Note 1: Description of the Plan:

The following brief description of the Mercury Plastics, Inc. 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. *General* - The Plan is a defined contribution plan that covers all eligible employees. The Plan was established by Mercury Plastics, Inc. ("the Company") to provide supplemental retirement benefits to its employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All full-time employees who meet the minimum age requirement of twenty-one and minimum service requirement of six months of service are eligible to participate in the Plan.

B. *Contributions* - Each year, participants may contribute up to 25% of their pretax annual compensation, as defined in the Plan, up to the maximum allowable under the Internal Revenue Code. New participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans. The Company contributes 25% of the first 6% of base compensation that a participant contributes to the Plan. The Company may also make an additional discretionary contribution to the Plan. For the years ended December 31, 2019 and 2018, no additional discretionary contributions were made by the Company.

Corrective distributions are required in the event that employee contributions exceed contribution limitations of the Plan. For the years ended December 31, 2019 and 2018 these amounts were $13,472 and $17,278, respectively.

C. *Participant Accounts* - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's matching contribution and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. *Vesting* - Participants are immediately vested in their contributions and the Company's matching contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution requires a completed year of service and active employment on the last day of the plan year.

E. *Investment Options* - Upon enrollment in the Plan, a participant may direct the investment of their contributions to various investment options offered by the Plan.

F. *Notes Receivable from Participants* - Participants may borrow from their vested account balance a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates in accordance with the Plan document. The Company determines the appropriate interest rate based on interest rates for loans of comparable quality and duration extended by banks and other financial institutions for loans under similar circumstances. The rate on all outstanding loans at December 31, 2019 was from 4.25% to 6.50%. The rate on all outstanding loans at December 31, 2018 was from 4.25% to 6.25%. Loans are repayable ratably through periodic payroll deductions. The full amount of the outstanding loan becomes due and payable upon the occurrence of a distributable event other than the satisfaction of the conditions for an in-service distribution. If the outstanding loan balance is not repaid, it will be deemed in default and will become taxable to the participant.

Note 1: **Description of the Plan (Continued):**

F. *Payment of Benefits* - Upon termination of service, death, disability or retirement, participants may elect to receive their benefits as a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments over which such payments shall not extend beyond the participants life expectancy (or the life of the participant and his designated beneficiary). For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 2: Summary of Significant Accounting Policies:

A. *Basis of Accounting* – The financial statements of the Plan are prepared on the modified cash basis of accounting. The primary differences from financial statements prepared under accounting principles generally accepted in the United States of America arise from accounting for investment income and contributions which are recorded when received, and investment and administrative expenses and return of excessive contributions which are recoded when paid, rather than recording such items on an accrual basis. Accordingly, the financial statements are not intended to be presented in conformity with accounting principles generally accepted in the United States of America.

B. *Investment Valuation and Income Recognition* - The Plan's investments are stated at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements. Participant's notes receivables are valued at cost which approximates fair value. Purchases and sales of securities are recorded on the settlement date under the modified cash basis. Interest and dividends are recorded on the cash basis. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

C. *Notes Receivable from Participants* – Notes receivable from participants are measured at their unpaid principal balance. Interest income is recorded on the cash basis. Related fees are recorded as administrative expenses and are expensed when they are paid. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

D. *Payments of Benefits* - Benefits are recorded when paid.

E. *Expenses* – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note 2: Summary of Significant Accounting Policies (Continued):

F. *Risks and Uncertainties* - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits (modified cash basis).

Note 3: Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 4: Tax Status:

The Internal Revenue Service has determined and informed the Company by letter dated March 16, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The related trust, therefore, is not subject to tax under present income tax law. The Plan was amended since receiving the determination letter but Plan managements believes the Plan is still currently designed and operating in compliance with the applicable requirements of the Code.

Note 5: Party in Interest Transactions:

Certain Plan investments are managed by Principal Financial Services ("Principal"), the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are $42,251 and $38,538, for the years ended December 31, 2019 and 2018, respectively. Administrative expenses for the year ended December 31, 2019 are shown net of reimbursements.

