MAXIM GROUP, LLC 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

NOTE 1: DESCRIPTION OF PLAN

The following description of the Maxim Group, LLC (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and Eligibility:

The Plan is a defined contribution plan covering all employees of the Company who are age 21 years and older and have completed three consecutive months of eligibility service, as defined in the Plan document. The Plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Trustees is responsible for oversight of the Plan.

The Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") was passed by Congress on March 27, 2020. The CARES Act offers various relief and tax advantaged provisions to Plan participants. Although Plan management has not currently adopted these provisions, they are in the process of reviewing the CARES Act and are evaluating whether they will adopt any of its provisions in the future.

Contributions:

Each year, participants may contribute up to 100% of pretax annual compensation as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan accepts Roth elective deferrals made on behalf of the participants. In addition, participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Company will make a matching contribution equal to 50% on the first 6% of a participant's annual compensation for administrative employees with a maximum of $1,000 per year. Additional profit sharing amounts may be contributed at the option of the Company. Any non-elective contributions made by the Company will be allocated to all eligible participants. Participants direct the investment of their contributions, as well as any employer contributions, into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service ("IRS") limitations. If the Plan does not meet discrimination tests, a portion of highly compensated employees' contributions may be returned to them as corrective distributions.

Participant Accounts:

The value of each participant's account can change depending on several factors, which include: (a) contributions that are made to the account, (b) increases or decreases in the market value of investments, (c) cost of investment management expenses, transactional costs and service charges, and (d) loans and loan repayments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

NOTE 1: DESCRIPTION OF PLAN (Continued)

Vesting:
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable From Participants:
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The interest rate is the prime rate as published in *The Wall Street Journal* plus 1%. The interest rate is fixed and does not change for the duration of the loan. Principal and interest are paid through payroll deductions. If at times participants do not meet certain criteria, their loan balances become deemed distributions.

Payment of Benefits:
On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or have the payment paid as a "direct rollover" to an individual retirement plan or another qualified plan. If the participant's account balance exceeds $5,000, they may also choose to receive monthly installments or defer receiving payments until age 70½. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts:
Forfeited unvested balances are used to offset future contributions due to the Plan from the Company. As of December 31, 2020 and 2019, the balance in the forfeited non-vested accounts totaled $21,253 and $2,059, respectively. The amount of forfeitures used to reduce the employer contributions for the years ended December 31, 2020 and 2019 were $7,199 and $27,698, respectively.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting:
The financial statements of the Plan have been prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates:
The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to use estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

MAXIM GROUP, LLC 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable From Participants:
Loans to participants are reported at their unpaid principal balance, plus any accrued but unpaid interest. Loans to participants that are in default, as defined in the Plan document, are recorded as deemed distributions to participants. No allowance for loans has been recorded as of December 31, 2020 and 2019.

Investment Valuation and Income Recognition:
Investments consist of mutual funds, stable value fund, common collective trusts and pooled separate accounts, valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Net appreciation (depreciation) included the Plan's gains and losses on its investments bought and sold as well as held during the year. Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded when received and dividends were recorded on the ex-dividend date.

Tax Status:
The Internal Revenue Service has determined and informed the Company by a letter dated August 26, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if it has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 or 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the Plan's financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any plan year. Based on the normal statutory periods subject to audit, notwithstanding any events or circumstances that may exist which could expand the open period, the Plan administrator believes that the years 2018 through 2020 remains open for income tax examinations.

Administrative Costs:
The Plan permits the payment of Plan expenses from Plan assets or by the Plan Sponsor. The investment management fees are deducted from the fair value of the investments based on agreement with the Plan's custodian. Administrative expenses for the years ended December 31, 2020 and 2019 were $96,002 and $89,028, respectively.

Subsequent Events:
The Plan has evaluated events and transactions that occurred through September 30, 2021 which is the date the financial statements were available to be issued, for possible disclosure and recognition in the financial statements.

NOTE 4: FAIR VALUE MEASUREMENTS

The FASB Accounting Standards Codification Topic, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The Plan prioritizes the inputs to valuation techniques used to measure fair value. In accordance with ASU No. 2015-07, investments that are measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy.

