Independent Auditor's Report

To the Board of Directors of the Plan Sponsor
Hanson Group, Inc.
Employees Stock Ownership Trust
Springfield, Illinois

We have audited the accompanying statements of net assets available for benefits of Hanson Group, Inc. Employees Stock Ownership Trust as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Hanson Group, Inc. Employees Stock Ownership Trust as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the year ended December 31, 2009, in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets (held at end of year) and reportable transactions as of or for the year ended December 31, 2009, are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the United States Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Note 1. Plan Description

The following description of the Hanson Group, Inc. Employees Stock Ownership Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

Hanson Group, Inc. (the "Company") established the Plan effective as of December 1989. The Plan, as amended, operates, in relevant part, as a non-leveraged employee stock ownership plan, and is designed to comply with Section 4975(e)(7) and the regulations there under of the Internal Revenue Code of 1986, as amended ("Code"), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by Principal Financial Group. Merrill Lynch Trust Company of America is the Plan's Trustee.

The Plan originally purchased Company common shares using the proceeds of borrowings from both financial institution and non-financial institution lenders. The borrowings have been fully repaid.

Eligibility: The Plan covers all eligible employees of Hanson Professional Services, Inc., a wholly owned subsidiary of Hanson Group, Inc., who have completed six months of service.

Payment of benefits: With the exception of distributions to 100% vested participants who are 59 ½ and participants eligible for a diversification distribution, no distributions from the Plan will be made until a participant retires, becomes totally and permanently disabled, dies (in which case, payment shall be made to their beneficiary or if none, his or her legal representatives), or otherwise terminates employment with Hanson Professional Services, Inc. Distributions are made in cash.

Participants with a vested interest of $1,000 or less shall be paid a lump-sum amount equal to the account value as soon as administratively feasible after the close of the plan year following their date of termination. If a participant's vested benefit under the Plan exceeds $1,000, but does not exceed $5,000 and the participant does not make a distribution election in the plan year following the participant's date of termination, the benefit will be paid by a direct rollover to an individual retirement plan designated by the Plan Administrator. A participant who attains normal retirement age, or who retires after reaching age 55, can elect to receive a lump-sum distribution of his or her account, which shall be paid as soon as administratively possible, following the participant's election. A participant that separates from service as a result of death or disability, if elected, shall be paid a lump-sum amount equal to the value of his or her account no later than one year after the close of the plan year in which death or disability occurs. All other participants who terminate can elect to receive their distribution in a lump sum as soon as administratively feasible, after the close of the plan year in which termination occurs. A participant who has attained age 59 ½, is 100% vested, and has not separated from service can elect to receive a distribution of all or a portion of his or her account payable in a lump-sum as soon as administratively possible, following the participant's election.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. The Company did not distribute or repurchase any participant shares during 2009.

Voting rights: In certain situations, each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by the Trustee prior to the time that such rights are to be exercised.

Note 1. Plan Description (Continued)

Plan termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts, and the interest of each participant in the trust fund would be distributed to such participant or their beneficiary at the time prescribed by the Plan terms and the Code.

Participant accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with an allocation of (a) Company contributions, (b) plan earnings and (c) forfeitures of terminated participant's non-vested accounts. Only those participants who are eligible employees of Hanson Professional Services, Inc. as of the last day of the plan year and eligible employees who terminated during the plan year due to retirement, total and permanent disability, or death and did not receive a distribution of their account will receive an allocation of Company contributions and forfeitures.

Allocations of common stock released are based on the participant's number of Company shares owned at the time of the release or forfeiture. Allocations of plan earnings are based on participant account balances. Employer contributions and forfeitures are allocated based on the eligible compensation of each participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Vesting in the participants' accounts is based on years of continuous service at the following rate: 20% after 1 year of service, 40% after 2 years, 60% after 3 years, 80% after 4 years and 100% after 5 years.

Put option: Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or that is subject to trading limitations, include a put option (liquidity put). The liquidity put is a right to demand that the Company buy shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase in a lump sum, or in installments over a period of time, generally not to exceed five years. The purpose of the liquidity put is to ensure that the participant has the ability to ultimately obtain cash.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversity a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Employer contributions: Each year, amounts are contributed at the discretion of the Company's Board of Directors.

Forfeited accounts: Forfeited non-vested accounts totaling $27,607 and $17,602 were allocated to continuing participants during the years ended December 31, 2009 and 2008, respectively. There were no unallocated forfeitures held by the Plan at December 31, 2009 or 2008.

Reclassifications: Amounts shown on the 2008 statement of net assets available for benefits have been reclassified to conform to the presentation adopted for 2009 with no effect on net assets available for benefits.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust fund. Contract value for this common collective trust fund is based on the net asset value of the fund as reported by the trustee. The statement of net assets available for benefits presents the fair value of the investment in the common collective trust as well as the adjustment of the investment in the common collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Operating expenses: All expenses of maintaining the Plan are paid by Hanson Professional Services, Inc.

Adoption of accounting pronouncements: In April 2009, the FASB issued accounting guidance on determining fair value when the volume and level of activity for the asset or liability have significantly decreased and identifying transactions that are not orderly. Under this guidance, if an entity determines that there has been a significant decrease in the volume and level of activity for the asset or the liability in relation to the normal market activity for the asset or liability, then transactions or quoted prices may not accurately reflect fair value. In addition, if there is evidence that the transaction for the asset or liability is not orderly, the entity shall place little, if any, weight on that transaction price as an indicator of fair value. The adoption of this guidance did not have a material impact on the Plan's financial position or statement of changes in net assets available for benefits.

