1 - DESCRIPTION OF PLAN

GENERAL

Alan Ritchey, Inc. Employee Profit Sharing Plan and Trust ("Plan") was established by Alan Ritchey, Inc. ("Employer" or "Company") to provide retirement income to its employees. Alan Ritchey, Inc. is the sponsor of the Plan. The Plan has a Plan advisory committee made up of employees participating in the Plan. Under the provisions of the trust agreement, the assets of the Plan are controlled by Merrill Lynch Pierce, Fenner and Smith, Inc. Retirement and Philanthropic Services ("Trustee"). The Trustee is responsible for the accounting for the Plan and valuation of the individual participant accounts. The Plan advisory committee selects a limited number of the mutual funds offered by the Trustee from which the participants can make investment choices. Each participant makes the decision on how their contributions are invested. Each participant controls the investment of both their 401(k) contributions and their portion of the Employer contributions.

The Plan is a defined contribution plan with a related 401(k) savings plan covering both service and non-service employees. Service employees under the Plan are all employees who work under Federal service contracts. These contracts are entered into by and between the Employer and the Federal government. Non-service employees eligible for the Plan are all employees who are not service employees.

The purpose of the Plan is to utilize the Federal income tax deferral provisions of Section 401(k) of the Internal Revenue Code as amended. The Plan is subject to the provisions of Employer Retirement Security Act of 1974 ("ERISA"). The following descriptions provide only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

PARTICIPATION

Service contract employees eighteen years old or older of the Company are eligible to participate in the Plan beginning on their date of hire unless the participant is subject to a collective bargaining agreement that states otherwise.

Non-service contract employees eighteen years old or older of the Company are eligible for participation in the Plan beginning on the date of hire.

For service contract employees, the Employer shall contribute to the Plan, on behalf of each service contract employee, the amount specified in the Wage Determination and Fringe Benefit Determination Schedule included in various service contracts under which the employee is performing services for the Employer. Employer contributions on behalf of the non-service contract employees are made out of current or accumulated profits. The amount of the non-service contract employees' employer contribution is discretionary, and is determined annually by the Employer's Board of Directors, subject to certain statutory limitations.

1 - DESCRIPTION OF PLAN (Continued)

PARTICIPATION (Continued)

Participants in the Plan may contribute up to 75% percent of their annual compensation to the Plan, not to exceed the applicable statutory dollar limitation. The Company matched 20% of participant contributions of the first 5% of the employee's compensation and 10% of participant contributions for the next 5% of employee's compensation for non-service employees only during 2009. The participants may choose to have their contributions and the employer contributions made on their behalf invested in any or all of the available funds.

The Plan can also receive rollover contributions from the Company's cafeteria plan. Employees are given a certain amount, based on years of service, which they can allocate to various types of insurance coverage. If the selected insurance coverage costs do not exceed the amount allowed, the excess is rolled into the Plan.

PARTICIPANT ACCOUNTS

Service contract employees may receive a contribution to their individual account to satisfy the fringe benefit determination for a service contract participant. Non-service employees may receive a contribution at the Company's sole discretion, and the amount will be determined by the Company. Both eligible service and non-service employees will be credited with a portion of the prior year's plan forfeitures. To be eligible, active employees must be employed on the last day of the year and be credited with 1,000 hours of service in the Plan year being reallocated. Employees who during the current Plan year retired after reaching retirement age, terminated due to disability, or died will also receive a portion of the reallocated forfeiture account balance.

VESTING

Participants are 100% vested in their 401(k) deferrals plus the actual earnings thereon. Vesting on the Employer's portion of each participant's account is based on years of service as follows:

Years of Service	Vesting Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

1 - DESCRIPTION OF PLAN (Continued)

FORFEITURES

The non-vested portions of forfeited Employer contributions, which totaled $203,325 at December 31, 2009, are first used to restore reinstated employees prior forfeited amounts with the remaining balance being allocated to the other eligible participant accounts in accordance with the Plan document.

DISTRIBUTIONS AND WITHDRAWALS

Upon termination of service, a participant may elect to receive either a lump-sum amount or a series of installments over a fixed period of time that does not exceed the Participant's life expectancy equal to the value of their account or a transfer or rollover to:

- Another qualified plan
- An individual retirement account
- An individual retirement annuity

Terminated participants with account balances totaling $127,900 had elected to have distributions from their accounts prior to December 31, 2009 that were not paid until the subsequent year.

PARTICIPANT LOANS

Participants may be granted a loan from the Plan up to, but not exceeding, fifty percent (50%) of their non-forfeitable account balance. The loan must be for more than $1,000, but not more than $50,000. The loans shall bear interest at the prime lending rate in the *Wall Street Journal* plus one percent (1%), and provide for biweekly payments. The repayment period for the loan shall not exceed five years unless the loan qualifies as a "home loan" to acquire a dwelling unit to be used as a principal residence. The repayment period for a "home loan" shall not exceed twenty years. Upon termination of employment, the unamortized loan balance will be treated as a distribution to the participant if the loan is not repaid within 30 days of the participant's last day of employment.

