REPORT OF INDEPENDENT AUDITORS

To the Plan Administrator of the
Sargent & Lundy, L.L.C.
Savings Investment Plan
Chicago, Illinois

We were engaged to audit the financial statements and supplemental schedule of Sargent & Lundy, L.L.C. Savings Investment Plan as of December 31, 2009 and 2008, and for the year ended December 31, 2009, as listed in the accompanying contents page. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan sponsor instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of December 31, 2009 and 2008 and for the year ended December 31, 2009 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 - PLAN DESCRIPTION

The Sargent & Lundy, L.L.C. Savings Investment Plan ("the Plan") is a defined contribution plan covering all eligible employees, as defined, of Sargent & Lundy, L.L.C.; S&L Engineers, Ltd.; Sargent & Lundy Illinois, Incorporated; Sargent & Lundy Enterprises, L.L.C.; Sargent & Lundy Texas, L.L.C.; Sargent & Lundy International, Incorporated; Sargent & Lundy Canada Company; S&L Powers Projects, L.L.C.; and Sargent & Lundy Pacific, Limited (collectively, "the Company"). The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Effective January 1, 2009, the Plan was amended and restated. A further description of the Plan can be obtained from the Plan document.

Contributions: Participants may make pretax and after-tax contributions subject to a combined maximum of the limits as defined in the Plan document. Pretax contributions are subject to the contribution limitations of the Internal Revenue Code ("IRC"). Absent an election, full-time employees who are hired on or after January 1, 2008 will be automatically enrolled in the Plan at a contribution rate of 6% of eligible compensation. The Plan has also adopted a contribution escalation clause beginning April 1, 2009 for full-time participants hired on or after January 1, 2008. This provision assumes that, unless declined, each impacted participant who is contributing less than 6% of compensation to the Plan shall be deemed to have elected to increase his or her deferral percentage by one percent on each April 1, until the rate reaches 6% of compensation.

The Company contributes 50% of the first 6% of base compensation that an eligible participant contributes to the Plan. Additionally, the Company may make a discretionary contribution (non-matching contributions) to active eligible employees participating in the Plan. During 2009, the Company made a discretionary contribution of 3% of base compensation.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution (if eligible), and (b) investment earnings, and charged with his or her withdrawals and any applicable transaction fees. The benefit to which a participant is entitled is the participant's vested account balances.

Participant Loans: Participants may obtain loans from plan assets based on individual account balances not to exceed the lesser of $50,000 or one half of their vested balance. Interest is charged at the prime rate quoted by the *Reuters News Service* as of the first day of the month in which the loan is approved and is fixed at that rate for the term of the loan. Principal and interest payments over a period from 12 to 60 months are due semi-monthly for active full-time employees and monthly for terminated, temporary, and part-time employees.

Vesting: Participants are immediately fully vested in participant contributions and fully vested in all employer contributions after one year of service.

(Continued)

NOTE 1 - PLAN DESCRIPTION (Continued)

Forfeited Accounts: The non-vested portion of terminated participant accounts are forfeited and may be used to reduce future company contributions, reduce plan expenses, or pay for new services. At December 31, 2009 and 2008, forfeited accounts totaled $10,625 and $46,777, respectively. The forfeited accounts were used to reduce plan expenses and to pay for implementing an investment advisory service available to participants by $37,970 during 2009.

Investment Options: Employees can choose any investment fund option offered or individual security investments (through a brokerage account option) to allocate their account balances. The Stable Value Fund, arranged through Fidelity Management Trust Company ("Fidelity") specifically for the Company, is composed of fixed rate-type investments, such as individual and commingled guaranteed investment contracts, which are structured to yield a stable positive rate of return. The contributions made by each participant, as well as Company contributions, are allocated to investments based on elections made by the participant or to a default fund if no election is made.

Payment of Benefits: On termination of service, a participant may elect to remain in the Plan or choose from a number of distribution or loan options (some restrictions may apply). These options also apply to the beneficiary of a deceased participant.

Administration of the Plan and Trust: The Plan is administered by the Sargent & Lundy, L.L.C. Savings Investment Plan Committee. The trust created by the Plan is administered by the trustee, Fidelity. Trustee fees, legal expenses, and various other costs incurred in connection with the administration of the Plan may be paid by the Company or from the trust fund.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results could differ from those estimates.

