting Service at death) and the Participant's Normal Retirement Date.

The Following Provisions Apply to Agents Who Are Eligible for the BOBW Formula

Normal Retirement

Eligibility	The earlier of age 65 with five years of Vesting Service or age 65 and five years as a Participant.
Benefit	Accrued Benefit.

Early Retirement

Eligibility for Benefit 1	Twenty years of Vesting Service.
Benefit 1	Accrued Benefit as of early retirement date reduced for early retirement. *For the CAVG Portion:* The reduction is 6% for each of the first five years prior to Normal Retirement Date; 4% for each of the next five years; 2% for each of the next five years; and 1% for each year thereafter. The reduction does not apply to the Frozen Accrued Benefit of Participants who had 20 Nylic Years on December 31, 1990. *For the BOBW Portion:* The reduction is 6% for each of the first five years prior to Old Plan Normal Retirement Date; 4% for each of the next five years; 2% for each of the next five years; and 1% for each year thereafter.
Eligibility for Benefit 2	Twenty Nylic Years.
Benefit 2	The greatest of: (1) The BOBW Formula Amount; (2) The benefit determined under Early Retirement Benefit 1 above; and (3) The benefit calculated using the Accrued Benefit BOBW Portion formula determined as of December 31, 1990. If an Agent had completed 20 Nylic Years as of December 31, 1990, the calculated benefit is reduced for commencement before the Old Plan Normal Retirement Date at the same rate as for the Early Retirement Benefit.

Late Retirement

Eligibility	Retirement after Normal Retirement Date.
Benefit	The greater of: ▪ The BOBW Formula Amount at the date of actual retirement; and ▪ The Accrued Benefit at the actual date of retirement.

Disability Retirement

Eligibility for Benefit 1	Ten years of Vesting Service and totally and permanently disabled such that the participant is thereby prevented from engaging in any occupation or business for remuneration or profit for which the participant may be reasonably fitted by education, training or experience.
Benefit 1	Same as Early Retirement Benefit 1, payable as a 75% Joint and Survivor Annuity for married participants and as a Life Annuity for unmarried participants.
Eligibility for Benefit 2	Twenty Nylic Years.
Benefit 2	The greater of: ▪ The BOBW Formula Amount; and ▪ The benefit determined under Disability Retirement Benefit 1 above. If the BOBW Formula Amount wins, there can be up to two quinquennial increases in retirement income after retirement, based on NCI sold before retirement. Benefit is payable as a 75% Joint and Survivor Annuity for married participants and as a Life Annuity for unmarried participants.

Vested Termination Benefit

Eligibility	Five years of Vesting Service.

Vested Termination Benefit

Benefit	Accrued Benefit payable at Normal Retirement Age or payable when the Participant would have had 20 years of Vesting Service had he continued as an active Participant. The CAVG Portion of the Accrued Benefit is reduced for commencement before Normal Retirement Age at the same rate as for the Early Retirement Benefit. The BOBW Portion of the Accrued Benefit is reduced for commencement before the Old Plan Normal Retirement Date at the same rate as for the Early Retirement Benefit.

Preretirement Surviving Spouse Benefit

Eligibility	All Vested Participants married at least six months.
Benefit	Benefit as if Participant terminated on his date of death, survived to the benefit commencement date elected by the surviving spouse, commenced a 75% Joint and Survivor Annuity, and then died. The spouse can commence her benefit on the earlier of the date the participant would have attained 20 Years of Vesting Service (immediately if the Participant had 20 Years of Vesting Service at death) and the Participant's Normal Retirement Date.

Benefit Payment Forms

Automatic Forms	Single: Life Annuity. Married: 75% Joint and Survivor Annuity.
Optional Forms	Life Annuity (for married participants). 50% Joint and Survivor Annuity (for married participants).
Employee Contributions	None.
Post-Termination COLA	Agents who retired prior to October 12, 2005 receive post-termination COLAs to the IRC section 415 limits.

