NOTE 1 – PLAN DESCRIPTION

The following description of the Vernis & Bowling 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan's document for a more complete description of the Plan's provisions.

General

The Plan, which was incepted on January 1, 1995, is classified as a defined contribution 401(k) plan, covering employees of Vernis & Bowling of Miami P.A. (the "Company") with at least 1000 hours per year of service and at least 21 years of age. The primary purpose of the Plan is to provide employees of the Company with financial benefits upon retirement. Entry dates into the Plan are January 1 or July 1.

Contributions

Each year participants may elect to contribute a portion of their gross compensation, not to exceed IRS limit for the plan year, through a salary reductions agreement. Participants direct the investment of their contributions into various investment options offered by the Plan.

The employer may make discretionary contributions on behalf of the participants. The matching contribution is a formula determined by the Company. The maximum matching contribution per participant in 2019 was $750. The contributions are credited to individual accounts for each participant.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Employer contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of $50,000 minus the highest outstanding balance of loans in the past 12 months, or one-half the present value of the participant's vested account balance. The loans are secured by the balance in the participant's account and bear interest ranging from 4.25% - 6.50%.

Investment Options

Participants may direct their contributions to be invested in one or more of the investment options available to the Plan.

Vesting

Participants' contributions, plus actual earnings, are fully vested and non-forfeitable at all times. A participant's vested percentage in the portion of their account attributable to employer discretionary and matching contributions shall be determined under the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

NOTE 1 – PLAN DESCRIPTION (Continued)

Payment of Benefits

Upon retirement, disability or death, a participant or beneficiary receives the entire amount credited to the participant's account in either a lump sum or, at the participant's election, in annual installments. Upon termination, other than by retirement, disability, or death, a participant becomes eligible to receive the current value of the participant's vested account in a lump sum.

Participant Investment Rollovers

Participants are allowed to transfer or rollover funds into the Plan from other qualified plans.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America, except for distributions paid to participants which are prepared on the cash basis of accounting.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Investment Valuation and Income Recognition

The Plan's investments in pooled separate accounts are stated at fair market value. Shares of pooled separate accounts are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. The Plan's investment contract is not fully benefit responsive and is reported at fair value. Fair value of the investment contract is estimated using discounted cash flows.

Purchases and sales transactions are recorded on a trade date basis. Any gain or loss resulting from the sale of fund units is determined as the difference between the sales proceeds and the cost of units sold. Investment income is recorded on the accrual basis. Investment income consists of interest or dividend income, gains, and unrealized appreciation or depreciation in the market value of investments.

Administrative Costs

Administrative expenses charged to the Plan during the plan year ended December 31, 2019 were $55,345.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles and with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events

The Plan has evaluated subsequent events through October 7, 2020, which is the date the financial statements were available to be issued. See Note 11.

NOTE 3 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In the event of the termination of the Plan, the rights of the affected participants under the Plan shall be fully vested and nonforfeitable.

NOTE 4 – RISK AND UNCERTAINTIES

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 5 – INFORMATION CERTIFIED BY THE CUSTODIAN (UNAUDITED)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West Retirement Services, the custodian of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2019 and 2018 and Schedule H, Line 4i- Schedule of Assets (Held at End of Year) as of December 31, 2019, and the related net appreciation in value of investments, interest and dividend income reflected in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2019.

NOTE 6 – TAX STATUS

The Plan uses a prototype adoption agreement provided by the plan custodian. The plan administrator believes the Plan is a qualified trust under Section 401 of the Internal Revenue Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan custodian has obtained a favorable tax determination letter from the Internal Revenue Service regarding the prototype adoption agreement and therefore believes it to be exempt from federal income taxes under Section 501(a). The Plan's prototype adoption agreement has been amended since receiving the determination letter to comply with new requirements.

The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress, The plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

NOTE 7 – TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain investments of the Plan are shares of mutual funds and investment contracts managed by Great-West Life & Annuity Insurance Company. Great-West Life & Annuity Insurance Company is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest. All fees and expenses of the Plan relating to legal, accounting, and other administrative services are paid by the Company.

NOTE 8 – NON-EXEMPT TRANSACTIONS

401(k) plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the Company's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the Company. During the year ended December 31, 2019, the Plan had $841,295 of contributions that were not remitted within the required time period. Subsequent to year-end, the plan administrator has filed Forms 5330 with applicable excise taxes and paid lost earnings.

NOTE 9 – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. FASB ASC Paragraph 820-10 for financial assets and liabilities establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 and 2 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

- Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 inputs to the valuation methodology include the following:
  - Quoted prices for similar assets or liabilities in active markets
  - Quoted prices for identical or similar assets or liabilities in inactive markets
  - Inputs other than quoted prices that are observable for the asset or liability
  - Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 9 – FAIR VALUE MEASUREMENTS (Continued)
The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

- *Guaranteed investment contract*. Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations, considering the creditworthiness of the issuer.
- *Registered investment companies*. Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following fair value hierarchy table presents information about each major category of the Plan's financial assets measured at fair value on a recurring basis as of December 31:

		Assets at Fair Value as of December 31, 2019		
Assets	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Interest-bearing cash	$ 19,986	$ 19,986	$ -	$ -
Registered investment companies	10,746,678	10,746,678	-	-

Total	$ 11,387,096	$ 10,766,664	$ 620,432	$ -

		Assets at Fair Value as of December 31, 2018		
Assets	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Interest-bearing cash	$ 8,121	$ 8,121	$ -	$ -

Total	$ 8,709,307	$ 8,031,937	$ 677,370	$ -

NOTE 10 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a fixed annuity investment contract (Key Guaranteed Portfolio Fund) with Great-West Life & Annuity Insurance Company. Great-West Life & Annuity Insurance Company maintains the contributions in a general account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fixed annuity investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly. The average yield of the contract can be derived by averaging the quarterly gross interest rates for the fund over the year.

As described in Note 2, because the fixed annuity investment contract is not fully benefit-responsive, fair value is the relevant measure attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The fair value of the fixed annuity investment contract at December 31, 2019 and 2018 was $620,432 and $677,370.

NOTE 11 – SUBSEQUENT EVENTS

As a result of the spread of COVID-19 coronavirus, economic uncertainties have arisen which have resulted in significant volatility in the investment markets. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.
