INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
Moritt Hock & Hamroff LLP 401(k) Plan
Garden City, New York

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Moritt Hock & Hamroff LLP 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that Fidelity Management Trust Company held the Plan's investment assets and executed investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2019 and 2018 and for the year ended December 31, 2019, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter - Supplemental Schedule

The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2019, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 - Description of the Plan

The Moritt Hock & Hamroff LLP 401(k) Plan (the "Plan") became effective January 1, 2010. The Plan adopted a new volume Submitter Plan Document effective November 1, 2018, which allows participants to have more than two loans outstanding at any given time and allows participants to make a special election for bonus compensation. All other significant provisions of the Plan remained the same. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. ***General*** - The Plan is a defined contribution plan which covers eligible employees and partners of Moritt Hock & Hamroff LLP (the "Company" or the "Employer") as defined in the Plan agreement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Each full-time, nonunion employee or partner of the Company becomes eligible for participation in the Plan upon attaining 21 years of age. Part-time employees become eligible to participate in the Plan upon attaining 21 years of age and completing 1,000 hours of service during an eligibility computation period.

b. ***Contributions*** - Each year, participants of the Plan may elect to have up to 92% of their compensation, subject to certain statutory limitations, contributed to the Plan. Participants may elect to have a portion or all of their contributions to be Roth 401(k) contributions that are includable in the participant's gross income at the time deferred. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, a stable value fund (a guaranteed investment contract) and a money market fund as investment options for participants. The Plan also provides for rollover contributions by participants, subject to limitations defined in the Plan agreement. Rollover contributions are comprised of contributions by participants from other qualified defined benefit or defined contribution plans. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

   Under the terms of the Plan, the Company makes non-discretionary matching contributions to the Plan equal to 25% of employee deferrals, up to a maximum deferral of 6% of employee eligible compensation. Effective January 1, 2019, the Plan was amended to change the matching contribution provisions from non-discretionary to discretionary for all eligible participants.

   All investments are participant-directed. Participants direct the investment of contributions into the various investment options offered by the Plan.

c. ***Participant Accounts*** - Each participant's account is credited with the participant's contribution including any rollover contributions and allocations of employer matching contributions and Plan earnings, and charged with an allocation of investment-related expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. ***Vesting*** - Participants are immediately vested in their voluntary contributions, rollovers, and qualified nonelective contributions, plus actual earnings thereon. Any employer matching contributions, discretionary contributions, and any earnings thereon, are subject to vesting provisions based upon periods of service, as defined, and are as follows:

Years of Service	*Vesting Percentage*
less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

e. ***Notes Receivable from Participants*** - Participants may borrow from their Plan accounts a minimum of $1,000, up to a maximum equal to either the lesser of $50,000 reduced by the participant's highest outstanding note balance to the Plan during the one-year period ending on the day before the date on which the note is made, or 50% of their vested account balance, less current outstanding note balances. Effective November 1, 2018, participants may only have one loan outstanding at any given time. All notes, other than those used to purchase a principal residence, must be repaid within five years. Notes used to purchase a principal residence can have repayment terms extending beyond five years. Interest rates are set by the plan administrator at issuance based on comparable rates offered by local commercial lenders. At December 31, 2019, the interest rate on outstanding notes, maturing through October 2024, was 3.25% to 5.75%. Principal and interest are paid ratably through semi-monthly payroll deductions. Loan repayments may be suspended for up to 12 months for any period during which a participant is on unpaid leave of absence, and for any period a participant is on military leave. Participant notes are due and payable on the date the participant terminates employment with the Company.

f. ***Payments of Benefits*** - On termination of service due to death, disability, or retirement, participants become 100% vested in their account balance. For termination of service for other reasons, a participant may receive a distribution amount equal to the value of the vested interest in his or her account at the time of termination. Normal retirement age is 65. Participants who have vested benefits in excess of $1,000 and are eligible to receive benefits may elect to receive an amount equal to the participant's vested interest in his or her account as a lump-sum distribution or a direct rollover to an individual retirement account or other qualified plan. If, at the time of termination, the participant's vested account balance does not exceed $1,000, the Plan shall make involuntary cash-out distributions of the vested account balance.