In May 2009, the FASB issued accounting guidance which established general standards of accounting for and disclosure of subsequent events. The guidance defines "recognized subsequent events" as those that give evidence of conditions that existed at the balance-sheet date and "non-recognized subsequent events" as those that provide evidence about conditions that arose after the balance-sheet date but prior to the issuance of the financial statements. Entities must recognize in the financial statements the effect of recognized subsequent events, but cannot recognize the effects in the financial statements of non-recognized subsequent events. This guidance also requires entities to disclose the date through which subsequent events have been evaluated. This guidance was effective for annual periods ending after June 15, 2009. The Plan adopted this guidance for the year ended December 31, 2009. The adoption of this guidance did not have an impact on the Plan's financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

In June 2009, the FASB issued accounting guidance which established the FASB "Accounting Standards Codification" (the "ASC") as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities. This guidance was effective for financial statements issued for annual periods ending after September 15, 2009. On the effective date, this guidance superseded all then-existing non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the ASC became non-authoritative. The Plan adopted this new guidance effective December 31, 2009. The adoption of this guidance did not have a material impact on the Plan's financial statements.

In September 2009, the FASB issued an amendment that provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value ("NAV") per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. See Note 4 for the impact of our adoption.

Recent accounting standard: In January 2010, the FASB issued an amendment that requires new disclosures and reasons for transfers of financial assets and liabilities between Level 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchase, sales, issuances and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment was effective and adopted for period beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods on or after December 15, 2010, and has not yet been adopted. Management is currently evaluating the impact of the guidance related to Level 3 measurements on our disclosures.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 5, 2010, the date the financial statements were available to be issued.

Note 3. Investments

The Plan's investments in company stock, at December 31, are as presented in the following table:

	2009	2008
	Allocated	Allocated
Hanson Group, Inc. Common Stock:		
Number of shares	44,770	42,455
Cost	$ 6,066,200	$ 5,512,812
Fair value	$ 10,488,268	$ 10,148,868

Note 3. Investments (Continued)

Hanson Group, Inc. had 86,033 and 88,543 shares of common stock issued and outstanding as of December 31, 2009 and 2008, respectively. The Plan purchased 2,315 shares from a Company shareholder during 2009.

The Plan also invests in Merrill Lynch, CMA and Merrill Lynch RP money funds. The money funds' fair value was $868,381 and $983,119 at December 31, 2009 and 2008, respectively, of which the Merrill Lynch RP money fund was $868,301 and $983,115 at December 31, 2009 and 2008, respectively. The fair value of the Hanson Group, Inc. common stock and the Merrill Lynch RP money fund represented more than 5% of the Plan's net assets. The Plan's investments are not participant-directed.

Fair Value Measurements

FASB guidance on fair value measurements and disclosures defines fair value and provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Common collective trust funds (money funds): Valued at the net asset value ("NAV") of shares held by the Plan at year end based upon the fair value of the underlying investments.

Hanson Group, Inc. common stock: Valued at fair value based on an annual independent appraisal.

Note 3. Investments (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Common collective trust funds (money funds)				
Merrill Lynch Retirement Preservation Trust *	$ -	$ 868,301	$ -	$ 868,301

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009:

	Hanson Group, Inc. Common Stock
Balance, beginning of year	$ 10,148,868
Unrealized gains (losses) related to instruments still held at report date	(213,988)
Purchases, sales, issuances, repayments and settlements (net)	553,388
Balance, end of year	$ 10,488,268

Note 4. Fair Value Investments in Certain Entities that Calculate Net Asset Value per Share (or its equivalent)

The following table sets forth additional disclosures of Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2009:

Investment	Fair Value	Unfunded commitment	Redemption Frequency	Redemption Notice Period
Stable Value common collective trust fund	$ 868,301	$ -	Daily	None

The category includes a stable value collective trust fund that seeks to provide preservation of capital, liquidity and current income at levels that are typically higher than those provided by money market funds. The trust invests in a diversified portfolio of stable value investments, primarily synthetic GIC contracts where the trust owns highly rated fixed income securities combined with wrap contracts to insulate the daily mark-to-market changes in the value of the fixed income securities. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets. The fair value of the investments in this category have been estimated using the net asset value per share of the underlying investments.

Note 5. Administration of Plan Assets

The Trustee of the Plan holds the Plan's assets, which consist principally of Company common stock.

Company contributions are held and managed by the Trustee, which makes distributions to participants.

Certain administrative functions are performed by officers or employees of Hanson Professional Services, Inc. for which no compensation is paid by the Plan. Administrative expenses for the Plan are paid directly by Hanson Professional Services, Inc.

Note 6. Tax Status

The Internal Revenue Service has determined and informed the sponsor, by a letter dated October 7, 2002, that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the Code. The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 7. Party-In-Interest Transactions and Plan Expenses Paid by the Company

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons. Fees paid by Hanson Professional Services Inc., the plan sponsor, to McGladrey & Pullen, LLP, RSM McGladrey, Inc., Prairie Capital Advisors, Inc., Davis & Campbell, LLC, Principal Financial Group and Merrill Lynch for services provided to the Plan approximated $60,000 for the year ended December 31, 2009.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.
