For the year ended December 31, 2019, the Company made qualified safe-harbor matching contributions equal to 100% of participants' elective deferrals up to 3% of the participants' compensation, plus 50% of participants' elective deferrals above 3%, but not over 5% of the participants' compensation.

Investment Options
Participants may direct the investment of their contributions to the Plan into various investments offered by the Plan. Investment options include mutual funds and a common collective trust offered by the Plan.

The Pension Protection Act of 2006 created the Qualified Default Investment Alternative ("QDIA") which provides employers a safe harbor from fiduciary risk when selecting an investment for a participant or beneficiary who fails to elect his or her own investment. The Plan has selected the various American Funds Target Date Retirement investment funds based on the participant's birth year as its QDIA.

Participant Accounts
Each participant's account is credited with the participant's contribution, Plan earnings and an allocation of the Company's matching contribution. Benefit payments, if any, are specifically charged to the participant's account. Certain fees incurred in connection with the direction of a participant on any Plan account maintained on the participant's behalf may be charged and paid from the assets of such participant account. As a participant-directed Plan, each participant's investments determine his or her share of earnings or losses. Allocations of Company matching contributions are based on a participant's salary deferral. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment of their account balances into various investment options offered by the Plan.

Notes Receivable From Participants
Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of (a) $50,000, reduced by the highest outstanding loan balance of loans during the one-year period ending on the day before the new loan is made or (b) the greater of (i) fifty percent (50%) of their vested interest in the Plan reduced by any outstanding loan at the time of application or

1 - DESCRIPTION OF THE PLAN (Continued)

Notes Receivable From Participants (Continued)
(ii) $10,000 reduced by any outstanding loan at the time of application. The participant may have no more than two (2) loans outstanding at one time. The loans are secured by the balance in the participant's account and bear annual interest.

Interest rates on outstanding loans at December 31, 2019 and 2018 range from 4.25% to 6.5%. Principal and interest is paid ratably through payroll deductions over a one to five year period, except for loans for the purchase of a principal residence, which may be repaid over a reasonable period of time that may be longer than five years. If any scheduled loan repayment remains unpaid for more than ninety (90) days after due, the loan is considered to be in default. The participant is then treated as having received a deemed distribution for the remaining balance of the loan. During the year ended December 31, 2019, loans in default in the amount of $1,143 were recorded as deemed distributions to participants on the statement of changes in net assets available for benefits.

Vesting and Forfeitures
Participants are immediately vested in their contributions plus actual earnings thereon. Participants are also immediately vested in the Company's qualified safe-harbor matching contributions. There are $43 and $14 in the forfeitures account at December 31, 2019 and 2018, respectively.

Payment of Benefits
Participants are entitled to receive distributions upon attaining age 65 (normal retirement age), age 59-1/2 (pre-retirement age) or as a result of a financial hardship as defined by the Plan. Participants that are terminated as a result of death, disability or for other reasons are also entitled to distributions. Participants may withdraw all or a portion of their vested account balance. Participant account balances of $5,000 or less are automatically distributed in one lump-sum.

Hardship Withdrawals
The Plan provides for hardship withdrawals, as set forth in accordance with applicable sections of the IRC, not to exceed a participant's actual contributions to the Plan, and must result from an immediate and heavy financial need of the participant as determined on a non-discriminatory basis by the Plan Administrator.

Effective January 1, 2019 the Plan's safe harbor hardship withdrawals will change due to the impact of The Bipartisan Budget Act of 2018 (the "Act"). The significant changes with this new law are that (1) the Act expands the types of funds that can be distributed in the event of a hardship distribution to include qualified matching contributions, qualified non-elective contributions and earnings. (2) The Plan will no longer require a participant to take a loan prior to requesting a hardship withdrawal and (3) no longer require a suspension of employee contributions after receipt of a hardship withdrawal.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses (realized and unrealized) on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make loan repayments and the Plan trustee deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded based upon terms of the Plan document.

Use of Estimates
The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits
Benefit payments to participants are recorded when paid.

Management Fees and Operating Expenses
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment in the Stable Value Fund

The Plan offers the KeyBank EB MAGIC Fund, Series 95 (the "Stable Value Fund") as an investment option to its participants. The Stable Value Fund invests entirely in annuity contracts which consists of separately managed investment portfolios in fixed income securities, and also enters into wrapper contracts issued by third parties, which are designed to allow the Stable Value Fund to maintain a constant net asset value ("NAV"). The Stable Value Fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Participants are able to transact at NAV, which is the same as contract value for the Stable Value Fund. Contract value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events may limit the ability of the Plan to transact at contract value with the Stable Value Fund. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan that requires liquidation of the Stable Value Fund), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary that require liquidation of the Stable Value Fund), or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants have occurred or are probable of occurring.

Subsequent Events

These financial statements were approved by management and available for issuance on October 15, 2020. Management has evaluated subsequent events through this date.

