Note 1. Description of Plan

The following description of the Performance Trust Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all full-time employees, as defined in the plan document, of PT Financial Companies, LLC (the Company) and any subsidiary who has adopted the Plan who are aged 21 or older. Eligible employees may begin participating on the first day following the date they meet the eligibility requirements. Participants are also eligible for Company profit sharing contributions, if any, upon completion of one year of service and attaining age 21. A participant must also be actively employed at year-end to be eligible for the Company profit sharing contribution, if any. The trustees of the Plan are responsible for the oversight of the Plan and determining the appropriateness of the Plan's investment offerings and monitoring investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to 100 percent of pre-tax annual compensation, as defined in the Plan. Participants who will attain age 50 before the end of the plan year are also eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). The Company may make discretionary profit sharing contributions to the Plan at the option of the Company's Board of Directors. For the year ended December 31, 2019, the Company's Board of Directors authorized $570,000 of profit sharing contributions. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant accounts: Each participant's account is credited with the participant's contributions, as well as allocations of the Company profit sharing contribution, if any, and plan earnings (losses) and are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options: Upon enrollment in the Plan, a participant may direct contributions into a variety of investment options within self-directed brokerage accounts or choose from a variety of mutual funds, as more fully described in the plan document. Participants may change their investment options daily.

Vesting: Participants are immediately vested in their contributions and Company profit sharing contributions plus actual earnings thereon.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum amount of $1,000 up to a maximum amount equal to the lesser of 50 percent of their account balance or $50,000, reduced by the highest outstanding balance of notes in their account during the one-year period ending on the day before the note is made. Participants may have a maximum of three notes outstanding at any one time. Loan terms range from one to five years or up to a reasonable term determined by the Plan Administrator if used for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at rates that range from 4.25 to 6.50 percent, which are commensurate with local prevailing rates as determined by the Plan Administrator at the time the note is originated. Principal and interest payments are paid ratably through semi-monthly payroll deductions.

Note 1. Description of Plan (Continued)

Other income: Charles Schwab Bank (Schwab), the custodian, may receive revenue sharing payments from mutual funds in which the Plan's assets are invested. The fee agreement between the Plan and Schwab provides that to the extent revenue sharing payments received by Schwab exceed administrative fees charged to the Plan by Schwab, the excess will be credited to the Plan. For 2019, $9,655 was earned by the Plan under this agreement, $6,784 of which was used to pay custodial expenses to Charles Schwab Bank, the custodian, and $2,871 of which was used to pay administrative expenses to Alliance Pension Consultants, LLC, the recordkeeper. As of December 31, 2019 and December 31, 2018, the balance in the suspense account which holds these revenue sharing payments amounted to $0. The revenue sharing payments used to make payments to the custodian are presented net within administrative expenses.

Payment of benefits and certain withdrawals: Upon termination of service for any reason, a participant is eligible to receive an amount equal to the value of the participant's account in the form of a lump-sum, partial withdrawals or installments, but only with respect to minimum required distributions, over a period of not more than the participant's assumed life expectancy (or the participant's and their beneficiary's assumed life expectancies). Under certain conditions of financial hardship, as defined in the Plan's agreement, participants may withdraw a portion or all of their account balances in form of a lump-sum in an amount necessary to satisfy the financial hardship.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The trustees of the Plan determine the Plan's valuation policies utilizing information provided by the custodian. See Note 4 for a detailed discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Defaulted loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Note 2. Summary of Accounting Policies (Continued)

Administrative expenses: All major administrative expenses of the Plan are paid for by the Company at the Company's discretion and are excluded from these financial statements. Certain administrative expenses of the Plan may be paid for by the Plan as provided in the plan document. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. All commission and brokerage expenses are paid by the Plan as provided in the plan document and are included in net appreciation of fair value of investments.