ADMINISTRATIVE EXPENSES

The majority of expenses incident to the operation of the Plan are paid by the Company.

PLAN TERMINATION

The Company has not expressed any intent to terminate the Plan but may do so at any time. In the event of termination, each participant automatically becomes fully vested to the extent of the individual's account balance.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements have been prepared under the accrual method of accounting in accordance with U.S. generally accepted accounting principles.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the net asset value of the fund as reported by the investment advisor. The statement of net assets available for benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

ESTIMATES AND ASSUMPTIONS

Management uses estimates and assumptions in preparing financial statements in accordance with U.S. generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities. Actual results could vary from the estimates used in preparing the accompanying financial statements.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. The Plan presents the net change in fair value of investments, which consists of realized gains or losses, unrealized appreciation (depreciation), and any income or capital gain distributions from such investments, in the accompanying statement of changes in net assets available for benefits.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

RISKS AND UNCERTAINTIES

The Plan provides for various investment options in mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

ADOPTION OF NEW ACCOUNTING STANDARDS

In June 2009, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("FAS") No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles* – a replacement of FASB Statement No. 162, and also issued Accounting Standards No. 2009-01, *Generally Accepted Accounting Principles* (ASC Topic 105-10), which establishes the FASB Accounting Standards Codification ("Codification" or "ASC") as the official single source of authoritative U.S. generally accepted accounting principles ("GAAP"). All guidance contained in the Codification carries an equal level of authority. All existing accounting standards are superseded. All other accounting guidance not included in the Codification will be considered non-authoritative. The Codification is not intended to change GAAP, but it will change the way GAAP is organized and presented. The Codification is effective for financial statements issued for interim and annual periods ending after September 15, 2009. Except for the disclosure requirements, the adoption of this statement did not have an impact on the determination or reporting of the Plan's financial statements. The Plan is providing the Codification cross-reference alongside the references to the standards issued and adopted prior to the adoption of the Codification.

In May 2009, the FASB issued SFAS No. 165, *Subsequent Events* (ASC 855-10). This statement establishes general standards of accounting for disclosures of events that occur after the date of the statement of net assets available for benefits but before financial statements are issued or are available to be issued. In particular, this statement sets forth (1) the period after the statement of net assets available for benefits date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements; (2) the circumstances under which an entity should recognize events or transactions occurring after the statement of financial position date in its financial statements; and (3) the disclosures that an entity should make about events or transactions that occurred after the statement of net assets available for benefits date. This statement is effective for interim or annual periods ending after June 15, 2009. The Plan adopted this statement during the year ended December 31, 2009. This statement is not expected to have any impact on the Plan's net assets available for benefits or changes in its net assets available for benefits.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In July 2006, the FASB issued Interpretation ("FIN") 48, *Accounting for Uncertainty in Income Taxes* – an Interpretation of SFAS 109 ("ASC 740"). This interpretation is effective for years beginning after December 15, 2008 and clarifies the accounting for uncertainty in income taxes recognized in an entity's financial statements in accordance with SFAS 109, Accounting for Income Taxes. It prescribes a recognition threshold and measurement attribute for financial statement disclosure of tax positions taken or expected to be taken on a tax return. The adoption of this interpretation did not have an impact on the Plan's financial statements.

3 - FAIR VALUE MEASUREMENTS

Under the Fair Value Measurements and Disclosures topic of the Codification, ASC 820, disclosures are required about how fair value is determined for assets and liabilities and a hierarchy for which these assets and liabilities must be grouped is established, based on significant levels of inputs as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

3 - FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: valued at the Net Asset Value ("NAV") of shares held by the Plan at year end. The NAV is a quoted price in an active market.

Common/collective trust: valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Loans to participants: valued at amortized cost which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Mutual funds				
Growth funds	$ 3,532,760	$ -	$ -	$ 3,532,760

4 - EXCESS CONTRIBUTIONS PAYABLE

The Plan failed the nondiscrimination test for the years ended December 31, 2009 and 2008. Excess contributions totaling $88,278 and $36,311, respectively are recorded as a liability in the accompanying statement of net assets available for benefits and as a reduction of participant directed contributions for the year. The Plan reimbursed these excess contributions to its participants during 2010 and 2009, respectively.

5 - FINANCIAL INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE (UNAUDITED)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by Merrill Lynch Pierce, Fenner and Smith, Inc. Retirement and Philanthropic Services, the Trustee and party in-interest as defined by ERISA, as of December 31, 2009 and 2008 and for the year ended December 31, 2009, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedule.

6 - TAX STATUS

The Plan obtained its latest determination letter on July 29, 2003, in which the Internal Revenue Service stated that the Plan, as then defined, was in compliance with the applicable requirements of the Internal Revenue Code ("Code"). Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.
