1. Description of Plan

The following description of the Global Industries Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) plan of Global Industries, Ltd. (the "Company") and its wholly-owned subsidiaries (collectively, the "Employer"). All employees are eligible to participate in the Plan through salary deferral contributions on their first day of employment. All employees commencing employment on January 1, 2008 or after and who fail to enter into a salary deferral agreement are automatically enrolled in the Plan. All employees are eligible to receive Employer matching contributions on their first day of employment and will be eligible to receive the additional Employer contribution, which is determined by the Employer, as of the date the employee completes one year of service. Effective October 1, 2008, all non-regular employees, as defined in the Plan, are eligible to participate in the Plan through salary deferral contributions and receive Employer matching contributions on the first business day of the second month following the month during which the individual completes one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

On September 1, 2009 the Plan was amended to provide 100% vesting for employer matching and other discretionary contributions made subsequent to this amendment's effective date.

Administration

The Plan is administered by a committee ("Plan Committee") designated by the Company's Board of Directors. During the period from January 1, 2008 to January 1, 2009, the 401(k) Company ("Recordkeeper") served as recordkeeper and contract administrator, and provided technical support services and other administrative assistance in conjunction with the operation of the Plan. The investment fund houses served as the asset custodians for the period of January 1, 2008 through September 7, 2008. Fund selection and review is performed by the Plan Committee. Effective September 8, 2008, Charles Schwab Trust Company became custodian of the Plan. Effective January 2, 2009, T. Rowe Price Trust Company ("Custodian") became custodian and recordkeeper of the Plan.

Employee Contributions

Each year participants may contribute from 1% to 75% of their pre-tax annual compensation not to exceed the limitation set forth in Section 402(g) ($16,500 and $15,500 in 2009 and 2008, respectively) of the Internal Revenue Code ("IRC"). Participants may make catch-up contributions, pre-tax contributions that exceed the annual elective deferral limit, during any calendar year ending on or after the participant's 50th birthday. Participants' total catch-up contributions may not exceed $5,500 and $5,000 during 2009 and 2008, respectively. Participants may also make rollover contributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Employer Contributions

During 2009 and 2008, the Employer made matching contributions equal to 100% of the first 6% of Plan compensation contributed by the participant as a salary deferral contribution. Matching contributions may be made in the form of cash, Employer securities or any combination thereof. During 2009 and 2008, the Employer made matching cash contributions of $3,683,495 and $3,625,876, respectively, to the Plan.

The Company may make a discretionary employer contribution. Each year, the Board of Directors of the Company determines whether employer contributions will be made and the amount of the contribution. Employer contributions may be made in the form of cash, Employer securities or any combination thereof. Employer contributions are allocated to each eligible participant in the proportion that each eligible participant's allocation compensation, as defined by the Plan, bears to the total allocation compensation of all such active participants. The Company made discretionary employer contributions to eligible participants from the forfeiture account totaling $0 and $38,313 during 2009 and 2008, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions and withdrawals, as applicable, and allocations of (a) the employers' contributions, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined in the Plan document. Upon the occurrence of a distribution event, the benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in his or her account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Discretionary employer contributions and matching employer contributions are vested 100% upon death, attainment of normal retirement age or disability but only if employed at death, normal retirement age, disability. After September 1, 2009 employees are 100% vested in employer discretionary match and other discretionary contributions. See vesting schedule tables below:

When a participant's employment is terminated for any other reason, a participant's interest in discretionary Employer contributions made on the participant's behalf vests in accordance with the following schedule:

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest payments are made by means of payroll withholding according to the terms of the promissory note. Participant loans outstanding as of December 31, 2009 and 2008 totaled $1,521,523 and $1,057,473, respectively. Interest rates ranged from 4.25% to 9.22% during the year ended December 31, 2009 and 4.96% to 9.22% during the year ended December 31, 2008.

Payment of Benefits

Upon termination of employment due to death or retirement, a participant (or his/her designated beneficiary in the event of death) shall automatically receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts

All employer contributions credited to a participant's account, but not vested, are forfeited by the participant upon termination. Such forfeited balances are used to reduce future employer contributions. As of December 31, 2009 and 2008, forfeited nonvested accounts totaled $1,164 and $104,850 respectively. During 2009 and 2008, forfeited nonvested amounts of $337,775 and $50,867, respectively, were used to reduce employer matching contributions. During 2009 and 2008, forfeited nonvested amounts of $0 and $38,813, respectively, were allocated to eligible participants as discretionary employer contributions.

Administrative Expenses

The Plan is responsible for payment of administrative fees; however, such fees may be paid by the Company, at its discretion. Administrative fees paid by the Company on behalf of the Plan were $72,630 and $61,625 during the years ended December 31, 2009 and 2008, respectively.

2. Summary of Significant Accounting Policies

Financial Accounting Standards Board Codification

In June 2009, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 168, *The FASB Accounting Standards Codification TM and the Hierarchy of Generally Accepted Accounting Principles* ("SFAS No. 168"). The FASB Accounting Standards Codification TM, ("Codification" or "ASC") became the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities. SFAS No. 168 is effective for all financial statements issued for interim and annual periods ending after September 15, 2009. On the effective date of SFAS No. 168, the Codification superseded all then-existing non-SEC accounting and reporting standards. All other non-grandfathered, non-SEC accounting literature not included in the Codification became non-authoritative.