g. ***Forfeitures*** - The forfeited portion of nonvested accounts may first be used to pay administrative expenses. Any remaining amounts will be used to reduce future employer contributions. At December 31, 2019 and 2018, forfeitures recorded by the Plan amounted to $8,549 and $3,150, respectively. No forfeitures were used during the year ended December 31, 2019.

2 - Summary of Significant Accounting Policies

a. ***Basis of Accounting*** - The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

b. ***Investment Valuation and Income Recognition*** - Investments held are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. *Net appreciation in fair value of investments* includes the Plan's

gains and losses on investments bought and sold, as well as held during the year. See Note 4 for a discussion of fair value measurements

c. ***Notes Receivable from Participants*** - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as *administrative expenses* and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and management deems the participant loan to be in default, the participant loan balance is reduced and a deemed distribution is recorded. During the year ended December 31, 2019, one participant ceased making loan repayments and, accordingly, the participant's loan balance amounting to $1,659 was recorded as *deemed distributions* in the accompanying statement of changes in net assets available for benefits.

d. ***Payment of Benefits*** - Benefits are recorded when paid.

e. ***Use of Estimates*** - The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

f. ***Plan Expenses*** - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account. Investment related expenses, other than management services, are included in *net appreciation in fair value of investments*. Investment management services and record keeping expenses are included in *administrative expenses* on the statement of changes in net assets.

g. ***Other Income*** - *Other income* of $31,825 is the excess revenue earned on mutual funds, which was deposited into a Revenue Credit Account during 2019. Amounts held in the Revenue Credit Account are permitted to be used to reimburse the Company for fees and expenses associated with services provided to the Plan, or to pay vendors, including the trustee or third parties, directly. No Plan expenses were paid from the Revenue Credit Account during 2019.

3 - Information Certified by the Trustee (Unaudited)

At December 31, 2019, the Plan invests in mutual funds, a money market fund, and a guaranteed investment contract, which are held by Fidelity Management Trust Company. Certain information related to these investments disclosed in the accompanying financial statements and supplemental schedule of assets (held at end of year), including investments at fair value and at contract value and notes receivable from participants held at December 31, 2019 and 2018, and net appreciation in fair value of investments, dividend income, interest income and interest income on notes receivable from participants for the year ended December 31, 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan.

4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money Market - The Plan holds an investment in the Fidelity Government Money Market Fund. Fair value of the money market fund is based on NAV, which is the fund's readily determinable fair value. This investment is categorized as a Level 2 in the fair value hierarchy below. This portfolio represents a commingled fund with an investment objective to seek a high level of current income with the preservation of principal and liquidity. The fund normally invests assets in U.S. government securities and repurchase agreements for those securities.

The following table set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

	Investments at Fair Value				
	Level 1	***Level 2***	***Level 3***	***Investments at NAV***	***Total***
December 31, 2019					
Mutual Funds	$ 18,602,993	$ -	$ -	$ -	**$ 18,602,993**
Money Market	-	32,058	-	-	**32,058**
Total Investments at Fair Value	$ 18,602,993	$ 32,058	$ -	$ -	**$ 18,635,051**
December 31, 2018					
Mutual Funds	$ 14,048,868	$ -	$ -	$ -	**$ 14,048,868**
Total Investments at Fair Value	$ 14,048,868	$ -	$ -	$ -	**$ 14,048,868**

The Plan's policy is to recognize transfers into and out of any level as of the date of the event or change in circumstances that caused the transfer. There were no transfers into or out of any level for the year ended December 31, 2019.