Definitions

Accrued Benefit	The sum of (A) and (B), where (A) and (B) are as follows: (A) Frozen Accrued Benefit; and (B) 2.75% × Pensionable Earnings after December 31, 1990. For Agents eligible for the BOBW Formula, the accrued benefit is the greater of the benefit computed above ("CAVG Portion") and the benefit computed by multiplying (a) times (b) where (a) and (b) are as follows ("BOBW Portion"): (a) The amount of the Participant's Old Formula Normal Retirement Date benefit as computed under Appendix B of the Plan Document if (1) the participant had retired on his or her Normal Retirement Date, (2) the Participant had continued to be credited with periods of service for benefit accrual and (3) in each future Nylic Year he or she produced new Nylic Count Insurance, Target Life Count Insurance, or VLI Nylic Count Insurance at the same rate achieved during the immediately preceding 120 months, and experienced the same level of persistency as the Participant had achieved during all complete Nylic Years within such 120-month period. (b) A fraction, the numerator of which is the Participant's period of service for benefit accrual and the denominator of which is the period of service for benefit accrual that the Participant would have completed if he or she had continued in the service of the Company as an Agent to his or her Old Plan Normal Retirement Date.
Frozen Accrued Benefit	The Frozen Accrued Benefit is the amount which the participant accrued as of December 31, 1990 for service, if any, on or prior to that date.
BOBW Formula Amount	Senior Nylic Formula Amount determined separately for each product line.

Definitions

Pensionable Earnings	Earnings from the following lines of business: ▪ Traditional Ordinary Life Insurance; ▪ Universal Life; ▪ Disability Income; and ▪ Periodic Premium Annuity and Group Plus products. Pensionable Earnings includes the Agent's elective contributions to the Agents' Progress-Sharing Investment Plan, contributions to the Deferred First Year Commission Plan attributable to the lines of business included in Pensionable Earnings, and Senior Nylic income. Pensionable Earnings does not include any Training Allowance or Expense Allowance the Agent may receive. Pensionable Earnings shall not be less than zero and shall not exceed the IRC Section 401(a)(17) limitation.
Normal Retirement Date (NRD)	The earlier of age 65 with five years of Vesting Service or age 65 and five years as a Participant.
Old Plan Normal Retirement Date	The Nylic Anniversary immediately preceding an Agent's 65th birthday.
Vesting Service	For periods on or after January 1, 1982, a period of 12 months in active Agent or Employee status. For periods before January 1, 1982, a period of 12 months in active Agent status.
Nylic Year	Each period of 12-consecutive months of operation under an Agent's contract that makes an Agent eligible for a Nylic Contract.
Service for Benefit Accrual	A period of Vesting Service during which the Participant is an Agent eligible to hold a Nylic contract.
Quinquennial Nylic Anniversary	The last day of the 20th Nylic Year and the last day of each additional period of five Nylic Years.
Product Lines	Traditional Ordinary Life Insurance; Universal Life; Disability Income; Periodic Premium Annuity; and Group Plus Products.

Definitions

Nylic Count Insurance (NCI)—Product Lines Other Than Universal Life	Permanent insurance sold during a Nylic Year for which one year's premium is paid and which remains in force at the end of one year.
Universal Life Nylic Count Insurance (ULNCI)	$1,000 for each $18 of first year Universal Life premium paid for policies which remain in force at the end of one year.
Renewal Premiums	All renewal premiums paid to, received by, and recorded prior to the end of the specified Nylic Year, on policies in force at the end of that Nylic Year.
Universal Life Persisting Insurance	$775 times the sum of all Universal Life Renewal Premiums divided by the number of months the policy has been in effect.
Senior Nylic Formula Amount—Product Lines Other Than Universal Life	For Agents with a QN6 type of contract (generally Agents who began operating under a Nylic Contract on or after March 1, 1964), the Senior Nylic Formula Amount is determined as follows: Monthly income based on NCI obtained in first 20 Nylic Years = [$1.10 × 1/3 (A+B+C)] ÷ $1,000 A = 1/15 of NCI obtained in Nylic Years 1-15 persisting to end of the 4th Nylic Year following the year obtained. B = 1/15 of NCI obtained in Nylic Years 1-15 persisting to end of the 9th Nylic Year following the year obtained (or at the end of the 20th Nylic Year, if sooner). C = 1/5 of NCI obtained in Nylic Years 16-20 multiplied by a persisting ratio equal to the proportion of NCI obtained in Nylic Years 11 to 19 persisting to the end of the 20th Nylic Year.