Note 3. Information Certified or Provided by Charles Schwab Bank

The following is a summary of the Plan's asset and income information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Charles Schwab Bank, the custodian, and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2019	2018
Investments, at fair value:		
Registered investment companies	$ 16,877,420	$ 11,137,190
Self-directed brokerage accounts:		
Cash	4,437,091	3,539,073
Registered investment companies	4,458,387	3,709,810
Common stock	10,372,697	9,466,768
Exchange traded funds	5,748,309	4,029,272
Real estate investment trusts	522,694	195,783
Debt securities	22,734	87,914
Certificates of deposit	174,003	305,658
Preferred stock	4,236	3,788
Cash - interest-bearing	118,539	523,647
Cash - noninterest-bearing	10	130,736

Charles Schwab Bank also certified to the completeness and accuracy of $6,398,950 of net appreciation in fair value of investments, $670,292 of dividends and interest and $2,871 of other income related to the aforementioned assets for the year ended December 31, 2019.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Financial Accounting Standards Board guidance are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Registered investment companies: Valued at the daily closing price as reported by the registered investment company. Registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Common stock, preferred stock, exchange traded funds, and real estate investment trusts: Valued at the quoted market price reported in the active market in which the individual securities are traded.

Debt securities: Valued at fair value using pricing models that discount the anticipated cash flows to present value assuming market discount rates of securities with similar characteristics. These models use a variety of observable inputs, including but not limited to prepayment speeds, estimated cash flows, spreads to the treasury curve or other reference rates, underlying loans and collateral, credit rate, default rates and loss severity rates.

Certificates of deposit: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Note 4. Fair Value Measurements (Continued)

Total	$ 28,848,269	$ 87,914	$ -	$ 32,475,256

Note 4. Fair Value Measurements (Continued)

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The Company evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. During the year ended December 31, 2019, there were no transfers between levels.

Note 5. Related-Party Transactions and Party-in-Interest Transactions

The Plan invests in a registered investment company issued by Charles Schwab & Co., Inc., an affiliate of Charles Schwab Bank, the custodian, and therefore, these transactions qualify as party-in-interest transactions.

Certain plan investments are shares of registered investment companies issued and managed by Performance Trust Investment Advisors, LLC. Performance Trust Investment Advisors, LLC is an affiliate of the Company, and therefore, these transactions qualify as related-party transactions.

Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments.

During 2019, the Plan made direct payments to Charles Schwab Bank of $6,784 and to Alliance Pension Consultants, LLC, the recordkeeper, of $30,439 for administrative fees. The Plan also paid other administrative fees of $4,991.

Certain employees of the Company provide administrative services to the Plan without reimbursement. These employees do not receive any compensation from the Plan for their services.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7. Tax Status

Effective January 1, 2013, the Plan adopted a volume submitter profit sharing plan sponsored by Sungard Corbel LLC. The volume submitter profit sharing plan has received an opinion letter from the IRS as to the volume submitter profit sharing plan's qualified status dated March 31, 2014. The volume submitter profit sharing plan opinion letter has been relied upon by this Plan. The Plan has been amended since the date of the opinion letter. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

Generally Accepted Accounting Principles require plan management to evaluate the Plan's tax positions and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities before 2016.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2019 and 2018, and change in net assets available for benefits per the financial statements for the year ended December 31, 2019, to Form 5500:

	2019	2018
Net assets available for benefits per the financial statements	$ 43,508,957	$ 33,331,472
Notes receivable from participants	(122,340)	(177,333)
Other	5,461	-
Participant loans	116,879	177,333
Net assets available for benefits per Form 5500	$ 43,508,957	$ 33,331,472

Change in net assets available for benefits per the financial statements	$ 10,177,485
Interest income on notes receivable from participants	(6,616)
Participant loan interest	6,616
Change in net assets available for benefits per Form 5500	$ 10,177,485

Note 10. Subsequent Events

The Plan has evaluated subsequent events for possible recognition and/or disclosure through October 14, 2020, the date these financial statements were available to be issued.

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate the spread of it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Plan Sponsor operates. It is uncertain how long the adverse conditions associated with the coronavirus will last and what the complete financial effect will be on the Plan. As a result, the Plan investments may have incurred a significant decline in fair value since December 31, 2019. Additionally, it is reasonably possible that estimates made in the financial statements have been, or will be, materially and adversely impacted in the near term as a result of these conditions, including investment valuations.

Note 10. Subsequent Events (Continued)

On March 27, 2020, the *Coronavirus Aid, Relief, and Economic Security Act* (CARES Act) was enacted to amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic. The CARES Act also provides for certain optional relief measures that can be adopted by qualified retirement plans including increased levels of participant loans for affected individuals for a limited time, and distributions with special tax treatment for affected individuals. Plans must also allow participants who are affected by the coronavirus to suspend loan payments through December 31, 2020, and required minimum distributions for participants over 70 ½ can be omitted for 2020.