When the Plan believes that the reported net asset value per share (or its equivalent) of an investment is not representative of fair value, the Plan categorizes the investment in accordance with ASC 820, Fair Value Measurements and Disclosures.

The three levels of the fair value hierarchy under FASB Accounting Standards Codification are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

MAXIM GROUP, LLC 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

- *Mutual Funds:* The fair value of mutual funds is based on quoted prices as listed in the active market in which the mutual funds are traded.
- *Common Collective Trusts:* Valued at the net asset value ("NAV"). Underlying investments are based upon the latest market quotations when available. When not available fair value is determined by fund manager by referenced to quoted market values on other financial data pertaining to investments of similar nature, quality and yield. At December 31, 2020 the investments are measured at fair value using NAV (or its equivalent) and in accordance with the provisions of ASU No. 2015-12 as a practical expedient they are not classified in the fair value hierarchy by the Plan.
- *Pooled Separate Accounts:* Valued at NAV. Underlying investments are based upon the latest market quotations when available. When not available fair value is determined by fund manager by referenced to quoted market values on other financial data pertaining to investments of similar nature, quality and yield. At December 31, 2020, the investments are measured at fair value using NAV (or its equivalent) and in accordance with the provisions of ASU No. 2015-07 as practical expedient they are not classified in the fair value hierarchy by the Plan.
- *Stable Value Fund:* The Morley Stable Value Fund ("MSVF"), a common collective trust, invests directly or indirectly in fully benefit–responsive investment contracts. The MSVF is valued at the NAV as provided by the trustee, which is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the MSVF, the issuer reserves the right to temporarily delay withdrawal from the MSVF in order to ensure that securities liquidations will be carried out in an orderly business manner. The MSVF, included in the fair value hierarchy table below, files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity. Accordingly, certain disclosure requirements under ASU 2015-12 with respect to investment strategies for investments measured using the net asset value practical expedient are not required in this report.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Fair Value Measurements Using Inputs Considered as			Fair Value at December 31, 2020
	Level 1	Level 2	Level 3	
Mutual funds	$ 21,991,651	$ -	$ -	$ 21,991,651
Investments at NAV practical expedient[1]				48,846,388
Total investments at fair value				$ 70,838,039

	Fair Value Measurements Using Inputs Considered as			Fair Value at December 31, 2019
	Level 1	Level 2	Level 3	
Mutual funds	$ 18,390,918	$ -	$ -	$ 18,390,918
Investments at NAV practical expedient[1]				42,170,987
Total investments at fair value				$ 60,561,905

[1]Investments that are measured at fair value using NAV (or its equivalent) practical expedient are not classified in the fair value hierarchy. The fair value amounts presented in the "Investments reported at NAV" column are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

NOTE 5: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their total account balances.

MAXIM GROUP, LLC 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

NOTE 6: PARTIES-IN-INTEREST

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities for the Plan. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. Principal Financial Group, who is the Trustee as defined by the Plan, manages certain Plan investments and, therefore, these transactions qualify as parties-in-interest transactions. Fees paid by the Plan for investment management services to Principal Financial Group amounted to $96,002 and $89,028 for the years ended December 31, 2020 and 2019, respectively.

NOTE 7: RISKS AND UNCERTAINTIES

The Plan's investments are concentrated in funds that invest in marketable securities. Such securities are subject to various risks that impact the value of the funds. Due to the level of risk associated with certain securities and the level of uncertainty related to changes in the value of the securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect the participants' account balances and the value of investments reported in the Plan's financial statements.

In December 2019, a novel strain of coronavirus ("COVID-19") was reported in Wuhan, China and subsequently spread throughout the world. The World Health Organization has declared the outbreak to constitute a "Public Health Emergency of International Concern". Significant restrictions were placed on businesses; however, the Plan has not experienced a material reduction in the net assets available for benefits, net investment income, or contributions. At this point, the extent to which COVID-19 may impact the Plan's net assets available for benefits is uncertain. However, at the time the Plan's financial statements were available to be issued, there were positive developments such as the containment of the outbreak indicated by decreasing infection rates, and proven effectivity and availability of vaccines for most individuals in the geographical area where the Company and the Plan operates.