Definitions

Senior Nylic Formula Amount—Product Lines Other Than Universal Life	Monthly income based on each subsequent completed quinquennial period = Monthly Income Rate × [Income Base] ÷ $1,000 Where the Monthly Income Rate is $.50, $.60, $.70, $.75, $.80, $.85, and $.90, for the quinquennial periods ending in the 25th, 30th, 35th, 40th, 45th, 50th, and 55th Nylic Years, respectively; and the Income Base is one-tenth of the NCI obtained in the last 10 Nylic Years multiplied by a persistency ratio equal to the proportion of NCI obtained during the first nine of those Nylic Years persisting to the end of the 10-year period. For Agents with other types of contracts, the Formula Amount is generally based on different Nylic Years for NCI, different persistency factors, and different monthly income rates
Senior Nylic Formula Amount—Universal Life	For Agents with a QN6 type of contract (generally Agents who began operating under a Nylic Contract on or after March 1, 1964), the Senior Nylic Formula Amount is obtained as follows: Monthly income based on NCI obtained in first 20 Nylic Years = [$1.10 × 1/3 (A'+B'+C')] ÷ $1,000 A'= 1/15 of ULNCI obtained in Nylic Years 1-15 that was Universal Life Persisting Insurance at the end of the 4th Nylic Year following the year obtained. B'= 1/15 of ULNCI obtained in Nylic Years 1-15 that was Universal Life Persisting Insurance at the end of the 9th Nylic Year following the year obtained (or at the end of the 20th Nylic Year, if sooner). C'= 1/5 of ULNCI obtained in Nylic Years 16-19 that was Universal Life Persisting Insurance at the end of the 20th Nylic Year.
Senior Nylic Formula Amount—Universal Life	Monthly income based on each subsequent completed quinquennial period = Monthly Income Rate × [Universal Life Income Base] ÷ $1,000 The Monthly Income Rate is $.50, $.60, $.70, $.75, $.80, and $.85, for the quinquennial periods ending in the 25th, 30th, 35th, 40th, 45th, and 50th Nylic Years respectively; and the Universal Life Income Base is one-tenth of the ULNCI obtained in the last 10 Nylic Years multiplied by a persistency ratio equal to the proportion of ULNCI obtained during the first nine of those Nylic Years persisting to the end of the 10-year period. Additional monthly income attributable to ULNCI may be obtained in each of the three Nylic Years following the completion of the 21st Nylic year and in each of the three Nylic Years following each quinquennial period thereafter[1].

[1] See Target Life Nylic Contract for description of these additions.

Plan Changes Since the Prior Year

The funding valuation reflects the following plan changes:

- An increase in the annual pay limit under IRC Section 401(a)(17) from $275,000 in 2018 to $280,000 in 2019.
- An increase in the annual benefit dollar limit under IRC Section 415(b) from $220,000 in 2018 to $225,000 in 2019.

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Nylic Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document and summary plan description for a more complete description of the Plan's provisions.

A. General

The Plan is a non-contributory defined benefit pension plan covering substantially all eligible agents under contract with New York Life Insurance Company (the "Company") or its domestic life insurance subsidiaries on or after the effective date of the Plan, January 1, 1982. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and the Internal Revenue Code of 1986, as amended ("Code").