5 - Guaranteed Investment Contract

The Plan has a traditional fully benefit-responsive investment contract with Lincoln Life & Annuity Company of New York ("Lincoln") totaling $785,964 and $1,057,341 as of December 31, 2019 and 2018, respectively. Lincoln maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer, but may not be less than 1%. The crediting rate is reviewed on a quarterly basis for resetting.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Lincoln, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; The plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are unlikely to occur.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) a breach of material obligation under the contract, (2) a material amendment to the Plan document without the consent of the issuer, (3) failure of the Plan to pay expenses under the contract.

6 - Party-In-Interest Transactions

Plan investments include mutual funds, a money market fund, and a guaranteed investment contract managed by the current trustee or their affiliates and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services and record keeping amounted to $23,568 and are included in *administrative expenses* on the statement of changes in net assets available for benefits for the year ended December 31, 2019.

7 - Income Tax Status

The IRS determined and informed the Plan's Trustees by a letter dated March 31, 2014 that its prototype plan was designed in accordance with applicable sections of the Internal Revenue Code ("IRC") and is exempt from income taxes. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the value in their accounts.

9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the amounts reported in the s*tatements of net assets available for benefits*.

10 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of certain financial statement amounts to Schedule H of Form 5500:

Line Item	*Financial Statements*	*Reconciling Items*	*Form 5500*

11 - Subsequent Events

The World Health Organization characterized the COVID-19 virus a global pandemic on March 11, 2020. The duration and economic impact of this pandemic are uncertain. At this time, global financial markets have experienced significant volatility resulting from the spread of COVID-19. The extent of the impact of COVID-19 on the Plan's net assets available for benefits, contributions, and benefit obligations will depend upon future developments, including the duration and continued spread of the outbreak.

Effective January 1, 2020, the Plan merged with Moritt Hock & Hamroff Profit Sharing Plan. As of October 14, 2020, approximately $9 million of assets from the Moritt Hock & Hamroff Profit Sharing Plan have been transferred into the Plan.

Subsequent events have been evaluated through October 14, 2020, the date the financial statements were available to be issued.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Moritt Hock & Hamroff LLP 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that Fidelity Management Trust Company held the Plan's investment assets and executed investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2019 and 2018 and for the year ended December 31, 2019, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter - Supplemental Schedule

The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2019, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 - Description of the Plan

The Moritt Hock & Hamroff LLP 401(k) Plan (the "Plan") became effective January 1, 2010. The Plan adopted a new volume Submitter Plan Document effective November 1, 2018, which allows participants to have more than two loans outstanding at any given time and allows participants to make a special election for bonus compensation. All other significant provisions of the Plan remained the same. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. ***General*** - The Plan is a defined contribution plan which covers eligible employees and partners of Moritt Hock & Hamroff LLP (the "Company" or the "Employer") as defined in the Plan agreement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Each full-time, nonunion employee or partner of the Company becomes eligible for participation in the Plan upon attaining 21 years of age. Part-time employees become eligible to participate in the Plan upon attaining 21 years of age and completing 1,000 hours of service during an eligibility computation period.

b. ***Contributions*** - Each year, participants of the Plan may elect to have up to 92% of their compensation, subject to certain statutory limitations, contributed to the Plan. Participants may elect to have a portion or all of their contributions to be Roth 401(k) contributions that are includable in the participant's gross income at the time deferred. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, a stable value fund (a guaranteed investment contract) and a money market fund as investment options for participants. The Plan also provides for rollover contributions by participants, subject to limitations defined in the Plan agreement. Rollover contributions are comprised of contributions by participants from other qualified defined benefit or defined contribution plans. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

   Under the terms of the Plan, the Company makes non-discretionary matching contributions to the Plan equal to 25% of employee deferrals, up to a maximum deferral of 6% of employee eligible compensation. Effective January 1, 2019, the Plan was amended to change the matching contribution provisions from non-discretionary to discretionary for all eligible participants.

