Vino Farms, LLC Retirement Plan

Notes to the Financial Statements

1. Description of the Plan

The following description of Vino Farms, LLC Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Eligibility and Coverage

The Plan is a defined contribution 401(k) profit sharing plan covering all of the employees of Vino Farms, LLC (the "Plan Sponsor"). Employees are eligible to participate in the Plan once they have attained age 18 and completed one year of service. Participants may begin deferring a portion of their salary into the Plan on the January 1 or July 1 following eligibility. Employees covered by a collective bargaining agreement and non-resident aliens are not eligible to participate in the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and Section 401(a) of the Internal Revenue Code.

Participant Accounts

All of the Plan's assets are invested, as directed by the participant, as pooled funds. A participant's account balance is derived through an allocation of those funds. Each participant's account is credited with the participant's contribution, plan sponsor contributions, and an allocation of investment activity pursuant to the participant's investment allocations. Allocations of income are based strictly on the participant's selection of investments and timing of purchase.

Contributions to the Plan

Participants may defer up to 100% of their compensation, subject to certain anti-discrimination tests and to an annual limitation of $16,500 per year ($22,000 for those participants over age 49).

The plan sponsor has the option under the Plan to make discretionary matching contributions. Participants are eligible for an allocation of the discretionary matching contribution providing they have been employed with the plan sponsor for a period of twelve months and have accumulated 1,000 hours of service. For 2009, the plan sponsor matched participant contributions at the rate of 25% for each dollar contributed, up to the first 6% of compensation.

Vesting and Forfeitures

A participant has a 100% non-forfeitable interest at all times in their contributions and earnings thereon. Participants vest in discretionary matching contributions at the rate of 20% per year after the first year of service. Participants are immediately vested in the event of death, disability, or attainment of age 65. Forfeitures are used to offset matching contributions. At December 31, 2009 forfeitures available to offset future expenses and plan sponsor contributions aggregated $1,178.

Distributions

The Plan provides for the payment of benefits to the participant (or, if applicable, the beneficiary) at retirement, death, disability, financial hardship or termination of employment. In-service distributions of a participant's deferral portion of their account balance are available to those participants age 59½ or older. Participants who qualify for retirement benefits and withdrawals may elect to receive their benefits in the form of a lump sum or in installment payments. Benefits payable under the Plan shall be distributed solely from the assets of the trust. The benefit to which a participant is entitled is the benefit that can be provided directly from the participant's vested account balance. Participants who separate from service and have vested account balances of $5,000 or less are subject to an administrative lump sum distribution at the discretion of the plan administrator. Account balances under $5,000 but greater than $1,000 will be distributed directly to an individual retirement account. Account balances that are under $1,000 will be distributed as a lump sum in cash.

Participant Loans
The Plan provides for participants to obtain a loan up to the lesser of $50,000 or 50% of the participant's vested account balance. The minimum loan amount is $500. All loans have a term of not more than five years (unless the loan is used to acquire a principal residence) and are payable through regular payroll deductions. Loans are segregated investments and to the extent a participant borrows, his or her account will not share in the earnings and gains in value attributable to other plan investments. The interest that participants pay on their loans will be directly credited to their accounts. In the event a participant defaults on a loan, the plan administrator will offset the amount of the loan against the participant's account balance.

Plan Amendments
Effective January 1, 2009 the plan was restated to reflect the final EGTRRA regulations. In addition the plan sponsor's name was changed to Vino Farms, LLC, and the plan's name was changed to Vino Farms, LLC Retirement Plan. Effective February 10, 2009 participant loans were limited to one outstanding loan per calendar year.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting and in accordance with ERISA. Contributions from participants are recorded when withheld from the participant. Plan sponsor contributions are recorded when approved by the plan sponsor. Benefit payments and expenses are recorded when paid.

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value as determined by the plan custodian (see note 3). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Risk and Uncertainties
The Plan provides for various investment options in mutual funds and money market funds. These investments are exposed to various risks such as interest rate, market, and credit. Due to the level of risk associated with these securities and the level of uncertainty related to changes in the value, it is at least reasonably possible that changes in the various risk factors will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying financial statements.

Subsequent Events
The Plan has evaluated subsequent events through September 22, 2010, the date the financial statements were available to be issued.

3. Certification of Assets

John Hancock Life Insurance Company ("Hancock") served as the custodian of the Plan's assets. In that capacity, Hancock held the Plan's investment assets and executed investment transactions. The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). As permitted under such election, the plan administrator has obtained certifications from Hancock that all investment information in the accompanying financial statements and supplemental schedule is complete and accurate. All information as to investment assets at December 31, 2009 and 2008, and changes in investment assets for the year ended December 31, 2009, are presented solely based upon those certifications.

4. Fair Value Measurements - unaudited

Assets at Fair Value as of December 31, 2009:

	Level 1	Level 3	Total
Pooled separate accounts	$ 2,960,964	$ -	$ 2,960,964
Interest-bearing cash	1,262	-	1,262
Loans to participants	-	133,113	133,113
Total	$ 2,962,226	$ 133,113	$ 3,095,339

Assets at Fair Value as of December 31, 2008:

	Level 1	Level 3	Total
Pooled separate accounts	$ 1,837,389	$ -	$ 1,837,389
Interest-bearing cash	348	-	348
Loans to participants	-	171,135	171,135
Total	$ 1,837,737	$ 171,135	$ 2,008,872

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820 *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements.) The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1
Inputs to the valuation methodology are unadjusted quoted prices for identical assets and or liabilities in active markets that the plan has the ability to access.

Level 2
Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2008 and 2009.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing prices reported on the active market on which the individual securities are traded.
Mutual funds: Valued at the net assets value (NAV) of shares held by the plan at year-end.
Participant Loans: Valued at the amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Tax Status

The plan sponsor has adopted a nonstandardized prototype plan document. The plan administrator and sponsor believe that the Plan is currently designed and is being operated in compliance with applicable requirements of the Internal Revenue Code. The plan administrator and sponsor have stated that they will take whatever action is required, if any, to maintain the Plan as a qualified plan. Accordingly, they believe that the Plan is qualified and its related trust is exempt from current income taxes.

7. Plan Termination

Although it has not expressed any intent to do so, the plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all non-vested account balances would become 100% vested.

8. Related Party Transactions

Since the inception of the Plan, the plan sponsor has absorbed some of the administrative expenses of operating the Plan.

John Hancock Life Insurance Company serves as the asset custodian and trustee of the plan. All transactions with John Hancock qualify as party-in-interest transactions.