B. Pension Benefits

Plan participants are entitled to monthly pension benefits beginning at normal retirement date, which is the later of the last day of the month in which age 65 is attained or the completion of 5 years of vesting service. The benefit generally is the sum of the agent's frozen accrued benefit, if applicable, and his/her Earnings-Related Benefit Accruals ("ERBAs"). The frozen accrued benefit is the amount accrued as of December 31, 1990 for service, if any, on or prior to that date under the production-related benefit formula. For periods of service after December 31, 1990, the agent's ERBAs are calculated by multiplying the sum of his/her pensionable earnings credited after 1990 by 2.75%. The Plan also provides benefits to certain eligible participants whose retirement benefit under the Plan is less than their Senior Nylic income (i.e., compensation under certain agents' contracts for agents who have completed 20 Nylic years) so that their total retirement benefit under the Plan, subject to applicable Code limits, is equal to their Senior Nylic income.

The Plan permits early retirement if the agent has completed at least 20 years of vesting service. Annuity benefits paid prior to normal retirement age are reduced for early payment. In addition, the Plan provides for a deferred vested benefit for participants who do not qualify for a normal or early retirement benefit, but have completed at least 5 years of vesting service (but no more than 20 years), at termination. Agents may elect to receive their pension benefits as a straight life annuity, a 75% joint and survivor annuity (the automatic form of payment for married participants), or a 50% joint and survivor annuity.

C. Death and Disability Benefits

The Plan provides for a 75% pre-retirement survivor annuity payable to a participant's surviving spouse in the event of the death of an active agent who has completed at least five years of vesting service. A survivor annuity is payable to the surviving spouse of a participant who dies while receiving benefits in the form of a joint and survivor annuity.

Participants with 10 years of vesting service who become totally and permanently disabled may retire at any time and are eligible to receive a disability retirement benefit after the disability has existed continuously for 30 days.

D. 401(h) Account

On January 1, 1990, the Plan established an account under Section 401(h) of the Code to prefund postretirement health care benefits for agents. In accordance with Section 401(h), the Plan's investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retired agents and their beneficiaries.

The related obligations for health benefits under the Section 401(h) account are not included in this Plan's obligations in the Statements of Accumulated Benefits, but are reported as obligations in the financial statements of the Group Plan for New York Life Retired Agents and Employees. These assets are held in an IPG Contract issued by the Company. Employer contributions or qualified transfers to the 401(h) account are determined annually at the discretion of the Plan sponsor.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	As of December 31,

Interest income	$ 59,613	$ 1,183	$ 60,796
Investment and administrative expenses	$ 7,458	$ 3	$ 7,461

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Method of Accounting

The Plan's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP").

B. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions, including estimates that affect the actuarial present value of accumulated benefits at the date of the financial statements. Actual results could differ from those estimates. The method for developing the actuarial present value of accumulated benefits for agents is described in Note 2F - Actuarial Present Value of Accumulated Benefits.

C. Valuation of Investments and Income Recognition

The Plan's IPG Contract with the Company is valued at contract value. Contract value represents contributions made under the contract, plus interest earned, less funds used to pay benefits to participants and their beneficiaries and expenses.

The investments in the SA Contract and the third party real estate investment funds ("Real Estate Funds") are reported at fair value using net asset value ("NAV") of the units held at the valuation date as a practical expedient, without further adjustments. The guidance allows investors to use a practical expedient for measuring the fair value of investments in certain entities that calculate a NAV per share, such as investments in a pooled separate accounts portfolio and Real Estate Funds. The guidance allows companies to determine the fair value of such investments using NAV as a practical expedient, without further adjustments, if (1) the fair value of the investment is not readily determinable and (2) the investee entity issues financial statements in accordance with measurement principles for investment companies. The Plan's investment in the pooled separate account portfolio meets the requirements of the NAV as practical expedient because the fair value of the investment is not readily determinable as the NAV is not publicly published and it is deemed that if the pooled separate accounts issued standalone financial statements they would be prepared on the basis of investment company practices. Additionally, the Plan owns units in each of the Real Estate Funds and the NAV represents the fair value of each unit held by the Plan. The NAV for each fund is not publicly published and therefore the fair value is not readily determinable. As a result, the Plan's investment in the Real Estate Funds meets the requirements of the NAV as a practical expedient.