Investment Valuation: The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds and common stocks: The fair values of mutual fund and common stock investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Money market accounts and savings deposit accounts: Fair values are estimated to approximate deposit account balances, payable on demand, as no discounts for credit quality or liquidity were determined to be applicable (Level 2 inputs).

Certificate of deposit accounts: Fair values of the certificates of deposit are tied to underlying market indices and marked-to-market on a quarterly basis (Level 2 inputs).

Wrapper contracts: Fair values of wrapper contracts associated with synthetic investment contracts are based upon a comparison of the cost of the wrappers and current re-bid prices for similar wrapper contracts as of the financial statement date (Level 2 inputs). The values of the wrapper contracts were determined to be $196,537 and $151,392 at December 31, 2009 and 2008.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Collective trusts: The fair values of participation units held in collective trusts are based on their net asset values, after adjustments to reflect all fund investments at fair value, including direct interests in fully benefit-responsive contracts, as reported by the managers of the collective trusts and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date (Level 2 inputs). The investment objectives and underlying investments of the collective trusts vary, with some holding securities of U.S. government and government agency bonds, non-convertible bonds, mortgage securities, asset-backed securities, commercial mortgage securities, foreign government securities, preferred securities, short-term obligations, collateralized mortgage obligations, fixed income securities, and certificates of deposit. Each collective trust provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

Participant loans: Participant loans are reported at their outstanding balances, as the fair value of the loans is not practicable to estimate due to restrictions placed on the transferability of the loans.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdraws and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds a direct interest in fully benefit-responsive contracts.

Payment of Benefits: Benefits are recorded when paid.

Risks and Uncertainties: The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, liquidity and overall market volatility risks. Due to the level of risk and uncertainty associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the participants' individual account balances.

NOTE 3 - INVESTMENTS – UNAUDITED INFORMATION (Continued)

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held, during the year) appreciated in value by $60,871,486 as follows:

Mutual funds	$ 58,920,803
Common stocks	1,950,683
Total	$ 60,871,486

NOTE 4 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

The Stable Value Fund ("Fund") is offered exclusively to the Plan and is comprised of fully benefit-responsive investment contracts offered by insurance companies ("Issuers"). The Fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. Contract value represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. There are no reserves against contract values for credit risk of the contract issuers or otherwise.

The contracts specify certain conditions under which distributions from the contracts would be payable at amounts below contract value. Such circumstances include, but are not limited to, plan termination, plan merger, premature contract termination initiated by the employer, and certain other employer-initiated events, such as a sale of a division, plant closure, or lay-off that results in distributions exceeding a set amount. The contracts limit the circumstances under which the Issuers may terminate the contracts. Examples of circumstances which would allow the Issuer to terminate the contracts include: the Plan's loss of its qualified status, uncured material breaches of responsibilities or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the Issuers could terminate the contracts at amounts less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

The crediting interest rates of the contracts are based on agreed-upon formulas with the issuer, as defined in the contract agreements, but cannot be less than 0 percent. Such interest rates are reviewed on a quarterly basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contracts; and the duration of the underlying investments backing the contracts. The resulting gains and losses in the fair value of the investment contracts relative to the contract value, if any, are reflected in the Statements of Net Assets Available for Benefits as Adjustment from fair value to contract value for fully benefit-responsive investment contracts.

(2) Computed by dividing the annualized one-day earnings credited to participants on the last day of the plan year by the fair value of the contract investments on the same date.

NOTE 5 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated September 11, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and currently being operated in compliance with requirement of the IRC. Additionally, the Company has requested a new ruling on the Plan's tax status from the Internal Revenue Service, but has not received a new determination letter.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under the Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others.

Certain plan investments are managed by Fidelity Management Trust Company, the Plan's trustee, and shares of mutual fund offered by Fidelity Investments, an affiliate of the Plan's trustee. Accordingly, these investments qualify as party-in-interest investments.

Participants in the Plan are permitted to borrow funds from their vested balance as described in Note 1. These investments qualify as party-in-interest investments. Loans to participants were $5,303,570 and $4,685,147 at December 31, 2009 and 2008, respectively.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants continue to be 100% vested in their accounts.
