NOTES TO THE FINANCIAL STATEMENTS

December 31, 2019 and 2018

NOTE 1 - DESCRIPTION OF PLAN

The following description of the MCRV, Inc. (Company) 401(k) Retirement Plan (Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL - The Plan is a defined contribution plan covering all employees of the Company who have completed six months of service and are at least age eighteen. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

CONTRIBUTIONS - Employee contributions are made using funds withheld by the Company from compensation of participants. Each year participants may contribute up to 15 percent of their pre-tax annual compensation as defined in the Plan. Additionally, participants may make catch-up contributions in a taxable year if they are at least age 50 by the end of that year and participants may also contribute amounts representing distributions from other qualified defined contribution plans. The Company provides matching contributions on behalf of each participant at the rate of 50% of the first 8% of the participant's compensation contributed as elective deferrals.

The Company's Board of Directors may also elect to make a profit-sharing contribution for the benefit of eligible participants. Profit sharing contributions are allocated to participants based upon relative compensation received for the year.

PARTICIPANT ACCOUNTS - Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, plan earnings, administrative expenses and forfeitures of terminated participants' non-vested accounts allocable to such participants. Allocations are based on participant's earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING - Participants are immediately vested in their elective deferral contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contributions plus actual earnings thereon is based on years of continuous service. Participants vest 20% after two years of service and vest 20% each year thereafter until becoming fully vested after six years of credited service.

NOTE 1 - DESCRIPTION OF PLAN - Continued…

INVESTMENT OPTIONS - The Plan has self-directed investments whereby individual participants are permitted to select their own specific investments among those provided for in the Plan. Participants may change their investment options at any time.

PARTICIPANT NOTES RECEIVABLE - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Each loan shall be repaid in equal installments of principal and interest over a period to be determined by Principal, but such period shall not exceed five years. The loans are secured by the balance in the participant's account and all loans bear interest at rate of 3.25%-6.50%, which commensurate with local prevailing rates as determined quarterly by the custodian. Principal and interest are paid ratably through monthly payroll deductions.

PAYMENT OF BENEFITS - On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Distributions of any vested benefit with a present value less than $1,000 shall be made, upon termination of employment, in a lump sum without consent of the employee. Distributions of any vested benefit with a present value greater than $1,000 but less than $5,000 shall be made, upon termination of employment, to a designated IRA without consent of the employee.

FORFEITED ACCOUNTS - Forfeitures are created when participants terminate employment prior to becoming fully vested in the Company's contribution portion of their accounts. At December 31, 2019, and 2018 forfeited non-vested accounts totaled $98,611 and $12,568, respectively. These amounts are allocated to participants on the basis of each participant's compensation in the year in which the forfeiture occurs. The forfeited amounts as of December 31, 2018 were allocated to participants in 2019.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

DATE OF MANAGEMENT'S REVIEW - Management has evaluated subsequent events through October 1, 2020, the date which the financial statements were available to be issued.

BASIS OF ACCOUNTING - The accompanying financial statements of the Plan are prepared using the accrual method of accounting.

PARTICIPANT NOTES RECEIVABLE - Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

ESTIMATES - The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES - Continued…

INVESTMENT VALUATION AND INCOME RECOGNITION - The Plan's investments are stated at fair value, as reported by the custodian. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

EXCESS CONTRIBUTIONS PAYABLE - Amounts payable to participants for contribution in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions.

PAYMENT OF BENEFITS - Benefits are recorded when paid.

ADMINISTRATIVE EXPENSES - In addition to transaction fees paid by participants, administrative expenses consisting primarily of accounting fees were paid out of forfeitures.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded. The fair values of common stocks are based on the closing price reported on the active market where the individual securities are traded.