Purchases and sales of investments are recorded on a trade-date basis.

Net increases or decreases in the market value of invested assets include realized gains or losses on investments sold and unrealized gains or losses on investments held during the year. Interest income is recorded on the accrual basis.

D. Benefits

Benefit payments to participants are recorded upon distribution.

E. Actuarial Present Value of Accumulated Benefits

Accumulated benefits represent the future periodic payments that are attributable to the service rendered by agents. Under the Plan’s provisions, accumulated benefits include benefits expected to be paid to (a) retired or terminated agents or their beneficiaries, (b) beneficiaries of agents who have died, and (c) active agents or their beneficiaries. The accumulated benefits under the Plan are based on the agent's sales production and associated persistency during their period of credited service through December 31, 1990. For credited service after December 31, 1990, benefits are based on pensionable earnings. The accumulated benefits for active agents do not anticipate future increases in pensionable earnings.

For certain eligible participants, if their benefit under the Plan is less than their Senior Nylic income, their total retirement benefit under the Plan, subject to applicable Code limits, is equal to their Senior Nylic income.

The actuarial present value of accumulated benefits is determined by Aon PLC, the Plan's actuary. The actuarial present value of accumulated benefits is the amount that results from applying actuarial assumptions to adjust the accumulated benefits to reflect the time value of money and the probability of payment. The significant actuarial assumptions used in the valuation as of December 31, 2019 were (a) benefits weighted RP-2006 table with a 100% white collar adjustment projected to 2014 with mortality improvement scale MP-2016 and projected generationally beyond 2014 with mortality improvement scale MP-2019 for healthy participants. Disabled participants use a benefits weighted RP-2006 disabled mortality table, projected to 2014 with mortality improvement scale MP-2016, and projected generationally beyond 2014 with mortality improvement scale MP-2019; (b) retirement rates (rates vary by Nylic service for pre-1991 agents and age for post-1990 agents); (c) disability rates (10% of the 1987 Commissioners Group Disability Table with a waiting period of 6 months); (d) turnover rates (rates vary by service until age 65), and (e) the valuation interest rate.

The significant actuarial assumptions used in the valuation as of December 31, 2019 changed from those used in the prior valuation as of December 31, 2018 as described below.

The valuation interest rate used to determine the actuarial present value of accumulated benefits was changed from 4.47% as of December 31, 2018 to 3.38% as of December 31, 2019. As part of the life expectancy assumption, the mortality improvement scale changed prospectively from Scale MP-2018 to Scale MP-2019 as of December 31, 2019 for the period 2014 forward. These changes resulted in an increase of approximately $383,811 thousand in the present value of accumulated benefits.

F. Administration

The Company, as Plan Administrator, is responsible for administration of the Plan. The Plan pays certain expenses of service providers unrelated to the Company and certain expenses incurred by the Company with respect to the Plan. Annual administration expenses incurred under the IPG Contract are based on a percentage of assets maintained in the fixed account under the contract. Annual fee expenses incurred under the SA Contract include fees for the administration and management of each separate account. The Real Estate Funds provide for the payment of quarterly management and incentive fees for the management of the funds.

Separate account unit values are reduced by the management and administrative fees attributable to such separate account, except that the management and administrative fees for the private equity and hedge fund separate accounts are direct payments to the manager. The NAVs of the Plan's investment in the Real Estate Funds are reduced by the funds' management and incentive fees. The Company pays all remaining administrative expenses of the Plan.

See Note 3- Plan Investments for further details on the fees charged to the Plan under the IPG Contract and the SA Contract.

