Participants may contribute up to 100% of their pre-tax annual compensation to the Plan, subject to annual individual deferral limitations under the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, as defined by the IRC. Participants may also contribute amounts representing distributions from other qualified defined contribution plans as well as after-tax contributions from their current compensation.

The employer matching contribution is equal to 100% on the first 3% of eligible compensation, and 50% of the next 2% of eligible compensation, based on employee pretax and Roth contributions to the Plan each payroll period. Additional amounts may also be contributed at the discretion of the Company. No such additional discretionary contributions were made for the year ended December 31, 2020.

C. Participants' Accounts

Each participant establishes his or her own separate investment account within the American Funds solely for that individual's contributions. Each participant's account is credited with the actual investment performance realized by the investments of his or her investment account.

D. Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is determined under the following schedule:

YEARS OF SERVICE	VESTED PERCENTAGES
1	0%
2	20%
3	40%
4	60%

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

1. Description of Plan - (Continued)

D. Vesting – (Continued)

Upon death or disability, a participant or his/her beneficiary will be entitled to the employer's matching contribution according to the above schedule.

A Participant is also 100% vested in the employer's profit sharing account under any of the following conditions:

- Death before retirement date;
- Disability before retirement date; or
- Attainment of normal retirement age.

E. Forfeitures

Forfeitures of Employer matching contributions of terminated participants' non-vested accounts may be used to pay administrative expenses of the Plan or used to reduce Employer contributions. During 2020 and 2019 forfeitures in the amounts of $14,785 and $32,482 were used to pay administrative fees. Remaining forfeitures as of December 31, 2020 and 2019, were $26,082and $52,194, respectively, and are included in the EB MaGIC 95 Stable Value Fund.

F. Payment of Benefits

Upon termination of service due to death, disability, retirement, or any other reason, a participant or his beneficiaries may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount. Distribution of benefits will also begin when a participant attains the age of 65.

G. Participant Loans

Participant may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The maximum term of a residence loan is 30 years.

2. Summary of Significant Accounting Policies

A. Estimates and Assumptions

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

2. Summary of Significant Accounting Policies – (Continued)

B. Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as unrealized gains and losses on investments still held at year-end.

C. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expenses when they are incurred. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the loan balance is reduced and a benefit payment is recorded based upon terms of the Plan document.

D. Payment of Benefits

Benefits are recorded when paid.

E. Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States ("GAAP").

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

3. Fair Value Measurements – (Continued)

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the assets or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets and other characteristics particular to the security. To the extent valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety. Investments measured at net asset value do not have significant terms or conditions for redemption or commitment for additional funding. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

3. Fair Value Measurements – (Continued)

The following table sets forth by level, within the fair market value hierarchy, the Plan's assets at fair value as of December 2020 and 2019:

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 15,813,208	$ -	$ -	$ 15,813,208
Investments measured at net asset value:				
Collective investment funds				1,373,048
Total investments				$ 17,186,256

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 13,913,902	$ -	$ -	$ 13,913,902
Investments measured at net asset value:				
Collective investment funds				1,234,325
Total investments				$ 15,148,227

The fair value of participation units in the collective investment trust funds are valued using net asset value (NAV) of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability. There are no future commitments on any of the collective investment trust funds. Participants can redeem their investments in collective investment funds on a daily basis.

4. Information Prepared and Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the information certified by Capital Bank and Trust Company, the trustee, except for comparing such information with the related information included in the accompanying financial statements and supplemental schedule. The Plan Administrator has obtained certifications from the trustee stating that the information provided to the Plan Administrator by the trustee is complete and accurate. Such information includes investments (mutual funds, collective trust funds and self-directed brokerage accounts), notes receivable from participants, interest and dividend income, interest income on notes receivable from participants, net appreciation (depreciation) in fair value of investments, and investment transactions. In addition, Capital Bank and Trust Company is the custodian of the pooled separate accounts and stable value fund and certified the information related to those investments.

5. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and the terms of the plan.

6. Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Administrative Expenses/Related Party Transactions

The Company pays administrative expenses associated with the management of and professional services for the Plan. Certain administrative fees are paid from forfeited account balances while others, including fees for hardship withdrawals, are paid by the participants.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The COVID-19 outbreak continues as of the date of this report. There are many uncertainties related to the COVID-19 global pandemic that could negatively affect the Plan's statement of net assets available for benefits and statement of changes in net assets available for benefits. The Plan's individual investments fluctuate in response to changing market conditions, therefore the effect of the COVID-19 pandemic on its investment values in subsequent periods, if any, cannot be determined.

9. Subsequent Events

The Company has adopted ASC855 "Subsequent Events", and evaluated events and transactions that occurred through October 12, 2021 which is the date of the financial statements, for possible disclosure and recognition in the financial statements.

Safe Harbor Match

Effective January 1, 2021, the Company has suspended its Safe Harbor Match contributions. A Notice of Material Change was sent to employees on November 20, 2020. The company's plan documents were updated and adopted accordingly.

Separation from Plan

Effective January 1, 2021, ADE Engineered Solutions of Florida, Inc. and ADE-HVAC, LLC were sold. Accordingly, the employees of these companies are no longer eligible to participate in the Plan. Participants from these companies will be notified and benefits will be paid according to plan provisions.
