INDEPENDENT AUDITORS' REPORT

Plan Administrator
Island Hospitality, Inc. 401(k) Plan
Palm Beach, Florida

We were engaged to audit the statements of net assets available for benefits of the Island Hospitality 401(k) Plan (the "Plan") as of December 31, 2009 and 2008, and the statements of changes of net assets available for benefits for the years then ended and the supplemental schedule of assets (held at end of year) as of December 31, 2009 and the supplemental schedule of delinquent participant contributions for the year ended December 31, 2009. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company and Principal Trust Company, the custodians of the Plan, as of and for the year ended December 31, 2009 and was certified by Principal Life Insurance Company, the custodian of the Plan, as of and for the year ended December 31, 2008. We have been informed by the plan administrator that the custodians hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the custodians as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Description of plan

The following description of the Island Hospitality, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General - The Plan is a defined contribution plan sponsored by Island Hospitality, Inc. (the "Company") for the benefit of its full-time non-union employees who have six months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may contribute from 1% to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make discretionary matching contributions based on a percentage of a participant's compensation as defined in the plan. On October 24, 2008, the Company elected to stop employer contributions to the plan, thus in 2009 no employer contributions were made. Prior to October 24, 2008, the Company contributed 50% of the first 6% of base compensation that a participant contributed to the Plan. Additional amounts may be contributed at the option of the Company. Contributions are subject to certain limitations.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, various pooled separate accounts and an insurance investment contract as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participant's contributions plus actual earnings are 100% vested immediately. Employer contributions are subject to the following vesting schedule:

Years of Service	Vested %
Less than 1 year	0%
1	20%
2	40%
3	60%
4	80%
5	100%

(1) Description of plan (continued)

Participant loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 5.25% to 10.25% and 6% to 10.25% at December 31, 2009 and 2008, respectively, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Loans generally must be repaid within five years unless used for the purchase of a principal residence. Principal repayments are due through November 2014. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeited accounts - At December 31, 2009 and 2008, forfeited account balance totaled $61,484 and $27,991, respectively. These accounts will be used to offset employer match contributions, reallocate to participants or reduce plan administrative expenses. During the year ended December 31, 2009 and 2008, employer administrative expenses were reduced by $12,247 and $11,382, respectively from forfeited non-vested accounts.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits are prepared on a fair value basis which approximates its contract value.

Use of estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

(2) Summary of significant accounting policies (continued)

New accounting pronouncements –

Fair Value Measurements - In April and September 2009, the Financial Accounting Standards Board ("FASB") issued guidance which (i) provided additional guidance for estimating fair value when the volume and level of activity for the asset or liability have significantly decreased, (ii) provided guidance on identifying circumstances that indicate a transaction is not orderly, (iii) permitted, as a practical expedient, entities to measure the fair value of certain investments based on the net asset value per share and (iv) expanded the required disclosures about fair value measurements. The adoption of this guidance did not have a material effect on the Plan's net assets available for benefits or the changes in net assets available for benefits.

Subsequent Events – In May 2009 and February 2010, the FASB issued guidance which established general standards of accounting for, and disclosure of, events that occur after the balance sheet date but before financial statements are issued or are available to be issued. In particular, this guidance established (i) the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure, (ii) the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date and (iii) the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. The adoption of this guidance did not have a material effect on the Plan's net assets available for benefits or the changes in net assets available for benefits.

FASB Codification – In June 2009, the FASB issued new codification standards (Accounting Standards Codification ("ASC")) which represent the source of authoritative U.S. generally accepted accounting principles ("GAAP") recognized by the FASB to be applied by non-governmental entities. Rules and interpretive releases of the Securities and Exchange Commission ("SEC") under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The codification supersedes all non-SEC and reporting standards which existed prior to the codification. All other non-grandfathered, non-SEC accounting literature not included in the codification is non-authoritative. The new codification standards were effective for 2009.

Fair Value Disclosures – In January 2010, the FASB issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (1) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances, and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities, and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements that fall either in Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

(2) Summary of significant accounting policies (continued)

Investment valuation and income recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits.

Reclassifications – Certain reclassifications have been made to the 2008 statement of changes in net assets available for benefits in order to conform to the 2009 presentation.