G. Recent Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board ("FASB") issued ASU 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement,* which amends ASC 820 to add, remove, and modify fair value disclosure requirements. The provisions of ASU 2018-13 are effective for fiscal years beginning after December 15, 2019, with early adoptions of the standard permitted or only the provisions that eliminate or modify disclosure requirements. This standard has been early adopted for 2019 and the impact on the Plan was not material to the financial statements.

NOTE 3 - PLAN INVESTMENTS

The Plan currently invests in two group annuity contracts issued to the Trustees of the Nylic Retirement Plan Trust ("contractholder") by the Company: one contract is the IPG Contract relating to the Company's general account, and the other is the SA Contract.

All of the Plan's investments are held in the Nylic Retirement Plan Trust. The Company is the issuer of the IPG and SA Contracts, and MacKay Shields LLC ("MacKay") and GoldPoint Partners LLC ("GoldPoint") (indirect wholly-owned subsidiaries of the Company) and PA Capital LLC ("PA Capital"; previously Private Advisors LLC) (an indirect majority owned subsidiary of the Company) are the investment managers of one or more of the pooled separate accounts.

Certain Plan assets are directly invested in the following Real Estate Funds: Morgan Stanley Prime Property Fund, LLC, Invesco Core Real Estate - U.S.A., L.P., and JPMCB Strategic Property Fund. The Plan was previously invested in certain registered mutual funds, but the Plan sold its remaining investments in these funds in 2018.

IPG Contract

The IPG Contract is a general account contract, under which a fixed dollar account ("FDA") maintains a crediting rate that reflects the investment experience of the segment of the Company's general account to which the IPG Contract and contracts in its class are assigned, in accordance with New York Life's Investment Year Method ("IYM"). The basic principle of the IYM is that the assets purchased by the segment in a calendar year with available net cash flow are accounted for as a separate investment fund. The IPG Contract is not to be assigned to a third party.

The FDA is credited with contributions, interest income, amounts transferred in from other group annuity contract(s) and dividends, if any, and charged with expenses, amounts transferred to other group annuity contract(s), pension benefits, non-pension benefits, amounts withdrawn on discontinuance, and investment selection charges ("ISC's").

As of the last day of each calendar year, the Company, as insurer, credits interest income to the FDA by applying a net annual rate of interest (equal to the rate of net investment income earned during the calendar year for the IPG Contract, determined in accordance with the Company's IYM) to the average balance in the FDA. The interest rate earned by the FDA in 2019 and 2018 was 4.29% and 4.04%, respectively.

Whenever a payment is to be made from the FDA pursuant to the IPG Contract's transfer, non-pension benefit or the discontinuance provisions, the Company, as insurer, determines the ISC('s), if any, which is to be withdrawn from the FDA. An ISC will apply when the new investment earnings rate exceeds the contract earnings rate. In 2019 and 2018, there were no ISCs.

In the event the contractholder elects to discontinue the IPG Contract, the Company, as insurer, will determine the amount required to purchase annuities for pensioners and terminated plan participants as of the date of discontinuance on the actuarial basis provided for in the IPG Contract, and will withdraw that amount from the FDA. If the amount required exceeds the FDA, then an additional contribution from the Company, as Plan sponsor, in the form of a transfer from the SA Contract will be due. If the required amount is less than the FDA, the remaining balance may either be paid out in a single sum, subject to an ISC or an investment selection credit, or in installment payments over five years without an ISC.

SA Contract

The SA Contract is a multiple separate account contract that provides for the investment of funds in a series of non-guaranteed pooled separate accounts. The only other contract participating in these separate accounts is a contract issued to the Trustees of the New York Life Insurance Company Pension Plan Trust. Under the SA Contract, the contractholder bears all investment risk and has no guarantees as to principal and interest. There are also limited guarantees with respect to mortality and expense.