3 - FAIR VALUE MEASUREMENTS (UNAUDITED)

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds
Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

3 - FAIR VALUE MEASUREMENTS (UNAUDITED) (Continued)

The Stable Value Fund in Common Collective Trust
Investments in the Stable Value Fund are valued at NAV, which is used as a practical expedient for fair value. The use of NAV as fair value is deemed appropriate as there are no imposed redemption restrictions and the Plan does not have any contractual obligations to further invest in the Stable Value Fund.

The following tables summarize investment assets measured at fair value:

	Investments at Fair Value			
December 31, 2019	Level 1	Level 2	Level 3	Total
Mutual funds	$ 9,187,898	$ -	$ -	$ 9,187,898
The Stable Value Fund (a)				80,067
Total assets at fair value				$ 9,267,965

	Investments at Fair Value			
December 31, 2018	Level 1	Level 2	Level 3	Total
Mutual funds	$ 7,112,993	$ -	$ -	$ 7,112,993
The Stable Value Fund (a)				29,878
Total assets at fair value				$ 7,142,871

(a) Certain investments that are measured at fair value using the net asset value per share practical expedient have not been classified in the fair value hierarchy. The net asset value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Transfers Between Levels
For the year ended December 31, 2019, there were no transfers between Levels 1 and 2 and no transfers in or out of Level 3.

3 - FAIR VALUE MEASUREMENTS (UNAUDITED) (Continued)

Investments Measured Using the Net Asset Value Per Share Practical Expedient
The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient:

The Stable Value Fund	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
December 31, 2019	$ 80,067	N/A	Daily	12 months
December 31, 2018	$ 29,878	N/A	Daily	12 months

4 - TAX STATUS

The Company adopted a pre-approved prototype plan offered by the Plan's trustee. The Internal Revenue Service (IRS) has determined that the prototype plan, by letter dated March 31, 2014, is designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the code.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

5 - PARTY-IN-INTEREST TRANSACTIONS

Capital Bank and Trust Company is the trustee as defined by the Plan and, therefore, investments in Capital Bank and Trust Company and funds of its related entities qualify as party-in-interest transactions. Investments sponsored by Capital Bank and Trust Company were $9,152,956 and $7,077,310 as of December 31, 2019 and 2018, respectively. These transactions are exempt from the prohibited transactions rules under ERISA.

Empower Institutional is the Plan's recordkeeper, and, as a service provider to the Plan, qualifies as a party-in-interest. During the year ended December 31, 2019, the Plan paid administrative fees of $8,225 to Empower Institutional for these services.

5 - PARTY-IN-INTEREST TRANSACTIONS (Continued)

Certain officers and employees of the Company (who may also be participants in the Plan) perform administrative services related to the operation, recordkeeping and financial reporting of the Plan. The Company pays these individuals' salaries and other administrative expenses on behalf of the Plan. Certain fees, to the extent not paid by the Company, are paid by the Plan. These transactions are not deemed prohibited party-in-interest transactions because they are covered by statutory and administrative exemptions from the IRC and ERISA rules on prohibited transactions.

During the year ended December 31, 2019 an operational failure was noted with respect to the eligible compensation used by the Company to calculate participant deferral and employer match contributions to the Plan. The plan sponsor has consulted an ERISA attorney and is taking corrective action in order to correct participant deferral and employer match contributions during the year. The plan sponsor will remediate this failure by making qualified non elective contributions, additional employer matching contributions and associated missed earnings to the plan in 2020. The plan sponsor estimated that the corrective contribution will be approximately $20,000 which is reflected as an employer contribution receivable on the statement of net assets available for benefits.

6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants remain 100% vested in their Company matching contributions.

7 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8 - INVESTMENTS PREPARED AND CERTIFIED BY THE TRUSTEE (UNAUDITED)

10 - SUBSEQUENT EVENTS

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency stemming from a new strain of coronavirus that was spreading globally (the "COVID-19 outbreak"). On March 11, 2020, WHO classified the COVID-19 outbreak as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. Operation of the Plan has not been adversely impacted.

The novel coronavirus (or "COVID-19") has adversely affected, and may continue to adversely affect, economic activity globally, nationally and locally. These economic and market conditions and other effects of the COVID-19 pandemic may adversely affect the volatility of Plan assets. The extent of any adverse impact of the COVID-19 pandemic on the Plan's participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits are unknown at this time. Operation of the Plan has not been adversely impacted.

On March 27, 2020, the Coronavirus Aid, Relief and Economic Security Act ("CARES Act") was passed. Plans are permitted to adopt these provisions immediately provided the Plan document is retroactively amended on or before December 31, 2022. The following provisions of the CARES Act have been implemented:

- Increase in maximum loan limit for coronavirus-related loans to the lesser of $100,000 or 100% of the eligible participant's vested balances; effective for 180 days from March 27, 2020.
- For eligible participants, loan repayment for existing loans and new loans can be delayed for up to one year for loans with a repayment due from March 27, 2020 to December 31, 2020.
- The plan will permit coronavirus-related distributions received by participants, regardless of employment status, for any taxable year to not exceed $100,000 effective March 27, 2020.