   All investments are participant-directed. Participants direct the investment of contributions into the various investment options offered by the Plan.

c. ***Participant Accounts*** - Each participant's account is credited with the participant's contribution including any rollover contributions and allocations of employer matching contributions and Plan earnings, and charged with an allocation of investment-related expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. ***Vesting*** - Participants are immediately vested in their voluntary contributions, rollovers, and qualified nonelective contributions, plus actual earnings thereon. Any employer matching contributions, discretionary contributions, and any earnings thereon, are subject to vesting provisions based upon periods of service, as defined, and are as follows:

Years of Service	*Vesting Percentage*
less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

e. ***Notes Receivable from Participants*** - Participants may borrow from their Plan accounts a minimum of $1,000, up to a maximum equal to either the lesser of $50,000 reduced by the participant's highest outstanding note balance to the Plan during the one-year period ending on the day before the date on which the note is made, or 50% of their vested account balance, less current outstanding note balances. Effective November 1, 2018, participants may only have one loan outstanding at any given time. All notes, other than those used to purchase a principal residence, must be repaid within five years. Notes used to purchase a principal residence can have repayment terms extending beyond five years. Interest rates are set by the plan administrator at issuance based on comparable rates offered by local commercial lenders. At December 31, 2019, the interest rate on outstanding notes, maturing through October 2024, was 3.25% to 5.75%. Principal and interest are paid ratably through semi-monthly payroll deductions. Loan repayments may be suspended for up to 12 months for any period during which a participant is on unpaid leave of absence, and for any period a participant is on military leave. Participant notes are due and payable on the date the participant terminates employment with the Company.

f. ***Payments of Benefits*** - On termination of service due to death, disability, or retirement, participants become 100% vested in their account balance. For termination of service for other reasons, a participant may receive a distribution amount equal to the value of the vested interest in his or her account at the time of termination. Normal retirement age is 65. Participants who have vested benefits in excess of $1,000 and are eligible to receive benefits may elect to receive an amount equal to the participant's vested interest in his or her account as a lump-sum distribution or a direct rollover to an individual retirement account or other qualified plan. If, at the time of termination, the participant's vested account balance does not exceed $1,000, the Plan shall make involuntary cash-out distributions of the vested account balance.

g. ***Forfeitures*** - The forfeited portion of nonvested accounts may first be used to pay administrative expenses. Any remaining amounts will be used to reduce future employer contributions. At December 31, 2019 and 2018, forfeitures recorded by the Plan amounted to $8,549 and $3,150, respectively. No forfeitures were used during the year ended December 31, 2019.

2 - Summary of Significant Accounting Policies

a. ***Basis of Accounting*** - The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

b. ***Investment Valuation and Income Recognition*** - Investments held are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. *Net appreciation in fair value of investments* includes the Plan's

gains and losses on investments bought and sold, as well as held during the year. See Note 4 for a discussion of fair value measurements

c. ***Notes Receivable from Participants*** - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as *administrative expenses* and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and management deems the participant loan to be in default, the participant loan balance is reduced and a deemed distribution is recorded. During the year ended December 31, 2019, one participant ceased making loan repayments and, accordingly, the participant's loan balance amounting to $1,659 was recorded as *deemed distributions* in the accompanying statement of changes in net assets available for benefits.

d. ***Payment of Benefits*** - Benefits are recorded when paid.

e. ***Use of Estimates*** - The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

f. ***Plan Expenses*** - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account. Investment related expenses, other than management services, are included in *net appreciation in fair value of investments*. Investment management services and record keeping expenses are included in *administrative expenses* on the statement of changes in net assets.

g. ***Other Income*** - *Other income* of $31,825 is the excess revenue earned on mutual funds, which was deposited into a Revenue Credit Account during 2019. Amounts held in the Revenue Credit Account are permitted to be used to reimburse the Company for fees and expenses associated with services provided to the Plan, or to pay vendors, including the trustee or third parties, directly. No Plan expenses were paid from the Revenue Credit Account during 2019.