Contractual accounts are maintained under the SA Contract, each of which reflects the investment experience of the Company's corresponding separate accounts. The dollar value of any contractual account as of any day will be equal to the number of units in such account at the end of the day multiplied by the unit value for that day. The dollar amount of a credit or withdrawal from any contractual account as of any day is converted into a number of units by dividing the dollar amount by the unit value for the day.

Credits to or charges against each separate account are made in connection with each contract participating in that separate account. The investment experience of each separate account is recorded by the Company by means of an accounting system involving units and unit values. Units are the measure used to determine the amount in each of the contractual accounts that participate in the corresponding separate account.

The contractholder may, for any reason, terminate the SA Contract as of any business day, in which case that day will be the termination date. The dollar value of the balance in each of the contractual accounts as of the termination date (or the valuation date next following the termination date where the assets are not valued on a daily basis) will be transferred to the contractholder or to another funding medium designated by the contractholder in a single sum.

NOTE 4 - FEDERAL INCOME TAXES

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated February 1, 2016, that the Plan and related trust are designed in accordance with applicable sections of the Code. Although the Plan has been amended since the previous amendment to which the most recent determination letter is applicable, the Company believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Accordingly, no provision for income taxes is made in the accompanying financial statements.

GAAP accounting requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. There are currently no audits for any tax periods in progress.

NOTE 5 - FUNDING POLICY

The Plan is funded solely by Company contributions. The Company's funding policy is to make required contributions that are no less than the minimum amount needed to comply with the requirements of ERISA and the Code, as amended by the Pension Protection Act of 2006 ("minimum funding requirements"), and no greater than the maximum amount deductible for federal income tax purposes. The Company did not make a voluntary contribution to the Plan for the 2019 plan year or for the 2018 plan year.

NOTE 6 - PLAN TERMINATION

In the event of the termination of the Plan, the Plan provides that the rights of affected participants to the benefits accrued to the date of termination would be non-forfeitable, but there would be no recourse for these non-forfeitable benefits other than from the Plan's assets or the Pension Benefit Guaranty Corporation ("PBGC"). Except to the extent that a participant's benefits were already annuitized under the Plan's IPG Contract, the Plan funds would be allocated on the basis of actuarial valuation in the following order of priority prescribed by ERISA:

1. To retired participants who were receiving benefits 3 years before the Plan termination date; participants who would have received a benefit 3 years before the Plan termination date if they had retired before that 3-year period; and spouses or beneficiaries of deceased participants who were receiving benefits 3 years prior to the Plan termination date or who would have been receiving benefits if the deceased participant had retired before such date.

2. To all other benefits guaranteed by the PBGC that are not included in paragraph 1 above (for retired participants, spouses or beneficiaries of deceased participants receiving a benefit, participants eligible to retire on the Plan termination date, and participants or former participants not eligible to retire who are entitled to receive a deferred vested retirement benefit).

3. To all other non-forfeitable benefits promised by the Plan but not guaranteed by the PBGC (generally, other vested benefits). Plan funds are first allocated based on Plan provisions in effect 60 months before the Plan termination date, and then according to subsequent plan amendments in order from oldest to newest.

4. To all other remaining benefits.

If sufficient Plan funds are not available under any paragraph, participants receive a pro-rata share of the funds allocated. If there are more funds than necessary to satisfy all Plan liabilities, the excess will be paid to the Company. The Plan Administrator may require that any benefits be withdrawn in cash, as an immediate or deferred annuity, or through other periodic payments as determined by the Plan Administrator.

Vested benefits under this Plan are insured by the PBGC, a U.S. government agency, if the Plan terminates other than when a participant's benefits have been already annuitized under the Plan's IPG Contract. Generally, subject to certain exceptions, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under covered plans, and the amount of benefit protection is subject to certain limitations.