Following SFAS No. 168, the FASB will no longer issue new standards in the form of Statements, FASB Staff Positions ("FSP"), FASB Interpretations ("FIN"), or Emerging Issues Task Force Abstracts ("EITF"); instead, it will issue Accounting Standards Updates ("ASUs"). The FASB will not consider ASUs as authoritative in their own right; rather, these updates will serve only to update the Codification, provide background information about the guidance, and provide the bases for conclusions on the change(s) in the Codification. SFAS No. 168 is incorporated in ASC Topic 105, *Generally Accepted Accounting Principles*. The Plan adopted SFAS No. 168 for the year ended December 31, 2009, and the Plan will provide references in its financial statements to both the Codification topic reference and the previously authoritative references related to Codification topics and subtopics, as appropriate.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Basis of Accounting, continued

As described in ASC 962, *Defined Contribution Pension Plans* (formerly FSP AAG INV-1 and SOP 94-4-1, *Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined-Contribution Pension Plans*), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Investments in the accompanying Statements of Net Assets Available for Benefits include a common collective trust, i.e., the Stable Value Fund, which is a fully benefit-responsive investment contract. As required, the Statements of Net Assets Available for Benefits present the fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Cash and Cash Equivalents

Cash and cash equivalents include short-term highly liquid investments with original maturities of three months or less.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Risks and Uncertainties

The Plan provides for various investment options. These investment options are exposed to market risk, which generally means the risk of loss in the value of certain investment securities due to changes in interest rates, commodity prices and general market conditions. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Recent Accounting Pronouncements

In September 2006, the FASB issued ASC Topic 820, *Fair Value Measurements and Disclosures* (formerly known as SFAS No. 157, *Fair Value Measurements*), which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. ASC Topic 820 was effective for the Plan in January 2008; however, its adoption did not have a significant impact on the Plan's financial statements.

In May 2009, the FASB issued ASC Topic 855, *Subsequent Events* (formerly known as SFAS No. 165, *Subsequent Events*), which establishes general standards of accounting for and disclosure of events that occur after the date of the Statement of Net Assets Available for Benefits but before financial statements are issued or available to be issued. ASC Topic 855 defines (i) the period after the date of the Statement of Net Assets Available for Benefits during which a reporting entity's management should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, (ii) the circumstances under which an entity should recognize events or transactions occurring after the date of the Statement of Net Assets Available for Benefits in its financial statements, and (iii) the disclosures an entity should make about events or transactions that occurred after the date of the Statement of Net Assets Available for Benefits. ASC Topic 855 was effective for the Plan for the year ended December 31, 2009; however, its adoption did not have a significant impact on the Plan's financial statements.

Investment Valuation and Revenue Recognition

The Plan's investments are stated at fair value. Investments in registered investment companies (mutual funds) are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. The Plan's interest in the common collective trust is based on the fair value of the collective trust's underlying investments as based on information reported by the investment advisor using the audited financial statement of the collective trust at year-end. Common stock is stated at fair value as determined by quoted market prices. Participant loans are valued at cost plus accrued interest, which approximates fair value.

Net appreciation (depreciation) in fair value of investments includes realized gains and losses on investments sold during the year and unrealized appreciation (depreciation) of investments held at the end of the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefit payments are recorded when paid.

3. Investments

The following individual investments each represent five percent or more of the Plan's net assets at December 31, 2009 and 2008:

	2009	2008
American Funds Growth Fund of America	$ 8,299,967	$ *
T. Rowe Price Equity Income Fund	8,007,110	*
T. Rowe Price Stable Value Fund	6,908,746	*
T. Rowe Price New Income Fund	5,552,918	*
American Funds EuroPacific Growth Fund	4,315,218	*
Columbia Mid Cap Value Fund	4,220,388	*

Investments less than 5% of the plan's net assets	11,613,992	1,663,251
Total investments at fair value	$ 52,260,069	$ 1,663,251

* Less than 5% of Plan's net assets in the period indicated.

During the years ended December 31, 2009 and 2008, the Plan's investments, including realized gains and losses on investments sold during the year and unrealized appreciation (depreciation) on investments held at the end of the year, appreciated (depreciated) in value as follows:

	2009	2008
Registered investment companies (mutual funds)	$ 8,618,710	$ (16,994,304)
Company's common stock	622,959	(3,350,736)
Net appreciation (depreciation) in fair value of investments	$ 9,241,669	$ (20,345,040)

4. Fair Value Measurements

ASC Topic 820-10 (formerly known as SFAS No. 157) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Registered investment companies (mutual funds): Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Common collective trust: Valued at fair value based on information reported in the audited financial statements of the collective trust at year-end.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements, continued

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

Accordingly, the Plan's trustee, T. Rowe Price Trust Company, has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

The Plan is based on a prototype plan through Accudraft, Inc. The prototype plan obtained its latest determination letter on March 31, 2008 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.