3 - Information Certified by the Trustee (Unaudited)

At December 31, 2019, the Plan invests in mutual funds, a money market fund, and a guaranteed investment contract, which are held by Fidelity Management Trust Company. Certain information related to these investments disclosed in the accompanying financial statements and supplemental schedule of assets (held at end of year), including investments at fair value and at contract value and notes receivable from participants held at December 31, 2019 and 2018, and net appreciation in fair value of investments, dividend income, interest income and interest income on notes receivable from participants for the year ended December 31, 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan.

4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money Market - The Plan holds an investment in the Fidelity Government Money Market Fund. Fair value of the money market fund is based on NAV, which is the fund's readily determinable fair value. This investment is categorized as a Level 2 in the fair value hierarchy below. This portfolio represents a commingled fund with an investment objective to seek a high level of current income with the preservation of principal and liquidity. The fund normally invests assets in U.S. government securities and repurchase agreements for those securities.

The following table set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

	Investments at Fair Value				
	Level 1	***Level 2***	***Level 3***	***Investments at NAV***	***Total***
December 31, 2019					
Mutual Funds	$ 18,602,993	$ -	$ -	$ -	**$ 18,602,993**
Money Market	-	32,058	-	-	**32,058**
Total Investments at Fair Value	$ 18,602,993	$ 32,058	$ -	$ -	**$ 18,635,051**
December 31, 2018					
Mutual Funds	$ 14,048,868	$ -	$ -	$ -	**$ 14,048,868**
Total Investments at Fair Value	$ 14,048,868	$ -	$ -	$ -	**$ 14,048,868**

The Plan's policy is to recognize transfers into and out of any level as of the date of the event or change in circumstances that caused the transfer. There were no transfers into or out of any level for the year ended December 31, 2019.

5 - Guaranteed Investment Contract

The Plan has a traditional fully benefit-responsive investment contract with Lincoln Life & Annuity Company of New York ("Lincoln") totaling $785,964 and $1,057,341 as of December 31, 2019 and 2018, respectively. Lincoln maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer, but may not be less than 1%. The crediting rate is reviewed on a quarterly basis for resetting.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Lincoln, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; The plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are unlikely to occur.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) a breach of material obligation under the contract, (2) a material amendment to the Plan document without the consent of the issuer, (3) failure of the Plan to pay expenses under the contract.

6 - Party-In-Interest Transactions

Plan investments include mutual funds, a money market fund, and a guaranteed investment contract managed by the current trustee or their affiliates and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services and record keeping amounted to $23,568 and are included in *administrative expenses* on the statement of changes in net assets available for benefits for the year ended December 31, 2019.

7 - Income Tax Status

The IRS determined and informed the Plan's Trustees by a letter dated March 31, 2014 that its prototype plan was designed in accordance with applicable sections of the Internal Revenue Code ("IRC") and is exempt from income taxes. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the value in their accounts.

9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the amounts reported in the s*tatements of net assets available for benefits*.

10 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of certain financial statement amounts to Schedule H of Form 5500:

11 - Subsequent Events

The World Health Organization characterized the COVID-19 virus a global pandemic on March 11, 2020. The duration and economic impact of this pandemic are uncertain. At this time, global financial markets have experienced significant volatility resulting from the spread of COVID-19. The extent of the impact of COVID-19 on the Plan's net assets available for benefits, contributions, and benefit obligations will depend upon future developments, including the duration and continued spread of the outbreak.

Effective January 1, 2020, the Plan merged with Moritt Hock & Hamroff Profit Sharing Plan. As of October 14, 2020, approximately $9 million of assets from the Moritt Hock & Hamroff Profit Sharing Plan have been transferred into the Plan.

Subsequent events have been evaluated through October 14, 2020, the date the financial statements were available to be issued.