Except as noted above, the PBGC guarantees vested benefits at the level in effect on the date of Plan termination. However, if benefits have been increased within the five years before Plan termination, the whole amount of the Plan's vested benefits or the benefit increase may not be guaranteed to the full extent

as would have been paid under the Plan. In addition, there is a ceiling on the amount of monthly benefit that the PBGC guarantees, which is adjusted periodically.

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time, subject to the provisions set forth in ERISA.

NOTE 7 - RISKS AND UNCERTAINTIES

Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Actuarial present values of accumulated benefits are reported based on certain actuarial assumptions, which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions could occur in the near term and could be material to the financial statements.

NOTE 8 - CERTIFIED INFORMATION

The Company, as the issuer of the IPG Contract and the SA Contract, and The Bank of New York Mellon, as the custodian of the assets invested in the Real Estate Funds and Cash, have certified that the following information stated below and included in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits is complete and accurate in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 9 - PARTY-IN-INTEREST TRANSACTIONS

The Plan currently invests in two group annuity contracts issued by the Company: the IPG Contract, which was valued at $1,785,354 thousand and $1,748,943 thousand as of December 31, 2019 and 2018, respectively, and the SA Contract (relating to pooled separate accounts), which was valued at $1,241,995 thousand and $1,136,481 thousand as of December 31, 2019 and 2018, respectively. The IPG Contract provides for the payment of an annual administration charge to the Company, based on a percentage of assets maintained in the fixed account under the contract. Under the SA Contract, the separate accounts are, in whole or in part, managed by the Company and/or one of MacKay (an indirect wholly owned subsidiary of the Company), GoldPoint (an indirect wholly owned subsidiary of the Company) or PA Capital (an indirect majority-owned subsidiary of the Company), that receives fee for such services. The SA Contract provides for the payment of annual fees for the management and administration of each separate account. Separate account unit values are reduced by the fees attributable to such separate account, except that the fees for the private equity and hedge fund separate Accounts are paid separately. The Company, MacKay, GoldPoint and PA Capital are parties-in-interest as defined by ERISA.

NOTE 10 - FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's assets and liabilities recorded at fair value, except certain assets for which the NAV per share is used as a practical expedient, are measured and classified in accordance with a fair value hierarchy consisting of three levels based on the observability of the inputs used in measuring the fair value. The level is determined based on the lowest level input that is significant to the fair value measurement.

The levels of the fair value hierarchy are based on the inputs to the valuation as follows:

Level 1 — Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market. Active markets are defined as a market in which many transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 — Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets; quoted prices in markets that are not active for identical or similar assets or liabilities, or other model driven inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Valuations are generally obtained from third-party pricing services for identical or comparable assets or liabilities or through the use of valuation methodologies using observable market inputs.

Level 3 — Instruments whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management’s own assumptions in pricing the asset or liability. Pricing may also be based upon broker quotes that do not

represent an offer to transact. Prices are determined using valuation methodologies such as option pricing models, discounted cash flow models and other similar techniques. Non-binding broker quotes, which are utilized when pricing service information is not available, are reviewed for reasonableness based on the Company's understanding of the market, and are generally considered Level 3. To the extent the internally developed valuations use significant unobservable inputs, they are classified as Level 3.

Determination of Fair Value

The remaining assets in the Plan, other than its investment in the IPG Contract, which is measured at contract value, are the Plan's investment in the SA Contract and Real Estate Funds, which are measured using NAV as a practical expedient, and are not required to be leveled.

The following table presents the Plan assets measured at fair value using NAV as a practical expedient on a recurring basis as of December 31, 2019 and 2018 (in thousands):

	2019	2018
	(in thousands)	
Investment in SA Contract	$ 1,241,995	$ 1,136,481

NOTE 11 - SUBSEQUENT EVENTS

The Company has evaluated subsequent events for recognition and disclosure through September 30, 2020, the date these financial statements were available for issuance.

The full impact of the COVID-19 pandemic continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and instability in financial markets. As a result, the Plan's investment portfolio has incurred a significant decline in fair value. Because of the values of the Plan's investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.