Note 7: Information Certified by the Plan's Trustee (Unaudited):

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal, the trustee of the Plan, have certified to the completeness and accuracy of all investments reflected on the accompanying statements of assets available for benefits (modified cash basis) as of December 31, 2019 and 2018, the schedule of assets held for investment (modified cash basis) purposes as of December 31, 2019, and the related investment activity reflected in the statements of changes in assets available for benefits (modified cash basis) for the years ended December 31, 2019 and 2018.

Note 7: Information Certified by the Plan's Trustee (Unaudited) (Continued):

The following information was prepared from reports certified by the trustee for the years ended December 31, 2019 and 2018:

	2019	2018
Pooled separate accounts	$ 4,797,683	$ 4,152,480
Mutual funds	158,839	11,671
Guarenteed interest account	360,914	58,130
Total invesments	$ 5,317,436	$ 4,222,281
Notes receivable from participants	$ 225,641	$ 170,900
Net (depreciation) appreciation in fair value of investments	$ 872,022	$ (300,846)
Interest on participant loans	8,189	7,898
Interest and dividends	712	315

Note 8: Fully Benefit Responsive Investment Contract:

The Plan held a fully benefit-responsive investment contract with Principal at December 31, 2019 and 2018, who maintained the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the statements of net assets available for benefits (modified cash basis) at contract value as determined by Principal. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the Plan's ability to transact at contract value with Principal. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Such events include the following: (a) an uncured violation of the Plan's investment guidelines, (b) a breach of material obligation under the contract, (c) a material misrepresentation, or (d) a material amendment to the agreements without the consent of the issuer.

Note 9: Fair Value Measurements:

Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

1) ***Mutual funds*** – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

2) ***Pooled separate accounts*** – Valued using the net assets value ("NAV"), which is based on the fair value of the underlying assets of the account.

Note 9: Fair Value Measurements (Continued):

The following tables set forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018.

	Investment Assets at Fair Value as of December 31, 2019			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$158,839	$ -	$ -	$ 158,839
Investments measured at net asset value (a)	-	-	-	4,797,683
Total Investments at Fair Value	$158,839	$ -	$ -	$4,956,522

	Investment Assets at Fair Value as of December 31, 2018			
	Level 1	**Level 2**	**Level 3**	**Total**

Investments measured at net asset value (a)	-	-	-	4,152,480
Total Investments at Fair Value	$ 11,671	$ -	$ -	$4,164,151

(a) In accordance with subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the financial statements of net assets available for benefits (modified cash basis).

Fair value of investments in entities that use NAV
The following table summarizes investments for which fair value is measured using NAV per share practical expedient as of December 31, 2019 and 2018, respectively.

	2019 Fair Value	**Unfunded Commitment**	**Redemption Restrictions**	**Redemption Notice Period**
Pooled separate accounts	$4,797,683	N/A	Daily	N/A

	2018 Fair Value	**Unfunded Commitment**	**Redemption Restrictions**	**Redemption Notice Period**
Pooled separate accounts	$4,152,480	N/A	Daily	N/A

Note 10: Uncertain Tax Positions:

Approximately three to four years of informational filings remain open for examination depending on the jurisdiction and tax issues involved and subject to numerous exceptions. The Company's filings have not been chosen by the IRS for examination as of October 13, 2020.

Note 11: Subsequent Events:

Subsequent events have been evaluated through October 13, 2020, which is the date the financial statements were available to be issued.

In January 2020, Congress passed the Setting Every Community Up for Retirement Enhancement Act ("SECURE Act") of 2019 that contained the largest package of retirement system reform in over a decade. Many of the provisions of the SECURE Act are effective January 1, 2020 and may require changes to the Plan administration and recordkeeping.

On March 11, 2020 the World Health Organization declared COVD-19 a pandemic. The COVID-19 pandemic and resulting global disruptions have caused significant economic uncertainty and volatility in the financial markets. The impact of COVID-19 continues to evolve rapidly and the Company is not able at this time to estimate its full impact on the Plan's financial statements.

As of March 27, 2020, Congress passed the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") that included numerous employee benefit plan provisions to assist plan sponsors and participants due to the economic downturn in the United States.