(3) Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2009	2008
Money Market Separate Account	$ 522,641	$ 570,777
Lifetime 2030 Separate Account	499,204	337,123
Lifetime 2020 Separate Account	461,749	323,711

Bond and Mortgage Separate Account	N/A	237,938
US Property Separate Account	N/A	195,297

The Plans investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	Years Ended December 31,	
	2009	2008
Mutual Funds	$ 18,800	$ -
Pooled separate accounts	684,446	(1,359,354)
	$ 703,246	$ (1,359,354)

(4) Information prepared and certified by the custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company ("Principal"), the custodian of certain of the Plan's investments for 2009, and the custodian of the Plan's assets for 2008 and Principal Trust Company the custodian of certain of the Plan's assets for 2009, have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments:

- Investments at fair value
- Net appreciation (depreciation) in fair value of investments
- Interest and dividends
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(5) Fair value measurements

FASB ASC 820, (formerly Statement of Financial Accounting Standards No. 157*), Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(5) Fair value measurements (continued)

Following is a description of the valuation methodologies used for assets measure at fair value. There have been no changes in methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Separate accounts: Valued at the underlying investments held in the separate account as determined by Principal Life using generally accepted accounting practices and applicable law.

Participant loans: Valued at amortized cost, which approximates fair value.

Investment contracts with insurance company: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. As stipulated in the contracts certain conditions or restrictions exist that limit participant ability to transfer their funds. Therefore, the guaranteed investment account is not considered benefit-responsive and is valued at estimated fair value as determined by Principal. At December 31, 2009, the crediting interest rates range from .94% to 2.69% with maturities ranging from December 31, 2009 through December 31, 2013. At December 31, 2008, the crediting interest rates range from .85% to 1.51% with maturities ranging from December 31, 2008 through December 31, 2012.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(5) Fair value measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009.

Net appreciation (depreciation) included in the changes in net assets for the years above are reported in net appreciation (depreciation) in fair value of investments in the statement of changes in net assets available for benefits.

(6) Related party transactions

Certain plan investments in pooled separate accounts and the guaranteed investment account are managed by the custodian of the Plan. Fees paid by the Plan to the custodian for the investment management and recordkeeping services amounted to $52,103 and $51,892 for the years ended December 31, 2009 and 2008, respectively.

(7) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

(8) Tax status

The Internal Revenue Service informed Principal Life Insurance Company in a letter dated March 31, 2008 that the prototype 401(k) profit sharing plan is designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). The Plan has been amended since receiving the determination letter. However, the Plan Administrative Committee/Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

(9) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits.

In 2008, due to the state of the real estate market, Principal Life Insurance Company took action to protect participants' interests in the Principal U.S. Property Separate Account ("Separate Account"). Effective September 26, 2008, Principal implemented a pre-existing contractual limitation in the group annuity contract to delay payment of most requests for withdrawal from the Separate Account. This allowed Principal to manage the Separate Account and satisfy withdrawal requests over time and fairly among all those who request a withdrawal.

The withdrawal requests will be honored proportionately as sufficient cash becomes available for distribution, in accordance with the terms of the group annuity contract. Death and disability benefits are not affected by this limitation and will be processed as usual. Transfers and contributions into this Separate Account are also being accepted as usual.

This limitation applies only to U.S. Property Separate Account and does not apply to other retirement plan separate accounts or Principal Funds, Inc.

As of November 5, 2009, participants became able to view their pending U.S. Property transactions via the participant website, as well as cancel pending investment transfer or rebalance requests from the U.S. Property account. A list of all pending activity related to the U.S Property account for a specific retirement plan can be obtained from the plan's Client Service Associate/Manager upon request.

(10) Reconciliation to Form 5500

The Form 5500 contains classification of additions to net assets that vary from those reported in the 2009 and 2008 statement of changes in net assets; however, total additions to net assets, net change in net assets, and total net assets available for benefits are the same on the Form 5500 and the 2009 and 2008 financial statements.

(11) Delinquent participant contributions

Plan sponsors are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets. While the Company remitted all employee contributions to the Plan, contributions of $2,311 were not remitted within the required time period for the year ended December 31, 2005. The Company has remitted these delinquent employee contributions, including any lost earnings as a result.

(12) Subsequent events

The Plan has evaluated subsequent events through October 6, 2010, which is the date the financial statements were available to be issued.