NOTE 3 - FAIR VALUE MEASUREMENTS - Continued…

The collective investment trust (CIT) invests in a collective trust fund as well as a variety of separate accounts and mutual funds. The fair value of the collective investment trust and the separate accounts are not publicly quoted pricing inputs. The fair value of mutual funds are publicly quoted pricing inputs (level 1). The fair value of all these investments are used in determining the net asset value (NAV) of the CIT, which is not publicly quoted but is available to current investors. The NAV is the basis for current transactions and the CIT can be redeemed at NAV as of the measurement date. Therefore, this investment has a "Readily Determinable Fair Value". The NAV is calculated in a manner consistent with GAAP for investment companies. Because it is valued similarly to mutual funds, the CIT should be a level 1 asset.

The pooled separate account (PSA) invests in a single mutual fund or in domestic stocks. The fair value of the mutual fund is a publicly quoted pricing input used in determining the net asset value. The majority of the underlying securities have observable level q pouted pricing inputs. Therefore, this investment has a "Readily Determinable Fair Value". The NAV is calculated in a manner consistent with GAAP for investment companies. Because it is valued similarly to mutual funds, the PSA should be a level 1 asset.

Fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 Fair Value Measurements

Fair values are based on inputs other than quoted prices included within Level 1 that are observed for valuing the asset or liability, either directly or indirectly. Level 2 inputs may also include insignificant adjustments to market observable inputs.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value on December 31, 2019			
	Fair Value	Level 1	Level 2	Level 3
Mutual Funds	$ 484,455	$ 484,455	$ -	$ -
Separate Pooled Accounts	214,520	214,520	-	-

	Assets at Fair Value on December 31, 2018

Mutual Funds	$ 584,291	$ 584,291	$ -	$ -
Separate Pooled Accounts	200,973	200,973	-	-
Collective Investment Trust	7,491,763	7,491,763	-	-
Investments measured at net asset value	-	-	-	-
Investments at Fair Value	$ 8,277,027	$ 8,277,027	$ -	$ -

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2019 and 2018, are reported in new appreciation (depreciation) in fair value of investments.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2019, there were no significant transfers between Levels 1 and 2 and no transfers into or out of Level 3.

NOTE 4 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan has a traditional investment account which holds guaranteed annuity investment accounts that invests in benefit-responsive investment contracts. These contracts meet the fully benefit-responsive criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

	2019	2018
Traditional investment contracts	$ 331,983	$ 354,362

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed by the Plan. The crediting rate is calculated based on the performance of the last three three-month Treasury bill month-end rates. The crediting rate is reviewed on a quarterly basis for resetting.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with

NOTE 4 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS - Continued…

Principal. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

An issuer can terminate the contract upon the event of default by the contract holder if the issuer determines in its reasonable discretion, such event has had, or is likely to have a material adverse effect on the issuer's interest with respect to the contract. Such events may include but are not limited to: management of the portfolio not in accordance with investment guidelines, breach of any material obligation, any representation or warranty made by the contract holder becoming untrue in any material way, if the Plan is not abiding by state and federal laws, or if the Plan is disqualified by the Internal Revenue Service. Upon termination, a market adjustment may apply.

NOTE 5 - INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN (Unaudited)

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified as complete and accurate by Principal Trust Company.

	2019	2018

Fully benefit-responsive investment contracts at contract value	331,983	354,362
Participant Loans	217,140	305,954
Net investment gain (loss)	1,740,591	(608,132)

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTE 7 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter, dated March 31, 2014, that the Plan and related trust (standardized prototype profit sharing plan with CODA) are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable provisions of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax position taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2016.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 - PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds managed by Principal Trust Company. Principal Trust Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $42,689 for the year ended December 31, 2019.

NOTE 11 – SUBSEQUENT EVENTS

Infectious Disease Outbreak – As of the date this report was available to be issued, the United States, as well as many countries around the world, was experiencing an emerging infectious disease (COVID-19) outbreak, impacting individuals, governments, businesses and financial markets with unprecedented disruption and risk. While it is not possible to predict the impacts of the outbreak on the Plan's financial condition or the net assets available for benefits, significant changes in investment income, contributions and distributions are possible.
